# Section 1

## Introduction

---

1. Supply Estimates are the means by which the Government seeks authority from Parliament for its own spending each year. A full description of Supply Estimates was included in *Central Government Supply Estimates 2020-21: Main Supply Estimates* (HC 293) presented to Parliament on 4 May 2020.

### **Supplementary, Revised and New Estimates**

2. In a financial year the Government may need to ask Parliament for additional resources, capital and/or cash by means of a Supplementary Estimate. There is one scheduled opportunity for departments to amend departmental budgets and Estimates, the details of which are set out in this booklet.
3. Revised Estimates are rare, but they may be presented in the summer to replace corresponding Main Estimates before Parliament formally approves them. Revised Estimates normally reduce the amount sought in the original Estimate or vary the way in which it is spent. New Estimates may also be introduced, for example to reflect a new entity, and are usually presented at the same time as the Supplementary Estimates.

### **Out-of-Turn Supplementary Estimates**

4. In addition, Out-of-Turn Supplementary Estimates may be presented at any time during the year whilst Parliament is sitting. This is only allowed in the most exceptional circumstances, where urgent additional provision is needed at short notice and where this cannot wait for a normal Estimates round.

### **Total Estimates to date**

5. For the current year, Main Estimates were presented to Parliament on 4 May 2020 (HC 293). This booklet sets out the request for changes since that publication.

### **Original provision, changes and revised Supply**

6. **Table 1** below shows the total voted Supply provision sought for 2020-21 in the Main Estimates, the changes sought in the Supplementary Estimates and the revised plans.

† Numbers may not add up in the table due to rounding.

†† Figures for the independent Estimates are provisional: check the published Supplementary Estimates 2020-21 for these bodies.

††† This measure of DEL includes grants paid to Academies which do not form part of DfE's RDEL and CDEL budgetary control totals set by HMT. See tables 3 and 5 for DfE's full budgetary DEL limits as set by HMT which include the net spending of Academies.

7. There are 51 Supplementary Estimates for central government departments, seeking the changes set out in **Table 2**, in this booklet. In addition, independent bodies may present their own booklets.
8. The main aggregate for public expenditure is **Total Managed Expenditure (TME)**, which includes Departmental Expenditure Limits (DEL), for which plans were set in Spending Round 2019, and Annually Managed Expenditure (AME), which is subject to annual review as part of the Budget process. These definitions are explained in more detail in Chapter 1 of the *Public Expenditure Statistical Analyses 2020* (CP 276) and section 1 of the Main Estimates 2020-21 (HC 293).
9. The main elements of DEL and AME that are not funded through the Supply Estimates are central government expenditure funded directly from other sources, (e.g. the National Insurance Fund).

#### **In-year controls**

10. Parliament votes limits on:
  - The net resource DEL requirement;
  - The net capital DEL requirement;
  - The net resource AME requirement;
  - The net capital AME requirement;
  - The net non-budget requirement; and
  - The net cash requirement for the Estimate as a whole.

11. The operation of in-year controls for 2020-21 was explained in Section 1 of HC 293. Changes to Resource DEL, administration budgets and Capital DEL, as a result of the Supplementary Estimates are summarised in **Tables 3, 4 and 5**.
12. Table 6 compares the present plans (voted spending only) for 2020-21 with the forecast outturn for the first six months of the year for each Estimate.

#### **Amendments to ‘Clear Line of Sight’ (Alignment) Reforms**

13. The Clear Line of Sight (Alignment) reforms outlined in Cm 7567 of March 2009 simplified the government’s financial reporting to Parliament by aligning, as far as possible, the recording of government spending in Supply Estimates with departmental budgets and accounts. The reforms were approved by the House of Commons following a debate and vote in the House in July 2010.
14. As mentioned in HC 293, where complete alignment of Parliamentary controls, departmental budgets and resource accounts is not practical, it is necessary for expenditure items to be reported differently in different documents. From 2016-17, the Department for Education’s (DFE) Estimate and accounts will not wholly align to the budgets set by the Treasury. DFE’s Estimates and Accounts now include the grant paid to Academies by DFE within the Estimate’s Resource DEL and Capital DEL controls. The actual spending of Academies will instead be reported separately to Parliament on an Academic year basis. DFE’s budgeting controls as set by the Treasury, will continue to include the spending of Academies on a financial year basis whilst these entities remain classified to the central government sector. DFE’s Resource DEL and Capital DEL budgets as set by the Treasury (which include the spending of Academies) can be viewed in Tables 3 and 5 of this publication, whilst DFE’s Resource AME budget can be viewed in Part III Note A of DFE’s Estimate. The figures in DFE’s Estimate are consistent with those presented in the 2020-21 Main Estimates (HC 293).

#### **Parliamentary procedure**

15. Supplementary Estimates seek funds for expenditure in addition to, or a reduction in, that sought in previous Supply Estimates in the same financial year. They may be presented to:
  - seek authority, and additional resources, capital and/or cash as necessary, for any new services; and
  - increase or decrease the provision for existing services.
16. The House of Commons has an opportunity to debate and vote on Supplementary Estimates (and where applicable New Estimates), followed by detailed examination by departmental Select Committees. This process is described more fully in Section 3 of HC 293.

#### **Format of Supplementary Estimates**

17. Each Supplementary Estimate is produced in a standard format and consists of an introduction, Part I, Part II and Part III. The format and organisation of Estimates is explained more fully in section 2 of HC 293.

## **Introduction**

18. Each Supplementary begins with an introduction which explains why changes to the existing provision are being sought.

## **Part I**

19. Part I of each Supplementary Estimate states, as necessary, the changes sought to resource DEL, capital DEL, resource AME, capital AME, non-budget expenditure and the net cash requirement (as relevant) for the financial year. It also reproduces the 'ambit', which is the formal description of all the expenditure and income (not just any new services) to be financed from the Estimate. Where an ambit has been amended since the publication of the Main Estimate, the new services or income will be identified by the insertion of an asterisk (\*) before the additional text.

## **Part II**

20. Part II of the Supplementary Estimate contains three tables. The first table identifies the sections within each budgetary limit where changes to resources and capital are being proposed and also shows movement in cash. This is followed by a reproduction of original Main Estimate Part II table showing the revised subhead detail, including the additional provision sought for each subhead (including unchanged subheads) as a result of the Supplementary Estimate. The third table (Part II: resource to cash reconciliation) provides a reconciliation between the net resource total and the net cash requirement (NCR).

## **Part III – other statements and notes**

21. **Part III of the Supplementary Estimates contains a number of notes. Each Supplementary Estimate will contain at least:**
- **Part III: Note A** - the Statement of Comprehensive Net Expenditure (SoCNE) and Reconciliation table, either restated or updated from that appended to the Main Estimates. Individual Select Committees may, of course, request additional department-specific explanatory information to supplement this material;
  - **Part III: Note B** - an Analysis of Departmental Income (resource and capital), which is being used to offset gross spending;
  - **Part III: Note C** - an analysis of extra receipts payable to the Consolidated Fund;
  - **Part III: Note D** - an Explanation of the Accounting Officer responsibilities.
22. The Supplementary Estimates may be accompanied by further notes providing additional information to Parliament about the specific nature of the department's plans, details of the grants-in-aid (G-in-A) paid to Arm's Length Bodies (ALBs), changes in accounting policies, etc, where relevant.

†† DfE budgets set by HMT in this table include the net spending of Academies which are not voted through the Estimates. The number voted for DfE in this table differs from the voted figures shown in DfE's Estimate and Table 2 because the Estimate and Table 2 include grants paid by DfE to Academies.

††† In the Man Estimates the allocation was shared between two departments, FCO and DfID, which have now merged.

†††† Figures for the independent entities are provisional: please see their published Estimates for the final provision.

## Introduction

The voted DEL and Total Net Budget in Parts I and II of this Estimate include grant paid to Academies which is voted by Parliament. Part III: Note A shows how, by making adjustments, including removing these grants and instead adding spending by Academies, the totals voted by Parliament can be reconciled to the budgetary spending limits controlled by HMT and shown in Table 3. The grant paid to Academies and spending of Academies is unlikely to be the same in any given year. This is because, spending can include items such as depreciation that do not require cash, as well as any spending from Academy reserves. Reserves are built from other income streams available to academies, plus any unspent grant from previous years.

This Supplementary Estimate is required for the following purposes:

## Part III: Note I - Gifts

The Department for Education intends to gift for NIL consideration the free-hold for Old Admiralty Building to the Government Property Agency (GPA) following the department's decision to remain in Sanctuary Buildings. We have entered into an agreement to handover this property to GPA, this is expected to be completed in March 2021. We anticipate that that this asset will be valued at c£257m which reflects the AUC value held on DfE's accounts and the Land on DfE's Fixed Asset Register (£22m). We believe this gift represents good-value, supporting the wider government estate strategy.

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
Contingent liabilities in connection to Private Finance Initiative (PFI) contracts to Academies. These contingent liabilities are a result of the Department providing an indemnity to the local authority for potential costs on buildings they own, with existing PFI arrangements, which will be used by the academies. This type of indemnity is considered to be low risk and is only a feature of the academies programme in very specific circumstances. These contingent liabilities only arise where an academy is using a local authority building with an existing PFI contract.	9,250,000
A guarantee to Local Government Pension Scheme (LGPS) to meet the pension deficit if an Academy Trust closes.	13,600
Tottenham UTC - indemnity to cover the cost of the 35 year lease arrangement with Tottenham Hotspur Property Company for an academy site.	12,500
The DfE has entered into a number of tenant default agreements which give rise to a contractual obligation to pay monies to the landlord up to a fixed cap in certain circumstances where the Free School tenant is in breach of its lease.	2,901
To Provide an indemnity of up to £2m to protect Inspiration Trust (Re: Great Yarmouth High School) against potential closure costs of the academy in the event that the Foundation withdrew consent for the academy to operate from the current site.	2,000
Indemnity for REAch2 Colchester project for costs dependent on the planning permission decision by the local authority.	1,110
Free Schools Group for Principal designates. The majority of contingent liabilities recorded by Free School Group currently relate to the potential costs that maybe incurred resulting from the engagement of staff prior to the opening of a Free School e.g. head teacher /deputy head teacher who will, in many cases have had to tender their resignation at an existing school to take up their post in the Free School. The Department has agreed to underwrite the salaries of these staff for up to two terms in the event that the Free School does not open as planned. Each potential liability is calculated on an individual basis for each project. Once the Free School opens the liability will expire.	822
Following the closure of HEFCE and the creation of OfS, the Department is acting as guarantor for the handful of employees transferring from HEFCE to OfS who are members of the Universities Superannuation Scheme (USS), which has transferred from HEFCE to OfS as part of the property and staff transfer. This was a condition of OfS' admission to the USS and allows staff transferring from HEFCE to continue to participate as employees of OfS. In the event of a transfer or winding up of OfS, the Department will guarantee that these pension liabilities will be covered by the successor body, or by the Department in the event that no other body assumes the OfS' functions.	5,000
The Department for Education has contracted a charity to manage the Junior Individual Savings Account (JISA) scheme on its behalf. Using an initial £200 payment from the Department, the contractor opens and manages JISAs on behalf of looked after children while they remain in care. The government made a commitment in 2011 to provide £200 to set up a JISA for each child in care across the UK. LAs have identified around 14,000 young people who left care before a JISA could be opened for them, of which around 8,000 have already claimed and received their £200 payments in lieu, leaving around 6,000 potential retrospective claims .	1,440

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
In respect of commercial lease of Free Schools Norwich.	110
Rent deposit deed for Turing House School -indemnity in relation to a rent deposit.	470
Indemnity for project costs if the Central Ipswich Free School project is aborted.	300
DSAP Data Sharing Agreements	3,000
A guarantee to Local Government Pension Scheme (LGPS) to meet the pension deficit if an Academy Trust closes.	Unquantifiable
Coal Authority - To carry out ground investigation for a permanent site for Coseley Tech Primary (CTP). The permit is nil cost.	Unquantifiable
The permanent site for Khalsa Academy Wolverhampton's (KAW) will be delivered in September 2018 subject to entering an unlimited indemnity with Canal & Rivers Trust (CRT) to allow the drainage connection.	Unquantifiable
As a result of entering into a PFI arrangement for the building of schools (PF2) there are a number of contracts in place which have clauses that could give rise to liability for the DfE. These are considered by DfE to be remote and unquantifiable as they relate to breach of contractual conditions.	Unquantifiable
As a result of entering into contracts on site purchases, the DfE are subject to a number of overage clauses. These are considered to be remote as they relate to changes in contractual arrangements.	Unquantifiable
Uncapped indemnity related to Section 104 (s104) agreements entered into as part of school builds. A section 104 agreement (or s104) is a section of the Water Industry Act 1991 that allows developers to enter into a legal agreement local sewerage authorities where the developers construct sewers on their land and request that the sewers are adopted and maintained at the Sewerage authority's expense once it is built to the required standard.	Unquantifiable
Uncapped indemnity related to Section 38 (s38) agreements entered into as part of school builds. S38 of the Highways Act and relates to the design, construction and eventual adoption of a new road. Along with other infrastructure agreements.	Unquantifiable
Contingent liabilities in connection to Free School building contracts and leases. These contingent liabilities are a result of the Department providing an indemnity to the local authority landlords for potential costs in not performing its obligations under various building contracts and leases which the Secretary of State is a counterparty. This type of indemnity is considered to be low risk and is only a feature of the free school programme.	Unquantifiable
Statutory Indemnity in relation to the Office of the Schools Adjudicator outlined in Paragraph 7 of Schedule 5 to the SSFA 1998. Under paragraph 7 of the Schools Standards Framework Act 1998, the Secretary of State has a statutory duty to indemnify any adjudicator against any reasonable cost and expense reasonably incurred by the adjudicator in connection with any decision taken in pursuit of the statutory duties of the Office of the Schools Adjudicator. The adjudicator's decisions can be challenged through judicial review. It is not possible to quantify the potential costs.	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>The sale of student loans necessitated warranties and indemnities to secure interest and obtain value for money from investors. These contingent liabilities are in respect of:</p>	Unquantifiable
<p>a) a warranty to provide investors compensation for policy changes which reduce cash flows to investors. This is because the terms of the loans remain within Government control, and there is nothing investors can do to influence this. The liability will exist for the life of the securities. This means it will be expected to expire by 2036. The likelihood of crystallisation is low.</p>	
<p>b) the need to repurchase all of the loans as a remedy for investors if:</p>	
<p>i) Collection of repayments for the sold loans through the UK tax system by HMRC ceased;</p>	
<p>ii) RPI used to calculate the interest rate of the loans was abolished without a substitute being put in place;</p>	
<p>iii) There was a problem with the collection of loan repayments that could not be remedied for three consecutive annual payment dates; or</p>	
<p>iv) Legislation is passed which means the Consumer Credit Act (CCA) / FSMA applies to the loans and the CCA low interest exemption applies. The likelihood of any of these scenarios materialising is very low.</p>	
<p>c) the indemnity given to investors to cover potential losses if a “servicing event” is triggered. Investors are not able to change the servicer (unlike for a typical commercial transaction) and therefore an indemnity is their only recourse in the event that the servicing is not in line with the contractually agreed standard. The liability is expected to be live for the life of the securities, i.e. up to around 30 years, and will reduce over time. The likelihood of crystallisation is low.</p>	Unquantifiable
<p>d) indemnities given to the Joint Lead Managers if they (or their employees, directors or affiliates) suffer any loss as a result of misrepresentation, misleading statement or omissions or breach of duty by Government. All of the liabilities are expected to be live for the life of the loans, i.e. up to around 30 years. The likelihood of crystallisation is low.</p>	
<p>e) New EU Securitisation Regulations (Possible CL in due course). UKGI are seeking legal counsel to review the implications of new EU securitisation reporting requirements from 2019. Credit granting criteria are being assessed for student loans which may generate legal challenge and we will continue to work with UKGI to update as more information and analysis becomes available.</p>	900
<p>SLC pension transfer: Contingent liability in relation to members of the Student Loans Company Limited Retirement and Death Benefits Scheme, who join the Civil Service Pension Scheme in Financial Year 2019-20, and have previously accrued pension benefits in the SLC Scheme. The Department has a contingent liability to the Civil Service Pension Scheme for the incremental costs of uprating accrued benefits by the Consumer Prices Index (CPI), if a decision is taken in future to uprate benefits in the Civil Service Scheme by less than CPI.</p>	
<p>Potential VAT claim for an UTC - A letter of comfort was issued to an Academy Trust for a £900,000 VAT liability that may materialise at point of transfer. The risk was identified a week before the transfer was due to take place, and a letter of comfort was needed to proceed.</p>	Unquantifiable
<p>Uncapped indemnity related to Section 278 (s278) agreements entered into as part of school builds. An s278 is a section of the Highways Act 1980 that allows developers to enter into a legal agreement with a council (in its capacity as the Highway Authority) to make permanent alterations or improvements to a public highway, as part of a planning approval.</p>

Section in Part II: Subhead Detail		Service	£'000
A	The Law Society		55
A	The Bar Council		4
A	Administration of voucher scheme		25

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
HM Courts and Tribunals Service (HMCTS): Schemes to refund court fees which were charged in error, or incorrectly set.	5,900
Employment Tribunal Refunds: In July 2017, the UK Supreme Court handed down a judgment that quashed the Employment Tribunals and the Employment Appeal Tribunal Fees Order 2013/1893. HMCTS is making refunds of fees paid under the order to those who paid them.	14,200
HMCTS is involved in a number of legal cases dealing with ex gratia, compensation and other claims.	1,300
In November 2017 a review of other fees for courts and tribunal proceedings identified that in some cases fees had been incorrectly charged and in other cases fees had inadvertently been set above cost without the legal authority to do so. In July 2018 a Written Ministerial Statement announced that a refund scheme would be established to reimburse people the amounts they had been over-charged.	1,000
Employment Tribunals: The Department is currently defending a number of Employment Tribunal claims.	Unquantifiable
Other European Court of Human Rights claims: The Department is currently engaged in several cases at the European Court of Human Rights, some of which may involve possible financial liabilities and others which are unquantifiable.	500
Headquarters legal claims: There is a number of outstanding legal claims against the Department Headquarters, some of which involve possible financial liabilities. These legal claims include judicial reviews challenging refusal to pay compensation for miscarriages of justice and legal aid funding.	Unquantifiable
Data Protection Act: There are claims against the Department for alleged failure to comply with the Data Protection Act. These cases are ongoing.	200
The Lord Chancellor's discount rate: In deriving an award value for pre-tariff cases CICA applies a discount rate on expected future care costs and loss of earnings. The rate applied to these cases is - 0.25%, being the Lord Chancellor's discount rate. Given that the value of provision for the remaining pre-tariff cases is high, there is an outstanding risk that until all pre-tariff cases are resolved, changes in the Lord Chancellor's discount rate may have material financial impacts to CICA.	Unquantifiable
Incidents Incurred But Not Yet Received (IBNYR): CICA has an unquantifiable contingent liability in respect of individuals who have been victims of violent crime but have not yet applied to CICA. This depends upon an application being submitted which meets the criteria set out in the relevant Criminal Injuries Compensation Scheme in force at the date of the application. CICA therefore recognises that a contingent liability exists for IBNYR. It is not practicable to estimate the financial effect of IBNYR because it is not possible to establish the total number of eligible criminal injuries or other relevant factors, such as the likelihood of an application being made.	Unquantifiable

---

## Part III: Note K - Contingent Liabilities

---

Nature of liability	£'000
HMPPS: Claims against HMPPS by staff, prisoners and third parties, where the likelihood of a liability arising is deemed possible but not likely, or not reliably measurable.	52
IR35 – Reassessment of tax for individuals who HMRC believe should be treated as employees and thus be taxed at source through the payroll.	-

## **Part III: Note J - Staff Benefits**

For the Financial Year 2020-21, the Top Level Budget (TLB) holders have delegated authority to make special bonus payments to civilian staff, to either an individual or to a team, in recognition of exceptional performance in a one-off task/situation, or for achievement of a significant personal development activity via the In-Year Reward Scheme. Awards will not exceed £5,000 per person during a financial year and there is no guarantee of an In-Year Reward.

TLB holders are also able to authorise non-cash awards via the Thank You Scheme, which include such items as retail outlet or theatre ticket vouchers. The value of an award will not exceed £100 per individual and nor will they in total exceed 0.1% of the civilian pay bill for the TLB.

In addition to the financial rewards is the Business Unit Commendations for all civilian employees in broader banded grades, retained grades, skill zones and analogue grades and military personnel. Business Unit Commendations exist as a means of non-pay reward to ensure that exceptional effort undertaken either individually, or collectively, is recognised by top-level management and made publicly known to colleagues. This is typically done by means of a presentation and certificate. Business Unit Commendations and related Commendation Schemes vary from organisation to organisation within the Department.

The following individuals are responsible for the expenditure within this Estimate:

<b>Accounting Officer:</b>	Simon Case
----------------------------	------------

Simon Case has personal responsibility for the proper presentation of the department's resource accounts and their transmission to the Comptroller & Auditor General, and is also responsible for the use of public money and stewardship of assets.

In discharging these responsibilities, particular regard is given to:

The responsibilities of an Accounting Officer, including responsibility for regularity and propriety of the public finances for which an Accounting Officer is answerable, for keeping proper records and safeguarding assets, are also set out in Chapter 3 of Managing Public Money.

## **Part III: Note F - Accounting Policy changes**

The Department has Prior Period Adjustments (PPAs) resulting from a change in accounting policy between RDEL and CDEL in 2019-20. It is proper for the department to seek parliamentary authority for the provision that should have been sought previously. In 2020-21, a PPA has been carried out to recognise £16,400,000 CDEL, which was classified as RDEL expenditure in 2019-20.

## **Part III: Note F - Accounting Policy changes**

DFID and FCO merged in September 2020 to become FCDO and as a result, changes are required to the Department's accounting policies since the Main Estimate.

The capitalisation and depreciation policies of FCO and DFID need to be harmonised to bring the capitalisation threshold and asset categorisation into line. This will result in impairment charges that will need to be charged to FCDO's Administration budget.

The cost of harmonising that policy will mostly be reflected as a prior year restatement in relation to 2019-20 existing DFID assets, resulting in an impairment charge of £4.8m.

In line with Consolidated Budgeting Guidance, this prior period adjustment will be treated as a classification adjustment for budgets with no need for Parliamentary authority and instead is disclosed in this Note F to the Supplementary Supply Estimate.

## Part III: Note F - Accounting Policy changes

This Supplementary Estimate includes a Prior Period Adjustment (PPA) relating to the recognition of income for the Civil Nuclear Police Authority. Income relating to the purchase of capital assets was previously scored as a credit to the Capital DEL Budget; from 2020-21 onwards this is now to be scored as a benefit to Resource DEL, in line with the rest of the BEIS group. This PPA is broken down as follows:

Change in budgets and non-budget	Increases in Outturn £'000
2013-14 – Capital DEL	
Managing our energy legacy safely and responsibly (ALB) net	545
2014-15 – Capital DEL	
Managing our energy legacy safely and responsibly (ALB) net	838
2015-16 – Capital DEL	
Managing our energy legacy safely and responsibly (ALB) net	1,061
2016-17 – Capital DEL	
Managing our energy legacy safely and responsibly (ALB) net	1,273
2017-18 – Capital DEL	
Managing our energy legacy safely and responsibly (ALB) net	1,641
2018-19 – Capital DEL	
Managing our energy legacy safely and responsibly (ALB) net	2,625
Overall movement	7,983

Had this income been recognised as Resource DEL in the Department's outturn for the relevant years, this would not have resulted in a control total breach in any relevant year.

Unquantifiable
As at 31 March 2020 the following liabilities fell to be met from the Department's Estimate:-	
Statutory Guarantees	
– Under section 9 of the British Aerospace Act 1980, the government is liable to discharge any outstanding liability of BAE Systems plc which vested in the company on 1 January 1981 in the event of its being wound up other than for the purpose of reconstruction or amalgamation.	Unquantifiable
Statutory Indemnities	
– Indemnities have been given to the UK Atomic Energy Authority to cover certain indemnities provided by the Authority to carriers and British Nuclear Fuels plc against certain claims for damage caused by nuclear matter in the course of carriage.	Unquantifiable
– Indemnities have been given to bankers of the Insolvency Service against certain liabilities arising in respect of non-transferable “account payee” cheques due to insolvent estates and paid into the Insolvency Service’s account.	Unquantifiable
– Indemnity has been given to National Grid’s liabilities with regards to the interconnector linking the UK and France.	Unquantifiable
Intellectual Property	
– A liability to the European Patent Office could arise under Article 40 of the European Patent Convention of 1973 as the UK is one of the contracting states.	Unquantifiable
– A liability to the World Intellectual Property Organisation could arise under Article 57 of the Patent Cooperation Treaty as the UK is one of the contracting states.	Unquantifiable
Data usage indemnities	
– An indemnity has been provided to Pöyry PLC relating to the use of their yield curve data for the sale of Green Investment Bank. The core Department has indemnified Pöyry PLC for any liability that occurs as a result of using their information in the sale process that may be brought by bidders in relation to the transaction.	Unquantifiable
Legal costs	
– A contingent liability exists in relation to ongoing legal cases. The cost is dependent on the outcome of cases which currently cannot be reliably estimated.	Unquantifiable
– Under an agreement with the Financial Reporting Council (FRC), if the amount held in their legal costs fund falls below £1 million in any year, an additional grant will be made to cover legal costs subsequently incurred in that year.	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
Indemnities against personal liability	
– Indemnities have been given to the directors appointed by the core Department to wholly owned subsidiaries. These indemnities are against personal liability following any legal action against the companies.	Unquantifiable
– Indemnities have been provided to directors appointed to the Low Carbon Contracts Company Limited and Electricity Settlements Company Limited against personal liability following any legal action against the companies, to be triggered only after all other means have been excluded i.e. company and directors' insurance and recovery of costs through their levies.	Unquantifiable
– Indemnities have been provided to the Low Carbon Contracts Company Limited and Electricity Settlements Company Limited in respect of their officers, to be triggered only after all other means have been excluded i.e. company and directors' insurance and recovery of costs through their levies.	Unquantifiable
– Indemnities have been provided to trustees of the Nuclear Liabilities Fund appointed by the Secretary of State against personal liability in the event of legal action against the Fund.	Unquantifiable
– Indemnities have been provided to trustees of the Nuclear Liabilities Fund appointed by British Energy (now EDF Energy) against personal liability in the event of legal action against the Fund, to be triggered only in the event of failed recourse to indemnities from EDF Energy.	Unquantifiable
– Indemnities have been provided to the Official Receiver relating to their actions as administrator of SSI Redcar with respect to administration of the site.	Unquantifiable
– An indemnity has been provided to the Official Receiver as liquidator of British Steel Limited for actions undertaken as Receiver in respect of any claims and proceedings that are made against the Receiver personally.	Unquantifiable
– Indemnities have been provided to the Oil and Gas Authority in respect of certain liabilities that could arise from the actions or omissions of its directors and otherwise arising from a director holding or having held office in the company.	Unquantifiable
– Indemnities have been provided to the MCS Service Company Limited and trustees of the MCS Charitable Foundation for any liability that might arise as a result of actions taken and decisions made for which the Core Department was ultimately responsible prior to transfer to the Company and Charitable Foundation of responsibility for the Microgeneration Certification Scheme (MCS) in April 2018.	Unquantifiable
Insurance claims	
– A statutory liability will arise under the Nuclear Installations Act 1965 for third-party claims in excess of the operator's liability in the event of a nuclear accident in the UK.	Unquantifiable
– A contingent liability exists in relation to Incidents/Accidents Insurance claims for exposure to ionising radiation pursued outside the existing UK Atomic Energy Authority insurance scheme.	Unquantifiable
– The Core Department has indemnified Elexon Limited against third party claims relating to the design and/or implementation of the Contracts for Difference and Capacity Markets settlement systems which are not covered by insurance and/or guarantees by their sub-contractors.	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
Losses or damages under agreements	
– An indemnity has been provided for any losses or damages caused to other parties to the Energy Research Partnership consortium agreement.	Unquantifiable
Environmental clean-up	
– A contingent liability exists in relation to the costs of retrieving and disposing of sealed radioactive sources in the event that a company keeping such sources becomes insolvent under the Environmental Permitting (England and Wales) Regulations 2016 in the event that a company keeping such sources becomes insolvent.	Unquantifiable
– A contingent liability arises in relation to the remediation of land contaminated by a nuclear occurrence as the Secretary of State is deemed to be the appropriate person to bear responsibility under section 9 of The Radioactive Contaminated Land (Modification of Enactments) (England) (Amendment) Regulations 2007 SI 2007/3245.	Unquantifiable
– Under the United Nations Convention on the Law of the Sea (UNCLOS) 1982, OSPAR decision 98/3, the Energy Act 2004 and the Petroleum Act 1998, the department would become responsible for decommissioning most oil, gas and renewable energy installations in the event that operators are unable to fulfil their decommissioning commitments.	Unquantifiable
Others	
– A liability could arise through non-compliance with the Cogeneration Directive (2004/8/EC) in the event of incorrect certification of combined heat and power plants by contractors of the Department.	Unquantifiable
– A contingent liability exists in respect of the risks associated with the Department assuming responsibility for uplifts in pension contributions for the UK Atomic Energy Authority's non-active pension scheme members.	Unquantifiable
– The Secretary of State Investor Agreement (SOSIA) provides protections in certain scenarios where the Hinkley Point C nuclear plant is shut down for reasons that are political or due to certain changes in insurance arrangements or certain changes in law. Payments under the SOSIA would be expected in the first instance to be made using funds from the Supplier Obligation but in certain circumstances they could also come direct from the Secretary of State, relying on spending powers granted under the relevant Appropriation Act or, if payments were to be made over a period longer than two years, seeking a new spending power at the time. The payments could be up to around £22 billion excluding non-decommissioning operational costs that may be incurred after any shutdown. However, the liability to make payments under the SOSIA is almost entirely within the control of HM Government.	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– UK Space Agency has an unquantifiable contingent liability arising from the international (UN) convention, which requires the UK Government to be ultimately liable for third party costs from accidental damage arising from UK space activities. To manage the risk to the Government, the Outer Space Act 1986 requires licensees to indemnify HMG against any proven third party costs. In March 2015 the Outer Space Act 1986 was amended to cap the previously unlimited liability for licensed activities. The cap is set at €60 million euro for the majority of missions. This amendment came into force from 1 October 2015 and was designed to adequately balance the risk to the UK Government whilst ensuring UK space operators remain competitive internationally. There is a requirement on licensees to obtain third party liability insurance (set at €60 million euro for the majority of missions) for the duration of the licensed activity, with the UK Government a named beneficiary. The UK government is therefore exposed to a potential liability for third party costs which are not recoverable from the licensee. The liability is unidentifiable at the time of reporting.</p>	Unquantifiable
<p>– UKRI collaborates with a number of other international partners in the funding, management and operation of technical facilities which are not owned by UKRI. In the event of a decision to withdraw from any of these arrangements, it is likely that UKRI would assist in the search for a replacement partner to ensure that technical commitments were met. The most significant international collaborations are in respect of CERN and ESO. For both of these facilities there is the possibility that UKRI would be obliged to contribute to decommissioning costs arising from a decision taken to discontinue operations. The decisions to decommission are not wholly within UKRI's control.</p>	Unquantifiable
<p>– The NDA has non-quantifiable contingent liabilities arising from indemnities given as part of the contracts for the management of the nuclear site license companies. These indemnities are in respect of the uninsurable residual risk that courts in a country which is not party to the Paris and Brussels Conventions on third party liability in the field of nuclear energy may accept jurisdiction to determine liability in the event of a nuclear incident. Indemnities are in place in respect of LLWR and Dounreay as set out in the relevant Parent Body Agreements. In addition, indemnities are provided to the previous Parent Body Organisations (PBOs) of Magnox and Sellafield covering the periods of their ownership.</p>	Unquantifiable
<p>– Core Department - Financial Reporting Council funding: A guarantee has been given to the Financial Reporting Council that, if the Council's general voluntary funding from external sources falls sufficiently for the department to have to consider making legislation to activate the statutory levy under section 17 of the Companies (Audit, Investigations and Community Enterprise) Act 2004, the department will make such a grant to cover the Council's costs as is sufficient to meet the preconditions in those levy raising powers provided the requisite funding has not been made available through another grant.</p>	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– Core Department - Deeds Relating to the Mineworkers' Pension Scheme and British Coal Staff Superannuation Scheme under Paragraph 2(9) of Schedule 5 to the Coal Industry Act 1994: Government guarantees were put in place on 31 October 1994, the day the schemes were changed to reflect the impact of the privatisation of the coal industry. They are legally binding contracts between the scheme Trustees and the Secretary of State for Business, Energy and Industrial Strategy. The guarantees ensure that benefits earned by scheme members during their employment with British Coal, and any benefit improvements from surpluses which were awarded prior to 31 October 1994, will always be paid and will be increased each year in line with the Retail Prices Index. If, at any periodic valuation, the assets of the Guaranteed Fund of either scheme were to be insufficient to meet its liabilities, the assets must be increased to bring the Fund back into balance. This is a long term contingent liability dependent on the performance of the schemes' investments and their mortality experience.</p>	Unquantifiable
<p>– Core Department - Indemnity to Public Appointments Assessors (PAAs): The Cabinet Secretary has provided a government-wide indemnity to Public Appointments Assessors (PAAs) against personal civil liabilities incurred in the execution of their PAA functions.</p>	Unquantifiable
<p>– Core Department - Nuclear agreements and treaties: The department has a range of civil nuclear liabilities arising through its association with the United Kingdom Atomic Energy Authority and British Nuclear Fuels Limited as well as ensuring that the government complies with its obligations under the various international nuclear agreements and treaties.</p>	Unquantifiable
<p>– Core Department - Site restoration liabilities inherited from British Coal: The department inherited responsibility from British Coal to reimburse certain third parties for costs incurred meeting statutory environmental standards in the restoration of particular coal-related sites.</p>	Unquantifiable
<p>– Core Department – Nuclear Liabilities Fund: The Nuclear Liabilities Fund was established in 1996 to meet certain costs of decommissioning eight nuclear power plants in the UK that have been owned and operated by EDF Energy Nuclear Generation Limited since 2009. A constructive obligation was created in 2002 when the government undertook to underwrite the Fund in respect of these liabilities to the extent that the assets of the Fund might fall short; any surplus generated by the Fund would be paid over to the government once the liabilities have been met. The total undiscounted estimated liability as at 31 March 2020 of £23.3 billion (31 March 2019: £20.9 billion) has a present value of £24.1 billion (31 March 2019: £22.3 billion). The value of the Fund as at 31 March 2020 is £9.4 billion (31 March 2019: £9.4 billion). It is not possible to quantify the extent to which the Fund might be in deficit or surplus with respect to the liabilities as at 31 March 2020 given the high level of uncertainty relating to estimation of decommissioning costs and investment returns on Fund assets over a future period exceeding 100 years.</p>	Unquantifiable
<p>– Core Department - Horizon 2020 Funding - In July 2018, the UK Government announced an extension of its guarantee of EU-funded projects after the UK has left the EU. The guarantee was originally announced in 2016. The UK left the EU on 31st January 2020 Under the terms of the Withdrawal Agreement, the European Union can exclude UK participation in Horizon 2020 EU-funded grants which involve security related sensitive information. This means that for security related projects under the Horizon, there is a doubt over continued EU funding. The guarantee in relation to Horizon 2020 is unquantifiable due to the European Commission administering and holding the information in relation to the scheme. There are uncertainties around the total amount that may be payable if the settlement were to occur.</p>	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– Core Department - Loan guarantees (ENABLE): In order to encourage lending to smaller businesses, the Department has guaranteed a portion of net losses on designated loan portfolios of participating banks (in excess of an agreed ‘first loss’ threshold) in return for a fee under the ENABLE Guarantee programme administered by the British Business Bank. The Department has approved guarantee facilities totalling £1.4 billion (31 March 2019: £1 billion), of which £783 million is effective as at 31 March 2020 (31 March 2019: £283 million) with a potential loss to the Department of £356 million (31 March 2019: £45 million).</p>	356,000
<p>– Core Department - Loan guarantees (EFG and HTG): The Department guarantees lenders under the Enterprise Financial Guarantee (EFG) and Help to Grow (HTG) financial guarantee schemes administered by the British Business Bank. The Enterprise Financial Guarantee Scheme facilitates lending to viable businesses with the maximum obligation for the Department capped at £179 million at 31 March 2020 (31 March 2019: £205 million). The amount lent under the Help to Grow scheme was £3 million at 31 March 2020 (31 March 2019: £2.9 million) with a maximum potential liability for the department at 31 March 2020 of £1 million (31 March 2019: £1 million).</p>	180,000
<p>– Core Department - Ofgem administration costs from the buy-out fund: The Department, the Scottish Government and the Northern Ireland Executive have undertaken to support Ofgem’s costs for administering the Renewables Obligation scheme (around £4 million) if there is insufficient money in both the buy-out fund and late payment fund to cover these costs. The size of the 2019-20 buy-out fund will not be known until October 2020. It is dependent in part on the availability and price of Renewable Obligation Certificates (ROCs) – if there is a surplus of ROCs, suppliers may be more inclined to meet their obligations by submitting ROCs but ultimately much depends on supplier behaviour which is difficult to predict. The Department will have an indication of how many ROCs are available and whether there is likely to be a surplus after the end of the obligation year (31 March 2020) but will not know the size of the buy-out fund until October 2020.</p>	4,000
<p>– Core Department - Wave Hub transfer: The department has indemnified Cornwall Council up to 2028 in respect of the transfer of Wave Hub to a maximum amount of £5 million.</p>	5,000
<p>– Coal Authority - Environmental Legal Claims: Under the Environmental Information Regulations 2004 - The Coal Authority is aware of potential legal proceedings in respect of past fees paid for Mining Information. In the eventuality of receiving formal notification to commence legal proceedings, the Coal Authority will strongly defend its position.</p>	Unquantifiable
<p>– Coal Authority - Legal claims: The Coal Authority is subject to various claims and legal actions in the ordinary course of its activities. Where appropriate, provisions are made in the accounts on the basis of information available and in accordance with guidance provided under the FReM and IFRS. The Coal Authority does not expect that the outcome of the above issues will materially affect its financial position.</p>	Unquantifiable
<p>– Coal Authority - Restructuring Scheme: Where liabilities transferred under the various Coal Authority Restructuring Schemes (CARS) have crystallised due to planning conditions, agreements, claims etc, provision has been made. It has not, however, been possible to quantify contingent liabilities that may arise in the future.</p>	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– Coal Authority - Subsidence damage and public safety liabilities: Licensees of mining operations are required to provide security to the Coal Authority to cover the anticipated future costs of settling subsidence damage liabilities within their areas of responsibility. Outside the areas of responsibility of the holders of the licences under Part II of the Coal Industry Act 1994, the Coal Authority is responsible for making good subsidence damage. Where an area of responsibility is extinguished this would transfer to the Coal Authority who would become responsible for the discharge of outstanding subsidence liabilities. The Coal Authority also has an ongoing liability to secure and keep secured the majority of abandoned coal mines. In all cases the liability for operating collieries is the responsibility of the licensees/lessees and security is held to address those liabilities. These liabilities have been provided for within the Public Safety and Subsidence provision based on analysis of trends and claims experience. However it is possible that significant, unexpected events outside of this provision may materialise.</p>	Unquantifiable
<p>– CNPA - Legal claims: There are a number of potential liabilities in respect of claims from employees. The timing and amounts of any payment are uncertain. These liabilities have not been provided for as the CNPA believes that the claims are unlikely to be successful and unlikely to lead to a transfer of economic benefits.</p>	Unquantifiable
<p>– Insolvency Service - Cheques Act 1992: Following the enactment of the Cheques Act 1992, the Secretary of State for BEIS has indemnified the Insolvency Service's bankers against certain liabilities arising in respect of non-transferable "account payee" cheques due to insolvent estates and paid into the accounts of the agency.</p>	Unquantifiable
<p>– NDA - Pension Schemes: Whilst not the lead employer, the NDA is the lead organisation and has ultimate responsibility for certain nuclear industry pension schemes, including the Combined Nuclear Pension Plan and the Magnox section of the Electricity Supply Pension Scheme. Provisions for known deficits are included within Nuclear Provisions. However, movements in financial markets may adversely impact the actuarial valuations of the schemes, resulting in an increase in scheme deficits and consequent increase in nuclear provision.</p>	Unquantifiable
<p>– UKRI - Indemnity to Roslin Institute - The former Biotechnology and Biological Sciences Research Council (BBSRC) sponsored Roslin Institute transferred to the University of Edinburgh on 13 May 2008. BBSRC agreed to provide indemnity for any potential costs that arise as a result of past actions of the Institute and indemnity for any fall in grant income of the Neuropathogenesis Unit as a result of the transfer. The proportion of settlement UKRI will fund declines on an annual basis and is limited to claims up to May 2023.</p>	Unquantifiable
<p>– Others: There are a number of potential liabilities for the Department in respect of claims from suppliers, employees and third parties which depend on actual or potential proceedings. The timing and amounts of any liabilities are uncertain.</p>	Unquantifiable
<p>– BBB - Financial guarantee: Under the Bank's Help to Grow financial guarantee programme, the Bank has entered in to financial guarantee agreements of £10.5 million (31 March 2019: £30 million). The Bank has guaranteed 75% of eligible lending to SMEs under these agreements and a counter guarantee is in place that guarantees 50% of the Bank's 75% of eligible lending. As at 31 March 2020 the amount lent under these financial guarantee agreements was £3 million (31 March 2019: £3.2 million). During the year ending 31 March 2020 the remaining guarantee agreement originally totalling £30 million was reduced to £10.5 million, with no further amounts being lent under it.</p>	3,000

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
– LCCC - Legal Dispute: There is an ongoing dispute between the company and another entity. The company has confidence in a favourable outcome. If the outcome is not as anticipated, the company will be required to make an annual payment from the interim levy of less than £10 million for the next several years.	10,000
– UKRI - (BBSRC) Contamination: As part of a Sale Agreement relating to a previous BBSRC site, BBSRC agreed to indemnify the purchaser against contamination resulting from dangerous substances. The indemnity was over a 10-year period commencing in 2013-14 and was capped at £3 million.	3,000
– UKRI - (BBSRC) Exit costs: Prior to 31 March 2018, some staff at BBSRC strategically funded institutes were on BBSRC terms and conditions. Whilst their direct salary costs are paid by the institutes, BBSRC is liable for any exit costs for these staff. The date and number of staff to take exit packages in any one year is unknown; however, if all staff were to take exit packages, the maximum liability is estimated at £31 million, with the amount declining on an annual basis up to March 2022.	31,000
– UKRI - (Innovate UK) Decommissioning costs: UKRI has a contingent liability which may arise if UKRI has to provide a grant to Narec (Natural Renewable Energy Centre) in order for it to be able to decommission a weather monitoring platform in the North Sea. This is currently collecting data to support the development of an offshore wind test site. This may take place anytime between three and twenty-five years from now dependent on the development of the site, at an estimated cost of £2.6m.	2,600
– UKRI - (STFC) Decommissioning costs: A contingent liability exists for European Synchrotron Radiation Facility (ESRF) decommissioning costs associated with the dismantling of the facility and infrastructures. Decommissioning occurs on winding up of ESRF. If exit by the UK (or any other Member) results in ESRF being wound up, the Members are required to arrange for decommissioning of ESRF's plant and buildings and to meet the costs of doing so in proportion to their share of capital at the time of dissolution. The contingent liability is estimated to be £1.8 million.	1,800
– UKRI - (STFC) Reprocessing and staff commitments: A contingent liability exists in respect of the Science and Technology Facilities Council (STFC)'s share of Institut Laue-Langevin (ILL) unfunded provisions for staff related costs (e.g. early retirement) and costs associated with reprocessing fuel elements. The contingent liability is estimated to be £11.8 million (31 March 2019: £13.6 million).	11,800
– UKRI - Tax Status change: Prior to the creation of UKRI, the Research Councils paid levels of tax consistent with charitable status, although they were not registered as charities. HMRC have confirmed that, due to changes in legislation, the Research Councils should not have been applying charitable tax reliefs after 1 April 2012 without registering as charities. To this end, UKRI has included £19.6 million of VAT and £4.1 million of Corporation Tax within their financial statements in respect of changes from HMRC for prior periods. In due course, UKRI will need to consider whether it should contact local authorities regarding charitable reliefs on business rates claimed by the Research Councils from 1 April 2012 to 31 March 2018. The maximum value of the contingent liability in respect of business rates is estimated to be £45 million.	45,000

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>– The core Department has indemnified Cornwall Council for any liability relating to the European Regional Development Fund (ERDF) that might arise from the transfer of Wave Hub due to (a) any breach of the ERDF Funding Agreements which occurred on or before the transfer date of 31 March 2017 and (b) any action or omission by the core Department or Wave Hub in relation to the ERDF Funding Agreements prior to the transfer which leads to finding of an Irregularity by any competent authority.</p>	18,000
<p>– The core Department has indemnified the Coal Authority against potential claims arising from remunerated advisory work undertaken for other public sector bodies where settlement exceeds the Authority's professional indemnity insurance.</p>	3,000

## Part III: Note D - Explanation of Accounting Officer responsibilities

The Accounting Officer prepares resource accounts for each financial year.

The following individuals are responsible for the expenditure within this Estimate:

<b>Accounting Officer:</b>	Simon Hayes
----------------------------	-------------

Simon Hayes has personal responsibility for the proper presentation of the department's resource accounts and their transmission to the Comptroller & Auditor General, and is also responsible for the use of public money and stewardship of assets.

In discharging these responsibilities, particular regard is given to:

- observing any accounting and disclosure requirements (including any Accounts Direction) and applying suitable accounting policies on a consistent basis;
- making judgements and estimates on a reasonable basis;
- stating whether applicable accounting standards, as set out in the Financial Reporting Manual (FReM), or an organisation's version of it, have been followed, and explain any material departures in the accounts; and
- preparing the accounts on a going concern basis.

The responsibilities of an Accounting Officer, including responsibility for regularity and propriety of the public finances for which an Accounting Officer is answerable, for keeping proper records and safeguarding assets, are also set out in Chapter 3 of Managing Public Money.

## Part III: Note J - Staff Benefits

HM Land Registry has a Corporate Employee Reward Scheme which is directly linked to business performance. Performance is measured using Key Performance Indicators (KPI's) included within the HM Land Registry Business Strategy through to 2021-2022 - <https://www.gov.uk/government/publications/hm-land-registry-business-strategy-2017-to-2022> .

Nature of liability	£'000
<p>On 27 June 2019 the Supreme Court rejected the government's request to appeal, regarding age discrimination arising from public sector pension scheme transition arrangements. Court of appeal judgements were made in cases affecting judge's pensions (e.g. McCloud) and firefighter pensions (e.g. Sergeant) which had previously been considered by employment tribunals. The rulings have implications for ALBs which operate Local Government Pension Schemes including British Film Institute (BFI), British Film Institute Lottery, Geffrye Museum (Museum of the Home), Horniman Public Museum and Public Park Trust, Sport England, UK Sport and UK Anti-Doping. For some ALBs, the effects of this judgement are incorporated in the updated valuation of the pension funds, however there are still contingent liabilities disclosed in the BFI and the Geffrye museum's (Museum of the Home) accounts amounting to £620k combined.</p>	620

The last triennial actuarial valuation of the pension scheme as at 30 June 2017 valued the deficit at £11.3bn.	
<p>The BTA, trading as VisitEngland and VisitBritain, has operated a defined benefit pension scheme for the benefit of its employees since it was created by the Development of Tourism Act 1969. To ensure a strong covenant rating and avoid a substantial increase in the BTA's annual contributions to service the scheme, the government has issued a guarantee to cover the shortfall between the scheme's assets and its liabilities should the BTA close down. The shortfall is currently estimated at £2m in today's prices and this is likely to decrease with time because the BTA section of the scheme was closed to future benefit accrual on 31 March 2020.</p>	2,000
<p>Upon dissolution of the Olympic Delivery Authority (ODA), the following contingent liabilities passed to DCMS:</p> <ol style="list-style-type: none"> <li>1. <p>Contingent liabilities in respect of the Commonwealth Games</p> <p>1. UK government will fund 75% of the public sector cost of delivering the Commonwealth Games in 2022, after commercial income has been taken into account, and Local Government will fund the remaining 25% of the public sector cost.</p> <p>2. As part of the bidding process to host the Games, the Commonwealth Games Federation required a series of guarantees from central and local government. This is a common part of bidding to host a major sporting event, and important to the success of any UK bid.</p> <p>3. As part of this the UK government guaranteed to financially underwrite the organisation and delivery of the Games. As such, it will meet any potential financial shortfall of the Birmingham Organising Committee for the 2022 Commonwealth Games Ltd</p>	Unquantifiable
<p>The department has given an indemnity to Arts Council England and the Southbank Centre Limited with respect to certain liabilities owed by Shirayama Shokusan Company Limited (SSCL), the owners of County Hall.</p> <p>This indemnity covers any costs to be incurred by SSCL in replacing the proposed new Jubilee Gardens should SSCL make use of their sub-soil lease beneath the Garden to build an underground car park.</p> <p>The risk of the indemnity being called upon is low as there is currently no intention to build such a car park, and the likelihood of obtaining planning permission is low.</p>	Unquantifiable
<p>On 15 March 2017, an agreement to manage the Royal Parks was signed between The Royal Parks Limited and the Secretary of State setting out the elements transferred from The Royal Parks Agency (TRPA) and additional obligations and arrangements. Under the terms of the agreement, the core department retains responsibility for the cost of historic liabilities of TRPA for 10 years</p> <p>There is an unquantifiable contingent liability in respect of an incident in one of the Royal Parks. There is insufficient information to assess the value of the liability at this time.</p>	Unquantifiable
<p>The British Library agreed to underwrite any liability with their supplier above £5m for their Newspaper Digitisation Project in relation to copyright infringement / defamation claims.</p>	Unquantifiable
<p>The National Gallery is recognising an unquantifiable liability in respect of funds received from Ronald S Lauder.</p> <p>The deed between the Gallery and the donor states that a part of the consideration is in relation to the lease of the painting to the donor in the period from the acquisition of the painting for the remainder of the donor's lifetime</p>	Unquantifiable
<p>The Olympic Delivery Authority (ODA) had liabilities for the rectification of defects in the buildings constructed by Stratford Village Development Partnership. These liabilities have been substantially reduced through a 2019 settlement agreement with Qatari Diar Delancey (QDD) but similar liabilities to other parties remain</p>	Unquantifiable
<p>On 28 June 2018 a judicial review took place. The claimant had previously sought an export licence from Arts Council England to export a painting to Switzerland from the UK.</p> <p>The Arts Council (in consultation with DCMS) refused to grant the licence on the basis that it was not the competent authority for the purposes of the relevant EU legislation to grant the claimant a licence, and it was not satisfied that the painting was in the UK following 'lawful and definitive dispatch from another Member State'.</p> <p>The claimant challenged this decision by way of judicial review.</p>	Unquantifiable

## Part III: Note K - Contingent Liabilities

## **Part III: Note J - Staff Benefits**

---

Defra operates an Employee Discount Scheme, which provides staff access via a secure login to a website that gives them access to buy discounted retail vouchers and purchase certain goods and services at a discounted rate. The cost of any items purchased is met by the employee.

Vouchers are given to staff in some areas of Defra as part of the in-year bonus scheme.

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>The Environment Agency is involved in a legal case where waste has been illegally shipped from the United Kingdom and the Environment Agency as Competent Authority is responsible for its repatriation. The initial estimate of cost is in the region of £750,000. There is uncertainty over whether payment is necessary as we have not been able to travel to the country in question and intend for the notifier to return the waste at their own cost.</p>	-
<p>Small potential liabilities against the Defra group.</p>	8,500
<p>As part of the revised contract with Defra's facilities management providers it has been agreed that under certain conditions arising from the rationalisation of the estate and subsequent reduction in demand, any restructuring costs such as redundancies or early retirement will be recharged to the Core Department.</p>	Unquantifiable
<p>In addition to the provision for dilapidations where Defra leases properties from landlords, there remains a potential liability for dilapidations where Defra occupies properties leased by other government departments under a memorandum of terms of occupation (MOTO) agreement. The potential for and the value of a dilapidation claim for these properties is more uncertain, hence is disclosed as a contingent liability, rather than as a provision.</p>	Unquantifiable
<p>Where tenants have sublet within a Defra lease, there is a potential liability if the space is vacated and Defra are unable to find an alternative tenant.</p>	Unquantifiable
<p>The department is currently involved in a number of ongoing judicial review cases.</p>	Unquantifiable
<p>Infraction proceedings relating to the non-compliance of UK legislation with EU requirements could lead to fines from the EU in the following cases: a breach of the Urban Waste Water Treatment Directive at 14 sites; a breach of the Urban Waste Water Treatment Directive at 2 sites (London and Whitburn); and a breach of the Habitats Directive regarding the designation of special areas of conservation for harbour porpoises. Liability for fines across UK administrations would depend on the specifics of individual cases and, as per Commission guidance, could entail a minimum lump sum of €9 million (£7.7 million) plus potential daily charges until compliance is reached.</p>	Unquantifiable
<p>Defra has contingent liabilities relating to retained rights to former staff affected by Transfer of Undertaking Protection of Employment (TUPE) Regulations.</p>	Unquantifiable
<p>The Commission can apply financial corrections if Defra (through the RPA) does not comply with Commission regulations for payments funded by the European Agricultural Guarantee Fund. Any amounts disallowed (and hence funded by Defra instead) will depend on the assessed severity of the breach of regulations and on subsequent clarification negotiations with the Commission in accordance with the Commission's clearance of accounts procedure. There is an ongoing potential liability in respect of financial corrections which is unquantifiable.</p>	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
RPA is currently in receipt of appeals from scheme claimants of claims covering the Basic Payment Scheme, Single Payment Scheme and trader related schemes. If the appeals are successful they could either result in a liability for EU or Exchequer funded payments.	Unquantifiable
The Environment Agency is currently involved in a judicial process relating to compensating events on flood alleviation contracts where payment to settle the dispute is probable, but there still uncertainty over the outcome of the judicial process and a high degree of uncertainty over the amount that may be paid.	Unquantifiable
There is a case in contract dispute resolution where the Environment Agency agrees it has some responsibility but the payments between the parties are not yet agreed.	Unquantifiable
The department carries an unquantifiable potential liability in relation to costs of its IT services dependent on the outcome of its transition programme.	Unquantifiable
The department's internal checks under the Employment Legislation (IR35) have highlighted inaccuracies in the assessment of some contractor's employment status since April 2017, when new legislative requirements were introduced for public sector bodies. Compliance audit work with HM Revenue and Customs is yet to conclude on what the final historic position is. The department has provided for the potential tax liability, but the possibility of interest or penalties being levied by HMRC are more uncertain, hence are disclosed as a contingent liability, rather than as a provision.	Unquantifiable

## Part III: Note D - Explanation of Accounting Officer responsibilities

The Accounting Officer prepares resource accounts for each financial year.

The following individuals are responsible for the expenditure within this Estimate:

**Accounting Officer:** Peter Schofield

In accordance with Chapter 3 of Managing Public Money (issued by the Treasury), the following individuals have been appointed as Accounting Officers of the department's ALBs.

### ALB Accounting Officers:

Sarah Albon	Health and Safety Executive
Helen John	Disabled People's Employment Corporation (GB) Ltd (in members voluntary liquidation)
Charles Counsell	The Pensions Regulator
Anthony Arter	The Pensions Ombudsman
Richard McHugh	BPDTS Ltd
Caroline Siarkiewicz	Money and Pensions Service

Peter Schofield has personal responsibility for the proper presentation of the department's resource accounts and their transmission to the Comptroller & Auditor General, and is also responsible for the use of public money and stewardship of assets.

In discharging these responsibilities, particular regard is given to:

- observing any accounting and disclosure requirements (including any Accounts Direction) and applying suitable accounting policies on a consistent basis;
- making judgements and estimates on a reasonable basis;
- stating whether applicable accounting standards, as set out in the Financial Reporting Manual (FReM), or an organisation's version of it, have been followed, and explain any material departures in the accounts; and
- preparing the accounts on a going concern basis.

The responsibilities of an Accounting Officer, including responsibility for regularity and propriety of the public finances for which an Accounting Officer is answerable, for keeping proper records and safeguarding assets, are also set out in Chapter 3 of Managing Public Money.

In accordance with Managing Public Money requirements, the relationship between the Principal Accounting Officer and Additional Accounting Officer(s) together with their respective responsibilities, is set out in writing. Similarly, the relationship between the Principal Accounting Officer and the ALB Accounting Officer(s) is set out in writing.

## Part III: Note J - Staff Benefits

For the financial year 2020-21, budget holders have delegated authority to award reward vouchers to staff. The vouchers are for a range of well-known retail outlets and are given in recognition of valuable or exceptional contributions to business performance (through the Reward and Recognition Scheme, will not exceed £50 per individual award), as well as to recognise long service (through the Loyalty and Recognition Scheme, will not exceed £150 per individual award). In total, the expenditure for non-consolidated awards, including Reward and Recognition, will not exceed 0.65% of the DWP pay bill.

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p><b>The Rent Service employee pensions</b> - The Rent Service transferred from us to the Valuation Office Agency on 1 April 2009. The Rent Service employed around 400 staff, who were members of the Local Government Pension Scheme, following the transfer they could continue to participate in the scheme. Whilst the scheme is currently balanced, if there is a pension deficit we will be liable to meet the shortfall, it is not practical to disclose an estimate of the financial effect or the timing of any outflow.</p>	Unquantifiable
<p><b>Legal cases</b> - The ongoing legal cases, (judicial reviews and appeals) may lead to possible obligations where the Department is facing legal challenge to the policy behind the legislation through the courts and the outcomes depend on the court rulings. As at 31 March 2020 the Department estimates the value of this contingent liability in aggregate to be £2,305 million. Further disclosure of the details of the cases are not provided as, in accordance with IAS 37 (Provisions, Contingent Liabilities and Contingent Assets), the Department considers that the disclosure of individual values for any legal contingent liabilities could be expected to seriously prejudice on-going litigation.</p>	2,305
<p><b>European Social Fund repayments</b> - The ESF Audit Authority is required to provide opinions on both the final 2007-13 ESF programme declaration issued by the ESF Certifying Authority and the 2014-20 ESF programme. This is largely based on the amount of error found during checks of claims submitted by the department, as Managing Authority of the ESF England programme. If this exceeds the EU defined 2% tolerance error rate the opinion is qualified by the ESF Audit Authority, with the risk that the EU can impose a financial correction.</p>	Unquantifiable
<p>The 2007-13 programme did not exceed the 2% error threshold in the final Annual Control Report (ACR) and closure declaration. In accordance with commission guidance the Audit Authority gave an unqualified opinion. For the 2014-20 programme the error rate for 2016-2017 was 0.093%, for 2017-2018 was 0.117% and for 2018-19 was 1.237%. Therefore the opinion of the Audit Authority was unqualified in all years to date for the 2014-20 ESF Programme (no breach of the EU's 2% tolerance level).</p>	
<p><b>Transfer of State Pensions</b> - In 2007, regulations were put in place to allow staff employed in certain EU institutions to transfer an enhanced cash value of potential entitlement to the State Pension and other contributory benefits to the Pension Scheme for Officials and Servants of Community Institutions. Until the transfer value has been calculated, a contingent liability arises. The overall time limit is 10 months between the date of application and the transfer payment. However the limits can be extended if needed. Since 2007 we've received 1,759 transfer applications. 83% of these have resulted in transfer payments. At 31 March 2020 there were 133 cases outstanding. The liability for these cases is estimated to be in the region of £5.1 million.</p>	5,100

---

## Part III: Note K - Contingent Liabilities

---

Nature of liability	£'000
<b>Employment Legislation (IR35)</b> - While the Department's internal checks have highlighted inaccuracies in the assessment of some contractor's employment status since April 2017, when new legislative requirements were introduced for public sector bodies, compliance audit work with HM Revenue and Customs is yet to conclude on what the final historic position is and any liability for additional tax the Department may incur.	Unquantifiable

### Part III: Note D - Explanation of Accounting Officer responsibilities

The Accounting Officer prepares resource accounts for each financial year.

The following individuals are responsible for the expenditure within this Estimate:

**Accounting Officer:** Jim Harra

**Executive Agency Accounting Officers:**

Jonathan Russell For sections B, J and K (Interim Chief Executive of the Valuation Office Agency)

Jim Harra has personal responsibility for the proper presentation of the department's resource accounts and their transmission to the Comptroller & Auditor General, and is also responsible for the use of public money and stewardship of assets.

In discharging these responsibilities, particular regard is given to:

- observing any accounting and disclosure requirements (including any Accounts Direction) and applying suitable accounting policies on a consistent basis;
- making judgements and estimates on a reasonable basis;
- stating whether applicable accounting standards, as set out in the Financial Reporting Manual (FRM), or an organisation's version of it, have been followed, and explain any material departures in the accounts; and
- preparing the accounts on a going concern basis.

The responsibilities of an Accounting Officer, including responsibility for regularity and propriety of the public finances for which an Accounting Officer is answerable, for keeping proper records and safeguarding assets, are also set out in Chapter 3 of Managing Public Money.

In accordance with Managing Public Money requirements, the relationship between the Principal Accounting Officer and Additional Accounting Officer(s) together with their respective responsibilities, is set out in writing. Similarly, the relationship between the Principal Accounting Officer and the ALB Accounting Officer(s) is set out in writing.

## Part III: Note F - Accounting Policy changes

This Supplementary Estimate includes one sum for a Prior Period Adjustment (PPA). This adjustment relates to retaining excess income over and above HMRC's RDEL Income Control Total in 2019/20. RDEL income of £5.98m was retained and spent. HMRC should have sought retrospective permission to retain the additional income or surrendered these amounts back to the Consolidated Fund.

Had this income been surrendered to the Consolidated Fund, HMRC's RDEL Treasury Control outturn would have increased by £5.98m from £3,991.20m to £3,997.18m. This would have increased HMRC's overspend at a RDEL Treasury Control Total from £0.18m, to £6.16m.

At a Parliamentary level, this would have increased our expenditure by £5.95m from £4,287.3m to £4,293.25m. Expenditure would have remained within set Parliamentary control limits.

---

## Part III: Note J - Staff Benefits

For the financial year 2020-21, budget holders have delegated authority to present reward vouchers to staff (grades from AA to Grade 6), under the terms of the Department's Reward and Recognition Scheme ("Simply Thanks").

The vouchers are for a range of well-known retail outlets and offer managers a quick way to show their appreciation for the good work and positive behaviours of staff and colleagues by awarding them £20 vouchers. The vouchers are funded from the Department's pre-existing budget for bonuses.

The Cycle to Work (CtW) scheme is part of the Government's Green Transport Plan to promote healthier journeys to work and reduce environmental pollution. The scheme allows staff to vary their contract of employment to sacrifice part of their salary and in return, are provided with the loan of a bike and cycling equipment. Staff are able to use the bike and equipment in their spare time as well as for cycling to work. Cycle Solutions administer the scheme on behalf of HMRC.

In HMRC, we use long service recognition to recognise jobholders who complete a total of 30, 40 and 50 years of service within the Civil Service. If a staff member meets the qualifying criteria and complete 40 or 50 years total service, they're entitled to a 'gift' to the value of £40. Note that the gift cannot be in the form of gift tokens/vouchers or any other form of money.

Childcare (Salary Sacrifice) Schemes are closed to new joiners but HMRC still operates a scheme for existing employees who opted into the scheme prior to its closure. This allows staff vary their contract of employment to sacrifice part of their salary in exchange for childcare vouchers.

HMRC operates an Employee Discount Scheme, run and administered by Edenred, which provides staff access to buy discounted retail vouchers and purchase certain goods and services at a discounted rate. The cost of any items purchased is met by the employee

## Part III: Note K - Contingent Liabilities

Legal claims – Costs that may be awarded should various legal cases in which HMRC is involved be determined against the department.	121,200
Guaranteed costs – possible liability where appointed liquidators have been guaranteed payment of their costs with a view to recovery of outstanding tax liabilities, 91 cases.	700

On 10 January 2019 the Economic Secretary to the Treasury announced the sale in December 2018 of a portfolio of UKAR's B&amp;B and NRAM commercial loans to a consortium formed of Arrow Global Limited and Davidson Kempner European Partners LLP. The proceeds from the sale were £61 million.</p> <p>The remote contingent liability covers certain fundamental market-standard warranties; the maximum contingent liability arising from these warranties is capped at £58.2 million. A separate set of intermediate market-standard warranties are capped at a maximum remote contingent liability of £11.6 million.</p> <p>HM Treasury also provided certain contractual rights to the purchasing consortium for the Sale &amp; Leaseback arrangements. The resulting remote contingent liability has a maximum value of £2.8 million.</p>	<p>Up to 11,600; 58,200 and 2,800 remote contingent liabilities</p>
<p>9. HMT provided certain market-standard time and value capped warranties confirming regulatory, legislative and contractual compliance to the purchasers of a portfolio of UKAR's B&amp;B and NRAM commercial loan in December 2018. The resulting contingent liability has a maximum value of £2.9 million, plus additional indemnities in force until December 2022 with maximum value £61m.</p>	<p>Up to 2,900 plus additional indemnities up to 61,000</p>
<p>10. On 2 April 2019 the Economic Secretary to the Treasury announced the sale in March 2019 of a portfolio of UKAR's NRAM together loans to Citi with majority funding from PIMCO. The proceeds from the sale were £4.9 billion. The remote contingent liability covers certain fundamental market standard warranties.</p>	Up to 4,900,000
<p>11. HM Treasury provided certain market-standard time and value capped warranties confirming regulatory, legislative and contractual compliance to purchasers of UKAR's NRAM together loans in March 2019. These gave rise to a contingent liability with a maximum value of £1 billion.</p>	Up to 1,000,000

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>12. NRAM Limited provided certain warranties and indemnities to Cerberus in respect of the sale to Cerberus of certain loans and the shares in NRAM plc. The sale agreement set various time limits for bringing claims under the warranties. For most of the warranties this time limit was on or before 5 May 2019, while for certain tax-related warranties the time limit is 5 May 2023.</p>	Unquantifiable
<p>13. The UKAR Group's lending and other consumer credit business is governed by consumer credit law and other regulations. Claims upheld in favour of customers in relation to potential breaches of requirements could result in costs to the Group. It is not possible to provide any meaningful estimate or range of the possible cost.</p>	Unquantifiable
<b>Other Contingent Liabilities</b>	
<p>14. In June 2018 HM Treasury and the Bank of England announced reforms to the Bank's financial framework to boost transparency, reinforce Bank resilience and independence and strengthen the financial system. The formal agreement that HM Treasury recapitalise the Bank in the event of a major capital loss results in a remote contingent liability for HM Treasury. This is currently unquantifiable as the occurrence of the conditions required for the contingent liability to crystallise cannot be accurately calculated, given the unprecedented nature of the economic conditions required, and as the framework is not for a finite term. The bank has a strong capital base, and the risk of a major capital loss to the Bank requiring further injection by HM Treasury is considered remote due to the unprecedented nature of the economic conditions that would cause it to crystallise.</p>	Unquantifiable
<p>15. The Help to Buy mortgage guarantee scheme was launched on 2 January 2014. The scheme is designed to address the shortage of high loan-to-value mortgages, by offering lenders the option to purchase a guarantee on mortgages where a borrower has a deposit of between 5% and 20%. In the event of a borrower defaulting on their mortgage, HM Treasury would be liable for a portion of net losses suffered following the sale of the property. The scheme rules provide for a maximum contingent liability of £12 billion.</p>	Up to 12,000,000
<p>16. HM Treasury has confirmed to the FCA its intention to take appropriate steps (should they prove necessary) to ensure that Bradford &amp; Bingley will continue to operate above the minimum regulatory capital requirements (Treasury Minute dated 2 June 2009). Maximum potential liabilities under this intervention are the minimum regulatory capital requirements as defined by the FCA which may vary as circumstances demand. If this contingent liability crystallised, it would result in a transaction between HMT and B&amp;B, which would be eliminated at group level.</p>	Up to 37,500
<p>17. HM Treasury is currently engaged in litigation activity as the defendant. This may result in costs or damages being ordered against HM Treasury. HM Treasury has not disclosed all of the information that is ordinarily required under IAS 37 on the grounds that it may be prejudicial to legal privilege and the outcome of the litigation.</p>	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>18. FSCS are responsible for compensation payments that may become due as a result of claims made to the FSCS by customers of authorised financial services firms which have failed. To qualify for compensation customers must be eligible under FSCS rules. These rules are outlined in the FCA Handbook and in the PRA Rulebook on Depositor Protection and Policyholder Protection. FSCS can only pay compensation for financial loss and there are limits to the amounts of compensation FSCS pays. There is significant uncertainty around the number of claims FSCS will receive from customers, the likelihood of eligible claims, the type or product of those claims, the amount of compensation FSCS will pay, and the timing of those payments. Therefore, it is not practicable to provide an estimate of the costs of potential claims FSCS may receive or claims FSCS have received but not yet decided. FSCS has a statutory duty to pursue recoveries that are reasonably possible and cost effective to pursue which will offset some of the compensation it will pay out.</p>	Unquantifiable
<p>19. The Treasury provides guarantees to the UK oil and gas industry in the form of Decommissioning Relief Deeds. These deeds provide companies with certainty on the level of tax relief they will receive on future decommissioning of North Sea oil fields. Currently there have been no changes to the tax regime that would generate a liability to be paid under any decommissioning relief agreements, of which there were 96 in force at the end of March 2020. The maximum potential liability under this scheme cannot be quantified at present.</p>	Unquantifiable
<p>20. The Royal Mint Trading Fund has a Memorandum of Understanding (MOU) arrangement with the National Loans Fund by which it can draw down funds in the form of a financing facility subject to demand. The upper limit of this financing facility is £36 million. Parliamentary authority limits the overall amount of public money available to the Royal Mint at £50 million. If the Royal Mint Trading Fund was unable to meet this commitment the National Loans Fund funding conditions dictate that the amount outstanding would have to be met from within the Treasury's DEL .</p>	Up to 36,000
<p>21. HMT provided an indemnity to Cabinet Office in respect of employer contributions payable to the civil service pensions scheme when the Royal Mint's pensions transferred under new fair deal. This would only materialise in the event that the Royal Mint failed to make payments to the PCSPS.</p>	Unquantifiable
<p>22. HM Treasury provided BlackRock Investment Management (UK) Ltd. with a capped £3m indemnity for support on the design of the Bounce Back Loan Scheme, which was created to support small businesses during the Covid-19 pandemic. The limited indemnity covers the risk that BlackRock could become liable to third parties for claims made in the context of their engagement.</p>	Unquantifiable up to 3,000
<p>23. UKGI provided an uncapped indemnity to an investment bank providing corporate finance advice on a specific UKGI mandate to cover the risk that they could become liable to market participants for any misrepresentation, misleading statements or omissions (based on information from HM Government) made in the context of their engagement.</p>	Unquantifiable
<p>24. HM Treasury has guaranteed indemnities provided by NRAM Ltd (formerly plc) for its new directors against liabilities and losses in the course of their actions whilst the bank is in public ownership (Treasury Minute dated 25 January 2010).</p>	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
25. HM Treasury has guaranteed indemnities provided by Bradford & Bingley for its directors against liabilities and losses in the course of their actions whilst the entity is in public ownership.	Unquantifiable
26. HM Treasury has guaranteed indemnities provided by UK Asset Resolution (UKAR) for its directors against liabilities and losses in the course of their actions whilst the entity is in public ownership (Treasury Minute dated 8 July 2010).	Unquantifiable
27. HM Treasury has provided indemnities for the directors of Infrastructure Finance Unit Limited against liabilities and losses incurred in the course of their actions.	Unquantifiable
28. HM Treasury has provided indemnities for the directors of IUK Investments Limited against liabilities and losses incurred in the course of their actions.	Unquantifiable
29. HM Treasury has provided indemnities for the directors of IUK Investments Holdings Limited against liabilities and losses incurred in the course of their actions.	Unquantifiable
30. HM Treasury has provided indemnities for the directors of HM Treasury Sovereign SUKUK plc against liabilities and losses incurred in the course of their actions.	Unquantifiable
31. HM Treasury has provided indemnities for the directors of UK Government Investments Limited against liabilities and losses incurred in the course of their actions.	Unquantifiable
32. HM Treasury has provided indemnities for the directors of Help to Buy (HMT) Limited against liabilities and losses incurred in the course of their actions.	Unquantifiable
33. An indemnity similar to those given to civil servants under the Civil Service Management Code has been given to the members of the board of Royal Mint Limited for the period between 16 July 2009 and 31 December 2009. The indemnity remains in place for the HMG director on the board of Royal Mint Ltd on behalf of HMT as shareholder.	Unquantifiable
34. The Deed of Indemnity between HM Treasury, the Bank of England and BEAPFF provides that BEAPFF on behalf of itself and its officers and directors may at any time claim payment under the indemnity in respect of any indemnified losses incurred. The losses include all claims, losses, damages, liabilities, etc suffered or incurred by BEAPFF or its officers or directors as a result of, arising out of, in connection with, or which are attributable to, BEAPFF carrying on activities pursuant to or in connection with the APF, save to the extent that the losses arise from BEAPFF's own wilful default or reckless disregard of its obligations. Maximum potential liabilities under this intervention are considered unquantifiable.	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<b>Statutory</b>	
35. Pool Re and Pool Re (Nuclear) are responsible for arrangements for reinsurance of industrial and commercial property damage and consequential business interruption arising from terrorist attacks in Great Britain (excluding Northern Ireland). Treasury carries the contingent liability for these risks. These arrangements are given statutory authority under the Reinsurance (Acts of Terrorism) Act 1993.	Unquantifiable
36. The Bradford & Bingley plc Transfer of Securities and Property etc. Order 2008 requires HM Treasury to give a guarantee or to make other arrangements for the purposes of securing the assets of the remaining section of the Bradford & Bingley Pension Scheme are sufficient to meet its liabilities. This “remaining section” comprises the whole Scheme other than the portion relating to service with Bradford & Bingley International; responsibility for that latter part in effect transferred to Abbey on 29 September 2008. HM Treasury has therefore guaranteed to pay or procure the payment of any benefit amount which falls due for payment from the remaining section at a time when there are insufficient assets to pay that amount.	Unquantifiable
37. The Treasury is a founder contributor of the Asian Infrastructure Bank (AIIB) and has made five capital contributions to the AIIB under the authority of the Asian Infrastructure Investment Bank (Initial Capital Contribution) Order 2015. Each payment has incurred a contingent liability which arises under the Articles of Agreement of the AIIB and for each payment of US\$122,180,000 creates a callable capital contribution of US\$488,760,000. The UK’s contribution has been paid over five years, and now that the final payment has been made by the Treasury (in December 2019) the total callable capital is US\$2,443,800,000. (Treasury Minute dated 30 November 2015).	Unquantifiable up to \$2.4bn (liability subject to US\$ exchange rate)
38. HM Treasury also has a remote contingent liability, which does not meet the threshold for disclosure in the financial statements, in respect of the UK’s contingent liability to the European Investment Bank (EIB). The terms of this are set out in Article 150 of the Withdrawal Agreement and is limited to the callable and paid in capital the UK held as a member state. HM Treasury would need to meet any call on this contingent liability that crystallises after 31 March 2021. Any call before that date would be met by the Consolidated Fund, in accordance with the EU Withdrawal Act 2020. The remote contingent liability is valued at £31.6bn as at 31 March 2020. The UK will also maintain a contingent liability in respect of the returned paid in capital, which will wind down in relation to the amortisation of EIB operations approved before withdrawal.	31,600,000
39. HM Treasury, in addition, discloses here an unquantifiable remote contingent liability for any other liabilities that may ultimately fall to HM Treasury as result of the implementation of the Withdrawal Agreement.	Unquantifiable

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p>40. Under Article 136 of the Withdrawal Agreement, the UK remains party to corrections or adjustments to contributions required over the 2014-20 MFF that are made after the end of 2020 (the UK's final year of participation in the EU budget).</p> <p>Historically, any such adjustments were included in the calculation of future years' EU budget contributions – either increasing or reducing the UK's contribution for subsequent years and were accordingly not individually disclosed or recognised. Once the UK's participation in the EU Budget ends at the end of 2020, this will no longer be possible. Under the terms of the Withdrawal Agreement, any such corrections or adjustments paid or received before 31 March 2021, will be accounted for in the Consolidated Fund Accounts. Corrections or Adjustments to VAT/GNI contributions paid or received after 31 March 2021 will fall to HM Treasury and will be disclosed and recognised as they arise.</p> <p>Such adjustments will arise in the future, however, as at the balance sheet date they are unquantifiable and there is no indication of which direction the cashflow (i.e. whether outflow or inflow) will be. HM Treasury considers the best indicator will be the EU notifying the UK of the value of any receivable/payable under Article 148 of the Agreement (which covers payments after 2020).</p>	Unquantifiable
<p>41. Under Article 147 of the Withdrawal Agreement "Contingent liabilities related to legal cases", the UK will pay a share of costs incurred by the EU in relation to certain legal cases around the EU Budget and financial interests where the facts forming the subject matter of those cases occurred before 31 December 2020. The EU disclose a number of contingent liabilities related to legal cases in their 2018 accounts, including cases where a reliable estimate of the cost cannot be made. If these contingent liabilities crystallised as obligations for the EU, which depends on future events, and were they to fall within the scope of this article they could give rise to a liability for HM Treasury in the future. The EU disclose a number of contingent liabilities related to legal cases in their 2019 accounts, including cases where a reliable estimate of the cost cannot be made and instead the damages being sought are disclosed. If these contingent liabilities crystallised as obligations for the EU, which depends on future events, and were they to fall within the scope of this article they could give rise to a liability for HM Treasury in the future. The UK share of these disclosed items is estimated at £293m.</p>	293,000

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<b>Indemnity for Returning Officers at the UK Parliamentary elections</b>	Unquantifiable
<p>For the purposes of UK Parliamentary elections, Returning Officers and Acting Returning Officers throughout Great Britain are statutorily independent officers. They stand separate from both central and local government. As a result, they can be exposed to a variety of legal risks varying from minor claims for injury at polling stations to significant election petitions challenging the outcome of a poll and associated legal costs. The Cabinet Office will provide an indemnity to Returning Officers for UK Parliamentary elections. The indemnity is to cover the costs of any claims against them, which are not covered under the existing insurance policies that Returning Officers hold. The indemnity will cover costs arising in relation to UK Parliamentary elections including by-elections, where the date of the poll is on or before the 1 May 2024.</p>	
<b>Indemnity for Returning Officers at the Police and Crime Commissioner elections, May 2021:</b>	Unquantifiable
<p>For the purposes of Police and Crime Commissioner elections, Police Area Returning Officers and Local Returning Officers throughout England and Wales are statutorily independent officers. They stand separate from both central and local government. As a result, they can be exposed to a variety of legal risks varying from minor claims for injury at polling stations to significant election petitions challenging the outcome of a poll and associated legal costs. The Cabinet Office will provide an indemnity to Police Area Returning Officers and Local Returning Officers for the Police and Crime Commissioner elections to be held on 6 May 2021. The indemnity is to cover the costs of any claims against them, which are not covered under any existing insurance policies that Police Area Returning Officers and Local Returning Officers hold. The Department will also certificate the Returning Officers under The Employers' Liability (Compulsory Insurance) Regulations 1998 in respect of any liability to their employees. The indemnity and certificate will remain in place to provide cover to Police Area Returning Officers and Local Returning Officers for any by-elections that are held prior to the next scheduled Police and Crime Commissioner elections on 2 May 2024.</p>	
<b>Indemnity for Petition Officers</b>	Unquantifiable
<p>The Cabinet Office has provided an indemnity to Petition Officers for any Recall Petition that may be held between the date the indemnity came into force, 8 June 2016, and 6 May 2020. For the purposes of Recall Petitions, Petition Officers throughout Great Britain are statutorily independent officers. They stand separate from both central and local government. As a result, they can be exposed to a variety of legal risks varying from minor claims for injury at signing locations to recall petition complaints, challenging the outcome of a petition and associated legal costs.</p>	
<p>The Cabinet Office has not provided an indemnity for Petition Officers previously as the Recall Petition legislation came into effect only in 2015. This follows the same process where the Cabinet Office has provided an indemnity to Returning Officers for the UK Parliamentary elections in May 2015, as well as all other recent electoral events.</p>	
<p>The indemnity is to cover the costs of any claims against Petition Officers, which are not otherwise recoverable under the charges provisions contained in paragraph 3 of Schedule 1 to the Recall of MPs Act 2015.</p>	

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
<p><b>Indemnity for the Official Receiver</b></p> <p>The government has indemnified the Official Receiver, appointed as Liquidator of Carillion plc and certain other companies in its group, for actions he undertakes as Receiver in respect of any claims and proceedings that are made against him personally.</p>	Unquantifiable
<p>The indemnity does not extend to any costs which may legitimately be charged to the company or companies in liquidation. This will enable the Official Receiver to ensure the orderly winding up of the group's activities and in particular safeguard the continuity of public services. The indemnity was provided on 15 January 2018 and may be terminated by government giving not less than 14 days' notice.</p>	
<p><b>Indemnity for Ventilator Provider, 2020</b></p> <p>In agreeing the emergency provision of Ventilators, Cabinet Office have provided indemnities. Indemnity one is for the third party Intellectual Property Rights for the designers of the RMVSSs and for the contract manufacturers of RMVSSs. The basic functionality of a ventilator is well understood and we believe that the risk here is low. Indemnity two is for the product liability for the designers of the RMVSSs and for the contract manufacturers of RMVSSs. The need is driven by the unprecedented speed of the development of this medical device compared to typical development times frequently measured in months and years.</p>	Unquantifiable
<p>This indemnity was issued as part of contracts signed 26 March to 28 March 2020. Where the Cabinet Office extend the provisions of these now standard terms for accelerated manufacturing process, similar indemnities will be offered.</p>

## Part III: Note D - Explanation of Accounting Officer responsibilities

The Accounting Officer prepares resource accounts for each financial year.

The following individuals are responsible for the expenditure within this Estimate:

<b>Accounting Officer:</b>	Vicky Fox
----------------------------	-----------

In discharging these responsibilities, particular regard is given to:

- observing any accounting and disclosure requirements (including any Accounts Direction) and applying suitable accounting policies on a consistent basis;
- making judgements and estimates on a reasonable basis;
- stating whether applicable accounting standards, as set out in the Financial Reporting Manual (FReM), or an organisation's version of it, have been followed, and explain any material departures in the accounts; and
- preparing the accounts on a going concern basis.

The responsibilities of an Accounting Officer, including responsibility for regularity and propriety of the public finances for which an Accounting Officer is answerable, for keeping proper records and safeguarding assets, are also set out in Chapter 3 of Managing Public Money.

## Introduction

This Supplementary Estimate is required for the following purposes:

				£

i. (Section A) General Administration non-ringfenced RDEL - decrease non-ring fenced RDEL by £111k to fund ring fenced RDEL (depreciation expenditure) below.		-111,000		
ii. (Section A) General Administration ringfenced RDEL - Ring fenced DEL (Depreciation costs) is higher than originally planned by £111k. This is as a result of a system issue which caused under-depreciation of some of our building assets. We have corrected this and conducted a thorough review of our fixed assets to identify all the assets that this impacts. We have also implemented a new control to ensure this does not happen again in future.	111,000

iii. (Section A) Administrative Expenditure Capital DEL - We are surrendering £50k of our CDEL for 2020-21. We are forecasting an underspend on CDEL this year because of reduced spend on on-site hardware as we make greater use of off-site and Cloud backup and services. This reduction will reduce our CDEL control total from £200k to £150k.		-50,000

## Part III: Note F - Accounting Policy changes

### Prior Period Adjustment

During 2020-21, Ofgem identified that an incorrect amount of VAT had been reclaimed from HMRC in prior years. A provision should have been recognised for the amount owed to HMRC. The 2019-20 financial statements have been restated to recognise this provision. Admin RDEL for 2019-20 is therefore increased by £5.9m.

## Part III: Note K - Contingent Liabilities

Nature of liability	£'000
In the unlikely event of a default by the approved Additional Voluntary Contributions provider, the Scheme will guarantee pension payments. This guarantee does not apply to members who make payments to other institutions offering Free Standing AVCs.	31,600
There are currently two legal challenges against public sector pension schemes. Due to the uncertainty regarding the outcomes - or read across to other schemes - it has been agreed that it is too remote a possibility for which to make a provision.	Unquantifiable
