

2014 to 2020 European Structural and Investment Funds Growth Programme

Call for Proposals – Online Applications European Social Fund

Priority Axis 1: Inclusive Labour Markets

Managing Authority	Department for Work and Pensions (DWP)
ESI Fund	European Social Fund
Priority Axis:	Priority Axis 1: Inclusive Labour Markets
Investment Priority:	1.1: Access to Employment for Jobseekers and Inactive People.
Call Reference:	Access to Employment – Liverpool City Region – OC22S21P1821
LEP Area:	Liverpool City Region
Call Opens:	3 March 2021
Call Closes:	Midnight – 28 April 2021
Application Process:	<p>Applications for funding must be completed and submitted using the ECLAIMS IT system.</p> <p>Applications submitted via any other method will not be accepted.</p> <p>Please do not use ECLAIMS to access or apply against ERDF calls published on GOV.UK – the online application process is only applicable to specified ESF open calls.</p> <p>Please note: the ECLAIMS system can only be accessed from within the UK.</p>

1. Call Context

The 2014 to 2020 European Structural and Investment Funds (ESIF) bring the European Regional Development Fund (ERDF), European Social Fund (ESF) and part of the European Agricultural Fund for Rural Development (EAFRD) together into a single European Union (EU) Structural Investment Funds (ESIF) Growth Programme for England supporting the key growth priorities of innovation, research and development, support for Small and Medium Enterprises (SME), low carbon, skills, employment, and social inclusion.

All contracted ESF projects must be completed by the end of the programme period in 2023. Each application for ESF will be required to demonstrate that it delivers good value for money and domestic strategic priorities.

European Structural and Investment Funds are managed by the Ministry of Housing, Communities and Local Government (ERDF), Department for Work and Pensions (ESF) and the Department for Environment Food and Rural Affairs (EAFRD). In London, the Greater London Authority acts as an Intermediate Body for the European Regional Development Fund and European Social Fund programmes. Unless stated otherwise, the term “Managing Authority” will apply to all these organisations. These Departments are the Managing Authorities for each Fund. The Managing Authorities work closely with local partners who provide:

- Practical advice and information to the Managing Authorities to assist in the preparation of local plans that contribute towards Operational Programme priorities and targets;
- Local intelligence to the Managing Authorities in the development of project calls (decided by the Managing Authorities) that reflect Operational Programme and local development needs as well as match funding opportunities;
- Advice on local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy to aid the Managing Authority’s appraisal of each Full Application.

This call is issued by the Department for Work and Pensions (DWP) to commission ESF Funded projects that will support the **Priority Axis 1 of the Operational Programme: Inclusive Labour Markets** and **Investment Priority: 1.1 Access to Employment for Jobseekers and Inactive People** as set out in the Operational Programme.

All applications will need to be eligible under the European Social Fund Operational Programme for England 2014 to 2020. The [ESF Operational Programme](#) is available for applicants to read.

This call for proposal sets out the requirements for any applicants to consider before applying.

Applications against this call will be usually be appraised as part of a single-stage appraisal process and successful applicants will enter into a funding agreement with the DWP. Further information is given in sections 4 to 10.

However, if an existing ESF Grant Recipient submits an application to extend their existing ESF Project via this open call and, if the cumulative value of all Full Applications received against it is below the call value, the ESF Managing Authority may choose to consider and assess that application via the Project Change Request route.

The decision on whether or not to use the Project Change Request route is a Managing Authority decision and will only be considered once the call is closed. To determine whether the Project Change Request route may be appropriate, the Managing Authority will take into account:

- Existing project performance against financial, output and result targets;
- The existing Grant Recipient track record within the ESF Programme;
- Completeness, robustness and detail of the information provided in the Full Application Form and supporting documents which would inform the Project Change Request assessment;
- Scale and complexity of any proposed changes between their existing ESF Project and their new Full Application proposal;
- Eligibility and availability of match-funding for the new/extended project delivery period.

This list is not exhaustive and, if there are any concerns about the delivery and/or management of the existing project, then the Full Application will be subject to the standard Full Appraisal process.

The same Project Change Request route may also be considered by the Managing Authority where the cumulative value of applications against an open call exceeds the overall call value, but the ESF Managing Authority then exercises their right to “increase the indicative allocation, or support more or fewer projects subject to the volume and quality of proposals received” as set out in this call specification or in cases where there is only one applicant against this call and that applicant is already delivering the same type of ESF Project in the same LEP Area under the same Investment Priority.

All ESF applicants will need to be aware of the requirement to collect and report data on all participants as per Annex 1 of the ESF regulation (see Appendix A). This will be in addition to the requirement to report on the output and result indicators referred to in section 3 of the call for proposal.

UK Withdrawal Agreement

Under the Withdrawal Agreement, the UK will continue to participate in programmes funded under the current 2014-2020 Multiannual Financial Framework (MFF) until their closure.

This means that the vast majority of programmes will continue to receive EU funding across the programme’s lifetime. In many cases, funding will continue until after 2020 and the end of the transition period. In addition, UK organisations can continue to bid for new grant funding under the current MFF.

More information on the continued UK participation in EU Programmes can be found at the following [website link](#).

1.1 National Context

This priority axis aims to increase participation in the labour market and thereby improve social inclusion and mobility. It will support activities through:

Investment priority: 1.1 - Access to employment for job seekers and inactive people, including the long term unemployed and people far from the labour market, also through local employment initiatives and support for labour mobility

ESF will not fund activity that duplicates or cuts across national policy on grants and loans for tuition for skills activities. Exemptions to this principle will be considered only where a local specific need and/or market failure has been demonstrated and where the activity falls within the scope of the Operational Programme.

Full details of what can and cannot be supported under this Investment Priority are set out in the Operational Programme. Details of the specific objectives have been reproduced below.

Specific Objective	Results that the Member States seek to achieve with Union support
To improve the employability of long-term unemployed people, so that they can compete effectively in the labour market.	This specific objective is focused on those who are long-term unemployed and who are less likely to move back into work than people who have been unemployed for less time. The additional support from this investment priority will help long-term unemployed people to tackle their barriers to work and move into sustainable employment. The main result target focuses on moving participants into employment (including self-employment) on leaving. There will be a quantified result target set for this result indicator in each category of region.
To provide individuals from groups which face particular labour market disadvantage with additional support so that they can compete effectively in the labour market.	This objective is focused on those who are unemployed but have more than one major barrier to progressing into employment (including self-employment) and sustaining employment. This client group will be more challenging to help and will often require intensive ongoing support to address complex barriers, which will be reflected in the targets. Support will be tailored to individual needs. Participants will include individuals who are over 50, lone parents, disabled or have health problems, from ethnic minorities or who lack basic skills. The main result targets focus on moving participants into employment or into education/training or getting them involved in active job search. Output targets will ensure we are reaching appropriate numbers of participants from these groups.

<p>To encourage inactive people to participate in the labour market and to improve their employability.</p>	<p>This objective is focused on individuals who are distant from the labour market and who need additional support to give them the skills and/or confidence to enable them to move towards employment (including self-employment). Participants will include individuals who are lone parents, disabled or who have health problems, are over 50 or who are from ethnic minorities. The priority will be on those who are receiving inactive benefits. The main result that will be achieved is that inactive participants will engage more in the labour market. A specific output target will ensure we are targeting inactive people, and we have result targets to measure movement into work and increases in activity.</p>
<p>To address the basic skills needs of unemployed and inactive people so that they can compete effectively in the labour market.</p>	<p>This objective is focused on individuals who lack the basic skills required by employers, such as IT, literacy and numeracy. Participants will have the opportunity to gain basic skills relevant to labour market needs or to enable them to progress towards gaining further skills. The main result will be that those without basic skills will be helped to gain them. This will enable them to play a fuller part in the labour market. There is an output target for participants without basic skills and a result target for participants gaining basic skills.</p>
<p>To provide support for women at a disadvantage in the labour market, and particularly those who are currently inactive, to contribute to our efforts to reduce the gender employment gap.</p>	<p>The additional support from this investment priority will help more unemployed and inactive women to complete effectively in the labour market. It will be focused on engaging and providing additional support to women who have barriers to entering the labour market, including language, skills, age and caring responsibilities. Participants could include older women wishing to return to work after caring for children, lone parents or women from ethnic minorities who have never worked. The main result that will be achieved is that more participants will be in sustainable employment (including self-employment) or engaged in active job search on leaving. There is a stretching output target for female participation and a result target for participants with childcare needs receiving childcare support.</p>

1.2 Local Development Need

Projects must deliver activity which directly contributes to the objectives of Priority Axis 1, Investment Priority 1.1 of the Operational Programme, and which meets the **local development need** expressed in the text and table below.

Local Priorities:

After a sustained period of growth and development, the Liverpool City Region economy has much to protect and more to contribute.

The City Region has, in the last 10 years, reduced the unemployment rate from well above, to just below, the national level; developed an internationally-popular culture and visitor economy; seen the universities act as major investors and civic leaders; expanded the port; developed a fast growing social economy and progressed nationally recognised strengths in material science, infectious diseases control and high performance computing.

The Liverpool City Region plan before COVID-19 was to expand these strengths and to tackle head-on the long-standing health and equality issues that, for too long, have held back potential. These issues mean that COVID-19's impact is more severe in the City Region than elsewhere. As a significant economy in the North West of England, the City Region plays an important role in delivering a recovery that reduces regional inequalities.

The composition of Liverpool City Region's economy makes the recovery even more challenging. The City Region's economy relies heavily on the visitor and cultural economy and large manufacturing base. These sectors have been severely impacted in the initial period of the pandemic (Figure below) and both will require reorientation in the later stages through to recovery. Businesses in the visitor and cultural economy will have to respond to new social distancing requirements, reduced visitor numbers and continued uncertainty.

During the first week of social restrictions, 96% of businesses surveyed in the City Region had already been impacted by COVID-19, with over 70% experiencing a decrease in revenue. Despite the efforts of national programmes, not all businesses will survive.

The anticipated impacts of the pandemic on people in the City Region are considerable without intervention. Over 150,000 employees have been supported through the Job Retention Scheme and around 40,000 are supported through the self-employment scheme. Early evidence is showing that people are being transferred from the job retention scheme to redundancy and there is a real risk that this will increase at a rate which is beyond the capacity of the local economy to respond. The number of claims for Universal Credit rose 63% in the Liverpool City Region between March and April 2020, and 74% since April 2019. We anticipate long-term unemployment to be higher in the City Region as a result of:

- the number of people employed in sectors that are facing the biggest pandemic related disruption (49% of the workforce is in sectors forecast to decline by at least 50% in the first half of 2020);
- the acceleration of automation and high prevalence of workers in occupations at risk of automation; and
- the high proportion of workers in the City Region with no qualifications who are more at risk of unemployment.

This is a challenge for both those who will become newly unemployed, in addition to the 31,000 residents already seeking work prior to the pandemic. The latter now face increased competition for limited jobs and risk being pushed further from the prospect of employment. Immediate support for both groups of people is a necessity. There are some groups and people who find it harder to get into work, including people with disabilities and those from BAME backgrounds: additional targeted support is needed to help them into work, as well as working with businesses to make the workplace culture more inclusive and welcoming. There is also emerging evidence that women have been disproportionately impacted by Covid-19, with caring responsibilities being unevenly distributed and decisions on furlough not taking this into consideration.

This must be set against the latest job vacancies data which shows a 55% fall in the number of vacancies in Liverpool City Region. There will be significantly increased competition for fewer jobs, making it harder for those further away from the labour market to get into work. While this trend will not be unique to the City Region, its impact may be felt harder. The pandemic has exposed health inequalities across every part of the country. Health outcomes in the City Region are particularly stark and among the poorest in the country. This inhibits the number of people able to work either directly or through caring responsibilities, and is a social, economic and financial challenge that will only worsen as a result of the pandemic. The high prevalence of long-term conditions such as chronic obstructive pulmonary disease, asthma, heart disease and chronic kidney disease increases the risk of long-term complications from COVID-19. The disproportionately high number of deaths in the Liverpool City Region also increases the mental health impact the pandemic will have on the City Region's residents.

Call Outline

This call addresses the needs of unemployed people at a moment when vacancies are at record lows, whilst unemployment is at record recent highs. Subsequently, competition for jobs is extremely high, the additional support for these unemployed people will help level up the opportunities for them.

The call particularly addresses the need to support large numbers of unemployed people who will be joined by new entrants to the labour market fresh from education, and very often other recently unemployed people with demonstrable skill sets and experience.

The additional funding will see unemployed people, who have been especially impacted by COVID-19 with tailored, targeted one-to-one support to wrap-around services, in ways that aids recovery by:

- Providing individual targeted support to unemployed people to help them identify, prepare for, and secure employment opportunities.
- Working closely with local employers and skills providers, aligning support to vacancies and skills shortages.

This support should be bespoke, personalised and flexible, meeting the needs of adults. It would be expected that this would target support on those residents who need additional support for a range of reasons, to include those with health conditions, carers, single parents or those who have been out of work for a long time. This would promote a

range of options to help adults into work, to include information, advice and guidance, volunteering, work experience and additional training, and would need to be integrated with other support packages in place.

Before the pandemic, local provision was already delivering a number targeted interventions, including employment support programmes, improving links between businesses, schools, colleges, training providers and universities in order to embed job needs in all areas of the curricula; and developing a local talent pipeline, ensuring that learners and young people are developing the skills they need for the future. However, evidence shows the huge people challenges the City Region faces as a result of the pandemic. These challenges require local interventions to be ramped up if the City Region is to continue its trajectory of economic renaissance. This Call proposal directly addresses the Liverpool City Region Recovery Plan. See attached for reference.

https://assets.publishing.service.gov.uk/media/600e9682e90e071433ef8c06/LCRCABB_2020.pdf

The preference is to award a single contract covering the Liverpool City Region LEP area.

Consortia/Partnership Applications

Applications are encouraged from consortia or other similar types of partnership arrangements. In each such case the application must be completed and submitted in the ECLAIMS IT system by the lead organisation on behalf of the partnership/consortia. The lead applicant must have the financial capacity to meet the required Due Diligence criteria and, if ESF funding is awarded, this organisation will then become the lead Grant Recipient, accountable for delivery of the overall ESF Project.

Details of the local ESIF Strategy can be found at: <https://www.liverpoollep.org/wp-content/uploads/2015/06/Final-ESIF-Strategy-4-February-2016-to-DCLG.pdf>

1.3 Scope of activity

This call invites Full Applications which support the delivery of Priority Axis 1, **Investment Priority: 1.1 Access to employment for jobseekers and inactive people** of the European Social Fund Operational Programme and responds to the

local development need set out in the Liverpool City Region Local Enterprise Partnership Area European Structural and Investment Funds Strategy.

This call aims to address the identified shortfalls listed in section 1.2 Local Development Need above.

2. Call Requirements

All applications are competitive.

<p>Indicative Fund Allocation:</p>	<p>Indicatively, through this call the Managing Authority expects to allocate approximately £6,538,105 ESF</p> <p>Approximately - £6m allocated to the Transition Region</p> <p>Approximately - £538,105 allocated to the More Developed Region</p> <p>The Managing Authority reserves the right to decrease or increase the indicative allocation, or support more or fewer projects subject to the volume and quality of proposals received. The managing authority may also decide to place some projects submitted through this call on a reserve list and invite them to proceed at a later date, subject to the availability of funding.</p>
<p>Minimum application level</p>	<p>European Social Fund investment is intended to make a significant impact on local growth. Applications are expected to demonstrate appropriate scale and impact.</p> <p>The Managing Authority does not intend to allocate less than £2m of ESF to any single project covering both Categories of Region</p> <p>The preference is to award a single contract.</p> <p>Applications requesting an ESF amount below the 'Minimum Application Level' will be rejected.</p> <p>The minimum project size for both ESF & match funding, is dependent on the intervention rate determined by Category of Region (CoR) 60% Transition Region & 50% More Developed Region.</p> <p>As Liverpool City Region LEP area spans two CoR – Transition and More Developed applicants will need to make it clear in their online Full Application how much of their requested project funding applies to each CoR and</p>

	ensure that output and result figures are recorded for both CoR.
Duration of project	<p>Projects must be financially completed (i.e. have a proposed Financial Completion Date) no later than 31st December 2023; however, the Managing Authority reserves the right to vary the maximum duration in exceptional circumstances</p> <p>All ESF Projects must complete delivery by 31st December 2023. Project costs cannot be incurred beyond this date.</p> <p>NOTE: Delivery of activities and associated costs can be incurred up to and including 31st December 2023, with the full and final claim expected no later than February 2024.</p>
Geographical Scope	All interventions should be focused on activity and beneficiaries within the Liverpool City Region Local Enterprise Partnership area.
Specific call requirements	This is a call for ESF activity.
Call Deadlines	<p>For this specific call, applications will be appraised following closure of the call. Applications submitted to the Managing Authority via the ECLAIMS IT system after midnight on the published call close date will not be considered.</p> <p>If you encounter any technical difficulties completing or submitting your Full Application via ECLAIMS, please send an email to E.CLAIMSSUPPORT@DWP.GOV.UK .</p> <p>Technical support is available Monday to Friday, from 8am to 6pm.</p> <p>It is your responsibility to submit your application in good time to allow time to resolve any technical issues. Except in the unlikely event that there is a general failure of the system in the final hours, we will not normally extend the deadline for technical issues.</p> <p>If you do not already have ECLAIMS access, to avoid any unnecessary delays in submission of your Full Application, it is recommended that you submit new ECLAIMS access requests as early in the application process as possible by sending an email to E.CLAIMSSUPPORT@DWP.GOV.UK</p>

	The Managing Authority reserves the right to reject applications which are incomplete or not submitted in a timely and compliant way.
Application selection	<p>All applications will usually be scored in line with the ESF scoring criteria, but the MA reserve the right to offer ESF funding where a project complements other activity or provides niche activity to target groups within the ESF Operational Programme.</p> <p>However, the Managing Authority reserves the right to assess applications from existing Grant Recipients via the Project Change Request route where appropriate, as set out in the 'Call Context' section of this specification.</p>
Applicant proposals	These can only contain activities which are eligible for ESF.
Eligible match funding	<p>Applicants will need to have eligible match funding for the balance of costs, which must be from a source other than the European Union. The applicant will need to provide information to demonstrate that the operation is likely to have the required level of match funding in place at the point of formal approval.</p> <p>The intervention rate in the Liverpool City Region LEP Area is 50% in the More Developed areas and 60% in the Transition areas, so 50% of match funding must be provided in the More Developed areas and 40% of match funding must be provided in the Transition areas.</p>
Procurement	All procurement must be undertaken in line with EU regulations.
State Aid law	Applicants must demonstrate compliance with State Aid law.
Audit/ Compliance	All expenditure and activities will be subject to rigorous audit and non-compliance may lead to financial penalty.

ESF cannot be used to duplicate existing activities or activities that do not address market failure. ESF can only be used to achieve additional activity or bring forward activity more quickly. Applicants must be able to demonstrate that proposals are additional to activity that would have occurred anyway or enables activity to be brought forward and delivered more quickly than otherwise would be the case in response to opportunity or demand.

3. Deliverables required under this Call:

Applications will be expected to achieve the minimum indicative level of Programme Deliverables by contributing to the following Investment Priority. The definitions of which can be accessed at the [ESF Operational Programme](#).

Investment Priority	1.1 Access to employment for jobseekers and inactive people
Specific Objectives	To help those who are disadvantaged but still relatively close to the labour market to tackle their barriers to work, and enter and sustain employment.
Indicative Actions	<p>ESF will not support activities that duplicate or replace existing support within national programmes, but may be used to support additional activities or target groups, including provision co-designed with local partners.</p> <p>Examples of actions which may be supported for all unemployed and inactive people include:</p> <ul style="list-style-type: none"> • additional and innovative approaches to pre-employment training, to ensure individuals have the core work-related skills that employers require, including preparation for apprenticeships; • support for those who need pre-traineeship and pre Work Programme assistance, to prepare them for the next step. • training for those who need to upgrade their skills or learn new skills (including basic skills and English for non-speakers) to compete in the local labour market and adapt to changes in the economy; • helping people access or benefit from apprenticeships, including support for women to enter non-traditional sectors which addresses barriers to entry (e.g. construction); • providing access to transport where this is a barrier to taking up a job; • providing advice, guidance and support by plugging gaps in national provision where appropriate, in order to help people, make better informed choices, and in particular to take account of the jobs available in the local area; • specific careers advice for women, to help them make informed career choices; • using self-employment as a route out of worklessness, including providing advice and support for self-employment (an attractive option where an individual is struggling to find work with an employer, either because they lack experience or because they face discrimination).

Results Table – More Developed and Transition areas

NOTE: When recording your quarterly profile figures for each Results in ECLAIMS, please ensure you select the Result with the correct, relevant Category of Region suffix i.e. L = Less Developed, T = Transition, MD = More Developed.

ID	Result Indicator	Minimum Target value for this call
R1	Unemployed participants into employment (including self-employment) on leaving (T)	22%
R2	Inactive participants into employment, or job search on leaving (T)	33%
R3	Participants gaining basic skills (T)	4%
R4	Participants with childcare needs receiving childcare support (T)	36%
ESF-CR06	Participants in employment, including self-employment, 6 months after leaving (T)	34%

Outputs table – Transition area

NOTE: When recording your quarterly profile figures for each Output in ECLAIMS, please ensure you select the Output with the correct, relevant Category of Region suffix i.e. L = Less Developed, T = Transition, MD = More Developed.

ID	Output Indicator	Total Minimum target value for this call
O1	Participants	5747
O1	Participants (Male)	2989
O1	Participants (Female)	2758
ESF –CO01	Unemployed, including long-term unemployed	3809
ESF – CO03	Inactive	1938
O4	Participants over 50 years of age	1074
O5	Participants from ethnic minorities	468
ESF - CO16	Participants with disabilities	1415
O6	Participants without basic skills	1022
ESF - CO14	Participants who live in a single adult household with dependent children	784

Outputs table – More Developed area

NOTE: When recording your quarterly profile figures for each Output in ECLAIMS, please ensure you select the Output with the correct, relevant Category of Region suffix i.e. L = Less Developed, T = Transition, MD = More Developed.

ID	Output Indicator	Total Minimum target value for this call
O1	Participants	641
O1	Participants (Male)	333
O1	Participants (Female)	308
ESF –CO01	Unemployed, including long-term unemployed	429
ESF – CO03	Inactive	212
O4	Participants over 50 years of age	118
O5	Participants from ethnic minorities	128
ESF - CO16	Participants with disabilities	151
O6	Participants without basic skills	113
ESF - CO14	Participants who live in a single adult household with dependent children	80

Outputs and Results Rationale

Applicants must explain in detail in their Full Application how they have estimated each of the outputs and results for their project, demonstrating clearly how each of the proposed outputs and results directly link to their specific project activities and objectives. The related output and results figures need to be consistent e.g. there should not be more 'Inactive Participant' forecast results than actual Inactive Participants recorded as taking part in the ESF Project in the forecasted output figures.

Applicants must also explain their approach for forecasting each deliverable; including the specific base-lining/research they have undertaken to ensure their projected profiles are realistic and achievable and any assumptions they have made which impact on their forecasts.

Where an applicant is proposing one or more output or result figures below the expected minimum target value for this call, an explanation must also be provided by the applicant in their Full Application.

ESF Outputs and Results Indicator Definitions Guidance is available on GOV.UK [here](#).

Applicants will also need to ensure robust systems are in place, and be able to describe them, to capture and record the targets and to report quantitative and qualitative performance across the Liverpool City Region LEP area. All operations will be required to collect data and report progress against the deliverables with each

claim. Where an operation underperforms against their deliverables they may be subject to a performance penalty.

There must be a fully evidenced audit trail for all contracted deliverables.

4. General Information

Essential information to support the drafting of an application and delivery of a successful ESF funded project is available at the [European Growth Funding](#) website pages.

4.1 Compliance and Eligibility

When developing an application, Applicants should refer to [guidance](#) on eligible Applicants, activities and costs. These are for guidance only and Applicants should take their own specialist advice if in doubt. It is the responsibility of the Applicant to ensure that the rules and guidance are adhered to both at application stage and following approval.

European Structural Investment Funds (ESIF) are governed by European regulations and national rules. Applicants are advised to familiarise themselves with the relevant documentation listed in the 'Document Checklist' (Section 8 of this call specification) prior to completing and submitting their Full Application in the ECLAIMS IT system. If successful, Applicants will enter into the standard Funding Agreement and must abide by the standard terms and conditions contained therein. Applicants are therefore strongly advised to read these terms and conditions to ensure that they would be able to enter into such an agreement prior to responding to the call. Once a Funding Agreement has been issued it should be signed and returned within a short timescale.

4.2 Intervention Rate & Match Funding

ESF is funding used where no other funding can be obtained (the funder of last resort) and the maximum ESF intervention rate for the operation is 60% (depending on category of region). This means ESF can contribute **up to 60%** for the Transition area and up to 50% in the More Developed area of the total eligible project costs, subject to State Aid regulations. The remaining 40% in the Transition area and 50% in the More Developed area or more must come from other eligible sources. For all full applications, the applicant will need to provide information to demonstrate that the operation is likely to have the required level of match funding in place at the point of formal approval.

ESF is not paid in advance and expenditure must be defrayed prior to the submission of any claims. Applicants may be asked to demonstrate how they are able to cash flow the operation.

4.3 Applicants

Applicants must be legally constituted at the point of signing a Funding Agreement, and be able to enter into a legally binding Funding Agreement. The Applicant will be the organisation that, if the application is successful, enters into a contract for ESF and therefore carries the liability for ensuring that the terms of the ESF Funding Agreement are met by them and to all delivery partners. If there is more than one

organisation applying for the funds, a lead organisation must be selected to become the Applicant. It is this organisation that carries the responsibility and liability for carrying out a compliant project.

The Managing Authority will consider the Applicant's track record, both positive and negative. If the Applicant has been involved in the delivery of previous European grants and any irregularities with this (these) grant(s) have been identified, the Managing Authority will look into these and expect to see how and what steps have been taken to ensure that these have been addressed to mitigate the risk of further irregularities in the future. It is acknowledged that some organisations will be new to ESIF funding and will not have a track record.

4.4 Cross Cutting Themes

All applications received under this Call should demonstrate how the Cross Cutting Themes have been addressed in the project design and development. Cross cutting themes for ESF are 'gender equality and equal opportunities' and 'sustainable development'.

For ESF, the project applicants will be required to deliver their services in-line with the Public Sector Equality Duty (as defined in the Equality Act 2010). All projects must have a gender and equal opportunities policy and implementation plan which will be submitted at full application stage and in-line with Managing Authority guidance. Project applicants will also be required to answer a number of ESF-specific equality questions which will be set out in both the Full Application screens in the ECLAIMS IT system and the related ESF Online Full Application guidance.

For ESF, all projects will also be required to submit a sustainable development policy and implementation plan (in-line with guidance produced by the Managing Authority).

The ESF programme particularly welcomes projects that have an environmental focus that can meet the strategic fit at local and programme level whilst also adding value by:

- supporting environmental sustainability; and/ or
- complementing the environmental thematic objectives of other programmes such as ERDF; and/or
- using the environment as a resource to help motivate disadvantaged people

Further information is available in the [ESF Operational Programme](#) and in ESF Action Note 019/18: [New Assessment Scoring Procedures for Equality and Sustainable Development in ESF](#).

4.5 State Aid & Revenue Generation

Applicants are required, in the Full Application, to provide a view on how their proposal complies with State Aid law. Applicants must ensure that projects comply with the law on State Aid.¹ Grant funding to any economic undertaking which is state

¹ Article 107(1) of the Treaty on the Functioning of the European Union provides that: "Save as otherwise provided in the Treaties, any aid granted by a Member State or through state resources in any form whatsoever which distorts or threatens to distort competition by favouring certain

aid can only be awarded if it is compatible aid, in that it complies with the terms of a notified scheme or is covered by the De Minimis Regulation.

Guidance for grant recipients, explaining more about State Aid, is available; it is important that Applicants take responsibility for understanding the importance of the State Aid rules and securing their full compliance with them throughout the project, if it is selected into the Programme.

The Managing Authority is not able to give legal advice on State Aid. It is the responsibility of the Applicant to ensure that the operation is State Aid compliant. Where the Applicant does not perceive that there is any State Aid, it should state whether or not it considers Articles 61 and 65(8) of regulation 1303/2013 to apply. This revenue should be taken into account in calculating eligible expenditure. Article 61 refers to monitoring revenues generated after completion of the project, and Article 65(8) how to deal with differences in the forecast and actual revenues at the end of the operation. The details of this will be tested at the full application stage.

4.6 Funding Agreement

The Funding Agreement is a standard, non-negotiable and legally binding document. Any successful Applicant will be subject to the terms and conditions contained within this agreement. Applicants are strongly advised to seek their own advice to ensure that they would be able to enter into and abide by the terms of the Funding Agreement.

Failure to meet any of the conditions of the agreement or the commitments within the application will result in claw back of funding.

Applicants should be aware that additional provisions and securities may be included within the Funding Agreement to protect the investment. These will be further discussed if relevant following the Full Application stage.

4.7 Procurement

All costs delivered by the Grant Recipient (the applicant) and/or delivery partners must be delivered on an actual cost basis. Other costs must be procured in line with EU regulations. The most common error identified during audit has been failure to comply with relevant procurement regulations and crucially to maintain a full audit trail to prove that they have complied with the relevant regulation. Robust and transparent procurement is required to ensure that Grant Recipients:

- consider value for money;
- maximise efficient use of public money; and
- maintain competitiveness and fairness across the European Union.

It is recommended that applicants seek their own legal advice pertaining to their procurement and requirements to publicise any tendering opportunities.

undertakings or the production of certain goods shall, in so far as it affects trade between Member States, be incompatible with the internal market.”

The Managing Authority is not able to give legal advice on procurement. It is the responsibility of the applicant to ensure the project is compliant in this respect.

4.8 Retrospection

There will be no retrospection for applications made against this call.

For organisations applying for ESF funds through the Single-Stage Application process, the effective date for incurring eligible ESF expenditure will be the day after the relevant open call closing date. Any expenditure incurred by an ESF Direct Bid project prior to this date is ineligible.

However, any expenditure incurred by an ESF applicant, up to and including the date on which an ESF Funding Agreement is fully executed, will be at the applicant's own risk.

4.9 Duplication of Provision

Applicants are required, in their Full Application, to “identify any organisations offering the same or similar activity” as their proposed project. Applicants are also asked to “explain how the proposed project adds value to and doesn't duplicate existing provision, and does not conflict with national policy”.

To help inform their response, applicants should access the ESF List of Beneficiaries published on GOV.UK - <https://www.gov.uk/government/publications/european-structural-and-investment-funds-useful-resources> and search for any other ESF funded projects operating under the same Investment Priority in the same geographical area(s) as their proposed ESF Project.

Where there is potential duplication and/or overlap, the applicant should ensure they explain how they will work with any other pre-existing ESF Projects to ensure their new project will add value and not conflict with existing provision.

5. Application Process & Prioritisation Methodology

The ESF application process is a single-stage process – Full Application only.

Applicants must fully complete the Full Application information required in the ECLAIMS IT system (section 9 refers).

The ESF Online Full Application Guidance for Applicants, is available on the [European Growth Funding](#) website pages – this document includes step-by-step details of how to record your Full Application information in the ECLAIMS IT system, as well as guidance on the depth and content expectations.

Following the call closing date, applications will usually first be subject to a Gateway Assessment undertaken by the Managing Authority under the following criteria:

- Applicant eligibility;
- Activity and expenditure eligibility; and
- The fit with the ESF Operational Programme and the call.

Proposals that pass the Gateway Assessment will move into the Core Assessment which consists of the following:

- Strategic fit;
- Value for money;
- Management and control;
- Deliverability;
- Procurement / tendering; and
- State Aid compliance.

The Managing Authority will seek advice from partners when considering applications to ensure its appraisal is informed by local economic growth conditions and opportunities within the context of Operational Programmes and the local ESIF Strategy. This will include the relevant LEP Area ESIF Committee and other partners deemed relevant to the application.

The appraisal and any prioritisation will be undertaken using only the information supplied as part of the application process. The Managing Authority cannot accept further detail outside this process.

However, the Managing Authority reserves the right to assess applications from existing Grant Recipients via the Project Change Request route where appropriate, as set out in the 'Call Context' section of this specification.

Non-public sector Applicants may be subject to due financial diligence checks. Applicants will be required to submit accounts, and to clarify financial or other organisational information. New Applicant organisations may be required to provide details of a guarantor.

If, following the appraisal process, an applicant is not satisfied with the ESF funding decision for their project, they can submit an appeal in writing to the ESF Managing Authority.

6. Technical Support

All Full Applications for this call **must** be completed and submitted using only the ECLAIMS IT system. Applications submitted via any other method will not be accepted.

If you encounter any technical difficulties completing or submitting your Full Application via the ECLAIMS IT system, please send an email to: E.CLAIMSSUPPORT@DWP.GOV.UK

It is your responsibility to submit your application in good time to allow time to resolve any technical issues. Except in the unlikely event that there is a general failure of the system in the final hours, we will not normally extend the deadline for technical issues.

Technical support is available Monday to Friday, from 8am to 6pm.

Please retain evidence of your request(s) for any Technical Support, in case there are any issues arising around this element of the application process which may need further investigation.

Please also note that, as this is a competitive call and to preserve impartiality, other than providing Technical Support, we are unable to enter into correspondence with applicants over their Full Application prior to the call closing date. Details of where guidance can be found are contained throughout this calls document.

7. Key Reference Documents

When developing your Full Application, it is recommended that you refer to the following documents as a minimum:

- ESF Online Full Application Guidance;
- Local Enterprise Partnership area's ESIF strategy;
- [ESF National Eligibility Rules and Programme Guidance](#);
- [ESF Programme Guidance on Simplified Cost Options](#).

8. Full Application – Supporting Document Checklist

The appraisal will be undertaken on the basis of the Full Application information submitted by the applicant using the ECLAIMS IT system, together with any supporting documents uploaded into ECLAIMS IT system by the applicant at the point of closure of the call.

As a minimum, applicants should upload the following documentation into the ECLAIMS IT system alongside completion of the required Full Application screens/fields in ECLAIMS.

Failure to upload the requested documentation could result in the application being rejected.

The ESF Online Full Application Guidance explains how documents should be uploaded into ECLAIMS and Annex B of the same guidance explains the naming conventions to be used for each document.

Mandatory Supporting Documents

1. A **visual, high level customer journey** document e.g. flow chart;
2. **Confirmation of match funding** from each funder. Match-funding should be confirmed (with the exception of SME contributions) prior to the issuing of any Funding Agreement;
3. **Detailed Granular Budget breakdown** (All costs must be itemised, eligible, appropriate for the project and profiled across the project period. The granular budget should also include all hourly rate figures, per job role, for staff working part-time or part of their time on the ESF Project – calculated using the 1720 hour rate calculation set out in the [Simplified Cost Options Guidance](#) on GOV.UK. This includes match-funded staff roles);
4. **Equality & Diversity Policy and Implementation Plan** this can be a single, combined document or 2 separate documents. (Applicant is responsible for ensuring that Delivery partners also hold relevant policies);
5. **Sustainability Policy and Implementation Plan** this can be a single, combined document or 2 separate documents. (Applicant is responsible for ensuring that Delivery partners also hold relevant policies);
6. **Job Descriptions** at least 1 per lead applicant and 1 per each Delivery Partner;

7. **Organogram** covering all staff, including any delivery partner and/or match-funded staff posts;
8. **Sample HR letter** as per the requirements set out in the [ESF National Eligibility Rules and Programme Guidance](#) on GOV.UK;
9. **Project level risk register** (this should cover areas such as financial risk, output risks, delivery risks etc. please ensure that the register covers how these risks will be managed and mitigated);
10. **Anti-Fraud Statement** (a statement on how you will deal with suspected fraud in your organisation and if appropriate, with your sub-contractors);
11. **Due Diligence Financial Information.** If your organisation is a private or voluntary and community sector organisation or a Further Education College, you must upload:
 - Financial accounts for the most recent 3 years;
 - Proof of existence - Certificate of Incorporation, Charities Registration, VAT Registration Certificate or alternate form of incorporation documentation;
 - Proof of trading - Financial Accounts/Statements for the most recent two years of trading including, as a minimum, Profit and Loss Account and Balance Sheets;
 - Completed FVRA Applicant Template (for applications requesting annualised funding of greater than £1m).

Optional Supporting Documents

12. **Recruitment Policy** this can be a single, combined document or 2 separate documents. (Applicant is responsible for ensuring that Delivery partners also hold relevant policies);
13. **Sample Timesheet** applicable if you or your Delivery Partners have members of staff working part of their time on your ESF Project;
14. **Procurement policy** applicable if your ESF project is expecting to incur procurement costs from existing or future procurements and you are **not** intending to use the 40% Flat Rate Indirect Cost option;
15. **Retention Policy** this can be a single, combined document or 2 separate documents. (Applicant is responsible for ensuring that Delivery partners also hold relevant policies);
16. **Draft SLA with Delivery Partners** applicable if your ESF Project will have one or more Delivery Partners;
17. **Independent state aid advice** applicable only if you have obtained independent advice to support your quoted ESF project State Aid position;
18. **Proof of Irrecoverable VAT** applicable only if you have Irrecoverable VAT which is relevant to your ESF Project

NOTE: The ECLAIMS IT system can accept most standard Office file formats such as MS Word documents and excel documents in the format xlsx.

However, documents which contain macros cannot be uploaded into the ECLAIMS IT system.

In addition, the ECLAIMS IT system cannot accept tables, graphics or other visuals in the narrative fields within the Full Application screens. If you wish to include this type of information as part of your Full Application, you will need to upload this information as part of a supporting document.

9. Full Application Submission

Completed Full Applications must be submitted to the ESF Managing Authority via the ECLAIMS IT system.

Although the ECLAIMS IT system is designed to be intuitive, it is strongly recommended that you closely follow the steps in the [ESF Online Full Application Guidance](#), published on GOV.UK to give the best chance of you submitting a fully completed, compliant Full Application.

The Managing Authority reserves the right to reject applications which are incomplete or not submitted in a timely and compliant way.

10. Accessing ECLAIMS

If you do not already have access to the ECLAIMS IT system, please send an email to E.CLAIMSSUPPORT@DWP.GOV.UK as soon as possible.

You should complete a form for **each** individual person in your organisation who will be responsible for completing and/or submitting your Full Application.

Each new ECLAIMS user will then receive an email from an organisation called Datamart – this will contain their unique log-in details. The user will need to follow the instructions within the email to change their password in the first instance. They will then be able to access and use the ECLAIMS IT system.

NOTE: To avoid any unnecessary delays in submission of your Full Application, it is recommended that you submit new ECLAIMS IT system access requests as early in the application process as possible.

The ECLAIMS IT system is a web based application available through the following link. It is recommended that you use the Chrome browser to access the ECLAIMS IT system, or if this isn't available, Firefox.

<https://eclaims.communities.gov.uk/esif-web/>

11. Timescales

Launch of Call advertised on GOV.UK.	3 March 2021
Deadline for submission of Full Application via the ECLAIMS IT System	Midnight 28 April 2021

For this call applications will normally be required to **commence delivery/activity within three months** of the award of contract.

Any changes related to the deadline for the submission of the Full Application will be notified on the [European Growth Funding](#) website pages.

12. Appendix A – Common output indicators

Appendix A – extract from Annex 1 of the ESF regulation

Common output and result indicators for ESF investments

(1) Common output indicators for participants

"Participants" refers to persons benefiting directly from an ESF intervention who can be identified and asked for their characteristics, and for whom specific expenditure is earmarked. Other persons shall not be classified as participants. **All data shall be broken down by gender.**

The common output indicators for participants are:

unemployed, including long-term unemployed
long-term unemployed
inactive
Inactive, not in education or training
employed, including self-employed
below 25 years of age
above 54 years of age
above 54 years of age who are unemployed, including long-term unemployed, or inactive not in education or training
with primary (ISCED 1) or lower secondary education (ISCED 2)
with upper secondary (ISCED 3) or post-secondary education (ISCED 4)
with tertiary education (ISCED 5 to 8)
participants who live in jobless households
participants who live in jobless households with dependent children
participants who live in a single adult household with dependent children
ethnic minorities
Participants with disabilities
other disadvantaged
homeless or affected by housing exclusion
from rural areas

Common immediate result indicators for participants are:

inactive participants engaged in job searching upon leaving
participants in education/training upon leaving
participants gaining a qualification upon leaving
participants in employment, including self-employment, upon leaving
disadvantaged participants engaged in job searching, education/ training, gaining a qualification, in employment, including self-employment, upon leaving

Common longer-term result indicators for participants are:

ESF Call Template – Online Applications

Version 5

Published: 03/03/2021

participants in employment, including self-employment, six months after leaving
participants with an improved labour market situation six months after leaving
participants above 54 years of age in employment, including self-employment, six months after leaving
disadvantaged participants in employment, including self-employment, six months after leaving
