FOR COMPLETION BY: OFFICIAL VETERINARIAN
A RELLENAR POR: VETERINARIO OFICIAL

SUPPLEMENTARY CERTIFICATION IN RESPECT OF SCHMALLEMBERG VIRUS (SBV)
CERTIFICACIÓN SUPLEMENTARIA RELATIVA AL VIRUS DE SCHMALLEMBERG (SBV)

I, the undersigned, further certify in respect of the embryos described in certificate 6620EHC and numbered _____ that / El abajo firmante certifica también, con respecto a los embriones descritos en el certificado 6620EHC con el número _____, que:

A. EMBRYOS IN THIS CONSIGNMENT / EMBRIONES EN ESTE EMBARQUE

* a) the embryos in this consignment were collected before 1 June 2011 / los embriones en este embarque fueron recolectados antes del 1 de junio de 2011;

OR / O BIEN

* b) the donor dams showed no clinical signs of Schmallenberg disease before, during or after embryo collection / las hembras donadoras no presentaron manifestaciones clínicas de la enfermedad de Schmallenberg antes, durante y posteriormente a la recolección de los embriones; AND / Y

the donor dams were subjected to a serological test to detect antibodies to the Schmallenberg virus carried out on a sample taken between twenty one (21) and sixty (60) days following the last collection of embryos in this consignment, with negative results / las hembras donadoras fueron sujetas a una prueba serológica para detectar anticuerpos del virus de Schmallenberg, con resultados negativos, realizada en una muestra tomada entre veintiún (21) y sesenta (60) días después de la última recolección de embriones para este embarque;

OR / O BIEN

* c) the donor dams showed no clinical signs of Schmallenberg disease before, during or after embryo collection / las hembras donadoras no presentaron manifestaciones clínicas de la enfermedad de Schmallenberg antes, durante y posteriormente a la recolección de los embriones; AND / Y

for donor dams that showed positive results to a serological test for SBV, or have an unknown SBV serological status, a sample of whole blood taken on the day of embryo collection has been tested in an officially approved laboratory for the presence of SBV genome by an approved RNA-extraction method and RT-q Polymerase chain reaction (RT-qPCR) test, with negative results / para el caso de hembras
