

Department for
Business, Energy
& Industrial Strategy

The latest provisional monthly energy production, consumption and prices statistics produced by the Department for Business, Energy and Industrial Strategy were released on 25 March 2021.

Energy production and consumption statistics are provided in total and by fuel and provide an analysis of the latest 3 months data compared to the same period a year earlier. Energy price statistics cover domestic price indices, prices of road fuels and petroleum products and comparisons of international road fuel prices.

Energy production and consumption

Highlights for the 3-month period November 2020 to January 2021, compared to the same period a year earlier include:

- **Primary energy consumption in the UK on a fuel input basis fell by 7.3% with a noticeable reduction in petroleum consumption as demand for transport fuels fell due to the Covid-19 pandemic lockdowns. On a temperature adjusted basis consumption fell by 10%. ([table ET 1.2](#) and [table ET 3.13](#))**
- **Indigenous energy production fell by 10% due mainly to maintenance activities, with falls in all fuels except offshore wind, solar and hydro. ([table ET 1.1](#))**
- **Electricity generation by Major Power Producers down 2.8%, with coal down 39% and renewables down 5.4% due to less favourable weather conditions, but gas up 7.9% to meet shortfall.* ([table ET 5.4](#))**
- **Gas provided 42.6% of electricity generation by Major Power Producers, with renewables at 35.5%, nuclear at 17.9% and coal at 3.1%.* ([table ET 5.4](#))**
- **Low carbon share of electricity generation by Major Power Producers down 2.4 percentage points to 53.5%, whilst fossil fuel share of electricity generation stood at 46.1%.* ([table ET 5.4](#))**

*Major Power Producers (MPPs) data published monthly, all generating companies data published quarterly.

Energy prices

Highlights for March 2021 compared to February 2021:

- **Petrol and diesel prices rose by 3.2 and 3.3 pence per litre respectively. ([table QEP 4.1.1](#))**

Data periods and coverage

Statistics on monthly production and consumption of coal, electricity, gas, oil and total energy include data for the UK for the period up to the end of January 2021.

Statistics on average temperatures, heating degree days, wind speeds, sun hours and rainfall include data for the UK for the period up to the end of February 2021.

Statistics on energy prices include retail price data for the UK for February 2021, and petrol & diesel data for March 2021, with EU comparative data for February 2021.

Next release

The next release of provisional monthly energy statistics will take place on 29 April 2021.
