

Insolvency Services and the Insolvency Services Investment Accounts 2019-20

Insolvency Services and the Insolvency Services Investment Accounts 2019-20

Presented to Parliament pursuant to Section 409(4) of the Insolvency Act 1986

Ordered by the House of Commons to be printed on 20 January 2021

The National Audit Office (NAO) scrutinises public spending for Parliament and is independent of government and the civil service. We help Parliament hold government to account and we use our insights to help people who manage and govern public bodies improve public services. The Comptroller and Auditor General (C&AG), Gareth Davies, is an Officer of the House of Commons and leads the NAO. We audit the financial accounts of departments and other public bodies. We also examine and report on the value for money of how public money has been spent. In 2019, the NAO's work led to a positive financial impact through reduced costs, improved service delivery, or other benefits to citizens, of £1.1 billion.

Insolvency Services Account 2019-20

Foreword

1 Statutory background

The Insolvency Act 1986 (“the Act”) requires the preparation of two financial statements:

- The Secretary of State is required to prepare a statement of sums received and paid out by him through the Insolvency Services Account (the ISA) for each year ending 31 March, in such form and manner as the Treasury may direct (Section 409(2) of the Act).
- The Commissioners for the Reduction of the National Debt (CRND) are required to prepare a statement of the sums debited and credited to the Insolvency Service Investment Account (the Investment Account) for each year ending 31 March, in such form and manner as the Treasury may direct (Section 409(1) of the Act).

The Insolvency Services Account (the ISA)

The Insolvency Regulations 1994, as amended, (the Regulations) require Official Receivers and Insolvency Practitioners to pay into the ISA at the Bank of England money received by them in the course of their administration of bankruptcies and compulsory liquidations. Voluntary liquidators may deposit funds into the ISA. The Regulations also provide for payments from the ISA of disbursements, expenses and distributions to creditors and to contributories in company liquidations (Regulations 7, 8, 22 and 23). Estate monies deposited in the ISA are generally transferred to the Investment Account (Section 403(2) of the Act) although the Regulations provide that trustees and liquidators may request investment in Government Securities of estate monies not required for immediate purposes (Regulation 9(1) & 23A).

The Insolvency Service Investment Account (the Investment Account)

This account is kept by CRND at the Bank of England. CRND may invest any money standing to the credit of the Investment Account in accordance with the Trustee Investments Act 1961 and Treasury directions.

Income earned on these investments is used to pay interest and tax under the regulations to individual estates. Investments are realised to make repayments to the ISA to meet the demands in respect of bankrupts’ or companies’ estates. The ISIA account is shown in a separate section of this joint report.

2 General background

The Official Receiver deals with the administration and investigation of all personal and corporate (including partnership) insolvencies arising through orders made via the court or the adjudicator’s office (compulsory insolvencies). Creditors, or the Secretary of State, may appoint an Insolvency Practitioner to take over the insolvency from the Official Receiver to act as trustee in bankruptcy (personal insolvency) or liquidator (corporate insolvency). In either case, the Official Receiver or Insolvency Practitioner must pay any receipts arising in the insolvency into the ISA.

In addition to insolvencies arising through orders made by the court or via the adjudicator, an Insolvency Practitioner may also be appointed to administer a voluntary liquidation. This can be a members’ voluntary liquidation (for solvent companies) or a creditors’ voluntary liquidation (for insolvent companies). Voluntary liquidations do not involve the Official Receiver or the Courts. Insolvency Practitioners appointed to administer voluntary liquidations may make payments into the ISA although the regulations differ to those governing the payments made by trustees and liquidators of compulsory insolvencies. The Insolvency (Amendment) Regulations 2011 which came into force on 1 October 2011 prevents the payment of monies into the Insolvency Services Account except where payments have already been made into the Insolvency Services Account in relation to a voluntary liquidations wound up before 1 October 2011. Unclaimed Monies remains unaffected by this change. The ISA is administered by the Estate Accounts & Scanning (EAS) team of the Insolvency Service.

Aims and objectives

EAS seeks to be a centre of excellence in providing estate accounting and investment services for bankruptcy and liquidation estate funds by:

- Delivering a high standard of service to all users of the ISA
- Listening to the views of users about the administration of the ISA
- Making use of new technology to improve efficiency and extend the range of services provided
- Working with colleagues across the agency minimising the regulatory burden on users of the ISA, within the statutory framework
- Ensuring systems are in place to the correctly apply fees and recover of insolvency fees from estates

As the ISIA is a vital part of delivering the ISA aims and objectives, the key aims and objectives of the CRND relevant to the ISA are:

- To maintain sufficient liquid funds to meet expected payments
- To maintain capital (nominal) cover over the Investment Account's liability to the Insolvency Service
- To invest in secure, short-dated money market instruments and UK Government bonds, to maintain capital value and access to liquidity
- Income earned must, over time, be sufficient to cover the interest due to trustees and liquidators on money deposited with the ISA

3 Review of activities

Transactions

The Insolvency Services Account

Receipts into the ISA increased in 2019-20 by £806 million to £1,306 million (2018-19 £501 million). Payments increased by £659 million to £1,070 million (2018-19 £411 million).

The increases in receipts is partly the result of a higher value of realisations being paid into the ISA account, thereby resulting in a higher value of payments from those monies. Its difficult to equate the movement to specific factors such as case volume or large insolvencies as it relates to realisations of assets on insolvencies made during the reporting period, and insolvencies can span multiple years. There has also been an increase due to £640m cash having been received from HM Government – this was for Official Receiver's costs as liquidator of British Steel and Thomas Cook.

There has been a significant increase in excess receipts over payments this year due to the work being carried out to realise Payment Protection Insurance (PPI) claims. The Official Receiver submitted a high volume of PPI claims and is now engaging with the banking industry and realising the assets prior to making distributions

The Insolvency Service Investment Account (ISIA)

Funds invested by CRND as at 31 March 2020 decreased by £5.5 million to £654.5 million (Note 2). Interest earned on these funds together with interest earned on the ISA working balances is paid to insolvency estates (after meeting interest under Regulation 9 (6) & 23A (6) of the Regulations 1994 amended and associated income tax). During 2019-20 there were no payments out of the surplus on profits on disposals to the Consolidated Fund and the interest earned exceeded the interest payable by £1.2 million. There remains a surplus on interest and profits on disposals in the fund of £20.3 million.

Banking

The Government Banking Service (GBS), part of Her Majesty's Revenue and Customs (HMRC), provides retail banking transactions for the ISA. GBS and its supplier banks are commercially bound by a memorandum of understanding. During the year the payable order system for paper-based payments has continued to deliver a high level of security, with no reported instances of financial fraud. BACS payments are used when sufficient payee information is provided.

Interest Paid to Estates

The rate of interest paid on sums deposited in the ISA changed from 0.75% to 0.25% from 19th March 2020, then from 0.25 to 0.01% from the 25th March to match the Bank of England base interest rate. Interest rate amendments are published in the London Gazette pursuant to Regulation 9 (6B) & 23A (6). The rate of interest is subject to regular review by EAS and the CRND.

Fees

EAS is responsible for ensuring that the correct fees are charged and collected on bankruptcies, compulsory liquidations and any voluntary liquidation holding an account in the ISA.

Fees accrued by the Insolvency Service are shown in separately prepared agency accounts.

Fee recovery increased in 2019-20 by £0.1million to £99.5million from £99.4million in 2018-19

Key Performance Indicators

The key performance indicator of EAS is to ensure 98% of ISA payments are made within 2 working days. In 2019-20, 98.49% of ISA payments were processed within 2 working days.

4 Forward look

EAS has achieved its payment timeliness targets this year and will seek to maintain this high standard of delivery throughout 2020-21.

In quarter four of 2019-20 the Insolvency Service began transitioning the collection of Income Payment Agreements from Clarke Willmott to Indesser. The Insolvency Service previously had an agreement with Clarke Willmott for the collection of monthly payments from income payment arrangements and income payment orders. The transition will continue into 2020-21 with full handover expected to complete in quarter three.

In quarter four of 2019-20 the Insolvency Service started an exercise to collect remaining PPI funds that are due to bankruptcy estates. Due to this activity we anticipated the balance of the ISA increasing significantly over 2019-20. This work has taken longer than expected and it is now anticipated that the funds will be received over an extended period throughout 2020-21. The collection of these monies will then facilitate the payment of dividends to creditors of bankrupt estates.

5 Preparation and audit

The financial statements are prepared by the Insolvency Service (an Executive Agency of the Department for Business, Energy and Industrial Strategy (BEIS)), responsible for administering the accounts on behalf of the Secretary of State. The costs of administering the accounts are borne by the Insolvency Service.

The financial statements are audited by the Comptroller and Auditor General. The audit fee of £17,000 for the audit of the ISA for 2019-20 is included within the £197,000 disclosed in the Agency Accounts.

As far as I, the Accounting Officer, am aware, there is no relevant information of which the auditors are unaware. I have taken all the steps that ought to have been taken to make myself aware of any relevant audit information, and to establish that the auditors are aware of that information.

Dean Beale
Chief Executive

11 December 2020

Statement of the Chief Executive and Comptroller General's responsibilities

Under the Insolvency Act 1986, HM Treasury has directed the Insolvency Service to prepare for each financial year a statement of accounts in the form and on the basis set out in the Accounts Direction. The accounts are prepared on a receipts and payments basis and must properly present of the state of affairs of the Insolvency Services Account, its Receipts and Payments and Statement of Balances for the financial year.

In preparing the accounts, the Accounting Officer is required to comply with the requirements of HM Treasury's Accounts Direction and in particular to:

- observe the Accounts Direction issued, including the relevant accounting and disclosure requirements, and apply suitable accounting policies on a consistent basis;
- make judgements and estimates on a reasonable basis; and
- confirm that the Insolvency Services Accounts (ISA) as a whole is fair, balanced and understandable and take personal responsibility for the ISA and the judgements required for determining that it is fair, balanced and understandable.

The Department for Business, Energy and Industrial Strategy has appointed the Chief Executive as Accounting Officer of the Insolvency Service.

The responsibilities of an Accounting Officer, including responsibility for the propriety and regularity of the public finances for which the Accounting Officer is answerable, and for keeping proper records and for safeguarding the Insolvency Service's assets, are set out in Managing Public Money published by HM Treasury.

As the Accounting Officer, I have taken all the steps that I ought to have taken to make myself aware of any relevant audit information and to establish that the Insolvency Service's auditors are aware of that information. So far as I am aware, there is no relevant audit information of which the auditors are unaware.

Governance Statement

Framework

The Chief Executive (CE) of The Insolvency Service has been designated the Accounting Officer for the Insolvency Services Account (ISA). The Insolvency Act 1986 (the Act) requires the preparation of a statement of sums received and paid out through the ISA for each year ending 31 March, in such form and manner as the Treasury may direct (Section 409(2) of the Act).

As Accounting Officer, the CE has personal responsibility and accountability to Parliament for the organisation and quality of management within the organisation, including its use and stewardship of public assets. This responsibility includes safeguarding public funds and assets, in accordance with HM Treasury guidance, in particular Managing Public Money.

This Governance Statement is prepared specifically for the ISA. The Insolvency Service also prepares a Governance Statement for its Annual Report and Accounts which includes more information about the internal control framework across the whole agency, including the ISA.

Operation

The day to day operation of the ISA is undertaken by Estate Accounts and Scanning (EAS) which is within the Business Services Division (BSD). The Head of EAS has in place systems for communications with all staff, including policy, operational and financial matters, and for informing them of new developments and key issues. The Director of the Business Services Division is part of the Senior Management Team and is subject to the governance and wider control system that is described in the Insolvency Services Annual Report and Accounts 2019-20.

The Insolvency Service seeks advice and a challenge function from its Board, Internal Audit and the Audit and Risk Assurance Committee as and when required. Assurance on control is also gained from internal audit work undertaken during the year.

Risk Management and Internal Control

The system of internal control, managed through BSD, is in place to manage risks to achieving aims and objectives. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of aims and objectives; to evaluate the likelihood and impact of those risks being realised; and to manage them efficiently and effectively. The risks are related to the key targets and priority work areas set out in the EAS section of the Business Plan. Risk is managed by identifying and evaluating risks and implementing appropriate control measures, which are set out in the EAS Risk Register and escalated to the BSD Risk Register as appropriate.

The system of control underpinning the ISA includes:

- a budget and Business Plan which defines priorities, key targets and accountability for delivery;
- systematic identification and management of risks through a Risk Register linked to the Business Plan;
- standardised processes and procedures set out in internal desk instructions;
- segregation of duties in key areas such as post opening and cheque and cash handling;
- system of internal management checks and process audits
- procedures for handling paper valuables and cheques received during post opening to account for all valuable items in a secure way and ensuring there is a clear audit trail; and
- management arrangements including a system of delegated financial authorities for all case related payments made by EAS.

The Business Support Manager in Business Services Division is the Information Asset Owner for all information held by the Division.

The Audit and Risk Assurance Committee is chaired by an appropriately qualified independent NEBM. Its membership comprises two further non-executive Board Members. The Chief Executive and Finance and Commercial Director, and internal and external auditors, attend all meetings. Other Senior Leaders attend as required.

Internal audit is delivered by the Government Internal Audit Agency (GIAA) and their annual audit programme is substantially informed by the agency's key risks, and as such, the 2019-20 Internal Audit Plan delivered by GIAA did not include any work with EAS in relation to the ISA. Assurance on ISA processes and the internal control framework was gained through our in-house internal audit/management check functions.

Risk assessment and issues

The Risk Register for 2019-20 records the main areas of risk to the work of EAS as resourcing, which could result in the inability to maintain sufficient operational controls in the unit. Risk was also identified around the volume of workstreams currently undertaken by EAS, including involvement in high profile cases, Redundancy payments processing and PPI. These risks continued to be addressed during the year and the action taken to mitigate the risks included:

- Recruitment campaigns to fill management posts and embed a new EAS Management team structure to allow for greater control and oversight of key EAS workstreams. This included increasing the complement of C2's from 1 to 2 to support the differing workstreams.
- Use of agency and temporary promotion to fill vacant posts while recruiting.
- Requests through the relevant channels to increase staffing complement at certain grades around Redundancy Payments Processing work, PPI and IVA processing work where volumes have increased.
- Cross training of staff to ensure all processes are sufficiently resourced.
- Prioritisation of work across the various resolver groups in the EAS Team.
- Review of EAS risk register, internal audits and management checks.

The Certificate and Report of the Comptroller and Auditor General to the Houses of Parliament

Opinion on financial statements

I certify that I have audited the financial statements of the Insolvency Services Account for the year ended 31 March 2020 under the Insolvency Act 1986. The financial statements comprise: the Receipts and Payments Account, the Statement of Balances and the related notes, including the significant accounting policies. These financial statements have been prepared under the accounting policies set out within them.

In my opinion:

- the financial statements properly present the receipts and payments of the Insolvency Service Account for the year ended 31 March 2020; and
- the financial statements have been properly prepared in accordance with the Insolvency Act 1986 and HM Treasury directions issued thereunder.

Opinion on regularity

In my opinion, in all material respects the receipts and payments recorded in the financial statements have been applied to the purposes intended by Parliament and the financial transactions recorded in the financial statements conform to the authorities which govern them.

Basis of opinions

I conducted my audit in accordance with International Standards on Auditing (ISAs) (UK) and Practice Note 10 'Audit of Financial Statements of Public Sector Entities in the United Kingdom'. My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of my certificate. Those standards require me and my staff to comply with the Financial Reporting Council's Revised Ethical Standard 2016. I am independent of the Insolvency Service in accordance with the ethical requirements that are relevant to my audit and the financial statements in the UK. My staff and I have fulfilled our other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Chief Executive for the financial statements

As explained more fully in the Statement of Chief Executive's responsibilities, the Chief Executive of the Insolvency Service is responsible for the preparation of the financial statements and for being satisfied that they are properly presented.

Auditor's responsibilities for the audit of the financial statements

My responsibility is to audit, certify and report on the financial statements in accordance with the Insolvency Act 1986.

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs (UK), I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Insolvency Service's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit

I am required to obtain evidence sufficient to give reasonable assurance that the receipts and payments recorded in the financial statements have been applied to the purposes intended by Parliament and the financial transactions recorded in the financial statements conform to the authorities which govern them.

Other Information

The Chief Executive is responsible for the other information. The other information comprises information included in the Foreword, Statement of Chief Executive's responsibilities and the Governance Statement, the financial statements and my auditor's report thereon. My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon. In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Opinion on other matters

In my opinion:

- in the light of the knowledge and understanding of the Insolvency Services Account and its environment obtained in the course of the audit, I have not identified any material misstatements in the Foreword, Statement of Chief Executive's responsibilities and the Governance Statement; and
- the information given in the Foreword for the financial year for which the financial statements are prepared is consistent with the financial statements and have been prepared in accordance with the applicable legal requirements.

Matters on which I report by exception

I have nothing to report in respect of the following matters which I report to you if, in my opinion:

- adequate accounting records have not been kept or returns adequate for my audit have not been received from branches not visited by my staff; or
- the financial statements are not in agreement with the accounting records and returns; or
- I have not received all of the information and explanations I require for my audit; or
- the Governance Statement does not reflect compliance with HM Treasury's guidance.

Report

I have no observations to make on these financial statements.

Gareth Davies
Comptroller and Auditor General

Receipts and Payments for the Year ended 31 March 2020

	Note	2019-20 £'000	2018-19 £'000
Receipts			
On compulsory insolvencies and voluntary liquidations (including realisations of assets of estates and receipts from HM Government)		1,306,355	500,739
Frequent Petitioners	11	3,243	4,528
From the Investment Account	2	906,000	206,000
Unclaimed dividends	6	14,981	11,060
Interest received	3	2,987	1,596
		2,233,566	723,923
Payments			
Payments requested by liquidators and trustees of estates in compulsory insolvency and voluntary liquidation and reissued dividends	5	1,070,142	411,192
To the Investment Account			
Excess cash balances on the ISA	2	900,500	226,000
Interest on ISA working balances	3	292	68
To the Consolidated Fund	7	6,459	1,744
To the Insolvency Service	4	90,000	80,436
		2,067,393	719,440
Excess of receipts over payments	9	166,173	4,483

Statement of Balances as at 31 March 2020

	Note	2019-20 £'000	2018-19 £'000
Balances:			
The Investment Account	2	654,500	660,000
Cash at Bank	9	166,793	620
		821,293	660,620
Representing:			
Insolvency Estates	10	606,949	431,024
Frequent Petitioners	11	(238)	(124)
Fees due to the Insolvency Service	4	135,447	130,356
Due from BEIS		(31,438)	–
Unclaimed Dividends	6	100,013	88,739
Amount due to the Consolidated Fund	7	10,557	10,558
Amounts due to the Treasury Solicitor	8	3	67
		821,293	660,620

The Insolvency Estates line includes balances to be allocated as fees to the Insolvency Service. However, these were not calculated in the current year and therefore will be recognised as such in future years

The notes on pages 14 to 18 form part of these accounts.

Dean Beale
Chief Executive

11 December 2020

Notes to the accounts

1 Accounting Policies

The accounts have been prepared on a receipts and payments basis.

2 The Investment Account

	2019-20	2018-19
	£'000	£'000
Balance at 1 April	660,000	640,000
Cash deposited with CRND	900,500	<u>226,000</u>
	1,560,500	866,000
Cash withdrawn from CRND	(906,000)	<u>(206,000)</u>
Balance at 31 March	654,500	<u>660,000</u>

The Insolvency Act 1986, Part XIV Public Administration (England and Wales), Insolvency Service finance, accounting and investment states:

Whenever the cash balance standing to the credit of the Insolvency Services Account is in excess of the amount which in the opinion of the Secretary of State is required for the time being to answer demands in respect of bankrupts' estates or companies' estates, the Secretary of State shall

- a notify the excess to the National Debt Commissioners, and
- b pay into the Insolvency Services Investment Account ("the Investment Account") kept by the Commissioners with the Bank of England the whole or any part of the excess as the Commissioners may require for investment in accordance with the following provisions of this Part.

3 Interest Received and Paid

Interest Received

	2019-20	2018-19
	£'000	£'000
On cash deposited with CRND	2,697	1,528
On working Balances at the bank	290	<u>68</u>
Balance at 31 March	2,987	<u>1,596</u>

Interest received from investments is for the benefit of the specific case for which the investment was purchased. Interest received from ISIA and the ISA is apportioned between all interest bearing estates based on the monies held in the estate over the period. The rate applied is advertised in the London Gazette and is based on the Bank of England Bank Rate. Interest Paid represents Interest earned outside the ISIA being paid from the ISA to the ISIA.

Interest Paid

	2019-20	2018-19
	£'000	£'000
Balance at 1 April	2	2
Interest earned during the year	290	68
	292	70
Amount paid over during the year	(292)	(68)
Balance at 31 March	0	2

4 Due to the Insolvency Service

		2019-20	2018-19
		£'000	£'000
Balance at 1 April		130,356	107,112
Fees and VAT charged to estates in insolvency	10	99,512	99,381
Net disbursements recovered	10	(4,443)	4,275
Fees on unclaimed dividends	6	22	24
Net payments made to the Insolvency Service		(90,000)	(80,436)
Balance at 31 March		135,447	130,356

Fees are charged to individual estates in insolvency to cover the cost of administration. The fees are collected on behalf of the Insolvency Service via the estate account by a charge on the individual estates.

EAS makes payments on behalf of Administrators to cover disbursements necessary to the administration and safe keeping of the respective case. Where there are insufficient funds in the individual case account, these payments are funded by the Insolvency Service. When assets are realised in the individual case and funds are available to cover the cost of previous payments, the Insolvency Service is reimbursed.

The fees collected and payments recovered are subsequently paid to the Insolvency Service.

5 Payments requested by liquidators and trustees of estates in insolvency and voluntary liquidation

The Act provides for:

- The repayment to liquidators and trustees of necessary disbursements made and expenses properly incurred in the course of their administration of companies' and bankrupts' estates out of any money standing to the credit of the estate in the ISA
- The payment of dividends to creditors in respect of debts owed to them by companies in liquidation and bankrupts, and distributions to contributories in company liquidations.

It is the responsibility of the trustee or liquidator concerned to ensure that any requisitions for expenses or disbursements relate to amounts which are properly due and payable and that payments of dividends relate to claims of creditors which have been established as being owed by the insolvent estate.

6 Unclaimed Dividends

	2019-20	2018-19
	£'000	£'000
Balance at 1 April	88,739	78,397
Dividends recognised as unclaimed in the year	14,981	11,060
Dividends paid out previously categorised as unclaimed	(1,710)	(4,664)
Fees claimed on payments made	4 (22)	(24)
Transfers from estates	5,791	6,267
Transfers to estates	(1,308)	(496)
Transfer to the Consolidated Fund	7 (6,458)	(1,801)
Balance at 31 March	<u>100,013</u>	<u>88,739</u>

Dividends which have been paid to creditors but which creditors have not claimed (unpresented cheques) are collected in the Estate Account and are held for 7 years. Those remaining unclaimed after 7 years are transferred to the Consolidated Fund.

7 Surrenders to the Consolidated Fund

	2019-20	2018-19
	£'000	£'000
Balance at 1 April	10,558	10,463
Dividends not claimed	6,458	1,801
Write off of aged cash reconciling items	<u>0</u>	<u>38</u>
	17,016	12,302
Payments made to the Consolidated Fund	<u>(6,459)</u>	<u>(1,744)</u>
Balance at 31 March	<u>10,557</u>	<u>10,558</u>

Unclaimed dividends and amounts which are too small to be divided among the persons entitled to them are collected in the Estate Account for the benefit of the Consolidated Fund. Such funds are periodically paid to HM Treasury.

8 Funds held on behalf of the Treasury Solicitor (BV)

	2019-20 £'000	2018-19 £'000
Balance at 1 April	67	67
Funds received from dissolved companies	1	0
Payments to Treasury Solicitor	<u>(65)</u>	<u>0</u>
Balance at 31 March	<u>3</u>	<u>67</u>

When a company is dissolved, all property and rights whatsoever vested in or held on trust for the company immediately before its dissolution (including leasehold property, but not including property held by the company on trust for another person) are deemed to be bona vacantia (BV), (S1012, Companies Act 2006). Liquidators are required to pay such funds in to the Estate Account. The funds are paid to HM Treasury Solicitor.

9 Cash at Bank

	2019-20 £'000	2018-19 £'000
Balance at 1 April	620	(3,863)
Excess of Receipts over Payments	166,173	4,445
Write off of aged cash reconciling items	<u>0</u>	<u>38</u>
Balance at 31 March	<u>166,793</u>	<u>620</u>

Cash is held in sterling with the Government Banking Service.

10 Insolvency Estates

		2019-20 £'000	2018-19 £'000
Balance at 1 April		431,024	440,129
Fees and VAT charged	4	(99,512)	(99,381)
Net realisations / (payments)		241,343	98,775
Net Interest paid to funds lodged with the Estate Account.		2,695	1,528
Net disbursements (recovered) / unrecovered	4	35,881	(4,275)
Other payments or adjustments		<u>(4,482)</u>	<u>(5,752)</u>
Balance at 31 March		<u>606,949</u>	<u>431,024</u>

The Insolvency Estate is the total of funds held on behalf of Trustees and Liquidators in respect of companies and individuals undergoing insolvency proceedings.

11 Frequent Petitioner

	2019-20	2018-19
	£'000	£'000
Balance at 1 April	(124)	(17)
Funds received from HMRC	3,243	4,528
Deposits applied to petitions from HMRC	<u>(3,357)</u>	<u>(4,635)</u>
Balance at 31 March	<u>(238)</u>	<u>(124)</u>

Under current legislation a deposit must be paid to the court before a petition can be filed by a creditor. As HMRC lodge a large number of petitions, there is an arrangement in place whereby HMRC lodge funds with the estate accounts which are then applied to petitions filed by HMRC. The Insolvency Proceedings (Fees) Order 2016 introduced a dismissal/withdrawal administration fee which is included as well. Periodically HMRC top up the funds lodged.

Dean Beale
Chief Executive

11 December 2020

ANNEX 1

ACCOUNTS DIRECTION GIVEN BY HM TREASURY IN ACCORDANCE WITH SECTION 409(2) OF THE INSOLVENCY ACT 1986

- 1 This direction is given to the Insolvency Service.
- 2 This direction applies to the financial year ended on 31 March 2020 and to each subsequent financial year.
- 3 The statement mentioned in section 409(2) of the Insolvency Act 1986 ("the Statement") must comprise
 - a A Foreword, which will include items of interest to readers such as, but not limited to:
 - Statutory Background, including the Insolvency Services Account (ISA) and the Insolvency Service Investment Account (ISIA)
 - General Background, including aims and objectives of the ISA and the ISIA
 - Review of Activities, including items such as transactions, banking, interest paid to estates, fees and key performance indicators
 - Forward look
 - Preparation and Audit
 - b Statement of Chief Executive's responsibilities
 - c Governance Statement prepared according to best practice, incorporating information such as the governance framework, operation of the ISA and risk management and internal control
 - d Audit certificate: in line with current regulations, The Certificate and Report of the Auditor and Comptroller General to the Houses of Parliament
 - e An account of Receipts and Payments, presenting the main categories of both receipts and payments applicable in the year
 - f A Statement of Balances, showing where major balances are held and what they represent
- 4 The Statement must properly present the receipts flowing into and payments flowing out of the ISA and the balances as at the reporting date.
- 5 This direction shall be reproduced as an appendix to the accounts.
- 6 This direction supersedes all previous directions issued by HM Treasury under section 409(2) of the Insolvency Act 1986.

Vicky Rock
Interim Director, Public Spending, HM Treasury
22 May 2020

Insolvency Services Investment Account Report and Accounts for the year ended 31 March 2020

Performance report

Overview

The purpose of the overview is to provide sufficient information to understand the Insolvency Services Investment Account (ISIA), its purpose, the key risks to the achievement of its objectives and how it has performed during the year.

These accounts have been prepared by the Commissioners for the Reduction of the National Debt (CRND), under a direction issued by HM Treasury in accordance with section 409(1) of the Insolvency Act 1986 (the Act).

Purpose and principal activities of the Insolvency Services Investment Account

The ISIA was opened in 1970 as part of the rationalisation of procedures for the funds arising from company bankruptcies and liquidations under the Insolvency Services (Accounting and Investment) Act 1970 (repealed by the 1986 Act).

By virtue of section 403 of the Act, when the Secretary of State has excess cash in the Insolvency Services Account (ISA) the excess amount is remitted to CRND for investment in the ISIA; when the balance in the ISA is insufficient to meet demands, CRND make good the shortfall from the ISA. Under paragraph 16 of Schedule 8 to the Act, income earned by the ISIA is drawn down by the ISA to pay its liabilities of interest to insolvent estates and the associated tax is paid directly to HM Revenue & Customs (HMRC) by ISIA.

Section 404 of the Act empowers CRND to invest all the monies in the ISIA, in accordance with directions given by HM Treasury, in those securities specified in Part II of Schedule 1 to the Trustee Investments Act 1961 (currently restricted to paragraphs 1, 2, 3, 8, 9 and 9A).

Section 408(1) of the Act enables HM Treasury to make payments from the Consolidated Fund to the ISIA to meet any shortfalls in the investment account.

Sections 271 and 272 of the Enterprise Act 2002 amended the Insolvency Service Act 1986 to allow the Secretary of State to set the interest rates payable to liquidators administratively, rather than by secondary legislation, in order to facilitate more frequent changes in the interest rate paid in response to changing rates of return on investments. The legislation also established that HM Treasury may direct payments from the Consolidated Fund to the ISIA, to make good any shortfall due to suitors, and that CRND may pay surplus funds into the Consolidated Fund.

Historically, the investments made by CRND included UK Government gilt-edged securities with periods to maturity of up to 10 years. However, under a new regime introduced by the Enterprise Act 2002, voluntary liquidators were, from 1 April 2004, able to invest and divest from the ISA at will and this fundamentally changed the outlook for the account's stability. In those circumstances, continuing to invest in gilts would have given rise to significant market and interest rate risk.

The investment profile of the ISIA is now such that the interest rate earned by the account is more closely related to current short-term interest rate levels. The ISIA's gilt holdings were disposed of in 2004 and the proceeds were placed as short-term deposits with the Debt Management Account. This arrangement remained in place throughout 2019-2020.

The resources used to deliver CRND's objectives are accounted for within the United Kingdom Debt Management Office's (DMO) agency vote and reported in the DMO Annual Report and Accounts 2019-2020. The cost of managing the ISIA is recharged to the Insolvency Service; in 2019-2020, this amounted to £67,000 (2018-2019: £67,000).

Commissioners for the Reduction of the National Debt

CRND's main function is the investment and management of major government funds. The investment powers differ from fund to fund.

The Secretary and Comptroller General and Assistant Comptroller, who are appointed by and act on behalf of the Commissioners, make the day-to-day decisions. There is no legislation that determines the specific responsibilities of the Secretary and Comptroller General and the Assistant Comptroller. However, in practice the role of the Secretary and Comptroller General is considered analogous to acting as the Accounting Officer for CRND. Therefore, the Secretary and Comptroller General takes responsibility for preparing and signing the accounts on behalf of the Commissioners.

The arrangements made between CRND and the Insolvency Service in respect of the investment service provided by CRND are set out in a Memorandum of Understanding, which describes how CRND intend to achieve the agreed investment objectives.

Performance summary

CRND's strategy of investing in the Debt Management Account was maintained throughout 2019-2020. This strategy enabled the ISIA to earn a rate of interest very closely correlated with prevailing short-term sterling interest rates, whilst protecting its capital position and access to liquidity at all times.

Performance analysis

During the year, the ISIA generated total comprehensive income of £1,900k (2018-2019: £2,037k). Interest income of £5,078k (2018-2019: £4,570k) was higher than the prior year due to a rise in average interest rates on the ISIA's investments as well as a higher average balance of funds available for investment in the ISIA during the year. Interest payable to liquidators of £3,178k (2018-2019: £2,533k) was higher than the prior year primarily as a result of a rise in the average balance of funds deposited by liquidators in 2019-2020.

As at 31 March 2020, the total value of investments held by the ISIA was £677 million (31 March 2019: £680 million). This decrease was due to a net withdrawal of funds by the ISA during the year.

Jo Whelan
Secretary and Comptroller General
to the Commissioners for the Reduction of the National Debt

10 December 2020

Accountability Report

The accountability report comprises two sections: a corporate governance report and a parliamentary accountability and audit report. The corporate governance report includes the following information: the responsibilities of the Secretary and Comptroller General; the composition, responsibilities and actions of the Managing Board and Audit Committee and how they have supported the Secretary and Comptroller General and enabled the objectives of the ISIA; the key risks faced by the ISIA and how it seeks to manage them. The parliamentary accountability and audit report includes a formal opinion by the ISIA's external auditor to certify that the financial statements give a true and fair view of the state of the ISIA's affairs for the year and that they have been prepared in accordance with all relevant rules.

These two sections contribute to the ISIA's accountability to Parliament and comply with best practice in relation to corporate governance norms and codes. In particular, the corporate governance report seeks to do so by describing the key mechanisms the ISIA employs to ensure it maintains high standards of conduct and performance. This includes the statement of Secretary and Comptroller General's responsibilities which describes her accountability to Parliament for the ISIA's use of resources and compliance with rules set by HM Treasury to ensure best practice in financial management. The governance statement reflects the applicable principles of the Corporate Governance Code for Central Government Departments. The parliamentary accountability and audit report confirms that expenditure and income of the ISIA have been applied to the purposes intended by Parliament and confirms that information in the parliamentary accountability disclosures has been audited and approved by external auditors.

Corporate governance report

Directors' report

Operationally, the CRND is part of the DMO and its staff are employees of the DMO. The CRND therefore has no staff of its own. The structure of the CRND is described on page 21.

Directors' conflicts of interest

In 2019-2020, no material conflicts of interest were declared by DMO Managing Board members.

Reporting of personal data related incidents

The ISIA had no protected personal data related incidents during 2019-2020.

Jo Whelan
Secretary and Comptroller General
to the Commissioners for the Reduction of the National Debt

10 December 2020

Statement of Secretary and Comptroller General's responsibilities

Section 409(1) of the Insolvency Act 1986 requires CRND to prepare for each financial year a statement of accounts in the form and on the basis set out in the accounts direction. The accounts are prepared on an accruals basis and must give a true and fair view of the state of affairs of the ISIA, its income and expenditure, statement of financial position and cash flows for the financial year.

The Commissioners have appointed the Secretary and Comptroller General to discharge their statutory responsibilities, a role that is analogous to acting as an Accounting Officer. Therefore the Secretary and Comptroller General has responsibility for preparing the annual accounts.

In preparing the accounts, the Secretary and Comptroller General is required to observe the applicable accounting standards and be consistent with the relevant requirements of the Government Financial Reporting Manual (FReM), and in particular to:

- observe the accounts direction issued by HM Treasury, including the relevant accounting and disclosure requirements, and apply suitable accounting policies on a consistent basis;
- make judgements and estimates on a reasonable basis;
- state whether applicable accounting standards have been followed, and disclose and explain any material departures in the accounts;
- prepare the accounts on a going-concern basis; and
- confirm that the annual report and accounts as a whole are fair, balanced and understandable, and take personal responsibility for the annual report and accounts and the judgements required for determining they are fair, balanced and understandable.

As the role of the Secretary and Comptroller General is analogous to acting as an Accounting Officer, it is considered that the responsibilities of an Accounting Officer, as set out in Managing Public Money published by HM Treasury, apply to the Secretary and Comptroller General. These include responsibility for the propriety and regularity of the public finances for which the Secretary and Comptroller General is answerable, for keeping proper records, and for safeguarding the ISIA's assets.

Disclosure to auditors

Section 409(1) of the Act requires the Commissioners to send accounts prepared by them to the Comptroller and Auditor General.

Under section 409(4) of the Act, the Comptroller and Auditor General examines, certifies and reports on the accounts and lays copies of them with this report before each House of Parliament.

The Comptroller and Auditor general charges no audit fee for undertaking this statutory audit.

As the Secretary and Comptroller General, I have taken all the steps that I ought to have taken to make myself aware of any relevant audit information and to establish that the ISIA's auditors are aware of that information. So far as I am aware, there is no relevant audit information of which the auditors are unaware.

Governance statement

Scope of responsibility

As Secretary and Comptroller General to the Commissioners for the Reduction of the National Debt (CRND), I am responsible for ensuring the operation of a sound system of internal control that supports the achievement of CRND's targets, policies and objectives in managing client investment portfolios whilst safeguarding the public funds for which I am accountable, in accordance with the responsibilities assigned to me.

CRND is a separate business entity managed within the control framework of the DMO. While I am responsible for CRND's system of internal control, the Accounting Officer of the DMO is responsible for the wider control framework within which CRND is managed. In discharging my own control responsibilities I take assurance on the continued sound maintenance of the wider control framework from the governance statement for the DMO, although I understand that only reasonable and not absolute assurance can be given that risks have been controlled.

It is also my responsibility to ensure that all CRND fund management activities are conducted with due regard to value for money and operated in line with client instructions. I have put arrangements in place to ensure that there is a proper evaluation of the balance of cost and risk in our operations.

CRND is committed to the highest standards of corporate governance and is guided by the Corporate Governance Code for central government departments (the Code) and the following principles laid down in that Code:

- Parliamentary accountability;
- The role of the Board;
- Board composition;
- Board effectiveness; and
- Risk management.

CRND does not conduct any part of its business with or through arm's length bodies (ALBs) and therefore has not applied principle six which covers departmental governance arrangements with ALBs.

Managing Board

The Secretary and Comptroller General was supported during 2019-2020 by the DMO Managing Board (the Board) which, in addition to the Secretary and Comptroller General, is comprised of:

Sir Robert Stheeman

DMO Chief Executive and Accounting Officer

Jim Juffs

Chief Operating Officer

Jessica Pulay

Co-Head of Policy and Markets

Richard Hughes (until 30 April 2019)

Non-executive HM Treasury representative

Tom Josephs (from 2 September 2019)

Non-executive HM Treasury representative

Brian Duffin (until 31 December 2019)

Non-executive director – Brian Duffin was Chief Executive of Scottish Life from 1999 to 2007 and Executive Director of Royal London Mutual from 2001 to 2007.

Paul Fisher

Non-executive director - During a 26 year career at the Bank of England, Paul Fisher served as a member of the Monetary Policy Committee from 2009 to 2014, the interim Financial Policy Committee from 2011 to 2013 and the PRA Board from 2015 to 2016. He has a number of current roles including Chair of the London Bullion Market Association.

Paul Richards (from 13 May 2019)

Non-executive director - During a 29 year career at Bank of America Merrill Lynch, Paul was MD of business in fixed income trading, Debt Capital Markets and Corporate Banking across Europe, the Americas and Asia Pacific. Following his retirement from banking, he spent 18 months as a senior consultant to the FCA. He is currently Chairman of Insignis, a FinTech company he launched in 2015.

Non-executive directors are appointed by the DMO Accounting Officer following a formal process and have fixed terms defined in their contracts of service. All non-executive Board members receive an induction on joining and have access to additional information and training where it is considered necessary for the effective discharge of their duties.

One of the roles of the Board is to advise the Secretary and Comptroller General on any key decisions affecting CRND.

An executive sub-committee of the Board generally meets weekly and supports the Secretary and Comptroller General on operational decisions.

The Board last undertook a self-evaluation of its performance led by a non-executive director in December 2017 and concluded that it has operated effectively in delivering the objectives set out in its Terms of Reference, and that the information used by the Board was accurate and relevant. Between formal reviews the Board considers its effectiveness on an ongoing basis. The Terms of Reference underwent a review by the Board in 2020.

2019-2020 Managing Board activities

Board meetings were held throughout 2019-2020 and covered regular agenda items, including risk management, staffing and progress against the operational business plan.

Board and Audit Committee attendance is outlined in the table below:

	Managing Board		Audit Committee	
	Possible	Actual	Possible	Actual
Sir Robert Stheeman	8	8		
Jo Whelan	8	8		
Jim Juffs	8	8		
Jessica Pulay	8	8		
Richard Hughes	1	0		
Tom Josephs	5	5		
Brian Duffin	6	6	3	3
Paul Fisher	8	8	4	4
Paul Richards	7	7	3	3
Caroline Mawhood	n/a	n/a	2	2
Rodney Norman	n/a	n/a	2	2

Audit Committee

The Secretary and Comptroller General was supported during 2019-2020 by the Audit Committee on matters relating to risk, internal control and governance. The members of the Audit Committee during 2019-2020 were:

Paul Fisher (Chairman from 1 January 2020)

Brian Duffin (Chairman and Audit Committee member until 31 December 2019)

Paul Richards (from 13 May 2019)

Caroline Mawhood (until 30 June 2019) – Caroline Mawhood was an Assistant Auditor General at the National Audit Office until 2009 and President of the Chartered Institute of Public Finance and Accountancy for 2008-2009. She is a non-executive member of Audit Committee of the Corporation of London and its Performance and Resource Management Sub (Police) Committee and one of three external members of the Audit Progress Committee of the European Commission. She is also a trustee of the Wimbledon Guild charity.

Rodney Norman (from 1 July 2019) - Rodney Norman was Finance Director of NS&I until 2018. Prior to that he was the Treasury Accountant at HM Treasury. This was preceded by a career in the City where he qualified as a Chartered Accountant with PWC and was Finance Director of the Banking Division of Close Brothers. He is currently a non-executive director of the Pension Protection Fund, a non-executive member of the Audit and Risk Committee of the Office of Rail and Road and is a senior advisor to the Bank of England.

Audit Committee meetings are typically attended by the DMO Accounting Officer, the Secretary and Comptroller General, the Co-Heads of Policy & Markets, the Chief Operating Officer, the Head of Internal Audit, the Head of Finance and the National Audit Office.

One of the Audit Committee's objectives is to give advice to the Secretary and Comptroller General on:

- The overall processes for risk, control and governance and the governance statement;
- Management assurances and appropriate actions to follow from internal and external audit findings, risk analysis and reporting undertaken;
- The financial control framework and supporting compliance culture;
- Accounting policies and material judgements, the accounts and the annual report and management's letter of representation to the external auditors;
- Whistleblowing arrangements for confidentially raising and investigating concerns over possible improprieties in the conduct of the DMO's business;
- Processes to protect against money laundering, fraud and corruption; and
- The planned activity and results of both internal and external audit.

During the period under review the Audit Committee paid particular attention to the following areas:

- Trading Systems Replacement Project;
- DMO Accommodation and Data Centres review;
- Reform to the governance of the PWLB;
- Cyber Security;
- Disclosure of Market Sensitive Information;
- Data Governance, Protection and Reporting;
- Processes and Controls to Mitigate Internal and External Fraud;

- Follow up on Management Actions arising from previous Internal Audit Reports;
- Security Clearance Requirements and Adherence;
- Governance and Remit over Contractors;
- Health and Safety;
- Anti-Money Laundering Arrangements;
- Reporting Requirements to the Information Commissioner's Office (ICO);
- Risk Management Framework; and
- International Financial Reporting Standards (IFRS) 9, 15 and 16.

The Audit Committee covers a regular programme of agenda items, together with other current topics, and met four times during the year.

The Secretary and Comptroller General has also been informed by the following operational committees throughout the period under review:

Fund Management Review Committee

The Fund Management Review Committee monitors CRND activity relating to the performance of the government funds under management, including any reporting on compliance activities undertaken in relation to the funds.

The Fund Management Review Committee met four times in 2019-2020.

Business Delivery Committee

The Business Delivery Committee reviews the status of the delivery of DMO's business and work plan as a collective cross-functional body, resolving emerging issues in a timely way, and agreeing priorities to ensure the plan stays on track. The most significant initiative monitored by the Business Delivery Committee during the year was the project to implement a trading systems replacement including those used to process CRND transactions.

The Business Delivery Committee met regularly (typically weekly) throughout 2019-2020.

Risk Committees

The Secretary and Comptroller General is informed by three risk committees covering credit and market risk, operational risk and risk control. More detail on the roles, responsibilities and activities of these committees can be found in the sections below.

Risk management and internal control

The Secretary and Comptroller General is responsible for maintaining a sound system of internal control that supports the achievement of CRND's targets, policies and objectives in managing client investment portfolios whilst safeguarding the public funds for which she is accountable, in accordance with the responsibilities assigned to her.

CRND is managed within the wider DMO system of internal control which is based upon what the DMO Accounting Officer, with the support of the Board, considers to be appropriate, taking account of the DMO's activities, the materiality of risks inherent in those activities and the relative costs and benefits of implementing specific controls to mitigate those risks. The DMO's position differs to that of a commercial organisation in that it must always be in a position to transact the underlying business required to meet its remit. As a result the risks associated with this activity cannot be avoided and the system of internal control can only provide reasonable assurance against failure to achieve aims and objectives.

The Risk and Control Framework

The Board has designed and put in place a formal risk management framework covering all the activities conducted and overseen by the DMO. This Framework helps ensure that the DMO Accounting Officer is appropriately informed and advised of any identified risks and also allows the management of risks to be monitored. The risk management framework covers both regular operations and new business initiatives, and evolves as the range and nature of the DMO's activities change. The Framework is supported by a clear 'three lines of defence' model:

First line of defence:

Day-to-day management of risk is the responsibility of management staff within business areas. The DMO considers effective risk management to be central to its operations and fosters a risk aware culture in which all members of staff, including Board members, are encouraged to understand and own the risks that are inherent in those operations. In particular the DMO seeks to promote an environment in which staff feel comfortable to identify new risks and changes in previously identified risks, as well as weaknesses so that these may be assessed and appropriate mitigating actions put in place.

Mitigating actions typically include segregation of duties, staff training, clear lines of management delegation and robust business continuity arrangements.

Second line of defence:

Oversight of risk is provided by the Board and risk committees, whose role is to provide regular and systematic scrutiny of risk issues which lie within their remit and to support the DMO Accounting Officer in exercising his overall responsibility for risk management.

The DMO considers that the principal risks it faces arise in three broad areas: credit risk, market risk and operational risk. It has established committees to meet regularly to review the changing risk pattern for each of these areas and to set up appropriate responses. The work of these committees is described in more detail below.

Credit and Market Risk Committee

The Credit and Market Risk Committee (CMRC) meets on a regular basis, with more frequent meetings held when required, for example during times of market stress. The CMRC monitors and reviews the management of market, credit, and liquidity risk. It sets limits across a range of exposures including counterparties, countries, and instruments held as collateral as well as setting absolute limits on net daily flows across the DMA. The CMRC met six times during 2019-2020.

Operational Risk Committee

The Operational Risk Committee (ORC) meets regularly to monitor operational risks and to review significant risk issues. The ORC is responsible for reviewing risk incidents identified through the DMO's risk incident reporting process, and considering whether planned mitigating action is appropriate. The ORC also reviews and tracks the progress of actions identified by Internal Audit. The ORC's scope includes issues relating to information risk, IT security, business continuity, anti-fraud and key supplier risks.

The ORC has advised the DMO Accounting Officer and the Board, during the year, on significant operational risk concerns, significant risk issues and trends as well as actions to mitigate such risks. The ORC has focused this year on supplier risk, data protection awareness, cyber security and business continuity planning. The ORC met six times during 2019-2020.

Controls Group

The Controls Group meets periodically to review issues affecting the DMO's system of internal control and to analyse material changes to the control environment. The Controls Group recommends actions to management to implement changes where appropriate. The Controls Group consists of representatives from Finance, Risk, Compliance and Internal Audit.

The Controls Group has advised the DMO Accounting Officer, the Board and senior management on any significant risk concerns stemming from the introduction of new business activities as well as risks relating to other change management activities. The Controls Group has also advised the DMO Accounting Officer on suitable mitigating action where appropriate.

During the year the Controls Group review work has covered process and control changes as a result of the DMO's trading system replacement, including access control of permissions for CRND.

Risk Management Unit

The risk committees are supported by the DMO's Risk Management Unit (RMU) which ensures key risk issues arising from these committees are communicated to the DMO Accounting Officer and senior management on a regular basis, with additional ad hoc reporting if an emerging issue requires it. The RMU also supports the formal risk reporting processes with defined outputs, including regular detailed risk reports which are reviewed by the Board and senior management.

As well as supporting the risk committee structure, the RMU provides control advice on risks. As part of the second line of defence the RMU is separate from, and independent of, the DMO's trading operations. The RMU conducts risk analysis and provides market, credit and operational risk capability for the DMO.

The identification, monitoring and mitigation of operational risk is facilitated by the RMU via quarterly consultations with heads of business units and functional teams. Significant risk issues are assessed for materiality and probability of occurrence. New risks, and risks to which exposure is increasing, are highlighted and actions are taken to ensure effective management of all risks. The DMO has Senior Risk Owners (SROs) who undertake a cross-functional moderation process to promote better prioritisation of operational risks across the organisation. The RMU maintains a central exception log to record all risk incidents raised, in order to identify control weaknesses and assign actions to improve controls.

Third line of defence:

The DMO's Internal Audit function provides the DMO Accounting Officer with independent and objective assurance on the overall effectiveness of the Agency's system of internal control. It does this through a risk based work programme which is presented to the Audit Committee at the start of each year and approved by the Audit Committee at the start of each quarter. All audits make a series of findings relating to control weaknesses. Progress against agreed management actions is monitored on a regular basis to ensure issues highlighted by internal and external audit, and other identified actions to improve the control environment, are managed and progressed within agreed deadlines. The function is independent of the DMO's trading activities and operations and has a direct reporting line to the DMO Accounting Officer. The work of Internal Audit includes assessing the effectiveness of both control design and control performance. With its independence and overall remit, Internal Audit provides a third line of defence against the risks that might prevent the DMO delivering its objectives.

Risk policies and procedures

The DMO's risk policies reflect the high standards and robust requirements which determine the way in which risks are managed and controlled. The DMO Accounting Officer, with the support of the Board, ensures that policies are regularly reviewed to reflect any changes in the DMO's operations and/or best practice. In 2019-2020, this included policies relating to anti-fraud, telephony and voice recording, remote access, clear desk, health & safety and spreadsheet controls.

Staff are required to signify that they have read and accepted the DMO's rules on personal dealing and the DMO's policy on the use of information systems and technology, and that they are aware of, and will continue to keep up to date with, the DMO's policies on whistleblowing, anti-fraud and anti-money laundering. The DMO ensures that this exercise is undertaken on an annual basis allowing staff to maintain a good level of awareness of the DMO's policies in these areas. All members of staff have job descriptions which include reference to the specific key risks they are expected to manage.

Managers in each business function are responsible for ensuring that the operations within their area are compliant with plans, policies, procedures and legislation.

During 2019-2020 no concerns were raised by staff under the DMO’s whistleblowing policy relating to CRND.

Key Developments

UK leaving the EU

During the year the DMO has continued to work with HM Treasury and other stakeholders to identify, assess and raise awareness of potential indirect impacts on CRND activities resulting from delays to the United Kingdom’s expected exit from the European Union and take mitigating actions where possible.

Trading Systems Replacement Project

The Trading Systems Replacement Project has been a significant multi-year project for the DMO which aims to update its IT systems for deal input, settlement, risk management and accounting, as well as to simplify the current transaction processing architecture. During 2019-2020 focus of the implementation stage of the project has been on the design, build and testing of the new systems and processes. The project has been overseen through an established governance framework in order to maintain the strength and resilience of all operational processes and to make improvements where appropriate. Following the successful implementation, the Controls Group have been tracking the resolution of areas that were subject to workarounds, as well as the benefits realisation of streamlined processes. Automated processes will continue to be monitored and system performance has also been a key oversight control.

COVID-19

The DMO has been actively reviewing and strengthening its contingency arrangements in order to minimise the impact of the COVID-19 outbreak on its core activities. A robust assurance framework has been implemented to ensure the maintenance of control standards for critical operations in an environment where the majority of staff are working remotely.

Risk Profile

The Secretary and Comptroller General and the DMO Board believe that the principal risks and uncertainties facing CRND are outlined in the table below together with the key actions taken to manage and mitigate them:

Principal risks and uncertainties	Mitigation and management
IT systems and infrastructure	
CRND relies on a number of IT and communications systems to conduct its operations effectively and efficiently.	During the year the DMO has progressed initiatives to further strengthen the resilience and security of its IT network. The trading systems replacement went live in August 2019 in which operational efficiencies and improved resilience were achieved. The Public Service Network (PSN) accreditation was reconfirmed as a result of an IT health check.
	The DMO has put in place structured business continuity arrangements to ensure it is able to continue market operations in the event of an internal or external incident that threatens business operations.

IT and data security	
<p>Through its activities the DMO gathers, disseminates and maintains sensitive information including market sensitive information and personal data about staff and market participants. The DMO seeks to ensure the highest standards of data protection and information management.</p> <p>The DMO could be the subject of an external attack on its IT systems and infrastructure.</p>	<p>The DMO, including CRND, continues to work to maintain the required level of protective security covering physical, personnel and information security and is particularly aware of the growing threat posed by cyber security risk. IT and data security risks continued to be a specific area of focus in 2019-2020 and the DMO's IT team have been enhancing the security environment and appropriateness of transaction systems and processes.</p> <p>Risks to data and information held by the DMO are owned and managed by designated Information Asset Owners. The DMO has a Senior Information Risk Owner (SIRO) who is responsible for the information risk policy and the assessment of information risks. The SIRO is a member of the Board and provides advice to Board members on the management of information risk.</p> <p>The DMO has put in place several layers to defend against external attack and its infrastructure undergoes an annual penetration test. This year continued the embedding of the General Data Protection Regulation (GDPR) which came into force in May 2018. This included additional training and awareness for all staff and reviewing existing controls for data protection.</p>
Reliance on third parties	
<p>A number of the operational systems and services on which CRND relies are provided or supported by third party suppliers.</p>	<p>To mitigate the risk of failure of a key third party supplier the DMO undertakes regular corporate risk assessments of each key supplier in order to assess a range of factors including its financial strength and operational capacity and reliance on sub-contractors. The DMO has dedicated relationship managers who meet regularly with key suppliers and monitor performance against agreed Service Level Agreements where appropriate. The procurement manager and the vendor management group have been working to embed consistent standards of supplier management across account managers by improving visibility of key contracts, sharing best practice to ensure relationships start on a firm footing.</p> <p>The supplier of the new trading system will become a key long-term partner. During the year more focus has been given to monitoring compliance with current policies and procedures.</p>
Transaction processing	

<p>CRND relies on its operational processes to successfully execute a significant number of high value transactions on a daily basis. Reliance on the accurate execution of processes exposes CRND to operational risk arising from process breakdown and human error.</p>	<p>A key component of CRND’s control framework is the segregation of duties to ensure independent checking and reconciliation, and to avoid concentration of key activities or related controls in individuals or small groups of staff. In particular, segregation of duties takes place between front and back office activities.</p> <p>All teams, including CRND, have documented procedures for their main activities and there are clearly defined authorisation levels for committing the DMO externally.</p> <p>The RMU conducts regular control and compliance testing of CRND activities, providing the executive sub-committee of the Board with assurance on the effectiveness of operational controls and compliance with relevant Financial Conduct Authority and Prudential Regulation Authority rules in the dealing and settlement areas.</p> <p>The DMO also maintains a strong audit and control environment which includes a well embedded incident reporting procedure which extends to cover CRND. This promotes early identification and resolution of risk incidents and provides visibility to the DMO Accounting Officer and Board.</p> <p>The main focus of improvements to transaction processing has been the trading system implementation which covers the full trade life-cycle.</p>
--	--

People risk	
<p>The DMO, including CRND, relies on maintaining a sufficiently skilled workforce at all levels of the organisation in order to operate effectively and efficiently, and to deliver its strategic objectives.</p> <p>The DMO is exposed to an increased risk of operational failure if it is unable to compete for, and retain, sufficiently skilled staff over time. Competition for skilled staff is generally against employers from the private financial services sector which is not subject to public sector remuneration policies and which have historically offered higher remuneration than either the private sector in general or the public sector.</p>	<p>DMO recruitment policies help ensure that individuals with the appropriate level of skill and experience are appointed at all levels within the organisation. This helps mitigate the level of human error resulting in process failures.</p> <p>The DMO's Training and Development policy is designed to help ensure that staff have the right skills to meet its objectives.</p> <p>The DMO has a formal recruitment and selection process to help ensure vacancies are filled quickly by appropriately skilled candidates.</p> <p>The DMO has a formal performance appraisal process and all staff are given clear and achievable objectives. Where appropriate, staff are encouraged to engage in activities which promote development and the DMO provides regular training opportunities and support for professional studies to enhance the skills base of its employees. The DMO also provides cross-training for different roles to help improve staffing flexibility and reduce turnover pressure.</p> <p>Salaries are reviewed annually, taking account of benchmarks derived from equivalent private sector pay levels. During the year particular consideration has been given to the issues faced by staff working increased hours and weekends on the programme to strengthen IT infrastructure. The DMO has a policy to recognise those staff who have performed well in their roles through the payment of one-off performance related awards. Any awards are assessed annually by the DMO Pay Committee, are determined by individual performance and criteria associated with the DMO's performance management process and are aligned to the policy for public sector pay.</p> <p>A Staff Council has met regularly throughout the year and enabled an open exchange of ideas and views between management and staff representatives and has been an effective conduit for wider communication and consultation with all staff.</p> <p>On an annual basis all DMO staff are encouraged to take part in the Civil Service employee engagement survey and any issues raised, including mitigating action if required, will be considered by the DMO Accounting Officer and Board.</p> <p>The DMO was reaccredited as an Investor in People in 2017.</p>

Review of effectiveness

I have reviewed the effectiveness of the system of internal control and confirm that an ongoing process designed to identify, evaluate and prioritise risks to the achievement of CRND's aims and objectives has been in place throughout 2019-2020. This review included an assessment of any material risk and control issues identified and reported during the relevant period.

My review has been informed by the advice of the risk committees and by the work of the internal auditors and the executive managers within the DMO, who have been delegated responsibility for the development and maintenance of the internal control framework, and comments made by the external auditors in their management letter and other reports.

In my role as Secretary and Comptroller General I have been advised on the implications of the result of my review of the effectiveness of the system of internal control by the Board and the Audit Committee.

In 2019-2020, no ministerial directions were given and no material conflicts of interest have been noted by the Board or Audit Committee members in the Register of Interests.

In my opinion, CRND's system of internal control was effective throughout the financial year and remains so on the date I sign this statement.

Jo Whelan

Secretary and Comptroller General to the Commissioners for the Reduction of the National Debt

10 December 2020

Parliamentary accountability and audit report

Regularity of expenditure

The investments, income and expenditure of the ISIA were applied to the purposes intended by Parliament.

The above statement has been audited.

Fees and charges

The ISIA received no fees or charges during the year.

The above statement has been audited.

The Certificate and Report of the Comptroller and Auditor General to General to the Houses of Parliament

Opinion on financial statements

I certify that I have audited the financial statements of the Insolvency Services Investment Account for the year ended 31 March 2020 under the Insolvency Act 1986. The financial statements comprise: the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Cash Flows, the Statement of Changes in Client Funds; and the related notes, including the significant accounting policies. These financial statements have been prepared under the accounting policies set out within them. I have also audited the information in the Accountability Report that are described in that report as having been audited.

In my opinion:

- the financial statements give a true and fair view of the state of the Insolvency Services Investment Account's affairs as at 31 March 2020 for the year then ended; and
- the financial statements have been properly prepared in accordance with the Insolvency Act 1986 and HM Treasury directions issued thereunder.

Opinion on regularity

In my opinion, in all material respects the expenditure and income recorded in the financial statements have been applied to the purposes intended by Parliament and the financial transactions recorded in the financial statements conform to the authorities which govern them.

Basis of opinions

I conducted my audit in accordance with International Standards on Auditing (ISAs) (UK) and Practice Note 10 'Audit of Financial Statements of Public Sector Entities in the United Kingdom'. My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of my certificate. Those standards require me and my staff to comply with the Financial Reporting Council's Revised Ethical Standard 2016. I am independent of the Commissioners for the Reduction of the National Debt in accordance with the ethical requirements that are relevant to my audit and the financial statements in the UK. My staff and I have fulfilled our other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Conclusions relating to going concern

I have nothing to report in respect of the following matters in relation to which the ISAs (UK) require me to report to you where:

- the Insolvency Services Investment Account's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Insolvency Services Investment Account have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the [Insolvency Services Investment Account's] ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Responsibilities of the Secretary and Comptroller General to the Commissioners for the Reduction of the National Debt for the financial statements

As explained more fully in the Statement of Secretary and Comptroller General's Responsibilities, the Commissioners are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. They have appointed the Secretary and Comptroller General to discharge these responsibilities.

Auditor's responsibilities for the audit of the financial statements

My responsibility is to audit, certify and report on the financial statements in accordance with the Insolvency Act 1986.

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs (UK), I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commissioners' internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- conclude on the appropriateness of the Insolvency Service Investment Account use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Insolvency Service Investment Account's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my report. However, future events or conditions may cause Insolvency Service Investment Account to cease to continue as a going concern.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

In addition, I am required to obtain evidence sufficient to give reasonable assurance that the expenditure and income recorded in the financial statements have been applied to the purposes intended by Parliament and the financial transactions recorded in the financial statements conform to the authorities which govern them.

Other Information

The Secretary and Comptroller General is responsible for the other information. The other information comprises information included in the annual report, other than the parts of the Accountability Report disclosures described in that report as having been audited, the financial statements and my auditor's report thereon. My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon. In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

Opinion on other matters

In my opinion:

- the parts of the Accountability Report to be audited have been properly prepared in accordance with the Insolvency Act 1986 and HM Treasury directions issued thereunder;
- in the light of the knowledge and understanding of the Commissioners for the Reduction of the National Debt and its environment obtained in the course of the audit, I have not identified any material misstatements in the Performance Report or the Accountability Report; and
- the information given in Performance Report and Accountability Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which I report by exception

I have nothing to report in respect of the following matters which I report to you if, in my opinion:

- adequate accounting records have not been kept or returns adequate for my audit have not been received from branches not visited by my staff; or
- the financial statements and the parts of the Accountability Report to be audited are not in agreement with the accounting records and returns; or
- I have not received all of the information and explanations I require for my audit; or
- the Governance Statement does not reflect compliance with HM Treasury's guidance.

Report

I have no observations to make on these financial statements.

Gareth Davies
Comptroller and Auditor General

Notes to the accounts for the year ended 31 March 2020

1 Accounting policies

i Basis of preparation

These accounts have been prepared in accordance with a direction made by HM Treasury under section 409(1) of the Insolvency Act 1986, in accordance with applicable International Financial Reporting Standards (IFRS) and relevant requirements of the Government Financial Reporting Manual; and under the historical cost convention and on a going concern basis. In particular, the following standards have been applied:

- IFRS 7 Financial Instruments: Disclosures
- IFRS 9 Financial Instruments
- IFRS 13 Fair Value Measurement
- IAS 1 Presentation of Financial Statements (revised 2007)
- IAS 7 Statement of Cash Flows
- IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors
- IAS 10 Events After the Reporting Period
- IAS 24 Related Party Disclosures
- IAS 32 Financial Instruments: Presentation
- IAS 36 Impairment of Assets
- IAS 37 Provisions, Contingent Liabilities and Contingent Assets

Certain IFRS have been issued or revised, but are not yet effective. Those issues or revisions expected to be relevant in subsequent reporting periods are:

- IAS 1 Presentation of Financial Statements, which has been revised as part of the IASB's 'Definition of Material (Amendments to IAS 1 and IAS 8)'. Application is required for reporting periods beginning on or after 1 January 2020. The ISIA expects to apply these revisions to IAS 1 in 2020-2021. The application of these revisions, which relate to a revised definition of 'material', are not expected to materially alter the presentation of the financial statements of the ISIA.
- IAS 1 Presentation of Financial Statements, which has been revised as part of the IASB's 'Classification of Liabilities as Current or Non-Current (Amendments to IAS 1)'. Application is required for reporting periods beginning on or after 1 January 2022. The ISIA expects to apply these revisions to IAS 1 in 2022-2023. The application of these revisions, which affect only the presentation of liabilities in the statement of financial position and relate to a clarification of the classification of current and non-current liabilities, are not expected to materially alter the presentation of the financial statements of the ISIA.
- IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, which has been revised as part of the IASB's 'Definition of Material (Amendments to IAS 1 and IAS 8)'. Application is required for reporting periods beginning on or after 1 January 2020. The ISIA expects to apply these revisions to IAS 8 in 2020-2021. The application of these revisions, which relate to a revised definition of 'material', are not expected to materially alter the presentation of the financial statements of the ISIA.
- IFRS 7 – Financial Instruments: Disclosures, which has been revised as part of the IASB's 'Interest Rate Benchmark Reform (Amendments to IFRS 9, IAS 39 and IFRS 7)'. Application is required for reporting periods beginning on or after 1 January 2020. The ISIA expects to apply these revisions to IFRS 7 in 2020-2021. The application of these revisions, which deal with issues affecting financial reporting for hedge accounting are not expected to materially alter the presentation of the financial statements of the ISIA.

- IFRS 9 – Financial Instruments, which has been revised as part of the IASB’s ‘Interest Rate Benchmark Reform (Amendments to IFRS 9, IAS 39 and IFRS 7)’. Application is required for reporting periods beginning on or after 1 January 2020. The ISIA expects to apply these revisions to IFRS 9 in 2020-2021. The application of these revisions, which deal with issues affecting financial reporting for hedge accounting are not expected to materially alter the presentation of the financial statements of the ISIA.

A separate income statement, as required by the accounts direction, has not been presented as the content would be identical to the statement of comprehensive income. A statement of comprehensive income is required by IAS 1.

ii Assets

Demand deposits

Deposits with the Debt Management Account and the National Loans Fund are financial assets held by the ISIA in order to collect contractual cash flows of principal and interest on specified dates. Therefore these deposits are treated as financial assets measured at amortised cost.

iii Income recognition

Interest income is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument or, where appropriate, a shorter period, to the net carrying amount of the instrument.

iv Interest payable to liquidators

The interest payable to liquidators is an estimated value provided half yearly by the Insolvency Service.

v Administrative costs

Administrative costs are accounted for in the DMO Annual Report and Accounts 2019-2020 and a recovery is made from the Insolvency Service.

2 Risk

i Credit risk

Credit risk is the risk that a counterparty, or security issuer, will fail to discharge a contractual obligation resulting in financial loss to the ISIA.

The investments of the ISIA comprised deposits with the Debt Management Account. These deposits were considered to have no exposure to credit risk because they are obligations of HM Government.

There were no renegotiated assets or assets considered impaired at 31 March 2020 (31 March 2019: no renegotiated or impaired assets).

ii Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk for the ISIA was considered to comprise interest rate risk.

The interest returns on deposits were closely linked to the official Bank Rate.

CRND monitored interest rate movements to help inform the Insolvency Service of potential issues and events. The ISIA was not subject to active management and thus no formal market risk parameters were in place.

iii Liquidity risk

Liquidity risk is the risk that the ISIA will encounter difficulty in meeting obligations associated with client withdrawal requests.

Assets held by the ISIA were highly liquid to enable all client obligations to be met as they fell due.

3 Related party transactions

CRND is a separate entity within the DMO. CRND client mandates are kept distinct from other DMO business.

During the year, the ISIA had a significant number of material transactions with the Debt Management Account, which is operated by the DMO. CRND's client mandates required the bulk of the funds to be invested in gilts or deposited with the Debt Management Account.

During the year, the ISIA had a significant number of material transactions with the ISA due to monies advanced and withdrawn in respect of investments. During the year, the ISA withdrew £5,208k (net of deposits) from the ISIA (2018-2019: £20,068k net deposit).

4 Events after the reporting date

In accordance with the requirements of IAS 10, events after the reporting period are considered up to the date on which the Secretary and Comptroller General authorises the accounts for issue. This is interpreted as the date of the Certificate and Report of the Comptroller and Auditor General.

Accounts Direction Given By The Treasury In Accordance With Section 409 (1) Of Insolvency Services (Accounting & Investment) Act 1976 (Amended 1986)

- 1 This direction applies to the Insolvency Services Investment Account.
- 2 The Commissioners for the Reduction of the National Debt shall prepare accounts for the financial year ended 31 March 2012 and subsequent financial years which give a true and fair view of the state of affairs of the Account at the reporting date, and of its income and cash flows for the year then ended.
- 3 The accounts shall be prepared in accordance with applicable accounting standards, and shall be consistent with relevant requirements of the extant Government Financial Reporting Manual.
- 4 The accounts shall present an income statement, a statement of comprehensive income, a statement of financial position, a statement of cash flows, and a statement of changes in client funds. The statement of financial position shall present assets and liabilities in order of liquidity.
- 5 The notes to the accounts shall include disclosure of assets and liabilities, and of income and expenditure, relating to other central government funds including the National Loans Fund.
- 6 The report shall include:
 - a brief history of the Account, and its statutory background;
 - an outline of the scope of the Account, its relationship to HM Treasury and other central funds, and its management arrangements;
 - a management commentary, including information on financial performance and financial position, which reflects the relationship between the Account and other central funds; and
 - a governance statement.
- 7 This accounts direction shall be reproduced as an appendix to the accounts

This accounts direction supersedes all previous Directions issued by HM Treasury.
