

Tax calculation summary notes

6 April 2020 to 5 April 2021

These notes contain a working sheet to help you complete the 'Tax calculation summary' pages. But you will not be able to use the working sheet if you have entries in:

- box 20 on page TR 3 of your 2020 to 2021 tax return
- box 13 on page Ai 1 of the 'Additional information' pages
- box 1 in the 'Income Tax losses' section on page Ai 3 of the 'Additional information' pages
- box 2, 19 or 23 of the 'Trusts etc' pages
- box 28 of the 'Residence, remittance basis etc' pages
- box 5, 6 or 40 of the 'Foreign' pages, if the figure in the relevant box relates to withholding tax deducted under the UK/Swiss Tax Cooperation Agreement that is deemed to clear your UK tax liability on the relevant income or gains

In these circumstances, either we or your tax adviser may do the calculation for you. If you want us to do the calculation, please make sure your paper tax return reaches us by **31 October 2021** or that you file online by **31 January 2022**. For more help, go to www.gov.uk/file-your-self-assessment-tax-return

Completing the tax calculation working sheet

The working sheet is made up of 12 main sections but you will not have to complete every box in every section. However, to get to the right answer, please work through each section carefully.

Depending on your personal circumstances, you may also have to complete some additional sections. You will be directed to these sections, if appropriate, within the working sheet.

You will have to copy figures from your tax return, including supplementary pages you have completed and some figures within the working sheet, just follow the instructions on the page. Finally, you will be asked to copy figures from the working sheet on to the 'Tax calculation summary' pages.

If taxable non-savings income is less than £5,000, the balance can be set against savings. Savings income, up to this balance, is charged at the savings starting rate band of 0%.

The amount of an individuals savings allowance for a tax year which may be £1,000, £500 or nil is with reference to whether they have any higher rate or additional rate income in the year. Income Tax is charged at the savings nil rate (rather than the basic, higher or additional rate).

Where an individual receives dividend income that would otherwise be chargeable at the dividend ordinary, upper or additional rate, and the income is less than or equal to £2,000, the dividend nil rate will apply to all of the dividend income. Where the dividend income is above £2,000, the lowest part of the dividend income will be chargeable at 0%, and anything received above £2,000 is taxed at the rate that would apply to that amount if the dividend nil rate did not exist.

The figure of £10,573 or £37,500 and £150,000 can be increased if you pay tax at the higher rate of 32.5%, 40% or more and make personal pension contributions and/or Gift Aid payments.

Section 3a: Status

If any box on this page is a minus figure, substitute zero.

For Scottish residents the Scottish rates and thresholds apply to non-savings and non-dividend income and the UK rates and thresholds apply to savings and dividends income.

If you're a Scottish customer:

- enter 'Scottish' in S1, otherwise leave blank
- enter £2,085 in S2, otherwise enter zero
- enter £10,573 in S3, otherwise enter £37,500
- enter £18,272 in S4, otherwise enter zero

If you're a Scottish customer enter £119,070 in S5, otherwise enter £112,500

If you're a non-UK resident you're not a Scottish customer. To be a Scottish customer a person must first be a UK resident for tax purposes.

Section 5: Calculate taxable income

If any box on this page is a minus figure, substitute zero.

It may be more beneficial for some customers to now have (some of) their deductions and allowances from box A130 allocated against dividend income before savings income, the Savings income etc is at boxes A145 to A147 and at boxes A160 to A162. If it's more beneficial to move reliefs and allowances to dividends in the higher rate range to increase tax at the basic rate but reduce tax at the higher dividend rate this working sheet may not give the correct answer. Overwrite the amounts in the middle column to deduct the reliefs and allowances in the way which will result in the greatest reduction in your liability to Income Tax.

If you think it may be more beneficial to order reliefs and allowances differently you may want to either file your tax return online, let us do your calculation for you or speak to your tax advisor.

If any box on this page is a minus figure, substitute zero.

The first £5,000 of savings income is taxed at 0%; but only if non-savings and savings income is less than £17,500 (the personal allowance - £12,500 plus the savings starting rate band of £5,000). Savings income in excess of the savings starting rate band, up to the lower of the amount of the excess or the individual's savings allowance, is charged at the savings nil rate.

Gift Aid payments

If you've made Gift Aid payments you must pay Income Tax, at whatever rate, or Capital Gains Tax, at least equal to the basic rate Income Tax treated as having been deducted. The charity receiving payments from you can reclaim that Income Tax from us. We must make sure you pay sufficient tax to 'cover' the tax repaid to the charity. If you've not paid enough it may be necessary to restrict your personal allowances so more income is charged to tax or we may ask you to pay more. Boxes A269 to A275 compare the tax charged on your income with the tax treated as deducted from your Gift Aid payments.

Do not include pence in boxes A269 and A270. Round down the figure in each of these boxes to the nearest whole pound.

There may be an adjustment needed to increase your tax for 2020 to 2021 because you're claiming averaging for farmers and creators of literary or artistic work, or you're claiming to pay tax on your post-cessation receipts by reference to the year your business ceased.

Calculate the difference between the actual liability for the earlier year and the liability that would have arisen for the earlier year if the averaged profit or post-cessation receipts had been included in the return for that year. The adjustment relates to 2020 to 2021 even though it is calculated by reference to the circumstances of the earlier year. If you need help, ask us or your tax adviser. Enter the amount in box A346.

Increase in tax from adjustmer	١t
to earlier years	

Total due

There may be an adjustment needed to decrease your tax for 2020 to 2021, calculated by reference to an earlier year, because you're claiming loss relief calculated by reference to your income or capital gains for an earlier year or years, or you're claiming averaging for farmers and creators of literary or artistic work.

Do not include losses for which you have previously claimed relief. Calculate the difference between the actual liability for the earlier year and the liability that would have arisen for the earlier year if the loss, averaged profits or pension payments had been included in the return for that year. Enter the amount in box A348. If you need help, ask us or your tax adviser.

Decrease in tax from adjustment to earlier years

If you wish to claim tax relief now for a 2021 to 2022 income loss, or certain 2021 to 2022 capital losses, by reference to an earlier year, for example, 2020 to 2021 (often called 'carrying back' a loss), you should have provided full details of your claim in the 'Additional information' box, box 19 on page TR 7 of your tax return. You will also need to complete boxes 3, 4 and 5 on the Additional information page Ai3.

After calculating 2020 to 2021 liability recalculate it by adjusting the losses carried forward and losses set against other income boxes to reduce your profit and other income by the amount of the loss carried back, and note the new liability. The difference between the new liability and your original figure from boxes A343 or A343a is the amount of your tax relief for the 2021 to 2022 loss and you should enter it in box A349. When we receive your tax return a credit for this amount will be set against the total tax due for 2020 to 2021. In some cases where we enquire into your claim, any credit may not be available before the closure of the enquiry. You may want to use these losses in an earlier year. If so, you will need to recalculate that year's liability before completing 'Additional information' page Ai3 and box A349. If you need help, ask us or your tax adviser.

Claim to reduce payments on account

You may want to reduce your payments on account for 2021 to 2022 (including reducing to nil) if you expect:

- your 2021 to 2022 income to be lower than 2020 to 2021
- · your allowances or reliefs to be higher
- more of your 2021 to 2022 income will be taxed at source, because
 - it will be taxed under PAYE
 - it will be covered by subcontractor deductions
 - you'll have more savings income

If you do want to reduce your payments on account, you must make a reasonable estimate of the difference between the Income Tax you expect to pay in 2021 to 2022 and your Income Tax on this return. You can reduce each of your payments by half this difference.

In box 11 of the 'Tax calculation summary' pages enter the amount of each reduced payment on account (including the pence), or nil, if appropriate, and put 'X' in box 10. Give your reason for reducing your payments in box 17. If you decide later that your reduced payments are still too high, write to us saying why you're claiming to reduce again. Make sure the payments you make by 31 January 2022 and 31 July 2022 will add up to your best estimate of your tax bill for 2021 to 2022.

If your 2 payments on account turn out to be different from your 2020 to 2021 tax bill and if you've paid:

- · more than you needed to, we'll credit you with interest
- · less than you needed to, we'll charge you interest

Your 2 payments on account should be the lower of the actual Income Tax and Class 4 NICs due (net of tax deducted at source and tax credits on dividends) for 2020 to 2021 or 2021 to 2022. If you've been careless or fraudulent in claiming to reduce your payments on account, we may charge you a penalty. If you decide later that you've reduced too much, you can revise your claim upwards and/or pay more in line with your revised estimate. But if you do not make a claim, we may allocate additional amounts paid to other outstanding liabilities.

The amount due by 31 January 2022

If box A362 is positive, this is the tax you owe.

If box A362 is negative, this is the tax we owe you.

Please note that if you make any payment towards your 2020 to 2021 tax bill between now and 31 January 2022, and that payment is not included in box A350 or A351, reduce the figure in box A362 by the amount of that payment. If 2020 to 2021 payments on account were not paid by their due dates (31 January 2021 and 31 July 2021), interest may also be due.

Confirmation of where boxes on this working sheet go to on the 'Tax calculation summary' pages

Total tax, Student Loan repayment and Class 4 NICs due before any payments on account If the result of your calculation is that you owe tax (there is a figure in box A343), copy the figure from box A343 to box 1 on the 'Tax calculation summary' pages.

2 Total tax, Student Loan repayment and Class 4 NICs overpaid

If the result of your calculation is that you overpaid tax (there is a figure in box A343a), copy the figure from box A343a to box 2 on the 'Tax calculation summary' pages.

3 Student Loan repayment due

If you completed the Income Contingent Loan notification box (Loan repayments box 1 on page TR 5 of your tax return), copy the figure from box A333 to box 3 on the 'Tax calculation summary' pages. Do not include pence in this box; round down the amount to the nearest whole pound.

3.1 Postgraduate Loan repayment due

If you completed the Income Contingent Loan notification box (Loan repayments box 1 on page TR 5 of your tax return), copy the figure from box A334 to box 3.1 on the 'Tax calculation summary' pages. Do not include pence in this box; round down the amount to the nearest whole pound.

4 Class 4 NICs due

If you're self-employed, in a business partnership or are a Lloyd's underwriter you may have to pay Class 4 NICs. Copy the figure from box A329 to box 4 on the 'Tax calculation summary' pages.

4.1 Class 2 NICs due

If you're self-employed, in a business partnership or are a Lloyd's underwriter you may have to pay Class 2 NICs. Copy the figure from box A330 to box 4.1 on the 'Tax calculation summary' pages.

5 Capital Gains Tax due

If you completed the 'Capital Gains Tax summary' pages, copy the figure from box A341 to box 5 on the 'Tax calculation summary' pages.

6 Pension charges due

If you completed the working sheet in Helpsheet 345, 'Pensions savings - tax charges', copy the figure from box A275 to box 6 on the 'Tax calculation summary' pages.

7 Underpaid tax for earlier years included in your tax code for 2020 to 2021

If you pay tax under PAYE and your 2020 to 2021 PAYE Coding Notice has an entry for 'amount of underpaid tax for earlier years', copy the figure from box A332 to box 7 on the 'Tax calculation summary' pages.

8 Underpaid tax for 2020 to 2021 included in your tax code for 2021 to 2022

If you pay tax under PAYE and we reduced your tax code in 2020 to 2021 and you asked for any unpaid tax to be collected through your tax code for 2021 to 2022, copy the figure from box A338 to box 8 on the 'Tax calculation summary' pages.

9 Outstanding debt included in your tax code for 2020 to 2021

If you pay tax under PAYE and your 2020 to 2021 PAYE Coding Notice has an entry for an 'outstanding debt' for an earlier year, copy the figure from the tax code to box 9 on the 'Tax calculation summary' pages.

10 If you're claiming to reduce your 2021 to 2022 payments on account

Put 'X' in box 10 if you're making a claim to reduce payments on account and give the reason for the reduction in box 17. You can be charged interest and penalties if you reduce your payments on account by too much. Please read the notes on page TCSN 26.

11 Your first payment on account for 2021 to 2022

If you're claiming to reduce your 2021 to 2022 payments on account, copy the figure from box A360 to box 11 on the 'Tax calculation summary' pages.

- Blind person's surplus allowance you can have, and the amount of married couple's surplus and allowance you can have.
- 13 If your spouse or civil partner did not have enough income in the year ended 5 April 2021 to use any or all of their Married Couple's Allowance or Blind Person's Allowance (if due), you can ask for the surplus to be transferred to you. If you're unsure whether you can get surplus allowances from your spouse or civil partner, ask us or your tax adviser.
 - If you've agreed an amount that can be transferred enter any blind person's surplus allowance in box 12, and married couple's surplus allowance in box 13 on the 'Tax calculation summary' pages.
- 14 If the amount of tax due for 2020 to 2021 is affected by adjustments to other tax years, read the

 - copy the figure from box A348 to box 15
 - copy the figure from box A349 to box 16

If you need to fill in any of the boxes on pages TCSN 29 to TCSN 49, the working sheet on the preceding pages should already have directed you to them.

Briefly, the next few pages cover:

- age-related Personal Allowance and Married Couple's Allowance
- working out Class 4 National Insurance contributions
- · Top Slicing Relief if any gains on life policies have made you liable to the higher rate
- · working out Capital Gains Tax
- · working out the tax charge on Child Benefit
- working out Student Loan and Postgraduate Loan repayments

If you have paid Class 1 National Insurance complete the R100 calculation overleaf.

If the amount of Class 4 due in D32 is less than the amount in box D18 copy the figure to D18.

Class 2 NICs

You pay Class 2 contributions if you're self-employed. Class 2 contributions are £3.05 a week, or £3.70 for share fishermen, for 2020 to 2021. If your profits (D12) are below £6,474 for 2020 to 2021, you can elect to pay Class 2 NICs voluntarily.

from D13

D26

Class 4 calculation following Regulation 100, SS(C)R 2001

So that a person with earnings from both an employment and self-employment does not pay considerably more National Insurance than a person who has a similar level of earnings but from only one employment, the Class 4 NICs payable is sometimes restricted.

NIM24175 sets out the calculation method for determining the maximum amount of Class 4 NICs. Depending upon the level of a contributor's profits and the amount of Class 1 and 2 NICs paid, the maximum amount of Class 4 NICs due will vary. All contributors who are liable to pay both Class 1 and Class 4 NICs will be required to pay either:

- Class 4 NICs at the main Class 4 NICs percentage only
- a mixture of Class 4 NICs at the main Class 4 NICs percentage and the additional Class 4 NICs percentage

Subtract from the result of step 3 the total amount of any Class 2 NICs and any

Class 1 NICs at the main primary percentage that the contributor has paid

Class 4 NICs at the additional Class 4 NICs percentage only

Profit on which Class 4 NICs is due	D20	
Enter earnings subject to Class 1 NICs from all employments, column 1c from P60 (earnings from PT to UAP) +	D21	
column 1d from P60 (earnings from UAP to UEL)		D21 x 12%
Earnings from PT to UEL at primary percentage	D22	DZ1 X 1276
Step 1 and step 2		
Subtract the Lower Profits Limit (£9,500) from		
the Upper Profits Limit (£50,000) for the year. Multiply the result by 9%. This is £3,645	D23	£3,645
Step 3		
Add to the result of step 2, 53 weeks Class 2 NICs at the rate in force for the year,		
usually £161.65. For share fishermen it will be £196.10.	D24	
		D23 + D24
	D25	
Step 4	D25 i	minus (D19 + D22)

If the result of step 4 (D26) is a positive value and exceeds the aggregate of:

- primary Class 1 NICs payable at the main percentage (D22)
- Class 2 NICs (D19)
- Class 4 NICs payable at the main Class 4 NICs percentage that you would have paid if no maximum existed (D13 x 9%)

the result of this step is the maximum amount of Class 4 NICs that you're liable to pay. There's no need to proceed to any further steps.

If D26 is lower than D18 copy D26 to D18, if not, retain the lower figure in D18.

If the above does not apply complete steps 5 to 9.

Step 5 Multiply the result of step 4 by 100/9	D26 x 100/9
Step 6 Subtract the lower profits limit from the lesser of the upper profits limit and the contributor's actual amount of profits for the year	lower of (D12 or £50,000) minus £9,500 D28 This box can be negative
Step 7 Subtract the result of step 5 from the result of step 6. If the result of this is a negative value it is treated as nil	D28 minus D27
Step 8 Multiply the result of step 7 by 2%	D29 x 2%
Step 9 Multiply the amount by which the profits and gains for the year exceed the upper profits limit by 2%	(D12 minus £50,000) x 2%
The maximum amount of Class 4 NICs payable is the aggregate of steps 4, 8 and 9. If D32 is lower than D18 copy D32 to D18	D26 + D30 + D31
