Authorized Amendment
Summary/Overview of the amendment to explain/ensure that the reader understands: the rationale for the amendment; the major changes; and, importantly, the full context (including desired outcome) of the amendment.
The Regulated Community is reminded to check this amendment against any applicable AAMC, Waivers or Exemptions to ensure their ongoing validity.
RA 1140 currently requires a technical data exploitation strategy to be developed and included within Air Safety Management Systems (ASMS), but the requirement for wider Air Safety data exploitation is only implicit within RA 1200 and RA 1205 to support ASMS and Air System Safety Cases (ASSC) respectively. RA 1207 introduces the specific requirement for an Air Safety data exploitation strategy, and RA 1140 will be withdrawn.
