This update creates a new category for personnel carried in UK military registered aircraft and adjusts privileges for existing categories. The intent is to offer increased flexibility for personnel carriage, where it is appropriately governed. The update will require ADH / AM(MF) to review their extant orders and provide additional governance in some areas, notably with respect to carriage of Supernumerary Support Crew. It should be noted this is an additional category which does not preclude continued carriage of these personnel as passengers where compliance can be achieved. The RA continues to provide definitions but increases signposting and is more directive in its requirement for authorization and categorization.
