East Midlands lower tier local authority watchlist, epidemiological charts

Produced 29 March 2021

Notes

- This data is provided by Public Health England for the purpose of monitoring and supporting the management of Covid-19 infections in local authorities.
- The reports are produced using 2019 Office for National Statistics population data.
- If you would like to know the weekly trend for the case rate charts and persons tested chart please see lower tier local authority watchlist.
- The age range in the age heatmaps has changed. This is to provide a more detailed picture of the case rates in school and higher education by age.
- The red dotted line on the heatmap shows the last four days where data may be incomplete due to reporting delays. Please consider this data provisional.
