FOR SIGNATURE BY: OFFICIAL VETERINARIAN

I. Identification of consignment

- (a) Description of the meat/products:
- (b) Species of animal:
- (c) Type and number of packages:
- (d) Net and gross weight of consignment:
- (e) Seal number:
- (f) Container number:

II Origin of products

- (a) Name, address and veterinary approval number(s) of the slaughterhouse(s) of origin:

Slaughter date or period:

- (b) Name, address and veterinary approval number(s) of the cutting plant(s):

Processing date or period:

(c) Name, address and approval/registration number(s) of the processing establishment(s):

(d) Name, address and approval number of the cold store:

III Destination of products

(a) The product was despatched from the United Kingdom to:

(country and place of destination)

(b) Name and address of exporter:

(c) Name and address of consignee:

(d) Means of transportation:

(e) Proposed date and port of shipment:

IV. Health Information

I, the undersigned Official Veterinarian, certify that:

(a) The United Kingdom is free from foot and mouth disease (FMD), rinderpest, classical swine fever (CSF) and African swine fever (ASF) in accordance with the OIE Animal Health Code;

(b) vaccination against FMD, rinderpest, ASF and CSF as well as importation into the United Kingdom of cloven-hooved animals which have been vaccinated against any of these diseases is prohibited.

(c) the meat/meat products is/are derived from animals that;

(i) originated from farms that are free from prohibitions resulting from an outbreak of a major epizootic disease included in the OIE International Animal Health Code to which the species is susceptible;

(ii) were slaughtered / processed in EU-approved slaughterhouses / processing plants in any of the following countries: Austria, Belgium, Denmark, Finland, France, Germany, Ireland, The Netherlands, Spain, United Kingdom;

country/countries of origin

(iii) have undergone ante-mortem and post-mortem inspection under veterinary supervision and have been found to be free from clinical signs of infectious or contagious disease;

- (d) the meat / product bears a oval mark indicating that it was obtained in accordance with the European Union (EU) legislation laying down hygiene rules for food of animal origin and its official controls;
- (e) the meat / product has been handled, wrapped and packaged, stored and transported in compliance with EU legislation so as to prevent its contamination with any agents known to cause infectious diseases of domestic animals and humans;
- (f) the meat was produced in licensed slaughterhouses which are subject to monitoring for residues of veterinary medicinal products, antiparasitic agents, heavy metal contaminants, beta-agonists and substances having a thyrostatic, oestrogenic, androgenic or gestogenic action which do not occur naturally in meat;
- (g) the United Kingdom has a comprehensive programme in place to monitor radioactivity in food and the environment. The results demonstrates that even the most exposed members of the UK public received radiation doses from consumption of local food and exposure to environmental radioactivity (due to discharges and direct radiation) that were below the statutory EU annual dose limit to members of the public of 1 millisievert per year from artificially-produced radionuclides as set in the Council Directive 96/29/Euratom of 13 May 1996.
- (h) the transport vehicles or containers and the loading conditions of this consignment meet the hygiene requirements laid down in UK and EU legislation.
