## Annex C

## Sample: Automated vehicles (AVs) listed for use in Great Britain

From April 2021, when registering an automated vehicle on the DVLA database, manufacturers will need to check a list similar to the example shown to find out if their vehicle has been listed as an automated vehicle for use in Great Britain. See the 'Process for listing and registration of automated vehicles' section of <u>Safe use of automated lane keeping system (ALKS): summary of responses</u> and next steps for further information.

Reference number	Type approval number (including extension)	Manufacturer	Commercial description	Туре	Variant(s)	Version(s)	Decision date	Comments/ restrictions
