Correction

Various - see cells marked on the above Tables denoted with [r]

Further detail

Revised Postgraduate figures have been produced due to errors in reporting as a result of system and process changes to the way Postgraduate applications are processed. During a subsequent full review of the methods used to obtain figures for these statistics, it became apparent that the calculation of paid amount figures was also inflated due to a flawed logic.

Validation

Figures have been reconciled and quality assured against reporting produced from other SLC systems at a loan account level.
