II. Health information

II.1. Animal health attestation

I, the undersigned official veterinarian, hereby certify that the hatching eggs of captive birds⁽¹⁾ described in this certificate:

II.1.1. come from the zone with code __ - _⁽²⁾ which, at the date of issue of this certificate, is authorised and listed in Part I of Annex V to Commission Implementing Regulation (EU) 2021/404 for entry into the Union of hatching eggs of captive birds;

II.1.2. come from the establishment⁽³⁾ indicated in Box I.11, approved by the competent authority of the country or territory of origin in accordance with requirements which are at least as stringent as those laid down in Article 56 of Commission Delegated Regulation (EU) 2020/692 and:

(a) the approval of which has not been suspended or withdrawn;

(b) which is under the control of the competent authority of the country or territory of origin and has a system in place to maintain and to keep records in accordance with Article 8 of Commission Delegated Regulation (EU) 2020/692;

(c) which receives regular animal health visits from a veterinarian for the purpose of the detection of, and information on, signs indicative of the occurrence of diseases, including the relevant listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692 and emerging diseases, at a frequency that is proportional to the risk posed by the establishment;

(d) which was not subject to national restriction measures for animal health reasons, including for the listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692 relevant for the species and emerging diseases, at the time of dispatch of the animals to the Union;

(e) within a 10 km radius of which, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of highly pathogenic avian influenza or infection with Newcastle disease virus for at least 30 days prior to the date of loading for dispatch to the Union;

⁽⁴⁾[f] in which;

^{(5)either} [avian chlamydiosis has not been confirmed for a period of at least 6 months prior to the date of loading of the hatching eggs of captive birds for dispatch to the Union;]

^{(5)or} [avian chlamydiosis has been confirmed during the last 6 months prior to the date of loading of the hatching eggs of captive birds for dispatch to the Union, but not during the last 60 days, and the measures provided for in Article 55(e)(i) of Delegated Regulation (EU) 2020/692 have been applied;]

^{(5)or} [the animals from which the hatching eggs have been obtained, have been kept under veterinary supervision for the 45 days prior to the date of collection of the hatching eggs and were treated against avian chlamydiosis;]

II.1.3. come from animals which:

(a) have remained in the establishment indicated in Box I.11 since hatching or for a continuous period of at least 3 weeks immediately prior to the date of loading of the hatching eggs for dispatch to the Union;

(b) have not been vaccinated against highly pathogenic avian influenza;

^{(5)either} [(c) have not been vaccinated against infection with Newcastle disease virus;]

^{(5)or} [(c) have been vaccinated against infection with Newcastle disease virus with vaccines that comply with both the general and specific criteria of Annex XV to Delegated Regulation (EU) 2020/692;

(d) have been subjected to a virus detection test⁽⁷⁾ for highly pathogenic avian influenza and infection with Newcastle disease virus with negative results within the period of 7 to 14 days prior to the date of collection of the hatching eggs;

(e) had no contact with animals of a lower health status since hatching or for a continuous period of at least 3 weeks immediately prior to the date of collection of the eggs;

(f) are not to be killed under a national programme for the eradication of diseases, including the listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692 relevant for the species and emerging diseases;

(g) have been subjected to a clinical inspection⁽⁶⁾ on ___/___/___ (dd/mm/yyyy), within the 24 hours prior to loading of the hatching eggs for dispatch to the Union, and showed no signs indicative of the occurrence of diseases, including the listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692 relevant for the species and emerging diseases;

II.1.4. are loaded for dispatch to the Union in containers which:

(a) are constructed in such a way that hatching eggs cannot fall out;

(b) contain only hatching eggs of captive birds of the same species coming from the same establishment;

(c) are used for the first time;

(d) are closed in accordance with the instructions of the competent authority of the country or territory of origin to avoid any possibility of substitution of the content;

(e) bear the information set out in Point 7 of Annex XVI to Delegated Regulation (EU) 2020/692 relevant for hatching eggs of captive birds;

II.1.5. are loaded for dispatch to the Union on ___/___/___ (dd/mm/yyyy)⁽⁸⁾ in a means of transport which is constructed in accordance with II.1.4(a) and was cleaned and disinfected prior to loading with a disinfectant authorised by the competent authority of the country or territory of origin;

⁽⁹⁾II.1.6. are intended for a Member State which has been granted the status free from infection with Newcastle disease virus without vaccination in accordance with Article 66 of Commission Delegated Regulation (EU) 2020/689, and they come from animals which:

(a) have not been vaccinated against infection with Newcastle disease virus;

UNITED KINGDOM

- (b) were kept in isolation for at least 14 days prior to the date of loading of the consignment for dispatch to the Union in the establishment of origin or quarantine establishment under the supervision of an official veterinarian, where:
 - (i) no bird was vaccinated against infection with Newcastle disease virus during the period of at least 21 days prior to the date of loading of the consignment;
 - (ii) no other birds have entered into the establishment during that time;
 - (iii) no vaccination has been carried out;
- (c) have tested⁽⁷⁾ negative to serological tests to detect antibodies against Newcastle disease virus, performed on blood samples at a level which gives 95% confidence of detecting infection at 5% prevalence and which were taken during the period of at least 14 days prior to the date of loading for dispatch to the Union.]

Notes:

This certificate is intended for entry into the Union of hatching eggs of captive birds, including when the Union is not the final destination of those products. In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland / Northern Ireland in conjunction with Annex 2 to that Protocol, references to European Union in this certificate include the United Kingdom in respect of Northern Ireland.

This animal health certificate shall be completed according to the notes for the completion of certificates provided for in Chapter 4 of Annex I to Commission Implementing Regulation (EU) 2020/2235.

Part I:

Box I.8.: Provide the code of the zone as it appears in column 2 of the table in Part 1 of Annex VI to Implementing Regulation (EU) 2021/404.

Box I.27: Description of consignment
 CN code: use the appropriate Harmonised System (HS) code of the World Customs Organisation: 04.07.

Part II:

- (1) 'Captive birds' as defined in Article 4 of Regulation (EU) 2016/429.
- (2) Code of the zone as it appears in column 2 of the table in Part 1 of Annex VI to Implementing Regulation (EU) 2021/404.
- (3) The name and unique approval number of the establishment must appear on the list of establishments drawn up and published by the Commission.
- (4) This guarantee is required only for consignments of psittacidae.
- (5) Keep as appropriate.
- (6) The clinical inspection must have been carried out by an official veterinarian of the country or territory of origin.
- (7) Tests should be carried out on samples taken by or under the control of the competent authority of the country or territory of origin and testing should be carried out in an official laboratory designated in accordance with Article 37 of Regulation (EU) 2017/625.
- (8) The date of loading cannot be a date prior to the date of authorisation of the country or territory or zone thereof for entry into the Union, or a date in a period when restriction measures have been adopted by the Union in relation to the entry of these animals from that country or territory or zone thereof.
- (9) This guarantee is required only for consignments of hatching eggs of captive birds of galliformes species intended for a Member State which has been granted the status free from infection with Newcastle disease virus without vaccination in accordance with Article 66 of Delegated Regulation (EU) 2020/689.
