

EMPLOYMENT TRIBUNALS

Claimant: Mohil Kansara

Respondent: Gems of Broadway Limited

JUDGMENT

The claimant's application dated the 1st April 2021 for reconsideration of the judgment sent to the parties on the 20th March 2021 is refused.

REASONS

There is no reasonable prospect of the original decision being varied or revoked, because all relevant matters were taken into consideration during the course of the hearing, as the claimant accepts in his application for reconsideration. I have read all of the additional submissions and documents that the claimant has attached to his email to the Tribunal dated the 1st April 2021. These set out the various impacts that his dismissal has had upon him. I allowed his claim for unfair dismissal. None of these documents would have made a difference to my decision.
