I.21. Seal/Container number					
I.22. Commodities certified for: Artificial reproduction <input type="checkbox"/>					
I.23. Transit through 3rd country <input type="checkbox"/>			I.24. For Export <input type="checkbox"/>		
I.25. Identification of the commodities					
Species (scientific name)	Customs code and title	Donor identity	Date of collection	Approval number of centre	Quantity

<b>Part II: Certification</b>	<b>II. Health information</b>	II. a. Certificate reference number	II. b. Unique reference number:
-------------------------------	-------------------------------	-------------------------------------	---------------------------------

I, the undersigned, Official Veterinarian of the United Kingdom certify that:

II.1. The semen herein described, complies with the relevant United Kingdom standards and requirements which have been recognized as equivalent to the New Zealand standards and requirements as prescribed in the United Kingdom-New Zealand Agreement on Sanitary Measures, specifically in accordance with Directive 88/407.

II.2. The semen is eligible for intra-European Union trade without restriction.

II.3. For diseases not regulated by the UK: All laboratory samples required by this veterinary certificate have been collected, processed, and stored in accordance with the OIE's recommendations or as described in Approved Diagnostic Tests, Vaccines, Treatments and Post-Arrival Testing Laboratories for Animal Import Health Standards, MPI-STD-TVTL, found here: <https://www.mpi.govt.nz/dmsdocument/2040/>.

II.4. With regards to Q fever:

- (1) either [II.4.1 To the best of my knowledge and as far as I can ascertain, the donors have never been confirmed positive for Q fever. The donors were subjected to a ELISA test in accordance with the methods described in the Q-Fever Chapter of the OIE Manual of Diagnostic Tests and Vaccines for Terrestrial Animals, on a sample collected between 21 and 120 days after each semen collection period (a period of 60 days or less) for export to New Zealand, with negative results;]
- (1) or [II.4.2 An aliquot of semen from each collection for export to New Zealand was tested using a laboratory validated Q-fever PCR test which is in accordance with the methods described in the Q-fever Chapter of the OIE Manual of Diagnostic Tests and Vaccines for Terrestrial Animals.]

II.5. The donor's centres of residence have had no cases of BHV-5 (suspected or diagnosed) in the year prior to semen collection for export to New Zealand.

II.6. The tests for brucellosis must be proven capable of detecting infection with *Brucella suis* and must be one of the following: CFT, BBAT, I-ELISA, or FPA.

II.7. To manage *Leptospira interrogans*, antibiotics have been added in accordance with the OIE Code, or with another approved combination listed in MPI-STD-TVTL, found here: <https://www.mpi.govt.nz/dmsdocument/2040/>.

II.8. With regard to *Mycoplasma bovis*:

- (1) either [II.8.1 The semen was treated in accordance with the protocol described in MPI-STD-TVTL, found here: <https://www.mpi.govt.nz/dmsdocument/2040/>];
- (1) or [II.8.2 Each semen collection for export to New Zealand was tested using a validated test for M. bovis in accordance with MPI-STD-TVTL, found here: <https://www.mpi.govt.nz/dmsdocument/2040/>, with negative results.]

Notes

Part I:

Box I.11.: Place of origin shall correspond to the semen collection centre or semen storage centre listed on Gov.uk website or TRACES:

<https://www.gov.uk/government/publications/livestock-and-equine-semen-collection-approved-premises>

Box I.20.: Number of packages shall correspond to the number of containers.

Box I.21.: Identification of container and seal number shall be indicated.

Box I.25.: Species: indicate "Bos taurus", "Bison bison" or "Bubalus bubalis" as appropriate.

Donor identity shall correspond to the official identification of the animal.

Date of collection shall be indicated in the following format: dd/mm/yyyy.

Approval number of the centre shall correspond to the approval number of the semen collection centre in which the semen was collected.

Part II:

- (1) Delete as appropriate.
- The signature and the stamp must be in a different colour to that of the printing.
