

With regard to pricing, I have no problem with sharing our prices - BUT the variables are so extraordinary it is unreal and not possible for one price to fit all funerals.

Cremation fee differs from one Crematorium to another, Cemetery fees differ from one to another, different Churches charge for different items.

Our fees differ from one funeral to another - removal location/times/extra staff sometimes.

Each funeral we conduct for our families is a tailored bespoke service. We always give our families a detailed estimate and confirmation before the funeral is conducted, so it is clear and transparent to them what all the charges are.

Kind regards
