Dear Operator,

RE: ENERGY SAVING OPPORUNTIY SCHEME PUBLUC CONSULATION

A consultation on improvements to the Energy Savings Opportunity Scheme (ESOS) was launched on 6th July 2021 and will be open until **28th September 2021**. The consultation sets out proposals for strengthening the scheme including:

- Improving the quality of audits through increased standardisation of reporting requirements;
 - Inclusion of a net zero element to audits; and
 - Requiring public disclosure of high-level recommendations by participants.
- It also seeks views on additional options that could potentially be implemented in the longer term – extension of ESOS to medium sized enterprises and mandating implementation of ESOS recommendations.

All responses are welcome.

To register your interest in attending a stakeholder event on the proposals set out in the ESOS consultation, please complete the following form by the **12th July 2021**:
