

HS2

Phase One Heritage Sub-group

Virtually
15th June 2021

Agenda

- | | |
|--------------------------------------|---------------|
| 1. Introduction and values mo | 10mins |
| 2. Planning Forum update | 10mins |
| 3. Schedule 18 | 10mins |
| 4. Post excavation update | 20mins |

Break

- | | |
|--------------------------|---------------|
| 5. Archives | 20mins |
| 6. Burial grounds | 15mins |
| 7. AOB | 10mins |

Values moment

Speech by Bryan Dyson, former CEO of Coke Cola

Imagine life as a game in which you are juggling some five balls in the air.

They are **Work, Family, Health, friends and Spirit** and you're keeping all of these in the air.

You will soon understand that **work** is a rubber ball. If you drop it, it will bounce back. But the other four Balls – **Family, Health, Friends and Spirit** – are made of glass.

If you drop one of these they will be irrevocably scuffed, marked, nicked, damaged or even shattered. They will never be the same. You must understand that and strive for it.

Work efficiently during office hours and leave on time. Give the required time to your family, friends and have proper rest.

Value has a value only if it's value is valued

Archives

Heritage Memorandum, para 4.6.5

The nominated undertaker recognises the need to deposit the HS2 archaeological and built heritage archive appropriately and is committed to working with Historic England and local authorities to identify suitable repository/ies to enable the deposition of the artefacts and records generated by the HS2 heritage works. The nominated undertaker will deposit the HS2 historic environment archive in an appropriate repository or repositories

Strategy highlights

All digital material curated with the ADS

Local deposition for physical material

- Retains local relevance to communities and ease of access.
 - Contribution to local skills development, volunteering and transferable skills.
 - More likely local landowners will agree to transfer of title
 - Complimentary relationship with current collections.
 - Retention of local expertise and jobs
-

Archives

What's happening now

The ADS is:

- Preparing the site interface
- Providing guidance and support to the supply chain
- Ingesting data

Supply chain are:

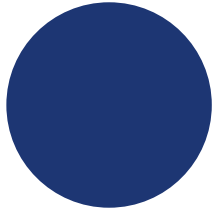

- continuing fieldwork
- preparing post excavation assessment and archives
- Setting up meetings with museums

Majority of archives to post excavation contractor

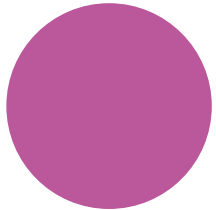

HS2

Post-excavation

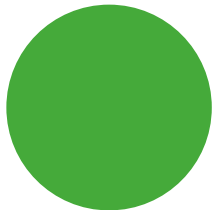

Fieldwork

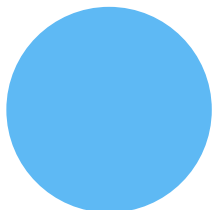

Majority of Phase 1 fieldwork to complete in 2022, Phase 2a approx. 2026.

Enabling Works Contractors (CSjv, Fusion and LM) delivering up to and including post-excavation assessment.

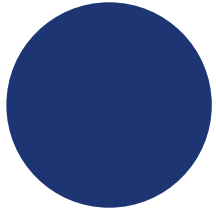

Small-scale fieldwork beyond 2022, e.g. historic building recording and construction integrated recording, to be carried out by Main Works Contractors and their supply chain.

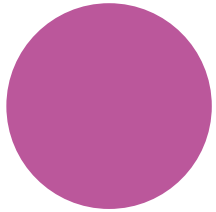

EWCs and MWCs are not delivering the post-excavation analysis phase.

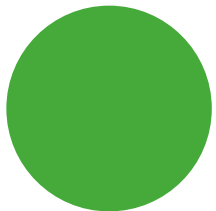

Analysis phase

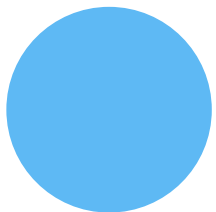

The EWCs and MWCs are structured organisationally and commercially to deliver a range of **site-based** construction activities, including archaeological fieldwork.

Different structures are needed to deliver the unique range of activities that comprise post-excavation services.

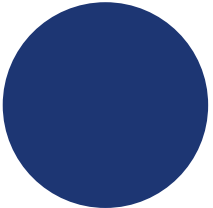

The Phase 1 and 2a post-excavation programme is estimated to take 6-7 years. The EWC contracts are programmed for closure during that period.

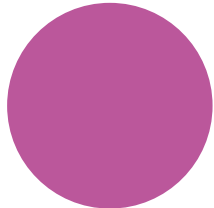

A new procurement for *Post-excavation services* is therefore underway.

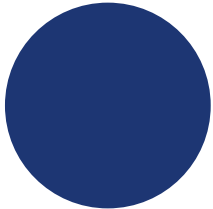

Post-excavation services: new procurement

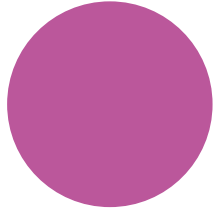

Planned contract start:
Summer 2022

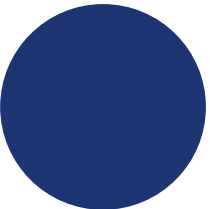

Includes Project Design and delivery of the analyses, publication, community, education and skills outputs and archiving

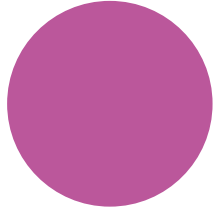

Includes Phases 1 and 2a

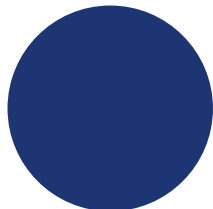

Interface with Main Works on the results from small-scale MW fieldwork

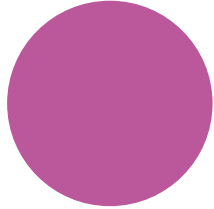

7 year contract duration

Packaging approach to be informed by market engagement

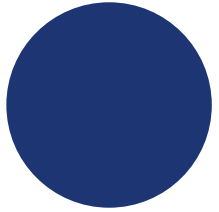

Year 1-2: Project Design and critical tasks
Year 3-7: Delivery

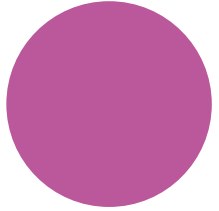

Running an above threshold two-stage process – prequalification (PQQ) and Invitation to Tender (ITT)

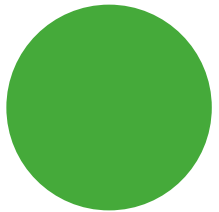

HS2's next steps

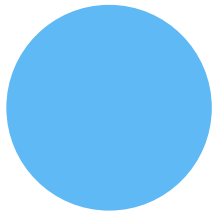

Market engagement

Refining procurement approach

Preparation of tender documentation, e.g. technical standard updates

Preparation of HS2 Ltd systems and processes
