

Note of Correction

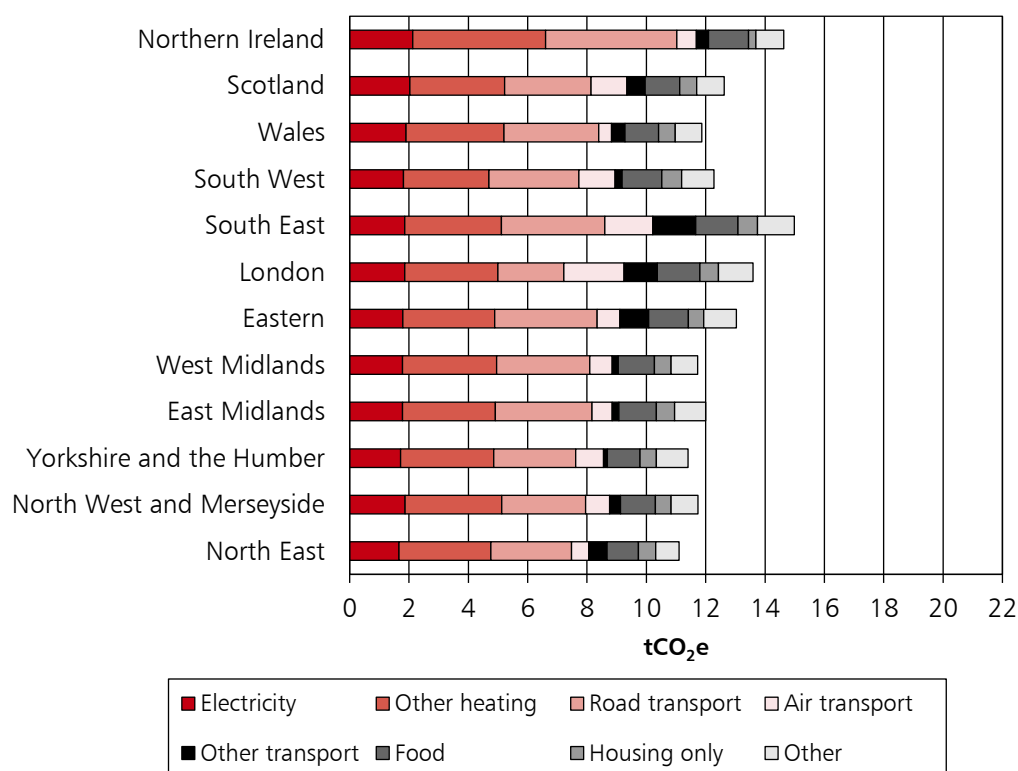

Title: Net Zero Review: Interim Report

Corrections:

Charts 7.A to 7.G and the corresponding text have been revised following a correction to the underlying data. The original data did not correctly account for spending on dual fuel bills.

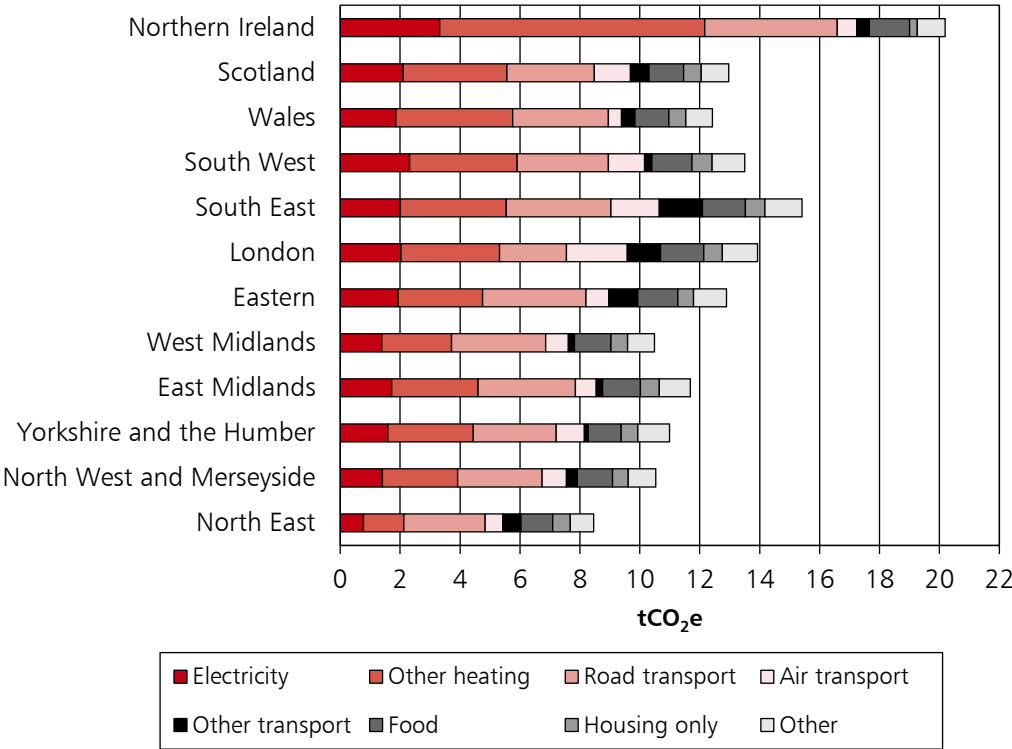

This correction has significantly changed the results of Chart 7.F, *Average household greenhouse gas footprint by Government Office Region*, in particular, as shown in the following charts. Chart A shows the revised carbon footprint and Chart B shows the incorrect carbon footprint by region which was originally published. Chart A is presented here on the same scale as Chart B for ease of comparison.

Chart A: Average household greenhouse gas footprint by Government Office Region (revised)

Source: HM Treasury calculations, LCF data, DEFRA Carbon Footprint.

Chart B: Average household greenhouse gas footprint by Government Office Region (incorrect)

Source: HM Treasury calculations, LCF data, DEFRA Carbon Footprint.
