16 July 2021

Dear

I am writing to confirm that we have now completed our search for the information, which you requested on 7 July 2021:

Drainage information for the M6 Motorway between Nether Kellet and Junction 35. Details to show how the M6 collects surface water from the motorway and the catchment on the east side of the motorway and where culverts transfer the flows across the M6 and enter the downstream catchments on the west side of the motorway

The attached plans show any crossing points and how the drainage collects water from the motorway. However, they don't show any details of how the drainage collects water from the catchment on the east side, as all that we do is convey the water below the motorway via culverts from one catchment to another, at points that were established when the original design was undertaken in the 1960s.

Most documents supplied by Highways England will be Crown Copyright. Most Crown Copyright information can be re-used under the [Open Government Licence](#). For information about OGL and about re-using Crown Copyright information please see [The National Archives website](#).

If you are unhappy with the way we have handled your request you may ask for an internal review. Our internal review process is available at: <https://www.gov.uk/government/organisations/highways-england/about/complaints-procedure>

If you require a print copy, please phone the Information Line on 0300 123 5000; or e-mail info@highwaysengland.co.uk. You should contact me if you wish to complain.

If you are not content with the outcome of the internal review, you have the right to apply directly to the Information Commissioner for a decision. The Information Commissioner can be contacted at:

Information Commissioner's Office
Wycliffe House
Water Lane
Wilmslow
Cheshire
SK9 5AF

If you have any queries about this email, please contact me. Please remember to quote reference number EIR 102274 in any future communications.

Yours sincerely
