Model OTH: Other Rabies Susceptible Species GBHC175E

II. Health information

II.a. Certificate reference no

II.b.
UNN:

II.1.6 Loading on the means of transport

They have been loaded for dispatch to GB on(dd/mm/yyyy)⁽⁴⁾ in the means of transport described in box I.15 that were cleaned and disinfected before loading with an officially authorised disinfectant and so constructed that faeces, urine, litter or fodder could not flow or fall out of the vehicle or container during transportation.

Notes

(*) Those countries subject to the transitional import arrangements include: an EU member State; Liechtenstein; Norway and Switzerland.

(**) box reference I.7 means the country of dispatch.

References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018).

References to Great Britain in this certificate include Channel Islands and Isle of Man.

Part I:

- Box reference I.15: Registration number (railway wagons or container and lorries), flight number (aircraft) or name (ship) is to be provided. In case of unloading and reloading, the consignor must inform the BCP of entry into GB.
- Box reference I.16: Do not use this box until the end of the transitional staging period.
- Box reference I.28: *Identification system*: Specify the identification system (tag, tattoos, brand, chip, transponder, crate or container number). Large quantities of small animals, the crates or container must be identified in such a way that the original or transit holding or the last holding of residence or the centre or organization prior to export can be traced back to the country of origin.
- Box reference I.28: Age: months; Sex (M = male, F = female, C = castrated);

Part II:

(1)

Keep as appropriate

(2)

Vaccination is not compulsory, but if the animals have been vaccinated, information on the vaccine(s) used and the time of vaccination must be filled in.

(3)

Parasite treatment is not compulsory, but if the animals have been treated, information on the product(s) used and the time of vaccination must be filled in.

(4)

Date of loading. Imports of these animals shall not be allowed when the animals were loaded either prior to the date of authorisation for exportation to GB of the country/territory mentioned under boxes I.7 and I.8, or during a period where restrictive measures have been adopted by GB against imports of these animals from that country/territory.

DECLARATION BY THE OWNER OR THE REPRESENTATIVE OF THE OWNER (GBHC175E)

I, the undersigned certify that the animals described in part I meet the following requirements (delete where appropriate):

a) Were born and bred in captivity.

and b) Came from a holding registered with the Competent Authority.

For Information: If none of the above can be complied with then you will need to contact the Animal Plant Health Agency (APHA) Centre for International Trade to apply for an Import Licence under The Rabies (Importation of Dogs, Cats and Other Mammals) Order 1974.
