II.a Certificate reference

Part II: Certification	II. Health information	
	II. Animal health attestation	
	I, the undersigned official veterinarian, hereby certify that:	
	II.1.	The equine animal described in Part I:
	II.1.1.	is a registered horse as defined in Article 2(30) of Commission Delegated Regulation (EU) 2019/2035, not intended for slaughter in the framework of the eradication of a disease communicable to equine animals;
	II.1.2.	has not shown signs or symptoms of diseases listed for equine animals in Commission Implementing Regulation (EU) 2018/1882 during the clinical examination carried out on (insert date dd/mm/yyyy) ⁽¹⁾ , this being within the 48 hour period or on the last working day prior to departure from the registered establishment;
	II.1.3.	meets the requirements attested in points II.2. to II.3. of this certificate;
	II.1.4.	is accompanied by a written declaration, signed by the operator of the animal, which forms part of this certificate.
	II.2.	<i>Attestation on third country, territory or zone thereof and on establishment of dispatch</i>
	II.2.1.	The animal is dispatched from (insert name of country, territory or zone thereof), a country, territory or zone thereof which on the date of issuing this certificate has the Code: ⁽²⁾ and is assigned to Sanitary Group ⁽²⁾ .
II.2.2.	In the country or territory of dispatch the following diseases are compulsorily notifiable: African horse sickness, Venezuelan equine encephalomyelitis, infection with <i>Burkholderia mallei</i> (glanders), surra (<i>Trypanosoma evansi</i>), dourine (<i>Trypanosoma equiperdum</i>), equine infectious anaemia, infection of rabies virus and anthrax.	
II.2.3.	The equine animal described in Part I comes from a country, territory or zone thereof in which there has been no clinical, serological (in unvaccinated equine animals) or epidemiological evidence of African horse sickness during the 24 month period prior to the date of departure of the animal and there have been no systematic vaccinations against African horse sickness during the 12 month period prior to the date of departure.	
II.2.4.	The equine animal described in Part I comes from an establishment situated in a country, territory or zone thereof in which ^{(3)either} [infection with <i>Burkholderia mallei</i> (glanders) has not been reported during the 36 month period prior to the date of departure of the animal.] ^{(3)or} [a surveillance and eradication programme for infection with <i>Burkholderia mallei</i> (glanders) recognised by the European Union ⁽²⁾ has been carried out during the 36 month period prior to the date of departure, and ^{(3)either} [infection with <i>Burkholderia mallei</i> (glanders) has not been reported in the establishment of dispatch during the 36 month period prior to the date of departure of the animal.]] ^{(3)or} [infection with <i>Burkholderia mallei</i> (glanders) has been reported in the establishment during the 36 month period prior to the date of departure of the animal and following the last outbreak, the establishment has remained under movement restrictions ^{(3)either} [until the remaining equine animals in the establishment have been subjected to a complement fixation test for infection with <i>Burkholderia mallei</i> (glanders) ⁽⁴⁾ , carried out, with negative results at a serum dilution of 1 in 5, on samples taken at least 6 months after the infected animals have been killed and destroyed.]] ^{(3)or} [for at least 30 days from the date of cleaning and disinfection of the establishment, after the last equine animal on the establishment was killed and destroyed.]]]	
II.2.5.	The equine animal described in Part I comes from an establishment situated in a country, territory or zone thereof in which ^{(3)either} [surra has not been reported during the 24 month period prior to the date of departure.] ^{(3)or} [a surveillance and eradication programme for surra recognised by the European Union ⁽²⁾ has been carried out during the 24 month period prior to the date of departure of the animal, and ^{(3)either} [surra has not been reported in the establishment during the 24 month period prior to the date of departure of the animal.]] ^{(3)or} [surra has been reported in the establishment during the 24 month period prior to the date of departure of the animal, and following the last outbreak the establishment has remained under movement restrictions ^{(3)either} [until the remaining animals in the establishment have been subjected to an enzyme-linked immunosorbent assay (ELISA) for trypanosomosis or card agglutination test for trypanosomosis (CATT) at a serum dilution of 1 in 4 ⁽⁴⁾ carried out, with negative results, on samples taken at least 6 months after the last infected animal has been removed from the establishment.]] ^{(3)or} [for at least 30 days from the date of cleaning and disinfection of the establishment, after the last animal of listed species on the establishment was either killed and destroyed or slaughtered.]]]	
II.2.6.	The equine animal described in Part I comes from an establishment situated in a country, territory or zone thereof in which ^{(3)either} [dourine has not been reported during the 24 month period prior to the date of departure of the animal.] ^{(3)or} [a surveillance and eradication programme for dourine recognised by the European Union ⁽²⁾ has been carried out during the 24 month period prior to the date of departure of the animal, and ^{(3)either} [dourine has not been reported in the establishment during the 24 month period prior to the date of departure of the animal.]] ^{(3)or} [dourine has been reported in the establishment during the 24 month period prior to the date of departure of the animal, and following the last outbreak, the establishment has remained under movement restrictions ^{(3)either} [until the remaining equine animals in the establishment, except castrated male equine animals, have been subjected to a complement fixation test for dourine, carried out with negative results at a serum dilution of 1 in 5 ⁽⁴⁾ on samples taken at least 6 months after the infected animals have been killed and destroyed or slaughtered, or the infected entire male equine animals have been castrated.]] ^{(3)or} [for at least 30 days following cleaning and disinfection of the establishment, after the last equine animal on the establishment was either killed and destroyed or slaughtered.]]]	
II.2.7.	The equine animal described in Part I has not been vaccinated against Venezuelan equine encephalomyelitis during the 60 day period prior to the date of its departure, and ^{(3)either} [it comes from an establishment situated in a country or territory in which Venezuelan equine encephalomyelitis has not been reported

UNITED KINGDOM

II.a Certificate reference

Box reference I.27:

“*Identification system*”: The animal must be individually identified with one of the means of identification defined in point (a), (c), (e), or (g) of Annex III to Delegated Regulation (EU) 2019/2035, or be identified by an alternative method in accordance with Article 62 of that Regulation (e.g. brand) provided it is recorded in its identification document (passport). Specify the identification system and the anatomic place used on the animal. The number of the accompanying passport or the Unique Code, if no passport number is available, should be stated and the name of the competent authority which validated it.

“*Age*”: Date of birth (dd/mm/yyyy).

“*Sex*”: (M = male, F = female, C = castrated).

Part II:

(1) The certificate must be issued within the 48 hour period prior to loading or on the last working day before loading of the animal for dispatch to the Member State of destination in the Union.
The entry into the Union shall not be allowed when the animal was loaded either prior to the date of authorisation for entry into the Union from the respective country, territory or zone thereof referred to in point II.1.1., or during a period where restrictive measures have been adopted by the Union against the entry of equine animals from this country, territory or zone thereof. Check against columns 8 and 9 of Part 1 of Annex IV to Implementing Regulation (EU) 2021/404.

(2) Code of the country, territory or zone thereof and the Sanitary Group as appearing in columns 2 and 3 respectively in Part 1 of Annex IV to Implementing Regulation (EU) 2021/404.

(3) Delete as appropriate.

(4) Tests for glanders, surra, dourine, equine infectious anaemia and Venezuelan equine encephalomyelitis described by the European Union Reference Laboratory for Equine Diseases other than African horse sickness: <https://sitesv2.anses.fr/en/minisite/equine-diseases/sop>

(5) Including the PanAmerican Games, South American Games, Central American and Caribbean Games.

Declaration by the operator responsible for the re-entry into the Union after temporary export of a registered horse for racing, competition and cultural events

Identification of the animal ⁽¹⁾				
Species (Scientific name)	Identification system	Identification number	Age	Sex
<i>Equus caballus</i>				

I, the undersigned operator of the registered horse described above, hereby declare, that:

- the registered horse
 - ⁽²⁾*either* [was temporarily exported from the Union to the country, territory or zone thereof of dispatch on..... (insert date) less than 90 days prior to this declaration;]
 - ⁽²⁾*or* [entered the country or territory or zone thereof of dispatch on (insert date) from.....(insert name of country, territory or zone thereof from where horse entered country, territory or zone thereof of dispatch);]
- the registered horse has been temporarily exported from the Union to take part in
 - ⁽²⁾*either* [the Asian Games in(insert place);]
 - ⁽²⁾*or* [the American Games in(insert place);]
 - ⁽²⁾*or* [the Endurance World Cup in United Arab Emirates;]
 - ⁽²⁾*or* [the Test event for the Olympic Games in(insert place);]
 - ⁽²⁾*or* [the Olympic Games in(insert place);]
 - ⁽²⁾*or* [the Paralympics in(insert place);]
 - ⁽²⁾*or* [the World Equestrian Games in(insert place);]
 - ⁽²⁾*or* [the LG Global Champions Tour in
 - ⁽²⁾*either* [the Metropolitan area of Mexico City, Mexico;]
 - ⁽²⁾*and/or* [Miami, Unites States of America;]
 - ⁽²⁾*or* [Shanghai, China;]
 - ⁽²⁾*or* [the United Arab Emirates International Show Jumping League]
- during the period of 15 days prior to the date of dispatch the horse has not been in contact with animals suffering from infectious or contagious diseases transmissible to equine animals;
- the transportation will be effected in such a way that health and welfare of the horse can be protected effectively at all stages of the journey;
- the conditions for residence and pre-export isolation as applicable in accordance with point II.3. of the accompanying health certificate for the country, territory or zone thereof of dispatch are fulfilled.

Name and address of the operator:

Date:(dd/mm/yyyy)
