II. Health information

Public health attestation [*to delete when the Union is not the final destination of the animals]

I, the undersigned official veterinarian, hereby certify the following as regards the [breeding poultry⁽⁶⁾ other than ratites]⁽³⁾ [productive poultry⁽⁷⁾ other than ratites]⁽³⁾ described in

(1)[II.1.1.

The Salmonella control programme referred to in Article 10 of Regulation (EC) No 2160/2003 and the specific requirements for the use of antimicrobials and vaccines in Commission Regulation (EC) No 1177/2006, have been applied to the flock of origin and the flock has been tested for Salmonella serotypes of public health significance:

Identification of the float	Age of the birds	Date of last sampling of the flock from which the testing result is known [dd/mm/yyyy]	Result of all testing in the flock ⁽²⁾	
Identification of the flock			positive	negative

For reasons other than the Salmonella control programme, within the last three weeks prior to entry into the Union:

3)either [antimicrobials were not administered to the breeding and productive poultry other than ratites;]

 $^{(3)(4)}or$ [the following antimicrobials were administered to the breeding and productive poultry other than ratites:;]]

(1)[II.1.2. If breeding poultry, neither Salmonella Enteritidis nor Salmonella Typhimurium were detected within the control programme referred to in point II.1.1.]

(5)[II.1.3. If the Member State of destination is Finland or Sweden:

(3) either [the breeding poultry has tested negative for Salmonella in accordance with the rules laid down in Commission Decision 2003/644/EC;]

(3) or [the laying hens (productive poultry reared in view to producing eggs for consumption) have tested negative in accordance with the rules laid down in Commission Decision 2004/235/EC.]]

Animal health attestation 11.2.

I, the undersigned official veterinarian, hereby certify that the [breeding poultry⁽⁶⁾ other than ratites]⁽³⁾ [productive poultry⁽⁷⁾ other than ratites]⁽³⁾ described in Part I of this

(8) which, at the date of issue of this certificate: II 2.1 come from the zone with code

- (a) is authorised and listed in Part 1 of Annex V to Commission Implementing Regulation (EU) 2021/404 for entry into the Union of breeding poultry other than ratites and productive poultry other than ratites;
- (b) carries out a disease surveillance programme for highly pathogenic avian influenza in accordance with Article 37(a) of Commission Delegated Regulation (EU) 2020/692;
- (c) is considered free from highly pathogenic avian influenza in accordance with Article 38 of Delegated Regulation (EU) 2020/692;
- is considered free from infection with Newcastle disease virus in accordance with Article 39 of Delegated Regulation (EU) 2020/692; (d)

II.2.2. (3)either

 $^{(3)(9)}$ or

come from the zone referred to in point II.2.1, in which: [(a)

vaccination against highly pathogenic avian influenza is not carried out;] vaccination against highly pathogenic avian influenza is carried out in accordance with a vaccination programme that complies with the requirements [(a)

set out in Annex XIII to Delegated Regulation (EU) 2020/692;1 (3)either

vaccination against infection with Newcastle disease virus with vaccines which do not comply with both the general and specific criteria of Annex XV [(b) to Delegated Regulation (EU) 2020/692 is prohibited;]

(3)(10)or vaccination against infection with Newcastle disease virus with vaccines which comply only with the general criteria of Annex XV to Delegated [(b) Regulation (EU) 2020/692 is not prohibited, and the animals:

- (i) have not been vaccinated with such vaccines for a period of at least the 12 month prior to the date of loading of the consignment for dispatch to the Union:
- come from a flock or flocks which underwent a virus isolation test(11) for infection with Newcastle disease virus carried out on a random (ii) sample of cloacal swabs from at least 60 birds in each flock, taken not earlier than 2 weeks prior to the date of loading of the consignment for dispatch to the Union, and in which no avian paramyxoviruses with an ICPI of more than 0,4 were found;
- were kept in isolation under official surveillance on the establishment of origin during the 2 weeks mentioned in (ii); (iii)
- during the period of 60 days prior to the date of loading of the consignment for dispatch to the Union, were not in contact with poultry which (iv) do not fulfil the conditions in (i) and (ii);]

II.2.3. have remained in the zone referred to in point II.2.1 for a continuous period of at least:

 $^{(3)(12)}$ either (3)(13)or

[3 months immediately prior to the date of loading for dispatch to the Union or since hatching where they are less than 3 months of age;]

[6 weeks immediately prior to the date of loading for dispatch to the Union or since hatching where they are less than 6 weeks of age;]

and where they were imported into the zone referred to in point II.2.1, the import took place in accordance with animal health requirements that are at least as stringent as the relevant requirements of Regulation (EU) 2016/429 and Delegated Regulation (EU) 2020/692 and the zone from where the animals were imported, is listed in Part 1 of Annex V to Implementing Regulation (EU) 2021/404 for entry into the Union of breeding poultry other than ratites and productive poultry

- II.2.4. come from the establishment, indicated in Box I.11, approved by the competent authority of the country or territory of origin in accordance with requirements which are at least as stringent as those laid down in Article 8 of Delegated Regulation (EU) 2019/2035 and:
 - the approval of which has not been suspended or withdrawn; (a)
 - (b) which is under the control of the competent authority of the country or territory of origin and has a system in place to maintain and to keep records in accordance with Article 8 of Delegated Regulation (EU) 2020/692;
 - which receives regular animal health visits from a veterinarian for the purpose of the detection of, and information on, signs indicative of the occurrence (c) of diseases, including the relevant listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692, and emerging diseases, at a frequency that is proportional to the risk posed by the establishment;
 - which was not subject to national restriction measures for animal health reasons, including for the listed diseases referred to in Annex I to Delegated (d) Regulation (EU) 2020/692 relevant for the species and emerging diseases, at the time of dispatch of the animals to the Union;
 - within a 10 km radius of which, including, where appropriate, the territory of a neighbouring country, there has been no outbreak of highly pathogenic (e) avian influenza or infection with Newcastle disease virus for at least 30 days prior to the date of loading for dispatch to the Union;

Part II: Certification

Certificate reference

UNITED KINGDOM in which no confirmed case of infection with low pathogenic avian influenza viruses has been reported for at least 21 days prior to the date of loading for dispatch to the Union: in which: (g) (3)either [infection with Salmonella Pullorum, S. Gallinarum or S. arizonae was not confirmed during the last 12 months prior to date of loading of the consignment for dispatch to the Union;] (3)or [infection with Salmonella Pullorum, S. Gallinarum or S. arizonae was confirmed during the last 12 months prior to date of loading of the consignment for dispatch to the Union and the measures provided for in Article 44(d) of Delegated Regulation (EU) 2020/692 have been applied;] (h) (3)either [avian mycoplasmosis (Mycoplasma gallisepticum and M. meleagridis) was not confirmed during the last 12 months prior to date of loading of the consignment for dispatch to the Union;] (3)or [avian mycoplasmosis (Mycoplasma gallisepticum and M. meleagridis) was confirmed during the last 12 months prior to date of loading of the consignment for dispatch to the Union and the measures provided for in Article 44(e) of Delegated Regulation (EU) 2020/692 have been applied;] II 2.5come from a flock which: has not been vaccinated against highly pathogenic avian influenza; (a) (3)either [(b) has not been vaccinated against infection with Newcastle disease virus in the last 12 months prior to the date of loading of the consignment for dispatch to the Union:1 (3)or (b) has been vaccinated against infection with Newcastle disease virus in the last 12 months prior to the date of loading of the consignment for dispatch to the Union, with vaccines that comply with both the general and specific criteria of Annex XV to Delegated Regulation (EU) 2020/692; Identification of Name of the Age of the Date of Name and type Ratch Manufacturer of number of of virus strain the flock birds vaccination vaccine the vaccine the vaccine used underwent a disease surveillance programme that meets the requirements set out in Annex II to Commission Delegated Regulation (EU) 2019/2035 and (c) was found not to be infected or showed any grounds for suspecting any infection, by the following agents: (3)either [Salmonella Pullorum, Salmonella Gallinarum and Mycoplasma gallisepticum (in case of Gallus gallus);] (3)or [Salmonella arizonae (serogroup O:18(k)), Salmonella Pullorum and Salmonella Gallinarum, Mycoplasma meleagridis and Mycoplasma gallisepticum (in case of Meleagris gallopavo);] (3)or [Salmonella Pullorum and Salmonella Gallinarum (in case of Numida meleagris, Coturnix, Coturnix, Phasianus colchicus, Perdix perdix and Anas spp);] (d) has been subjected to a clinical inspection (15) within the 24 hours prior to loading of the animals for dispatch to the Union, and showed no signs indicative of the occurrence of diseases, including the listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692 relevant for the species and II.2.6. have remained in the establishment indicated in Box I.11 since hatching or for a continuous period of at least: (3)(12)either [6 weeks immediately prior to the date of loading for dispatch to the Union;] (3)(13)or [30 days immediately prior to the date of loading for dispatch to the Union;] II.2.7. had no contact with animals of a lower health status since hatching or for a continuous period of at least: $^{(3)(12)}$ either [6 weeks immediately prior to the date of loading for dispatch to the Union;] $^{(3)(13)}or$ [30 days immediately prior to the date of loading for dispatch to the Union;] II.2.8. are not to be killed under a national programme for the eradication of diseases, including the listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692 relevant for the species and emerging diseases; have been subjected to a clinical inspection of on __/__ (dd/mm/yyyy) within the 24 hours prior to loading for dispatch to the Union, and showed no signs indicative of the occurrence of diseases, including the listed diseases referred to in Annex I to Delegated Regulation (EU) 2020/692 relevant for the species and II 2 9 emerging diseases; II.2.10. are loaded for dispatch to the Union in containers which: are constructed in such a way that: animals cannot escape or fall out; (ii) visual inspection of the space where animals are kept is possible; (iii) the escape of animal excrements, litter, feed or feathers is prevented or minimized; contain only poultry of the same species and category coming from the same establishment; (b) (c) [unused and purpose-designed disposable containers to be destroyed after first use;] (3)either (3)or [cleaned and disinfected and dried or allowed to dry prior to loading of the animals;] (d) are closed in accordance with the instructions of the competent authority of the country or territory of origin to avoid any possibility of substitution of bear the information set out in Point 1 of Annex XVI to Delegated Regulation (EU) 2020/692 relevant for breeding poultry and productive poultry; II.2.11. are loaded for dispatch to the Union on ___/___ (dd/mm/yyyy)⁽¹⁶⁾ in a means of transport which is constructed in accordance with II.2.10(a) and was cleaned and disinfected prior to loading with a disinfectant authorised by the competent authority of the country or territory of origin; (17)III.2.12. are intended for a Member State which has been granted the status free from infection with Newcastle disease virus without vaccination in accordance with Article 66 of Commission Delegated Regulation (EU) 2020/689, and they: (a) have not been vaccinated against infection with Newcastle disease virus; (b) were kept in isolation for at least 14 days prior to the date of loading of the consignment for dispatch to the Union in the establishment of origin or quarantine establishment under the supervision of an official veterinarian, where: no poultry was vaccinated against infection with Newcastle disease virus during the period of at least 21 days prior to the date of loading of (i) (ii) no other birds have entered into the establishment during that time;

Certificate reference UNITED KINGDOM

no vaccination has been carried out;

have tested(11) negative to serological tests to detect antibodies against Newcastle disease virus, performed on blood samples at a level which gives 95% confidence of detecting infection at 5% prevalence and which were taken during the period of at least 14 days prior to the date of loading for dispatch

Notes:

This certificate is intended for entry into the Union of breeding poultry other than ratites and productive poultry, other than ratites including when the Union is not the final destination of those animals.

In accordance with the Agreement on the withdrawal of the United Kingdom of Great Britain and Northern Ireland from the European Union and the European Atomic Energy Community, and in particular Article 5(4) of the Protocol on Ireland / Northern Ireland in conjunction with Annex 2 to that Protocol, references to European Union in this certificate include the United Kingdom in respect of Northern Ireland.

This animal health/official certificate shall be completed according to the notes for the completion of certificates provided for in Chapter 4 of Annex I to Commission Implementing Regulation (EU) 2020/2235.

Part I:

Box reference L8: Provide the code of the zone as it appears in column 2 of the table in Part 1 of Annex V to Implementing Regulation (EU) 2021/404.

Description of consignment: Box reference I.27:

"CN code": use the appropriate Harmonised System (HS) code of the World Customs Organisation: 01.05 or 01.06.39.

"Category": select one of the following: Pure line/grandparents/parents/laying pullets/others.

Part II:

This guarantee applies only for poultry belonging to the species of Gallus gallus and turkeys.

(2) If any of the results were positive for the serotypes below during the life of the flock, indicate as positive:

- flocks of breeding poultry: Salmonella Hadar, Salmonella Virchow and Salmonella Infantis;
- flocks of productive poultry: Salmonella Enteritidis and Salmonella Typhimurium.
- (3) Keep as appropriate.
- (4) Complete if appropriate: indicate the name and active substance of antimicrobials used
- Delete if consignment is not intended for Finland or Sweden.
- (6) 'Breeding poultry' means poultry 72 hours old or more, intended for the production of hatching eggs, as defined in Article 2 of Delegated Regulation (EU)
- (7) 'Productive poultry' means poultry 72 hours old or more, reared for the production of meat, eggs for consumption or other products or for restocking supplies of game birds, as defined in Article 2 of Delegated Regulation (EU) 2020/692.
- (8) Code of the zone as it appears in column 2 of the table in Part 1 of Annex V to Implementing Regulation (EU) 2021/404.
- This applies only to zones in which vaccination against highly pathogenic avian influenza is carried out in accordance with a vaccination programme that complies with the requirements set out in Annex XIII to Delegated Regulation (EU) 2020/692, and are listed in Part 1 of Annex V to Implementing Regulation (EU) 2021/404 with the entry "A" in column 6 of the table.

- This guarantee is required only for poultry coming from zones in which the use of vaccines against infection with Newcastle disease virus which comply only with the general criteria of Annex XV to Delegated Regulation (EU) 2020/692 is not prohibited, in accordance with Article 37(e)(ii) thereof, and are listed in Part (10) 1 of Annex V to Implementing Regulation (EU) 2021/404 with the entry "B" in column 6 of the table
- (11) Tests should be carried out on samples taken by or under the control of the competent authority of the country or territory of origin and testing should be carried out in an official laboratory designated in accordance with Article 37 of Regulation (EU) 2017/625.
- (12) Applicable for breeding poultry and productive poultry for the production of meat, eggs for consumption or other products.
- (13) Applicable for productive poultry for restocking supplies of game birds. (14)
 - To be completed when animals were vaccinated against infection with Newcastle disease virus.
- (15) The clinical inspection must have been carried out by an official veterinarian of the country or territory of origin.
- The date of loading cannot be a date prior to the date of authorisation of the zone for entry into the Union, or a date in a period when restriction measures have (16) been adopted by the Union in relation to the entry of these animals from that zone.
- (17) This guarantee is required only for consignments intended for a Member State which has been granted the status free from infection with Newcastle disease virus without vaccination in accordance with Article 66 of Delegated Regulation (EU) 2020/689.
