8607EHC APPLICATION

II. Health information	II.a. Certificate reference number GBR
II. Health information I, the undersigned official veterinarian after due inquiry and to the best of my knowledge, do hereby certify that the processed ornamental bird food or rodent food described above meets all the conditions laid down in the health attestation below:	
II.1. The only animal origin ingredients in the products are: milk products and/or egg and/or animal fats and/or vitamin D3 and/or gelatin and/or honey and/or crustaceans and/or insects	
II.2. The pet food in each shipment was manufactured ONLY at the establishment(s) specified in box I.25	
II.3. Animal-origin ingredients	
(1) EITHER: Originate from countries recognized by Canada to be free of diseases of concern to which the species from which the animal product or by-product was derived is susceptible and that can be transmitted by the untreated product or by-product AND none of the animals from which the animal-origin raw materials are derived were under movement restrictions for or were culled or eradicated as part of a disease response to any reportable disease as defined by Canada (2)	
(1) OR Have been subjected to heat treatment to a minimum core temperature of 90 °C.	
II.4. In the case of tallow of bovine origin, the tallow must contain less than or equal to .15% insoluble impurities	
II.5. Every precaution was taken to prevent cross-contamination of the finished products with any animal origin product or by-product derived from animals of a lesser zoosanitary status.	
II.6. The product has been packaged in new packaging intended for pet bird food or rodent food	
Notes All pages must be signed and stamped and the certificate must be presented at least in English and/or French.. Part I: Box reference I.1.: Indicate the details of the exporter. Box reference I.2.: Indicate the unique reference number. Box reference I.5.: Indicate the details of the importer. Box reference I.11.: Place of origin: name and address of the dispatch establishment. Box reference I.15.: Indicate the names of the ships and, if known, the flight numbers of aircraft. Box reference I.19.: Indicate total gross weight and total net weight. Box reference I.21.: For containers or boxes, the container number and the seal number (if applicable) should be included. Box reference I.25.: Type of processing: dry bird food or semi moist bird food or rodent food Customs code and title: Use the appropriate Harmonized System (HS) code under the following headings: 0511, 2309, 4205 or 4206. Date of production: shall be indicated in the following format: dd/mm/yyyy	
(1) Delete as appropriate (2) The CFIA list of diseases that are reportable in Canada can be found on the CFIA website: Animal Health Status By Disease - Animals - Canadian Food Inspection Agency. The CFIA accepts the OIE classification of BSE Risk Status: List of BSE risk status: OIE - World Organisation for Animal Health.	
The official stamp and the signature of the official veterinarian must appear on each separate sheet, including any attached lists. The signature and the stamp must be in a different colour to that of the printing.
