Metering

The Grant Recipient will need to have metering equipment in place or have a plan to install it as part of their project to enable them to comply with longer-term compliance and benefits monitoring obligations.

The type of metering equipment required will depend on the technology in use and the associated information being provided as part of the compliance and benefits monitoring processes.

If the Grant Recipient does not have sufficient metering equipment already in place to collect the required data, they will need to install appropriate metering equipment at point-of-use (be it a production line, process, installation, or site which is benefitting from the intervention) and ideally the equipment should remain the same between the baseline period and the monitoring period to follow best-practice data management. The metering equipment must be capable of providing the data detailed in the longer-term compliance monitoring section and in the M&V plan detailed above. At a minimum, successful applicants will be required to have a digital meter able to communicate data on use and consumption remotely.

ANNEX 11 – PARENTAL COMPANY GUARANTEES

When the Grant Funding Agreement requires a Parental Guarantee from the Grant Recipient’s Parent or Ultimate Parent Company as part of the Pre-commitments specified in Paragraph 5 of the Grant Offer Letter, this will specify which parent company is required to provide the guarantee.

The undertaking and guarantee should be written on the guaranteeing parent company’s headed paper and accompanied by a certified copy of the Resolution of the Board of Directors from the guaranteeing parent (or the equivalent thereof) authorising the signatory to sign the document and a certificate from the Secretary of **the parent company** that the signature on the document is that of the person so authorised to sign.

Where the guaranteeing parent is incorporated outside England or Wales, the Secretary of State will also require a formal legal opinion from a lawyer duly qualified to practice law in **country the parent is registered in**. This may be the in-house lawyer of that parent, however the undertaking and guarantee should impose upon that parent legally valid and binding obligations in accordance with its terms, enforceable against that parent under the laws of the country it is registered in, to the satisfaction of the Secretary of State.
