

EXPORT OF PIG FAT OR LARD FROM THE UNITED KINGDOM TO CHILE - 8602NFG

NOTES FOR GUIDANCE OF THE OFFICIAL VETERINARIAN (OV) AND EXPORTER

IMPORTANT

These notes provide guidance to Official Veterinarians (OV) and exporters. The Notes for Guidance (NFG) should not be read as a standalone document but in conjunction with the accompanying export certificate 8602EHC. We strongly suggest that exporters obtain full details of the importing country's requirements from the veterinary authorities in the country concerned, or their representatives in the UK, in advance of each consignment.

1. **SCOPE**

Chile's Competent Authority has agreed that this certificate may be used for the import of pig fat or lard, from the United Kingdom.

2. **CERTIFICATION BY AN OFFICIAL VETERINARIAN (OV)**

This certificate may be signed by an Official Veterinarian authorised on behalf of the Department for Environment, Food and Rural Affairs (Defra), Scottish Government, Welsh Government or an Authorised Veterinary Inspector (AVI) appointed by the Department of Agriculture, Environment and Rural Affairs Northern Ireland (DAERA), who holds the appropriate Official Controls Qualification (Veterinary) (OCQ(V)) authorisation, or who is an Official Veterinarian (OV) on the appropriate panel for export purposes.

OVs/AVIs should sign and stamp the health certificate with the OV/AVI stamp in a colour that must be different to the colour of the printing of the certificate

Instructions on certified copies, retention and returning of the same can be found in APHA Vet Gateway, please make sure you follow the latest government guidance.

[OV Instructions \(defra.gov.uk\)](https://www.defra.gov.uk)

The OV/AVI should keep a copy for his/her own records.

3. **CERTIFICATION OF A FOREIGN LANGUAGE**

Principle 3 from the 10 Principles of Certification states:

A veterinarian should only sign certificates that are written in a language they understand.

For this certificate, the Chilean authorities have requested that the Chilean certificate in Spanish language also needs a signature by an OV. The foreign text in this certificate is an official translation of the English text and as the Official Veterinarian, you are accordingly authorized to complete the export health certificate, even if you are unable to read and understand the meaning of the foreign text.

4. **HEALTH ATTESTATION**

Paragraph II.1 refers. Can be certified by an OV based on the clearance obtained by the Centre for International Trade-Carlisle in the form 618NDC.

Paragraph II.2 refers. Can be certified based on OV's personal knowledge of the premises of origin and approval of the same. Certifying OV may require a declaration by another veterinarian if this is different from the veterinarian conducting the inspection on the animals.

[Approved food establishments | Food Standards Agency](#)

Paragraph II.3.1 refers. Can be certified by an OV based on the oval mark that the product passed inspection and found fit for human consumption.

5. **DISCLAIMER**

This certificate is provided on the basis of information available at the time and may not necessarily comply fully with the requirements of the importing country. It is the exporter's responsibility to check the certificate against any relevant import permit or any advice provided by the competent authority in the importing country. If these do not match, the exporter should contact the Centre for International Trade - Carlisle, via the link below:
