South Western General Provisions for the Train Service Requirement (NRC-TSR-SW-1)

1.   Introduction

1.1   This attachment describes the South Western Train Service Requirement (NRC-TSR-SW-1).

1.2   The TSR consists of tables which detail the requirements for train services (the number of calls at each station) as well as the First Train and Last Train times.

1.3   The capacity requirements for each train shall be contained in the Train Formation Capacity Plan.

1.4   Only South Western Passenger Services may be counted to meet the TSR. Services operated by other Train Operating Companies or unadvertised staff-only calls cannot count towards meeting any of the requirements of the TSR.

1.5   This TSR applies from the Start Date.

2.   Days and Times of Day

2.1   References to a day mean the period commencing at 02:00 on one day and ending at 01:59 on the following day and references to Weekdays and particular days of the week shall be construed accordingly.

2.2   All references to time are to the twenty-four hour clock.

2.3   References to periods of times and periods of days include the times and days such periods start and finish.

2.4   Not Used.

3.   First and Last Services

3.1   Each TSR table specifies the time of the First and Last Service.

3.2   The First Service time is the latest permissible time at which the First Service of the Day may be operated and the Last Service is the earliest permissible time at which the Last Service of the Day may be operated, between designated stations.

4.   Request stops

4.1   The Operator agrees it may not change the call status of a station, to or from being designated a request stop station in the Timetable, without the Secretary of State's prior consent.

4.2   If there is to be such a change of (request stop) call status of a station (either for all calls or for a subset of calls), the Operator shall include the change of status within the Consultation on Significant Alterations to the Timetable, for the first Timetable the change is to be applied.

5.   References to Station Groups - London

5.1   All references to London shall mean London Waterloo.

6. Bank Holidays

6.1 Using the procedures in paragraph 4 of Chapter 4.2 of the Contract, the level of service required to be included in the Timetable for the following days shall, except to the extent the Secretary of State otherwise agrees, be as follows:

Date	Requirement
Christmas Eve (24 December)	A reduced or altered service may be operated after 13:00
Christmas Day (25 December)	No services are required.
Boxing Day (26 December)	No services are required.
Weekdays between Christmas and New Year	A Saturday service is required.
Saturdays and Bank Holidays between Christmas and New Year's Eve	A Saturday service is required.
New Year's Eve	A Saturday service is required unless New Year's Eve is a Sunday, with additional trains if agreed through the Business Plan process.
New Year's Day	A Sunday service is required.
Other Bank Holidays	A Sunday service is required.

7. List of TSR tables

7.1 Separate TSR tables are issued for Mondays to Thursdays, Fridays, Saturdays and Sundays.

7.2 The following tab numbering system is used in each TSR table for the different routes.

Table A:	South Western Main Suburban Services
Table A1:	South Western Main Suburban to London Waterloo
Table A2:	South Western Main Suburban from London Waterloo
Table B:	Windsor Line Services
Table B1:	Windsor Line services to London Waterloo
Table B2:	Windsor Line services from London Waterloo
Table C:	Main Line Services
Table C1:	Main Line services to London Waterloo from Salisbury, Bristol Temple Meads and Exeter St Davids
Table C2:	Main Line services from London Waterloo to Salisbury, Bristol Temple Meads and Exeter St Davids

8. Restricted Calls

8.1   The number of calls specified in the TSR is for 'open calls'. Any requirements for 'pick up' and 'set down' calls are treated separately (in the Additional Requirements column).

9. Counting Services in the TSR

9.1   In some instances, one service can only be counted once and in others can be used to satisfy the requirements of two or more of the requirements in the TSR. For example, the requirements in Table B2 at Wokingham (services from London Waterloo) can be used to satisfy the requirements in Table D1 (services to Reading).

9.2   For the purposes of the TSR, trains that split or join en-route and call at the same station twice can only count once. As an example, the 18:35 from London Waterloo to Weymouth divides at Southampton Central. Both portions call at Bournemouth which can only be counted once in Table C4 (services from London Waterloo). In Table D8 (services from Southampton Central) each portion can count at Bournemouth as the trains are now separate.

9.3   The following table explains the Train Selection process, used in the creation of this TSR, which should be read in conjunction with the TSR.

Table	Description	Train Selection	Note	Train Exclusions
A1, A2	Main Suburban Services	Trains that call at Waterloo and Wimbledon Trains that start or terminate at Guildford or Woking	Split Waterloo – Kingston – Twickenham – Waterloo trains at Twickenham	Any train that calls at: Basingstoke, Haslemere, Virginia Water, Farnham
B1, B2	Windsor Line Services	Trains that call at Waterloo, Hounslow, Richmond	Sunday services Waterloo – Hounslow – Twickenham – Kingston need to be split and counted separately Split Waterloo – Twickenham – Kingston – Waterloo trains at Twickenham Split Waterloo – Hounslow – Twickenham – Waterloo (and vv) trains at Whitton	
C1, C2	West of England	Waterloo and Salisbury	Split SX 16:50 WAT-WSB at YVJ Check portions at Salisbury	
C3, C4	South West Main Line	Waterloo and Farnham, Basingstoke, Eastleigh, Southampton Central	Check portions (Southampton Central and Bournemouth SX; Eastleigh, Woking SUN)	Any train that calls at: Salisbury, Ascot, Haslemere

C5, C6	Portsmouth Direct	Waterloo and Haslemere		
D1…D22, E1, E2	Complete timetable
