Hi [REDACTED]
Please find attached a suggested reply; Angeliki has checked this and is happy for it to go out.
I have also attached the previous response we sent to [REDACTED] on [REDACTED] as a pdf).

Best regards,

Kathryn

Hi [REDACTED]
I have sent a draft response to Angeliki to check so hopefully we can provide something for private office by tomorrow.

Best regards

Kathryn

Hi both, any update on this one? I asked for a revised deadline of this Friday which I think has been granted so if you could get this back to me before then, that would be great.
Thanks,

[REDACTED]

Hi Angeliki

■■■■ sent me a draft later yesterday but I haven't had chance to fully review this yet – I think it would probably be a squeeze to try to get it cleared today, especially since we need to work out how it might tie in with the response already sent (or perhaps we can leave that to private office to worry about).
If we could get an extension that would be helpful – otherwise I can try to look at this now.

Best regards,

Kathryn

Dear ■■■■

1st June is privilege day and I don't know how far the team has gone with drafting this, can we get an extension?

Kind regards

Hi ■■■■
We haven't had this particular PO directly but ■■■■ drafted a reply to a very similar query from ■■■■ a week or so ago ■■■■ – please see attached. I would guess ■■■■ slightly amended ■■■■ e-mail in light of our reply. However, there are some additional points raised (e.g. number of Yellow Card reports received, and ■■■■ put more prominence on 'post finasteride syndrome').

■■■■ please could you take a look and provide a draft response on the new points raised?

Many thanks!

Kathryn

Subject: ACTION - ■■■■ - side effects of Propecia - reply due by close of play Tuesday 1st June

Hi all,
Hope you're well, have you received this correspondence about the side effects of Propecia directly? PO have told me that they've also written to us directly, and I'm also checking with CSC in case they've got it. In any case, I'd be grateful for a review of this case to see if we can contribute/attach the answer we've already drafted on this. Deadline would be Tuesday 1st June, any issues, do let me know.

Thanks,
■■■■
