## OFFICIAL NOTICES

### 1. THE SEEDS (NATIONAL LIST OF VARIETIES) REGULATIONS 2001

New National List Regulations have been laid before Parliament and are to enter into force on 1 December 2001. They replace the Seeds (National Lists of Varieties) Regulations 1982 (as amended). The new regulations, which implement changes to EC Directives adopted in December 1998, have been the subject of wide consultation with all interested parties.

The new National List Regulations implement these changes (insofar as they were not already covered by existing provision in the Environmental Protection Act 1990). Changes include:

- varieties intended to produce novel foods/food ingredients can be accepted on a National List only if the food/food ingredient has already been authorised under the novel foods regulation (Regulation (EC) No 258/97);
- a requirement for genetically modified varieties to have a consent under Part C of Directive 90/220/EEC on the deliberate release into the environment of genetically modified organisms, before they can be accepted onto a National List.
- the creation of a public register of 'applications under consideration' in the National List system;
- a requirement that the UK National Lists, published in the Plant Varieties and Seeds Gazette, shall clearly indicate which varieties, if any, on the list are genetically modified and quote the relevant consent under Part C of Directive 90/220/EC;
- the removal of the requirement for named maintainers of some old varieties of vegetable (this should help to retain more of them on the National Lists).

Copies of the new regulations may be obtained from The Stationery Office, at a cost of £6.50. Telephone 0870 600 5522; e-mail [book.orders@theso.co.uk](mailto:book.orders@theso.co.uk); Internet <http://www.clicktso.com> Reference SI Number 2001/3510, ISBN 0-11-038727-9.

## FEES FOR NATIONAL LISTING

The Seeds (National Lists of Varieties) Regulations 2001 are due to come into force on 1 December 2001. These regulations replace The Seeds (National Lists of Varieties) Regulations 1982 (as amended). One of the key changes introduced by the new regulations relates to the setting of fees. Previously, such fees were required to be set by Statutory Instrument. Under regulation 10, the majority of fees may be changed without such action (the exception being fees in respect of representations and hearings, which will continue to be set by separate Statutory Instrument. In practice the same procedures will be followed for setting fees but once these are set, they will be published in the gazette and not published in a Statutory Instrument. We consulted the industry on the proposed fee increases on 9 May 2001. All comments have been taken into account.

New fees are being introduced which are due to come into force on 1 December 2001, details are given below:-

### 3. APPLICATIONS FOR NATIONAL LISTING OR PLANT BREEDERS' RIGHTS FOR GENETICALLY MODIFIED CANDIDATES

#### A. ENVIRONMENTAL PROTECTION ACT 1990 AND THE GENETICALLY MODIFIED ORGANISMS (DELIBERATE RELEASE) REGULATIONS 1992

Applicants for National Listing (NL) or Plant Breeders' Rights (PBR) of plant species which contain Genetically Modified Organisms (GMOs), are reminded that in accordance with question 8 of the application forms, they should provide copies of the application for consent to release or market, or where received, details of such consent and any conditions attached thereto. This includes consents issued by other EC Member States under the provisions of Directive 2001/18/EC (previously 90/220/EEC).

#### B. ADDITIONAL DETAILS

Before a candidate variety can be entered into NL/PBR tests and trials, the additional information listed below must be provided to ensure compliance with Environmental Protection Act requirements.

1. The reference number of the release application and a copy of any consent.
2. Part B of the application - information to put on the public register. Alternatively, if there is no confidential information in Part A that you would not wish to be made available to third parties then it would be preferable for Part A to be submitted instead of Part B. The information in Part A or B will be examined to see whether there are any additional requirements that would not be needed for tests and trials of conventional varieties. Depending on assessment of the information supplied and following any further consultation, advice will be given as to acceptance of the application.
3. Full details of any restrictions on the submitted material or the produce from the tests and trials as to entry into the human or animal food chains.
4. Any isolation requirements or pre-control or post-control measures which have to be complied with.
5. Any further information submitted to the public register whilst the variety is under NL/PBR List tests and trials.
6. Any specific labelling requirements.
7. Whether the trials of this variety will affect the growing, assessment and disposal of other candidates being grown.
8. Any other requirements that would be in addition to those needed for the tests and trials of conventional non-GM varieties.
9. Copies of all advertisements of trials sites placed in the relevant local press well before the intended dates of sowing. Whilst the applicant is responsible for ensuring that the advertisements of the trial sites are published and the relevant person notified according to Part II paragraph 8 of the Deliberate Release Regulations 1992 (as amended) we will provide you with any necessary details of test / trial sites.

**ENQUIRIES RELATING TO GMOS SHOULD BE MADE TO: 01223 342352 or 342370**

**PLEASE NOTE:**

**a) APPLICANTS FOR GENETICALLY MODIFIED VARIETIES SHOULD AIM TO HAVE THE CONSENT TO RELEASE OR MARKET AVAILABLE FOR PVSD SCRUTINY BY THE APPLICATION CLOSING DATE**

**b) IF YOU INTEND TO SUBMIT AN APPLICATION FOR A GM CANDIDATE, YOU SHOULD CONTACT THIS OFFICE IMMEDIATELY**

#### 4. FEES FOR DUS TESTING OF MAIZE

DUS testing of maize for UK National List (or Plant Breeders' Rights) applications, is done by the French authorities. At present they levy one fee in respect of any one application. We have confirmed that in future a separate fee will be charged in respect of each parental component for hybrids, where a separate DUS test is being conducted. Therefore a separate DUS fee will be levied for each separate DUS test. If you have any queries, please contact Mrs Elspeth Nicol on 01223 342354, email [elspeth.nicol@defra.gsi.gov.uk](mailto:elspeth.nicol@defra.gsi.gov.uk).

6. VARIETAL ASSOCIATIONS OF OILSEED RAPE

The European Commission has amended Annex II to Regulation 658/96 which lists varieties of oilseed rape eligible for AAPS. Male sterile varieties of oilseed rape are no longer listed separately in the annex. Instead, the varietal associations are listed along with their percentage components. So when new varietal associations are introduced, or existing ones changed in any way, it is important that the European Commission is notified so that Annex II can be updated. Breeders and seed marketing companies should alert Arable Crops Division in London direct about any such changes. Contact: Mr R. Moore, ACD Area Payments, DEFRA, 10 Whitehall Place (East), London SW1A 2HH, Telephone Number: 020 7270 8112, Fax Number: 020 7270 8842, or through BSPB if preferred, copying their letter to Mrs E Nicol at DEFRA, Whitehouse Lane, Huntingdon Road, Cambridge, CB30LF.

9. **APPLICATION FOR COMPULSORY LICENCE - POTATO VARIETY LADY ROSETTA**

This decision relates to a Compulsory Licence application made on 7 December 2000 by Sacker Potatoes Limited under Section 17 of the Plant Varieties Act 1997 which was joined by a Section 25(3) application from Higgins Agriculture Ltd. The application was advertised in the December 2000 edition (Number 432) of the Plant Varieties & Seeds Gazette. Written representations were submitted by the applicant, Higgins Agriculture Ltd and by the holder of plant breeders' rights, Meijer b.v whose views incorporated those of their UK agents, MBM Produce Limited.

The written representations have been considered by the Controller of Plant Variety Rights who has decided that the application should be refused because the applicant has failed to satisfy the Controller that a licence has been unreasonably refused pursuant to Section 17(1) of the Plant Varieties Act 1997. The parties involved were notified by fax of the decision on 31 October 2001 and that the decision will take effect from 1 December 2001, unless an appeal is made to the Plant Varieties & Seeds Tribunal by 30 November. That accords with the requirement in regulation 3 of the Plant Varieties and Seeds Tribunal Rules 1974 which requires that an appeal against any decision of the Controller shall be instituted by the appellant serving on the Secretary to the Tribunal, within 28 days of the Controller giving notice of the decision, a notice of appeal. On receipt of such appeal, the Controller's decision is suspended pending the final determination of the appeal. The Secretary to the tribunal is: Mrs Jackie Ozakpinar, Block B, Government Buildings, Brooklands Avenue, Cambridge, CB2 2 DR, telephone 01223.455243, e-mail jackie.a.ozakpinar@defra.gsi.gov.uk

10. **EUROPEAN PLANT VARIETY RIGHTS - SURRENDER AND TERMINATION OF UK PLANT BREEDERS' RIGHTS**

It should be noted that in some cases where UK Plant Breeders' Rights are being surrendered and terminated European Plant Variety Rights may be in force for those varieties.

11. **CHRISTMAS AND NEW YEAR CLOSING**

The Office will be closed for normal business during the week 24-28 December 2001. However, in the case of an emergency, staff will be available on 27 and 28 December between 10:00 and 4:00 (tel: 01223 342351).

13. PLANT BREEDERS' RIGHTS - ROSES

Rose breeders who intend to make applications for Plant Breeders' rights should note there has been a change in the closing dates.

Rose breeders who intend making applications for Plant Breeders' Rights for varieties which are to be tested in the 2002 growing season are asked to complete and return application forms, technical questionnaires and coloured photographs showing the whole plant and a close-up of the flower or inflorescence showing detail, to the address below so that they arrive not later than 28 February 2002.

Copies of the application forms and technical questionnaires may be obtained from:

Huntingdon Road  
Cambridge  
CB3 0LF

Tel: (01223) 342396

Fax: (01223) 342386

Contact: Mr Reg Greenaway

Plant material must be delivered to the Royal National Rose Society between 1 November 2001 and 1 April 2002 but should not be sent until officially requested.

NOTE TO BREEDERS

Applicants are encouraged to send their applications well before the deadline.

The closing dates for receipt of applications and material are pitched as late as is practically feasible to fit in with the necessary testing programmes. It is, therefore, very important that breeders carefully note and adhere to these dates and contact this office immediately if they foresee any problems with meeting these deadlines. We must stress, however, that plant material should not be sent until officially requested.

Application forms and technical questionnaires received after 28 February 2002 will not be considered for tests until 2002. Similarly, plant material submitted after 1 April 2002 will not be planted.

**ROSES UK Plant Breeders' Rights**

The Royal National Rose Society (RNRS), the National Trials Site for the DUS testing of roses, is planning a major re-development and expansion in 2002. As part of this enlargement programme, RNRS intend to create an International Trials ground within which there will be an area for the PVRO DUS Trials and Reference Collection (the "Museum Collection").

As the existing Reference Collection will need to be relocated, it has been decided to ask holders of UK Plant Breeders Rights or their agents to supply new material rather than transfer existing plants.

We shall therefore be writing to all holders of Rose UK Plant Breeders' Rights or their agents for plant material in due course.

Please do not send any plant material until you receive a specific plant material order.

We appreciate your co-operation in this exercise, however should you have any queries, please contact:

## Section IV - Proposed Grant or Refusal of Applications

Written representations and/or requests to be heard by the Controller or by a person appointed by her for that purpose may be made regarding proposals made in Section IV and VI above.

For section IV, representations may be made by the applicant, any person who has a substantial interest in an application which is the subject of one of these proposals or who is in a position to provide evidence which is likely to be material to its consideration.

The representations and/or requests to be heard must be sent to the Controller by 29 November 2001 if they relate to proposed grants or refusals shown in Section IV. Written representations should be accompanied by a fee of £30.00 (Cheques should be made payable to DEFRA). If a hearing is granted then a fee of £60.00 is payable before it is held.

Any representations received will be circulated by the Controller to all interested parties and a period of 21 days allowed for subsequent representations to be made. The Controller shall then be entitled to make a decision after she has received any further representations but may, if she considers it desirable, allow further representations.

If a hearing is to be held then at least 14 days notice will be given to all parties. Any supporting documents relating to the hearing must be made available to the Controller at least 7 days before the hearing.

Written representations and or requests to be heard should be forwarded to The Controller and the following address:

The Plant Variety Rights Office  
White House Lane  
Huntingdon Road  
Cambridge CB3 0LF

## Section IV - Proposed Additions and Refusals

Any person who would be affected by a proposed decision in section IV above may make representations to the Ministers in writing, or be heard by a person appointed by Ministers for the purpose, or if they wish, make both written representations and be heard. The representations and/or request to be heard must be received by the Ministers not later than 29 November 2001 if they relate to proposed additions and refusals. Written representations should be accompanied by a fee of £30. (Cheques should be made payable to DEFRA). If attendance at a hearing is granted then a fee of £60 is payable before the date of the hearing.

Persons affected means as the case may be:

- a) The person who has made the application for the addition of a plant variety to a National List, the application for the renewal of the period during which a plant variety may remain in a National List or the application to be indicated in a National List as a maintainer of a plant variety
- b) Any person appearing to the Ministers to have sufficient interest in the matter to which the proposed decision relates
- c) Any person or organisation appearing to the Ministers to be representative of a class of persons likely to be affected by the decision.

Written representations and/or requests to be heard should be forwarded to Ministers at the following address:

Department for Environment, Food and Rural Affairs  
Plant Varieties and Seeds Division  
White House Lane  
Huntingdon Road  
Cambridge CB3 0LF

With the introduction of The Seeds (National Lists of Varieties) Regulations 2001, which enter into force on 1 December, the nominated maintainer(s) of a variety shall be published at the time a proposed decision is made to add that variety to a National List. It is a requirement of the new regulations that a formal application be made to change a maintainer. In such cases details of the proposed maintainer will be published, affording interested parties the right to make representations, under regulation 16 of The Seeds (National Lists of Varieties) Regulations 2001.

For information a list of current maintainers is appended. Any queries should be addressed to Mrs Caroline Hart on 01223 342350 (caroline.hart@defra.gsi.gov.uk).

## INTRODUCTORY PARAGRAPHS ON REPRESENTATIONS

### WRITTEN REPRESENTATIONS AND REQUESTS TO BE HEARD

#### PLANT BREEDERS' RIGHTS

Section I	-	Applications for Plant Breeders' Rights
Section IV	-	Proposed Grant or Refusal of Applications
Section VI	-	Proposed Surrender or Termination of Grants and Declaring Rights Null and Void

Written representations and/or requests to be heard by the Controller or by a person appointed by her for that purpose may be made regarding proposals made in Section IV and VI above. Only written representations may be made regarding applications under Section I.

For sections I and IV, representations may be made by the applicant, any person who has a substantial interest in an application which is the subject of one of these proposals or who is in a position to provide evidence which is likely to be material to its consideration. For proposals under Section VI, representations may be made by the holder of rights, any person who is the holder of a licence to exercise any plant breeders' rights in the plant varieties in question and any persons whose financial interests are likely to be affected by the decision.

The representations and/or requests to be heard must be sent to the Controller by 18 December 2001 if they relate to proposed grants or refusals shown in Section IV and not later than 18 December 2001 for items in Section I and VI. Written representations should be accompanied by a fee of £30.00 (Cheques should be made payable to DEFRA). If a hearing is granted then a fee of £60.00 is payable before it is held.

Any representations received will be circulated by the Controller to all interested parties and a period of 21 days allowed for subsequent representations to be made. The Controller shall then be entitled to make a decision after he has received any further representations but may, if she considers it desirable, allow further representations.

If a hearing is to be held then at least 14 days notice will be given to all parties. Any supporting documents relating to the hearing must be made available to the Controller at least 7 days before the hearing.

Written representations and or requests to be heard should be forwarded to The Controller and the following address:

The Plant Variety Rights Office  
White House Lane  
Huntingdon Road  
Cambridge CB3 0LF

#### NATIONAL LISTS

Section IV	-	Proposed Additions and Refusals
Section VI	-	Proposed Deletions

Any person who would be affected by a proposed decision in section IV and VI above may make representations to the National Authorities in writing, or be heard by a person appointed by the National Authorities for the purpose, or if they wish, make both written representations and be heard. The representations and/or request to be heard must be received by the National Authorities not later than 18 December 2001 if they relate to proposed additions and refusals and not later 28 February 2002 where they relate to proposed deletions. Written representations should be accompanied by a fee of £30. (Cheques should be made payable to DEFRA). If attendance at a hearing is granted then a fee of £60 is payable before the date of the hearing.

Persons affected means as the case may be:

- The person who has made the application for the addition of a plant variety to a National List, the application for the renewal of the period during which a plant variety may remain in a National List or the application to be indicated in a National List as a maintainer of a plant variety
- Any person appearing to the National Authorities to have sufficient interest in the matter to which the proposed decision relates
- Any person or organisation appearing to the National Authorities to be representative of a class of persons likely to be affected by the decision.

Written representations and/or requests to be heard should be forwarded to the National Authorities at the following address:

Department for Environment, Food and Rural Affairs  
Plant Varieties and Seeds Division  
White House Lane  
Huntingdon Road  
Cambridge CB3 0LF

#### PLANT BREEDERS' RIGHTS AND NATIONAL LISTS

##### Section II - Variety Denominations

##### Proposed Names

Any person who wishes to object to either the approval of a proposed name or the approval of a proposed change of name on the grounds that it is unsuitable on one or more of the grounds set out in Regulation 18(2)(a) to (e) of the Plant Breeders' Rights Regulations 1978 or in Regulation 17(3)(a) to (e) of the Seeds (National List of Varieties) Regulations 1982 may make written representations. These must set out in full the reasons for the objection and must be delivered not later than 28 February 2002. They should be accompanied by a fee of £30.00 and addressed to the Controller (for Plant Breeders' Rights) or the Secretary of State for Environment (for National Listing) at the above address.

## VI TERMINATION OF PROTECTION AND DELETION FROM THE NATIONAL LIST (continued)

### (iii) DELETION OF PLANT VARIETIES FROM A NATIONAL LIST

The following varieties have been deleted from a National List at the request of the maintainer unless otherwise indicated. Persons interested in marketing seed of any of these varieties should note the provisions of Regulation 16(1) of the Seeds (National Lists of Varieties) Regulations 1982 which permit National Authorities to allow a period expiring not later than 30 June of the third year following the removal of a plant variety from a National List during which seed of that variety, being seed which was in the course of being produced or which was produced before 31<sup>st</sup> November, 2001, may be marketed in such a manner as would have been lawful had variety remained on the National List during that period. Any person holding seed stocks should inform the Secretary of State by 18<sup>th</sup> December 2001, of the stocks held if they wish to apply for a Marketing Extension.

### b) AMENDMENTS TO PREVIOUS GAZETTES, INCLUDING NOTE OF APPLICATION FOR GENETICALLY MODIFIED VARIETIES

AFP 24/24, GAELLE BREGEON (Pine) was terminated in error in the October 2001 gazette.

In the September 2001 gazette on page 9, Winter Barley, 2/1917 was advertised with the wrong breeders reference. It should have been NFC 95-28

**In the September gazette on page 9 two applications for National Listing of Winter Oilseed Rape varieties relate to Genetically Modified varieties. They are 35/1628 and 35/1629.**

In the Additional Gazette for November 2001, advertising proposed additions and refusals to a National List, two varieties were advertised in error. They are 35/1440 URAL and 35/1446 CSP409. The copy of that gazette included in this gazette has been corrected.

### c) STATUTORY NOTICE CONCERNING VARIETIES TO BE RENEWED ON THE NATIONAL LISTS AFTER A PERIOD OF 10 YEARS

Applications for renewal of the following varieties on the National Lists after a period of 10 years were advertised in the July 2001 edition of the Plant Varieties and Seeds Gazette. No representations were received and the National Authorities will, at the end of the 10 year period, renew these entries on the National Lists for a further period of 10 years to 31 December 2013 subject to payment of the appropriate fees.
