

NOIDs WEEKLY REPORT

STATUTORY NOTIFICATIONS OF INFECTIOUS DISEASES

in ENGLAND and WALES

WEEK 2021/40 week ending 10/10/2021

CONTENTS

Table 1	Statutory notifications of infectious diseases in the past 6 weeks with totals for the current year compared with corresponding periods of the 2 preceding years
Table 2	Statutory notifications of infectious diseases for diseases for WEEK 2021/40 by UKHSA region, county, local and unitary authority including additional diseases notifiable from 6 April 2010

Registered Medical Practitioner in England and Wales have a statutory duty to notify a Proper Officer of the local authority, often the CCDC (Consultant in Communicable Disease Control), of suspected cases of certain infectious diseases:

Acute encephalitis	Haemolytic uraemic syndrome *	Sars *
Acute infectious hepatitis	Infectious bloody diarrhoea *	Scarlet fever
Acute meningitis	Invasive group A Streptococcal disease	Smallpox
Acute poliomyelitis	Legionnaires disease *	Tetanus
Anthrax	Leprosy	Tuberculosis
Botulism *	Malaria	Typhus
Brucellosis *	Measles	Viral haemorrhagic fever
Cholera	Meningococcal septicaemia	Whooping cough
COVID-19	Mumps	Yellow fever
Diphtheria	Plague	
Enteric fever (typhoid or paratyphoid)	Rabies	
Food poisoning	Rubella	

* Notifiable from 6 April 2010

Notifications of infectious diseases, some of which are later microbiologically confirmed, prompt local investigation and action to control the diseases. Proper officers are required every week to inform the UK Health Security Agency (UKHSA) (formerly the Registrar General) anonymised details of each case of each disease that has been notified. UKHSA has responsibility of collating the weekly returns from proper officers and publishing analyses of local and national trends.

All weekly data is provisional

Table 1 Statutory notifications of infectious diseases in the past 6 weeks, with totals for the current year compared with corresponding periods of the preceding 2 years.

England and Wales
including Port Health Authorities
