JUDGMENT

The claimant's application dated 22 October 2021 for reconsideration of the judgment refusing to strike out any of the claimant's claims is refused.

REASONS

1. There is no reasonable prospect of the original decision being varied or revoked, because:
 - a) The complaint made is that certain of Mr Sykes' submissions were misrepresented;
 - b) The submissions were summarised in the Judgment and included both written and oral submissions made by Mr Sykes and his answers to questions about his submissions. It is not the function of the judgment to rehearse the parties' submissions in full and I can see no misrepresentation of submissions made by Mr Sykes;

- c) The claimant was successful in resisting strike out and deposit order applications;
- d) It would in all the circumstances not be in interests of justice to reconsider the Judgment.
