## Internal Review of FOI 21/276

Dear All,

This request has been logged as internal review and the 20 day deadline for this request is 18 May 2021.

We are grateful for your help with this internal review.

Kind Regards

[REDACTED]

Hi Team,

Can this be logged as an internal review request.

[REDACTED] – FYI this was a Section 22 response for iDAPs.

Kind regards,  
[REDACTED]

To:

Communications Directorate

Medicines and Healthcare products Regulatory Agency

Dear Sir or Madam,

**Re: Request of review of response to 'FOI 21/276 - Freedom of Information Act Request of adverse drug reaction (ADR) data regarding all Covid-19 vaccines in use in the UK which is not available on gov.uk website'**

I would ask if you would review the decision enclosed in attached letter. As a vaccine centre supervisor, with the responsibility of overseeing clinical practice, including ensuring informed consent to treatment, 5 months well into a mass vaccination programme and with the level of information technology nowadays available (and recently specifically purchased by the MHRA for the management of covid-19 vaccine pharmacovigilance infrastructure), I believe there are little reasons for not making the information I requested immediately available to myself individually, or, even better, to the public, and especially professionals and researchers. The technology is there, and cheap. I can offer to the MHRA a free cloud service open to public view, personally hosted in my home.

Yours faithfully,

Marco Tullio Suadoni

CHM

To whom it might concern:

Dear Sir or Madam,

**Re: Freedom of Information Act Request of adverse drug reaction (ADR) data regarding all Covid-19 vaccines in use in the UK which is not available on gov.uk website**

First of all, I am aware of the information available here: <https://www.gov.uk/government/publications/coronavirus-covid-19-vaccine-adverse-reactions>

However, the information linked as above does not report all ADRs data, but only summary data.

I request in spreadsheet or database format, e.g., comma-separated-values (CSV) (not PDF format), the full body of all anonymised raw data with the level of details as close as possible to that one available for Interactive Drug Analysis Profile (iDAP) and related CSV files, for all Covid-19 vaccines currently in use in the UK. Especially to include for EACH event, but not limited to:

SEX

AGE

DATE

REPORTER

REPORT SUBMISSION

ROUTE OF ADMINISTRATION

SERIOUSNESS

SYSTEM ORGAN CLASS

Yours faithfully,

Marco Tullio Suadoni
