20 September 2021

Dear [REDACTED]

**REQUEST FOR INFORMATION – INFORMATION RELATING TO THE OXFORD STREET BUS DEPOT BOMBING IN BELFAST ON 21 JULY 1972**

I can confirm that your request has been considered under the provisions of the Freedom of Information Act 2000 (FOI (A)), and the process is now complete.

You stated the following:

***“May I request a digital/electronic copy of the following information please, relating to the Welsh Guards’ tour of duty in Belfast in July 1972; specifically relating to the period leading up to Bloody Friday 21st July and its aftermath. [REDACTED] Robert John (Jackie) Gibson, was one of the 9 people murdered that day so this information will refer directly to him. He was a bus driver with Ulsterbus and Reservist with the Royal Ulster Constabulary killed at Oxford Bus Station. Sergeant Philip Price of 1 Welsh Guards was murdered in the same explosion alongside Driver Stephen Cooper of the Royal Corps of Transport. There were around 21 related explosions across Belfast that day.***

***Request, please:***

- 1 Welsh Guards Watchkeeper Logs for each Company for the period 19th July – 26th July 1972***
- 1 Welsh Guards Radio Logs for the period 19th July – 26th July 1972***
- 1 Welsh Guards Battalion/Tactical Headquarter Logs for each Company for the period 19th July – 26th July 1972***
- Royal Military Police / Special Investigation Branch files relating to the British Army’s Bloody Friday investigation.”***

I can confirm that the MOD holds some information relating to your request. 1 Welsh Guards (1WG) watchkeeper log sheets covering 19 – 26 July 1972, are attached at Annex A. A search was conducted using relevant search criteria of our archive database. In addition, searches were also carried out within both the Main MOD archive, and the sensitive MOD archive at Portsmouth however I was unable to locate 1WG Radio Logs or Battalion/Tactical Headquarters logs for the period.

Some of the information you have requested could be exempt under Section 23(1) of the Freedom of Information Act, which relates to the bodies dealing with security matters, although it is also possible that the information relates to none of the bodies dealing with security matters. Sections 23(1) and 24(1) are being cited in the alternative as it is not appropriate, in the circumstances of the case, to say which of the two exemptions is actually engaged so as not to undermine national security or reveal the extent of any involvement, or not, of the bodies dealing with security matters. Section 23 is an absolute exemption and, if it were engaged in this material, the MOD

would not be required to consider whether the public interest favours disclosure of this information.

Any information that is not exempt from disclosure under Section 23(1) could be exempt under Section 24(1) of the FOI(A), which exempts information from disclosure if its exemption is required for the purpose of safeguarding national security. We cannot say which of the two exemptions is actually engaged, but to the extent that S24(1) might be engaged. We acknowledge the public interest in openness and transparency, but we consider that there is a stronger public interest in protecting national security.

Some of the information falls within the scope of Section 26 (Defence) of the FOI(A) as its release would or would be likely to prejudice the capability, effectiveness or security of any relevant forces. Section 26 is a qualified exemption and we have conducted a public interest test to determine whether the information should be released or withheld. The factors for this public interest have determined that whilst disclosure would demonstrate openness and transparency this is outweighed by the detrimental effect disclosure would have in revealing the capabilities of military operational planning by compromising the methodologies and practices employed in the gathering and analysis of information. I have therefore concluded that the public interest supports withholding some information under Section 26.

All Police Service of Northern Ireland (PSNI) cases remain open and if new evidence comes forward the PSNI will reinvestigate. Release of these documents must be carefully considered under Section 31 (Law Enforcement) of the FOI (A). I have completed this consideration through a public interest test including consultation with the PSNI who have advised that release of some of the information could adversely impact on any investigative process, and may jeopardise any future prosecutorial process. On this basis I am withholding some of the information under Section 31 of the FOI(A).

Some of the information falls within the scope of Section 38 (Health and Safety) of the FOI(A), as its release could endanger the physical or mental health of any individual or endanger the safety of any individual.

Section 38 (Health and Safety) is a qualified exemption and we have conducted a public interest test to determine whether the information should be released or withheld. The factors for this public interest have determined that whilst disclosure would demonstrate openness and transparency this is outweighed by the detrimental effect disclosure could have on those mentioned in the documents, or their family members and friends. I have concluded that whilst disclosure may be of historical interest, the health and safety of individuals must be taken into account. Some information has therefore been redacted under Section 38 of the FOI(A).

Additionally, some of the information contained within the disclosure constitutes personal information, such as names and addresses. Under FOI(A) this information is exempt under Section 40 (2) by reason of the first condition under Section 40 (3) (a) (i), as disclosure would contravene data protection principles under the Data Protection Act 2018 (DPA 2018). This is an absolute exemption and does not require a public interest test to be conducted in order for this information to be exempt from disclosure. Therefore, all personal information has been redacted.

I appreciate that this incident took place 49 years ago and the passage of time can be a factor in diminishing the applicability of exemptions to information. However, in this instance the passage of time is less relevant as the PSNI continue to investigate Troubles-related deaths and the overall balance is in favour of partial exemption.

If you have any queries regarding the content of this letter, please contact this office in the first instance

If you wish to complain about the handling of your request, or the content of this response, you can request an independent internal review by contacting the Information Rights Compliance team, Ground Floor, MOD Main Building, Whitehall, SW1A 2HB (e-mail [CIO-FOI-IR@mod.gov.uk](mailto:CIO-FOI-IR@mod.gov.uk)).

Please note that any request for an internal review should be made within 40 working days of the date of this response.

If you remain dissatisfied following an internal review, you may raise your complaint directly to the Information Commissioner under the provisions of Section 50 of the FOI(A).

Please note that the Information Commissioner will not normally investigate your case until the MOD internal review process has been completed. The Information Commissioner can be contacted at: Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF. Further details of the role and powers of the Information Commissioner can be found on the Commissioner's website at <https://ico.org.uk/>.

Yours sincerely

38 (Irish) Brigade FOI Team
