

Unbranded Professional Hair Straightener	
Aspect	Details
Images	
Alert Number	2012-0157
Product Type	Electrical Appliances and Equipment – Hair Styler
Product Identifiers	Input: AC220V 50Hz 30W-60W Working Temperature: 0-40°C. Heat up to 230°C within 40 seconds.
Product Description	Black hair straightening product with steam vents with two pin plug and UK adaptor. Packaged in black and yellow cardboard packaging.
Country of Origin	Unknown
Counterfeit	No
Risk Level	Serious
Risk Type	Electric Shock
Risk Description	The UK 3-pin adaptor supplied with the product is poorly built, with insufficient distance between the plug and the edge. In addition, the plug is not fused. This puts the user at risk of coming into contact with live pins when plugging the adaptor into or removing from the socket which is not electrically isolated, leading to an electric shock. The product does not meet the requirements of the Plugs & Sockets (Safety) Regulations 1994.
Corrective Measures	The authority has required the recall of the product from the end user.
Online Marketplace	Wish – The listing has been removed by the online marketplace.
Notifier	Office for Product Safety and Standards
