| E210144AA    | 30 April 2023   | 1 x 50ml vial | 09 December 2021  |

Active Pharmaceutical Ingredient: 5-Fluorouracil

### Brief description of the problem

medac GmbH (t/a medac Pharma LLP) are recalling the above batches as a precautionary measure due to visual detection of glass lamellae particles during an ongoing stability study.

### Advice for healthcare professionals

Stop supplying the above batch immediately. Quarantine all remaining stock and return it to your supplier using your supplier's approved process.

### Further Information

For more information, medical or supply enquiries, please contact medac Pharma LLP by email to [info@medacpharma.co.uk](mailto:info@medacpharma.co.uk) or telephone 01786 458086.

Recipients of this Medicines Recall should bring it to the attention of relevant contacts by copy of this notice. NHS regional teams are asked to forward this to community pharmacists and dispensing general practitioners for information.

Yours faithfully
