Alert Number	2107-0148
Product Type	Hobby/Sports Equipment
Product Identifiers	Model No. 960220, 960222, 960219* UPC 840840010582, UPC 840840010599, UPC 840840010612
Product Description	The Ballz® QR Skewer is a Quick Release bicycle axle used to attach the Coho® XC Trailer to a bicycle.
Country of Origin	China
Counterfeit	No
Risk Type	Injuries
Risk Description	Burley has identified that the Ballz® QR Skewer may fail in use. Burley has received warranty reports that the axle portion of the skewer has sheared when initially installed and/or during use with the Coho XC Cargo Trailer. If the skewer fails while riding, the Coho XC Cargo Trailer could become partially separated from the bicycle leaving only one of two tow arms connected to the bicycle. This could cause instability of the trailer and the towing bicycle and pose a fall hazard for the bicycle rider.
Corrective Measures	The product has been recalled from end users. Further information can be found on the recall site: https://www.burley.com/ballz-qr-skewer-recall/
Online Marketplace	N/A
Notifier	Office for Product Safety and Standards
