Part II: Certification

The official veterinarian certifies that all birds covered by this certificate have been inspected and attests to the following statements:

1. The birds covered under this health certificate were inspected on the date listed on page 1 section 8 of this document by the veterinarian issuing the certificate.
2. *A. The birds for export have been vaccinated against H5 or H7 subtypes of avian influenza
OR
*B. The birds for export were not vaccinated against any H5 or H7 subtype of avian influenza.
3. The birds were examined by the veterinarian issuing the health certificate within 30 days prior to export, and show no evidence of communicable diseases of poultry.
4. The birds covered by this certificate do not originate from flocks nor had contact with any birds or poultry originating in a control zone established by animal health authorities due to outbreaks of Newcastle disease or Highly Pathogenic Avian Influenza (HPAI) in the 90 days preceding the exportation.
5. *A. The birds were not vaccinated against Newcastle disease
OR
*B. The birds were vaccinated against Newcastle disease (avian paramyxovirus) at least 21 days prior to export, using vaccines that do not contain any velogenic strains of Newcastle disease virus.

Name/manufacturer of vaccine: _____
6. This consignment did not (based on the route plan and declaration provided by the exporter) travel through, any zones within the APHIS-defined European Poultry Trade Region⁽²⁾ that were restricted for outbreaks of Newcastle disease or HPAI in commercial poultry for the following period of time, whichever is later:

*A) until the restrictions were lifted by the national competent authority;
OR
*B) 90 days after depopulation of all affected premises, followed by cleaning and disinfection of the last affected premises, in that zone.

[Note: only A) applies if the restrictions had been placed for Newcastle disease or HPAI in racing pigeons, backyard flocks or wild birds.]
7. There was no evidence of avian communicable diseases found among the birds being shipped.
8. The birds were placed in new or appropriately sanitized packaging materials at the premises from which the birds were to be exported.
