**Strategic Export Controls: Country
Pivot Report**

1st January 2017 - 31st March
2017

April 2022

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st January 2017 and 31st March 2017. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for goods covered by the torture regulation (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	3577	3494	82	1
- Permanent Standard	2937	2856	80	1
- Temporary Standard	198	196	2	0
- Transshipment	1	1	0	0
- Incorporation	436	436	0	0
- For goods covered by the torture regulation (Permanent or Temporary)	5	5	0	0
SITCLs	97	93	4	0
OIELs	156	143	13	0
- Standard	132	120	12	0
- Dealer-to-dealer	14	14	0	0
- Cryptographic	5	4	1	0
- Media	1	1	0	0
- Continental Shelf	4	4	0	0
Global Project Licences	8	8	0	0
OITCLs	10	10	0	0

Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transshipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

Overall Processing Statistics

Processing statistics covering the period 1st January 2017 to 31st March 2017

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3789	82	4534	98	11 days
- Permanent Standard	3224	82	3860	98	11 days
- Temporary Standard	197	87	224	99	11 days
- Transshipment	1	50	2	100	14 days
- Incorporation	363	80	444	98	12 days
- For goods covered by the torture regulation (Permanent or Temporary)	4	80	4	80	9 days
SITCLs	113	75	142	94	14 days
OIELs	34	20	95	56	56 days
- Standard	15	11	67	47	63 days
- Dealer-to-dealer	17	94	18	100	3 days
- Cryptographic	2	40	5	100	26 days
- Media	0	0	1	100	47 days
- Continental Shelf	0	0	4	100	51 days
Global Project Licences	1	11	1	11	67 days
OITCLs	7	41	9	53	59 days

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£21,465
Non-military	2	£80,692
Total	4	£102,157

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£19,000
ML3	1	£1,500
ML10	1	£965

assault rifles (9) [See footnote 3].
 components for assault rifles [See footnote 3].
 components for combat aircraft.
 small arms ammunition [See footnote 3].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£77,192
6A003	1	£3,500

imaging cameras.

information security equipment.

SITCLs

Source	Issued	Refused	Revoked
Bulgaria	3	0	0

Issued

promoting the supply of artillery ammunition [See footnote 4].
 promoting the supply of mortar bombs (2 licences) [See footnotes 1, 4].
 surface launched rockets [See footnote 2].

Country Footnotes

1. Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2255 (2015), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Diplomatic missions.
4. Licence granted for civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£26,898
Non-military	3	£385,691
Total	6	£412,589

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,833
ML3	1	£1,853

ML13	1	£5,400
PL5001	2	£17,813

anti-riot/ballistic shields (2 licences) [See footnotes 3, 4].
blank/inert ammunition [See footnote 5].
components for assault rifles [See footnote 5].
components for pistols [See footnote 5].
military helmets [See footnote 3].
training small arms ammunition [See footnote 5].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£53,400
7A103	1	£243,250
8A002	1	£89,041

guidance/navigation equipment [See footnote 1].
information security equipment (2 licences) [See footnote 1].
submersible equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 2]
2	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 6]

Issued

promoting the supply of airborne refuelling equipment [See footnote 7].
 promoting the supply of aircraft cannons [See footnote 7].
 promoting the supply of aircraft military communications equipment [See footnote 7].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 7].
 promoting the supply of anti-aircraft guns [See footnote 7].
 promoting the supply of anti-armour ammunition [See footnote 7].
 promoting the supply of anti-armour weapons [See footnote 7].
 promoting the supply of anti-riot/ballistic shields [See footnote 7].
 promoting the supply of artillery [See footnote 7].
 promoting the supply of assault rifles [See footnote 7].
 promoting the supply of attack alerting/warning equipment [See footnote 7].
 promoting the supply of body armour [See footnote 7].
 promoting the supply of caseless ammunition weapons [See footnote 7].
 promoting the supply of combat helicopters [See footnote 7].
 promoting the supply of combat shotguns [See footnote 7].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 7].
 promoting the supply of components for assault rifles [See footnote 7].
 promoting the supply of components for body armour [See footnote 7].
 promoting the supply of components for combat shotguns [See footnote 7].
 promoting the supply of components for machine guns [See footnote 7].
 promoting the supply of components for pistols [See footnote 7].
 promoting the supply of components for rifles [See footnote 7].
 promoting the supply of components for smooth-bore weapons [See footnote 7].
 promoting the supply of components for sniper rifles [See footnote 7].
 promoting the supply of components for sporting guns [See footnote 7].
 promoting the supply of components for sporting shotguns [See footnote 7].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 7].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 7].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 7].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 7].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 7].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 7].
 promoting the supply of CS hand grenades [See footnote 7].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 7].
 promoting the supply of electronic countermeasure equipment [See footnote 7].
 promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 7].
 promoting the supply of equipment for the use of aircraft cannons [See footnote 7].
 promoting the supply of equipment for the use of anti-aircraft guns [See footnote 7].
 promoting the supply of equipment for the use of anti-armour weapons [See footnote 7].

promoting the supply of equipment for the use of artillery [See footnote 7].
promoting the supply of equipment for the use of assault rifles [See footnote 7].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 7].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 7].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 7].
promoting the supply of equipment for the use of fire location equipment [See footnote 7].
promoting the supply of equipment for the use of flash suppressers [See footnote 7].
promoting the supply of equipment for the use of grenade launchers [See footnote 7].
promoting the supply of equipment for the use of gun silencers [See footnote 7].
promoting the supply of equipment for the use of heavy machine guns [See footnote 7].
promoting the supply of equipment for the use of machine guns [See footnote 7].
promoting the supply of equipment for the use of military radars [See footnote 7].
promoting the supply of equipment for the use of mortars [See footnote 7].
promoting the supply of equipment for the use of periscopes [See footnote 7].
promoting the supply of equipment for the use of pistols [See footnote 7].
promoting the supply of equipment for the use of projectile launchers [See footnote 7].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 7].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 7].
promoting the supply of equipment for the use of rifles [See footnote 7].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 7].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 7].
promoting the supply of equipment for the use of sniper rifles [See footnote 7].
promoting the supply of equipment for the use of sporting guns [See footnote 7].
promoting the supply of equipment for the use of sporting shotguns [See footnote 7].
promoting the supply of equipment for the use of targeting equipment [See footnote 7].
promoting the supply of equipment for the use of weapon control equipment [See footnote 7].
promoting the supply of equipment for the use of weapon mountings [See footnote 7].
promoting the supply of equipment for the use of weapon night sights [See footnote 7].
promoting the supply of equipment for the use of weapon sights [See footnote 7].
promoting the supply of fire location equipment [See footnote 7].
promoting the supply of flash suppressers [See footnote 7].
promoting the supply of fuze setting devices [See footnote 7].
promoting the supply of general military aircraft components [See footnote 7].
promoting the supply of grenade launchers [See footnote 7].
promoting the supply of gun mountings [See footnote 7].
promoting the supply of gun silencers [See footnote 7].
promoting the supply of hand grenades [See footnote 7].
promoting the supply of heavy machine guns [See footnote 7].
promoting the supply of illuminators [See footnote 7].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 7].
promoting the supply of machine guns [See footnote 7].
promoting the supply of military aero-engines [See footnote 7].
promoting the supply of military aircraft ground equipment [See footnote 7].
promoting the supply of military aircraft head-up/down displays [See footnote 7].
promoting the supply of military aircraft pressure refuellers [See footnote 7].
promoting the supply of military aircrew life support equipment [See footnote 7].
promoting the supply of military aircrew safety equipment [See footnote 7].
promoting the supply of military cameras/photographic equipment [See footnote 7].
promoting the supply of military combat vehicles [See footnote 7].
promoting the supply of military helmets [See footnote 7].
promoting the supply of military image intensifier equipment [See footnote 7].
promoting the supply of military image recording/processing equipment [See footnote 7].
promoting the supply of military imaging radar sensor equipment [See footnote 7].
promoting the supply of military infrared/thermal imaging equipment [See footnote 7].
promoting the supply of military radars [See footnote 7].
promoting the supply of military support vehicles [See footnote 7].
promoting the supply of mortars [See footnote 7].
promoting the supply of periscopes [See footnote 7].
promoting the supply of pistols [See footnote 7].
promoting the supply of projectile launchers [See footnote 7].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 7].
promoting the supply of rangefinding equipment [See footnote 7].
promoting the supply of recognition/identification equipment [See footnote 7].
promoting the supply of rifles [See footnote 7].
promoting the supply of sensor integration equipment [See footnote 7].
promoting the supply of signalling devices [See footnote 7].
promoting the supply of small arms ammunition [See footnote 7].

promoting the supply of smoke canisters [See footnote 7].
 promoting the supply of smooth-bore weapons [See footnote 7].
 promoting the supply of sniper rifles [See footnote 7].
 promoting the supply of sporting guns [See footnote 7].
 promoting the supply of sporting shotguns [See footnote 7].
 promoting the supply of targeting equipment [See footnote 7].
 promoting the supply of unmanned air vehicles [See footnote 7].
 promoting the supply of water cannon [See footnote 7].
 promoting the supply of weapon cleaning equipment [See footnote 7].
 promoting the supply of weapon control equipment [See footnote 7].
 promoting the supply of weapon mountings [See footnote 7].
 promoting the supply of weapon night sights [See footnote 7].
 promoting the supply of weapon sight mounts [See footnote 7].
 promoting the supply of weapon sights [See footnote 7].

Country Footnotes

1. No licences shall be granted for any military or dual-use goods and technology being supplied to military end-users in Argentina, except in exceptional circumstances. This decision will not affect licences for items intended for end-users other than the Argentine military.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Law enforcement agency end use.
4. Licence granted for accessories / spare parts. Law enforcement agency end use.
5. Licence granted for testing and evaluation purposes. Law enforcement agency end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.

No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment

Country Footnotes

1. The UK interprets the OSCE arms embargo for Armenia as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	8	£703,994
Non-military	2	£27,360
Total	10	£731,354

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£843
ML4	1	£18,602
ML6	2	£22,353
ML10	2	£660,672
ML13	2	£1,524

armoured plate.
 components for body armour.
 components for combat aircraft.
 components for military aero-engines.
 components for pistols.
 components for sporting guns.
 general military vehicle components (2 licences).
 military aero-engines.
 munitions/ordnance detection/disposal equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	2	£27,360

T devices containing enriched lithium (2 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£448

Total	1	£448
-------	---	------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	1	£448

military electronic equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

China

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]
2	P	goods treated for signature suppression for military use [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the

		use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for general naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 3]
5	P	sporting shotgun ammunition [See footnote 4]
6	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 5]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£231,000
Non-military	12	£2,404,204
Total	13	£2,635,204

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£231,000

bomb suits [See footnote 7].
military helmets [See footnote 7].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	4	£77,399
5D002	1	£36,970
6A001	2	£873,959
6A002	1	£15,450

6A003	1	£40,950
7A003	2	£1,068,077
7A103	2	£30,680
8A002	1	£24,995
9A004	1	£235,724

- T components for submersible vehicles.
T direct view imaging equipment [See footnote 5].
guidance/navigation equipment (2 licences) [See footnotes 1, 3].
T imaging cameras [See footnote 5].
inertial equipment (2 licences).
information security equipment (4 licences).
information security software [See footnote 2].
marine position fixing equipment (2 licences).
sonar log equipment.
spacecraft telemetry and telecommand equipment [See footnote 6].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment
2	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets [See footnote 4]

Country Footnotes

1. The UK interprets the OSCE arms embargo for Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for demonstration to potential customers. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Government end use.
7. Licence granted for accessories / spare parts. Government end use.

promoting the supply of airborne refuelling equipment [See footnote 6].
 promoting the supply of aircraft cannons [See footnote 6].
 promoting the supply of aircraft military communications equipment [See footnote 6].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 6].
 promoting the supply of anti-aircraft guns [See footnote 6].
 promoting the supply of anti-armour ammunition [See footnote 6].
 promoting the supply of anti-armour weapons [See footnote 6].
 promoting the supply of anti-riot/ballistic shields [See footnote 6].
 promoting the supply of artillery [See footnote 6].
 promoting the supply of assault rifles [See footnote 6].
 promoting the supply of attack alerting/warning equipment [See footnote 6].
 promoting the supply of body armour [See footnote 6].
 promoting the supply of caseless ammunition weapons [See footnote 6].
 promoting the supply of combat helicopters [See footnote 6].
 promoting the supply of combat shotguns [See footnote 6].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 6].
 promoting the supply of components for assault rifles [See footnote 6].
 promoting the supply of components for body armour [See footnote 6].
 promoting the supply of components for combat shotguns [See footnote 6].
 promoting the supply of components for machine guns [See footnote 6].
 promoting the supply of components for pistols [See footnote 6].
 promoting the supply of components for rifles [See footnote 6].
 promoting the supply of components for smooth-bore weapons [See footnote 6].
 promoting the supply of components for sniper rifles [See footnote 6].
 promoting the supply of components for sporting guns [See footnote 6].
 promoting the supply of components for sporting shotguns [See footnote 6].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic
 equipment [See footnote 6].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment
 [See footnote 6].
 promoting the supply of counter-countermeasure equipment for military image recording/processing
 equipment [See footnote 6].

promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 6].

promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 6].

promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 6].

promoting the supply of CS hand grenades [See footnote 6].

promoting the supply of devices containing military pyrotechnic materials [See footnote 6].

promoting the supply of electronic countermeasure equipment [See footnote 6].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 6].

promoting the supply of equipment for the use of aircraft cannons [See footnote 6].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 6].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 6].

promoting the supply of equipment for the use of artillery [See footnote 6].

promoting the supply of equipment for the use of assault rifles [See footnote 6].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 6].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 6].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 6].

promoting the supply of equipment for the use of fire location equipment [See footnote 6].

promoting the supply of equipment for the use of flash suppressers [See footnote 6].

promoting the supply of equipment for the use of grenade launchers [See footnote 6].

promoting the supply of equipment for the use of gun silencers [See footnote 6].

promoting the supply of equipment for the use of heavy machine guns [See footnote 6].

promoting the supply of equipment for the use of machine guns [See footnote 6].

promoting the supply of equipment for the use of military radars [See footnote 6].

promoting the supply of equipment for the use of mortars [See footnote 6].

promoting the supply of equipment for the use of periscopes [See footnote 6].

promoting the supply of equipment for the use of pistols [See footnote 6].

promoting the supply of equipment for the use of projectile launchers [See footnote 6].

promoting the supply of equipment for the use of rangefinding equipment [See footnote 6].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 6].

promoting the supply of equipment for the use of rifles [See footnote 6].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 6].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 6].

promoting the supply of equipment for the use of sniper rifles [See footnote 6].

promoting the supply of equipment for the use of sporting guns [See footnote 6].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	4	£289,968
Total	4	£289,968

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	2	£3,518
6A003	1	£280,000
6A005	1	£6,450

devices containing enriched lithium compounds.
imaging cameras.
laser optical components.
products containing enriched lithium manufactures.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment

Country Footnotes

- On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended.
All exports for this destination were approved in accordance with the sanctions in place.
- The Republic of Belarus (Sanctions) (EU Exit) Regulations 2019, which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements and which apply to military goods and technology, as well as goods and technology, which might be used for internal repression. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

ML13	2	£85,216
ML15	9	£1,299,920
ML22	3	£20
PL5001	1	£1,561
PL5017	1	£1,105

- anti-riot/ballistic shields.
- body armour (2 licences).
- components for body armour.
- components for decoying/countermeasure equipment.
- components for gun mountings.
- components for launching/handling/control equipment for rockets.
- T components for machine guns.
- components for sniper rifles (2 licences).
- components for weapon control equipment.
- decoying/countermeasure equipment.
- equipment for the use of artillery.
- T equipment for the use of weapon night sights (8 licences).
- gun mountings.
- gun silencers (3 licences).
- T military cameras/photographic equipment.
- military combat vehicles (2 licences).
- military communications equipment.
- T military electronic equipment (9 licences).
- T military guidance/navigation equipment (7 licences).
- military helmets.
- T military image intensifier equipment (9 licences).
- T military infrared/thermal imaging equipment (9 licences).
- periscopes.
- T rangefinding equipment (9 licences).
- sniper rifles (1).
- sniper rifles (4).
- technology for decoying/countermeasure equipment (2 licences).
- technology for sniper rifles.
- weapon cleaning equipment.
- T weapon night sights (11 licences).
- T weapon sights (9 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	3	£51,003

devices containing enriched lithium (3 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	7	£4,398,808
Total	7	£4,398,808

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£1,621,600
ML6	5	£2,776,772
ML10	1	£436

components for military support aircraft.
 components for turrets (3 licences) [See footnotes 12, 14, 15].
 components for weapon control equipment.
 general military vehicle components (2 licences) [See footnotes 11, 13].

The items being incorporated in this destination are ultimately destined for all or some of the following:

France
 Germany
 Luxembourg
 Malaysia
 Saudi Arabia
 Spain
 Turkey
 United Kingdom

Issued

promoting the supply of airborne refuelling equipment [See footnote 1].
 promoting the supply of aircraft cannons [See footnote 1].
 promoting the supply of aircraft military communications equipment [See footnote 1].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 1].
 promoting the supply of anti-aircraft guns [See footnote 1].
 promoting the supply of anti-armour ammunition [See footnote 1].
 promoting the supply of anti-armour weapons [See footnote 1].
 promoting the supply of anti-riot/ballistic shields [See footnote 1].
 promoting the supply of artillery [See footnote 1].
 promoting the supply of assault rifles [See footnote 1].
 promoting the supply of attack alerting/warning equipment [See footnote 1].
 promoting the supply of body armour [See footnote 1].
 promoting the supply of caseless ammunition weapons [See footnote 1].
 promoting the supply of combat helicopters [See footnote 1].
 promoting the supply of combat shotguns [See footnote 1].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 1].
 promoting the supply of components for assault rifles [See footnote 1].
 promoting the supply of components for body armour [See footnote 1].
 promoting the supply of components for combat shotguns [See footnote 1].
 promoting the supply of components for machine guns [See footnote 1].
 promoting the supply of components for pistols [See footnote 1].
 promoting the supply of components for rifles [See footnote 1].
 promoting the supply of components for smooth-bore weapons [See footnote 1].
 promoting the supply of components for sniper rifles [See footnote 1].
 promoting the supply of components for sporting guns [See footnote 1].
 promoting the supply of components for sporting shotguns [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 1].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 1].
 promoting the supply of CS hand grenades [See footnote 1].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 1].
 promoting the supply of electronic countermeasure equipment [See footnote 1].
 promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 1].
 promoting the supply of equipment for the use of aircraft cannons [See footnote 1].
 promoting the supply of equipment for the use of anti-aircraft guns [See footnote 1].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 1].
promoting the supply of equipment for the use of artillery [See footnote 1].
promoting the supply of equipment for the use of assault rifles [See footnote 1].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 1].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 1].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 1].
promoting the supply of equipment for the use of fire location equipment [See footnote 1].
promoting the supply of equipment for the use of flash suppressers [See footnote 1].
promoting the supply of equipment for the use of grenade launchers [See footnote 1].
promoting the supply of equipment for the use of gun silencers [See footnote 1].
promoting the supply of equipment for the use of heavy machine guns [See footnote 1].
promoting the supply of equipment for the use of machine guns [See footnote 1].
promoting the supply of equipment for the use of military radars [See footnote 1].
promoting the supply of equipment for the use of mortars [See footnote 1].
promoting the supply of equipment for the use of periscopes [See footnote 1].
promoting the supply of equipment for the use of pistols [See footnote 1].
promoting the supply of equipment for the use of projectile launchers [See footnote 1].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 1].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 1].
promoting the supply of equipment for the use of rifles [See footnote 1].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 1].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 1].
promoting the supply of equipment for the use of sniper rifles [See footnote 1].
promoting the supply of equipment for the use of sporting guns [See footnote 1].
promoting the supply of equipment for the use of sporting shotguns [See footnote 1].
promoting the supply of equipment for the use of targeting equipment [See footnote 1].
promoting the supply of equipment for the use of weapon control equipment [See footnote 1].
promoting the supply of equipment for the use of weapon mountings [See footnote 1].
promoting the supply of equipment for the use of weapon night sights [See footnote 1].
promoting the supply of equipment for the use of weapon sights [See footnote 1].
promoting the supply of fire location equipment [See footnote 1].
promoting the supply of flash suppressers [See footnote 1].
promoting the supply of fuze setting devices [See footnote 1].
promoting the supply of general military aircraft components [See footnote 1].
promoting the supply of grenade launchers [See footnote 1].
promoting the supply of gun mountings [See footnote 1].
promoting the supply of gun silencers [See footnote 1].
promoting the supply of hand grenades [See footnote 1].
promoting the supply of heavy machine guns [See footnote 1].
promoting the supply of illuminators [See footnote 1].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 1].
promoting the supply of machine guns [See footnote 1].
promoting the supply of military aero-engines [See footnote 1].
promoting the supply of military aircraft ground equipment [See footnote 1].
promoting the supply of military aircraft head-up/down displays [See footnote 1].
promoting the supply of military aircraft pressure refuellers [See footnote 1].
promoting the supply of military aircrew life support equipment [See footnote 1].
promoting the supply of military aircrew safety equipment [See footnote 1].
promoting the supply of military cameras/photographic equipment [See footnote 1].
promoting the supply of military combat vehicles [See footnote 1].
promoting the supply of military helmets [See footnote 1].
promoting the supply of military image intensifier equipment [See footnote 1].
promoting the supply of military image recording/processing equipment [See footnote 1].
promoting the supply of military imaging radar sensor equipment [See footnote 1].
promoting the supply of military infrared/thermal imaging equipment [See footnote 1].
promoting the supply of military radars [See footnote 1].
promoting the supply of military support vehicles [See footnote 1].
promoting the supply of mortars [See footnote 1].
promoting the supply of periscopes [See footnote 1].
promoting the supply of pistols [See footnote 1].
promoting the supply of projectile launchers [See footnote 1].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 1].
promoting the supply of rangefinding equipment [See footnote 1].
promoting the supply of recognition/identification equipment [See footnote 1].
promoting the supply of rifles [See footnote 1].
promoting the supply of sensor integration equipment [See footnote 1].
promoting the supply of signalling devices [See footnote 1].

promoting the supply of small arms ammunition [See footnote 1].
 promoting the supply of smoke canisters [See footnote 1].
 promoting the supply of smooth-bore weapons [See footnote 1].
 promoting the supply of sniper rifles [See footnote 1].
 promoting the supply of sporting guns [See footnote 1].
 promoting the supply of sporting shotguns [See footnote 1].
 promoting the supply of targeting equipment [See footnote 1].
 promoting the supply of unmanned air vehicles [See footnote 1].
 promoting the supply of water cannon [See footnote 1].
 promoting the supply of weapon cleaning equipment [See footnote 1].
 promoting the supply of weapon control equipment [See footnote 1].
 promoting the supply of weapon mountings [See footnote 1].
 promoting the supply of weapon night sights [See footnote 1].
 promoting the supply of weapon sight mounts [See footnote 1].
 promoting the supply of weapon sights [See footnote 1].

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

Bermuda

Processing Statistics (excluding amendments)

Median processing time SIELs	9 days
% and number of SIELs completed in 20 working days	100% (3)
% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£64,645
Non-military	1	£33,000
Total	3	£97,645

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£20,200

ML15	1	£44,445
------	---	---------

military helmets.
military infrared/thermal imaging equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£33,000

information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 1]
2	T	towed hydrophone arrays [See footnote 2]
3	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for non-cryptographic information security equipment [See footnote 3]

 information security equipment (5 licences).
 lasers (2 licences).
 radar equipment [See footnote 2].
 software for information security equipment.
 T sonar log equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£2,804
PL9010	1	£1,227

sporting guns (2).
 sporting shotguns (1).
 weapon sights.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	7	£3,209,959
Total	7	£3,209,959

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£0
ML10	7	£3,209,959

components for combat aircraft.
 components for military support aircraft (3 licences) [See footnote 16].
 components for military training aircraft (3 licences) [See footnote 3].
 military aircraft ground equipment [See footnote 3].
 signalling devices [See footnote 3].

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Chile
- Czech Republic
- Portugal
- United Arab Emirates

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment,

		technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
3	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 4]
4	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 5]
5	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 6]
6	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 7]
7	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 8]
8	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 10]
9	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of

		<p>military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 11]</p>
10	P	<p>cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 12]</p>
11	P	<p>machine guns [See footnote 13]</p>
12	P	<p>devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets [See footnote 14]</p>

13	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment

Issued

- promoting the supply of airborne refuelling equipment [See footnote 15].
- promoting the supply of aircraft cannons [See footnote 15].
- promoting the supply of aircraft military communications equipment [See footnote 15].
- promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 15].
- promoting the supply of anti-aircraft guns [See footnote 15].
- promoting the supply of anti-armour ammunition [See footnote 15].
- promoting the supply of anti-armour weapons [See footnote 15].
- promoting the supply of anti-riot/ballistic shields [See footnote 15].
- promoting the supply of artillery [See footnote 15].
- promoting the supply of assault rifles [See footnote 15].
- promoting the supply of attack alerting/warning equipment [See footnote 15].
- promoting the supply of body armour [See footnote 15].
- promoting the supply of caseless ammunition weapons [See footnote 15].
- promoting the supply of combat helicopters [See footnote 15].
- promoting the supply of combat shotguns [See footnote 15].
- promoting the supply of command/control equipment for unmanned air vehicles [See footnote 15].
- promoting the supply of components for assault rifles [See footnote 15].
- promoting the supply of components for body armour [See footnote 15].
- promoting the supply of components for combat shotguns [See footnote 15].
- promoting the supply of components for machine guns [See footnote 15].
- promoting the supply of components for pistols [See footnote 15].
- promoting the supply of components for rifles [See footnote 15].
- promoting the supply of components for smooth-bore weapons [See footnote 15].
- promoting the supply of components for sniper rifles [See footnote 15].
- promoting the supply of components for sporting guns [See footnote 15].
- promoting the supply of components for sporting shotguns [See footnote 15].
- promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 15].
- promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 15].
- promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 15].

promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 15].

promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 15].

promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 15].

promoting the supply of CS hand grenades [See footnote 15].

promoting the supply of devices containing military pyrotechnic materials [See footnote 15].

promoting the supply of electronic countermeasure equipment [See footnote 15].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 15].

promoting the supply of equipment for the use of aircraft cannons [See footnote 15].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 15].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 15].

promoting the supply of equipment for the use of artillery [See footnote 15].

promoting the supply of equipment for the use of assault rifles [See footnote 15].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 15].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 15].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 15].

promoting the supply of equipment for the use of fire location equipment [See footnote 15].

promoting the supply of equipment for the use of flash suppressers [See footnote 15].

promoting the supply of equipment for the use of grenade launchers [See footnote 15].

promoting the supply of equipment for the use of gun silencers [See footnote 15].

promoting the supply of equipment for the use of heavy machine guns [See footnote 15].

promoting the supply of equipment for the use of machine guns [See footnote 15].

promoting the supply of equipment for the use of military radars [See footnote 15].

promoting the supply of equipment for the use of mortars [See footnote 15].

promoting the supply of equipment for the use of periscopes [See footnote 15].

promoting the supply of equipment for the use of pistols [See footnote 15].

promoting the supply of equipment for the use of projectile launchers [See footnote 15].

promoting the supply of equipment for the use of rangefinding equipment [See footnote 15].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 15].

promoting the supply of equipment for the use of rifles [See footnote 15].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 15].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 15].

promoting the supply of equipment for the use of sniper rifles [See footnote 15].

promoting the supply of equipment for the use of sporting guns [See footnote 15].

promoting the supply of equipment for the use of sporting shotguns [See footnote 15].

promoting the supply of equipment for the use of targeting equipment [See footnote 15].

promoting the supply of equipment for the use of weapon control equipment [See footnote 15].

promoting the supply of equipment for the use of weapon mountings [See footnote 15].

promoting the supply of equipment for the use of weapon night sights [See footnote 15].

promoting the supply of equipment for the use of weapon sights [See footnote 15].

promoting the supply of fire location equipment [See footnote 15].

promoting the supply of flash suppressers [See footnote 15].

promoting the supply of fuze setting devices [See footnote 15].

promoting the supply of general military aircraft components [See footnote 15].

promoting the supply of grenade launchers [See footnote 15].

promoting the supply of gun mountings [See footnote 15].

promoting the supply of gun silencers [See footnote 15].

promoting the supply of hand grenades [See footnote 15].

promoting the supply of heavy machine guns [See footnote 15].

promoting the supply of illuminators [See footnote 15].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 15].

promoting the supply of machine guns [See footnote 15].

promoting the supply of military aero-engines [See footnote 15].

promoting the supply of military aircraft ground equipment [See footnote 15].

promoting the supply of military aircraft head-up/down displays [See footnote 15].

promoting the supply of military aircraft pressure refuellers [See footnote 15].

promoting the supply of military aircrew life support equipment [See footnote 15].

promoting the supply of military aircrew safety equipment [See footnote 15].

promoting the supply of military cameras/photographic equipment [See footnote 15].

promoting the supply of military combat vehicles [See footnote 15].

promoting the supply of military helmets [See footnote 15].

promoting the supply of military image intensifier equipment [See footnote 15].

promoting the supply of military image recording/processing equipment [See footnote 15].

promoting the supply of military imaging radar sensor equipment [See footnote 15].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 15].
 promoting the supply of military radars [See footnote 15].
 promoting the supply of military support vehicles [See footnote 15].
 promoting the supply of mortars [See footnote 15].
 promoting the supply of periscopes [See footnote 15].
 promoting the supply of pistols [See footnote 15].
 promoting the supply of projectile launchers [See footnote 15].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 15].
 promoting the supply of rangefinding equipment [See footnote 15].
 promoting the supply of recognition/identification equipment [See footnote 15].
 promoting the supply of rifles [See footnote 15].
 promoting the supply of sensor integration equipment [See footnote 15].
 promoting the supply of signalling devices [See footnote 15].
 promoting the supply of small arms ammunition [See footnote 15].
 promoting the supply of smoke canisters [See footnote 15].
 promoting the supply of smooth-bore weapons [See footnote 15].
 promoting the supply of sniper rifles [See footnote 15].
 promoting the supply of sporting guns [See footnote 15].
 promoting the supply of sporting shotguns [See footnote 15].
 promoting the supply of targeting equipment [See footnote 15].
 promoting the supply of unmanned air vehicles [See footnote 15].
 promoting the supply of water cannon [See footnote 15].
 promoting the supply of weapon cleaning equipment [See footnote 15].
 promoting the supply of weapon control equipment [See footnote 15].
 promoting the supply of weapon mountings [See footnote 15].
 promoting the supply of weapon night sights [See footnote 15].
 promoting the supply of weapon sight mounts [See footnote 15].
 promoting the supply of weapon sights [See footnote 15].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£286,889
Both Military and Non-military	1	£6,488
Total	5	£293,377

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£165,079
ML9	1	£121,810

components for submarines.
sporting guns (1) (2 licences).
weapon night sights.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£6,488
PL9010	1	£0

components for sporting guns.
sporting shotguns (2).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	goods treated for signature suppression for military use [See footnote 1]
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
3	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 2]
4	P	command communications control and intelligence software, technology for command communications control and intelligence software
5	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment

		for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 3]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,929
Non-military	1	£200
Total	2	£2,129

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£1,929

components for all-wheel drive vehicles with ballistic protection.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6D003	1	£200

high performance air traffic control software.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	military equipment for initiating explosives [See footnote 1]

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

Cameroon

5D002	1	£5,640
6A002	1	£115,000
PL9010	4	£7,955

- bacteria.
- civil NBC protection clothing.
- devices containing enriched lithium manufactures.
- electromagnetic wave absorbing materials.
- focal plane arrays.
- frequency changers.
- T information security equipment.
- natural uranium.
- T software for information security equipment.
- sporting shotguns (1) (3 licences).
- sporting shotguns (24).
- technology for nuclear reactors.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£4,465
PL9010	2	£378

- components for sporting guns.
- sporting guns (20).
- sporting guns (28).
- sporting shotguns (2).
- sporting shotguns (8).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	8	£4,611,967
Non-military	1	£29,000
Total	9	£4,640,967

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	2	£163,050
ML6	1	£35,533
ML10	1	£3,051
ML11	4	£4,409,333
ML22	1	£1,000

components for military combat vehicles.
 components for military electronic equipment.
 components for military guidance/navigation equipment.
 components for surface-to-surface missiles.
 components for targeting equipment [See footnote 1].
 components for weapon control equipment [See footnote 13].
 general military aircraft components.
 military electronic equipment.
 military guidance/navigation equipment.
 technology for surface-to-surface missiles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£29,000

focal plane arrays.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
 Bulgaria
 China
 France
 Ghana
 Greece
 India
 Italy
 Lithuania
 Mexico
 Morocco
 Peru
 Romania
 Saudi Arabia
 Slovakia
 South Korea
 Taiwan
 Tunisia
 Turkey
 United Kingdom
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 2]
2	P	technology for imaging cameras, technology for information security equipment, technology for space qualified focal plane arrays, technology for spacecraft attitude and orbit control systems, technology for spacecraft payload data handling systems, technology for spacecraft payloads [See footnote 3]
3	P	technology for focal plane arrays, technology for imaging cameras, technology for information security equipment, technology for software for spacecraft, technology for software for spacecraft attitude and orbit control systems, technology for software for spacecraft payload data handling systems, technology for spacecraft, technology for spacecraft attitude and orbit control systems, technology for spacecraft buses, technology for spacecraft command and telemetry data handling systems, technology for spacecraft payload data handling systems, technology for spacecraft payloads [See footnote 4]
4	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation

		equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
5	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 5]
6	P	toxins
7	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 6]
8	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 7]
9	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 8]
10	P	sporting shotgun ammunition [See footnote 9]

11	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 10]
12	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 11]
13	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
14	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
15	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 12]

16	P	command/control equipment for unmanned air vehicles, components for launching/ground support equipment for unmanned air vehicles, components for unmanned air vehicles, launching/ground support equipment for unmanned air vehicles, software for command/control equipment for unmanned air vehicles, technology for launching/ground support equipment for unmanned air vehicles, test models for launching/ground support equipment for unmanned air vehicles
17	P	components for rifles, components for sniper rifles, components for sporting guns, gun mountings, rifles, small arms ammunition, sniper rifles, sporting guns, technology for rifles, technology for sniper rifles, technology for sporting guns, weapon sights

 promoting the supply of components for sniper rifles [See footnote 1].
 promoting the supply of components for sporting guns [See footnote 1].
 promoting the supply of components for sporting shotguns [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 1].

promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 1].

promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 1].

promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 1].

promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 1].

promoting the supply of CS hand grenades [See footnote 1].

promoting the supply of devices containing military pyrotechnic materials [See footnote 1].

promoting the supply of electronic countermeasure equipment [See footnote 1].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 1].

promoting the supply of equipment for the use of aircraft cannons [See footnote 1].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 1].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 1].

promoting the supply of equipment for the use of artillery [See footnote 1].

promoting the supply of equipment for the use of assault rifles [See footnote 1].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 1].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 1].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 1].

promoting the supply of equipment for the use of fire location equipment [See footnote 1].

promoting the supply of equipment for the use of flash suppressers [See footnote 1].

promoting the supply of equipment for the use of grenade launchers [See footnote 1].

promoting the supply of equipment for the use of gun silencers [See footnote 1].

promoting the supply of equipment for the use of heavy machine guns [See footnote 1].

promoting the supply of equipment for the use of machine guns [See footnote 1].

promoting the supply of equipment for the use of military radars [See footnote 1].

promoting the supply of equipment for the use of mortars [See footnote 1].

promoting the supply of equipment for the use of periscopes [See footnote 1].

promoting the supply of equipment for the use of pistols [See footnote 1].

promoting the supply of equipment for the use of projectile launchers [See footnote 1].

promoting the supply of equipment for the use of rangefinding equipment [See footnote 1].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 1].

promoting the supply of equipment for the use of rifles [See footnote 1].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 1].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 1].

promoting the supply of equipment for the use of sniper rifles [See footnote 1].

promoting the supply of equipment for the use of sporting guns [See footnote 1].

promoting the supply of equipment for the use of sporting shotguns [See footnote 1].

promoting the supply of equipment for the use of targeting equipment [See footnote 1].

promoting the supply of equipment for the use of weapon control equipment [See footnote 1].

promoting the supply of equipment for the use of weapon mountings [See footnote 1].

promoting the supply of equipment for the use of weapon night sights [See footnote 1].

promoting the supply of equipment for the use of weapon sights [See footnote 1].

promoting the supply of fire location equipment [See footnote 1].

promoting the supply of flash suppressers [See footnote 1].

promoting the supply of fuze setting devices [See footnote 1].

promoting the supply of general military aircraft components [See footnote 1].

promoting the supply of grenade launchers [See footnote 1].

promoting the supply of gun mountings [See footnote 1].

promoting the supply of gun silencers [See footnote 1].

promoting the supply of hand grenades [See footnote 1].

promoting the supply of heavy machine guns [See footnote 1].

promoting the supply of illuminators [See footnote 1].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 1].

promoting the supply of machine guns [See footnote 1].

promoting the supply of military aero-engines [See footnote 1].

promoting the supply of military aircraft ground equipment [See footnote 1].

promoting the supply of military aircraft head-up/down displays [See footnote 1].

promoting the supply of military aircraft pressure refuellers [See footnote 1].

promoting the supply of military aircrew life support equipment [See footnote 1].

promoting the supply of military aircrew safety equipment [See footnote 1].

promoting the supply of military cameras/photographic equipment [See footnote 1].

promoting the supply of military combat vehicles [See footnote 1].

promoting the supply of military helmets [See footnote 1].

promoting the supply of military image intensifier equipment [See footnote 1].

promoting the supply of military image recording/processing equipment [See footnote 1].
 promoting the supply of military imaging radar sensor equipment [See footnote 1].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 1].
 promoting the supply of military radars [See footnote 1].
 promoting the supply of military support vehicles [See footnote 1].
 promoting the supply of mortars [See footnote 1].
 promoting the supply of periscopes [See footnote 1].
 promoting the supply of pistols [See footnote 1].
 promoting the supply of projectile launchers [See footnote 1].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 1].
 promoting the supply of rangefinding equipment [See footnote 1].
 promoting the supply of recognition/identification equipment [See footnote 1].
 promoting the supply of rifles [See footnote 1].
 promoting the supply of sensor integration equipment [See footnote 1].
 promoting the supply of signalling devices [See footnote 1].
 promoting the supply of small arms ammunition [See footnote 1].
 promoting the supply of smoke canisters [See footnote 1].
 promoting the supply of smooth-bore weapons [See footnote 1].
 promoting the supply of sniper rifles [See footnote 1].
 promoting the supply of sporting guns [See footnote 1].
 promoting the supply of sporting shotguns [See footnote 1].
 promoting the supply of targeting equipment [See footnote 1].
 promoting the supply of unmanned air vehicles [See footnote 1].
 promoting the supply of water cannon [See footnote 1].
 promoting the supply of weapon cleaning equipment [See footnote 1].
 promoting the supply of weapon control equipment [See footnote 1].
 promoting the supply of weapon mountings [See footnote 1].
 promoting the supply of weapon night sights [See footnote 1].
 promoting the supply of weapon sight mounts [See footnote 1].
 promoting the supply of weapon sights [See footnote 1].

Country Footnotes

1. UN Security Council Resolution 2127 (2013) established an arms embargo to restrict exports of arms, or related material, and of training, technical or financial assistance related to military activities; exemptions apply to some UN, humanitarian, peacekeeping and government entities. UNSCR 2339 (2017) extended the arms embargo until 31 January 2018 and amended the designation criteria.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML13	1

body armour.
components for body armour.
military helmets.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used

- acoustic seabed survey equipment (4 licences).
alpha-emitting radionuclides.
biotechnology equipment (3 licences).
chemicals used for pharmaceutical/healthcare production.
civil explosive detection/identification equipment.
civil unmanned air vehicles [See footnote 4].
components for corrosion resistant chemical manufacturing equipment (4 licences).
components for information security equipment.
components for instrumentation cameras (2 licences).
components for radar equipment.
components for semiconductor manufacturing equipment.
constituents of propellants.
controlled atmosphere furnaces.
corrosion resistant chemical manufacturing equipment (7 licences).
deuterium compounds (3 licences).
deuterium solutions (2 licences).
dimensional inspection equipment (2 licences).
dimensional measuring equipment (2 licences).
equipment for the production of gas turbines (3 licences).
explosives detection equipment.
focal plane arrays (4 licences) [See footnote 21].
frequency changers (4 licences) [See footnote 12].
helium-3 (3 licences).
imaging cameras (41 licences) [See footnotes 13, 9].
imaging cameras.
inertial equipment (22 licences) [See footnotes 18, 6, 7, 8].
information security equipment (28 licences).
information security equipment (2 licences).
information security software (15 licences).
instrumentation cameras (30 licences) [See footnotes 10, 20, 24, 25, 28].
lasers (13 licences) [See footnote 26].
launch support equipment for civil unmanned air vehicles [See footnote 4].
magnetometers (8 licences) [See footnotes 14, 29].
marine position fixing equipment (3 licences) [See footnote 19].
mass spectrometers (3 licences) [See footnote 11].
metal alloy cylindrical forms (6 licences).
nickel powders.
plutonium-239.
pressure transducers (3 licences).
products containing enriched lithium (2 licences).
remote sensing imaging sensors.
rotary position encoders.
semiconductor manufacturing equipment (3 licences).
semiconductor wafers with epitaxial layers (4 licences).
software for information security equipment (2 licences).

software for information security software.
 software for submersible vehicle control systems.
 sonar log equipment.
 submersible equipment (2 licences) [See footnote 2].
 submersible vehicle control systems.
 syntactic foam (2 licences) [See footnote 22].
 technology for biotechnology equipment.
 technology for equipment for the production of gas turbines (2 licences).
 technology for focal plane arrays.
 technology for frequency changers.
 technology for general purpose integrated circuits.
 technology for imaging cameras (2 licences).
 technology for information security equipment.
 technology for information security software (6 licences).
 toxic gas detectors (2 licences).

 promoting the supply of gun mountings [See footnote 27].
 promoting the supply of gun silencers [See footnote 27].
 promoting the supply of hand grenades [See footnote 27].
 promoting the supply of heavy machine guns [See footnote 27].
 promoting the supply of illuminators [See footnote 27].
 promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 27].
 promoting the supply of machine guns [See footnote 27].
 promoting the supply of military aero-engines [See footnote 27].
 promoting the supply of military aircraft ground equipment [See footnote 27].
 promoting the supply of military aircraft head-up/down displays [See footnote 27].
 promoting the supply of military aircraft pressure refuellers [See footnote 27].
 promoting the supply of military aircrew life support equipment [See footnote 27].
 promoting the supply of military aircrew safety equipment [See footnote 27].
 promoting the supply of military cameras/photographic equipment [See footnote 27].
 promoting the supply of military combat vehicles [See footnote 27].
 promoting the supply of military helmets [See footnote 27].
 promoting the supply of military image intensifier equipment [See footnote 27].
 promoting the supply of military image recording/processing equipment [See footnote 27].
 promoting the supply of military imaging radar sensor equipment [See footnote 27].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 27].
 promoting the supply of military radars [See footnote 27].
 promoting the supply of military support vehicles [See footnote 27].
 promoting the supply of mortars [See footnote 27].
 promoting the supply of periscopes [See footnote 27].
 promoting the supply of pistols [See footnote 27].
 promoting the supply of projectile launchers [See footnote 27].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 27].
 promoting the supply of rangefinding equipment [See footnote 27].
 promoting the supply of recognition/identification equipment [See footnote 27].
 promoting the supply of rifles [See footnote 27].
 promoting the supply of sensor integration equipment [See footnote 27].
 promoting the supply of signalling devices [See footnote 27].
 promoting the supply of small arms ammunition [See footnote 27].
 promoting the supply of smoke canisters [See footnote 27].
 promoting the supply of smooth-bore weapons [See footnote 27].
 promoting the supply of sniper rifles [See footnote 27].
 promoting the supply of sporting guns [See footnote 27].
 promoting the supply of sporting shotguns [See footnote 27].
 promoting the supply of targeting equipment [See footnote 27].
 promoting the supply of unmanned air vehicles [See footnote 27].
 promoting the supply of water cannon [See footnote 27].
 promoting the supply of weapon cleaning equipment [See footnote 27].
 promoting the supply of weapon control equipment [See footnote 27].
 promoting the supply of weapon mountings [See footnote 27].
 promoting the supply of weapon night sights [See footnote 27].
 promoting the supply of weapon sight mounts [See footnote 27].
 promoting the supply of weapon sights [See footnote 27].

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for armed forces end use.

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 2]
3	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 4]
4	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment,

		<p>components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 5]</p>
5	P	<p>cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 6]</p>
6	P	<p>components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment</p>

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Government end use.

4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Armed forces end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for explosive detection / disposal purposes.
8. Licence granted for explosive detection / disposal purposes.
9. Licence granted for demonstration to potential customers.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	14	£1,475,494
Total	14	£1,475,494

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML1	3	£8,772
ML6	1	£1,200
ML7	3	£79,965
ML10	2	£39,375
ML11	1	£18,171
ML13	2	£1,000
ML14	1	£250,000
ML16	1	£1,077,011

assault rifles.
 components for body armour.
 components for combat aircraft.
 components for military aero-engines.
 components for NBC protective/defensive equipment (2 licences).
 T components for pistols.
 equipment for the use of artillery.
 general military vehicle components.
 military helmets.
 NBC detection equipment.
 T pistols (5).
 pistols.
 small arms training equipment.
 sniper rifles (1).
 sporting guns (1).
 unfinished products for naval engines.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£1,401,783
Total	2	£1,401,783

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£1,400,000
ML10	1	£1,783

components for combat aircraft.
 turrets [See footnote 7].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Issued

promoting the supply of airborne refuelling equipment [See footnote 5].
 promoting the supply of aircraft cannons [See footnote 5].
 promoting the supply of aircraft military communications equipment [See footnote 5].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 5].
 promoting the supply of anti-aircraft guns [See footnote 5].
 promoting the supply of anti-armour ammunition (2 licences) [See footnotes 4, 5].
 promoting the supply of anti-armour weapons [See footnote 5].
 promoting the supply of anti-personnel land mines [See footnote 4].
 promoting the supply of anti-riot/ballistic shields [See footnote 5].
 promoting the supply of artillery [See footnote 5].
 promoting the supply of assault rifles (2 licences) [See footnotes 4, 5].
 promoting the supply of attack alerting/warning equipment [See footnote 5].
 promoting the supply of body armour [See footnote 5].
 promoting the supply of caseless ammunition weapons [See footnote 5].
 promoting the supply of combat helicopters [See footnote 5].
 promoting the supply of combat shotguns [See footnote 5].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 5].
 promoting the supply of components for assault rifles [See footnote 5].
 promoting the supply of components for body armour [See footnote 5].
 promoting the supply of components for combat shotguns [See footnote 5].
 promoting the supply of components for machine guns [See footnote 5].
 promoting the supply of components for pistols (2 licences) [See footnotes 4, 5].
 promoting the supply of components for rifles [See footnote 5].
 promoting the supply of components for smooth-bore weapons [See footnote 5].
 promoting the supply of components for sniper rifles [See footnote 5].
 promoting the supply of components for sporting guns [See footnote 5].
 promoting the supply of components for sporting shotguns [See footnote 5].

promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 5].

promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 5].

promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 5].

promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 5].

promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 5].

promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 5].

promoting the supply of CS hand grenades [See footnote 5].

promoting the supply of demolition charges/devices [See footnote 4].

promoting the supply of devices containing military pyrotechnic materials [See footnote 5].

promoting the supply of electronic countermeasure equipment [See footnote 5].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 5].

promoting the supply of equipment for the use of aircraft cannons [See footnote 5].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 5].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 5].

promoting the supply of equipment for the use of artillery [See footnote 5].

promoting the supply of equipment for the use of assault rifles [See footnote 5].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 5].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 5].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 5].

promoting the supply of equipment for the use of fire location equipment [See footnote 5].

promoting the supply of equipment for the use of flash suppressers [See footnote 5].

promoting the supply of equipment for the use of grenade launchers [See footnote 5].

promoting the supply of equipment for the use of gun silencers [See footnote 5].

promoting the supply of equipment for the use of heavy machine guns [See footnote 5].

promoting the supply of equipment for the use of machine guns [See footnote 5].

promoting the supply of equipment for the use of military radars [See footnote 5].

promoting the supply of equipment for the use of mortars [See footnote 5].

promoting the supply of equipment for the use of periscopes [See footnote 5].

promoting the supply of equipment for the use of pistols [See footnote 5].

promoting the supply of equipment for the use of projectile launchers [See footnote 5].

promoting the supply of equipment for the use of rangefinding equipment [See footnote 5].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 5].

promoting the supply of equipment for the use of rifles [See footnote 5].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 5].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 5].

promoting the supply of equipment for the use of sniper rifles [See footnote 5].

promoting the supply of equipment for the use of sporting guns [See footnote 5].

promoting the supply of equipment for the use of sporting shotguns [See footnote 5].

promoting the supply of equipment for the use of targeting equipment [See footnote 5].

promoting the supply of equipment for the use of weapon control equipment [See footnote 5].

promoting the supply of equipment for the use of weapon mountings [See footnote 5].

promoting the supply of equipment for the use of weapon night sights [See footnote 5].

promoting the supply of equipment for the use of weapon sights [See footnote 5].

promoting the supply of explosives [See footnote 4].

promoting the supply of fire location equipment [See footnote 5].

promoting the supply of flash suppressers [See footnote 5].

promoting the supply of fuze setting devices [See footnote 5].

promoting the supply of general military aircraft components [See footnote 5].

promoting the supply of grenade launchers [See footnote 5].

promoting the supply of gun mountings [See footnote 5].

promoting the supply of gun silencers [See footnote 5].

promoting the supply of hand grenades (2 licences) [See footnotes 4, 5].

promoting the supply of heavy machine guns [See footnote 5].

promoting the supply of illuminators [See footnote 5].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 5].

promoting the supply of machine guns [See footnote 5].

promoting the supply of military aero-engines [See footnote 5].

promoting the supply of military aircraft ground equipment [See footnote 5].

promoting the supply of military aircraft head-up/down displays [See footnote 5].

promoting the supply of military aircraft pressure refuellers [See footnote 5].

promoting the supply of military aircrew life support equipment [See footnote 5].
 promoting the supply of military aircrew safety equipment [See footnote 5].
 promoting the supply of military cameras/photographic equipment [See footnote 5].
 promoting the supply of military combat vehicles [See footnote 5].
 promoting the supply of military equipment for initiating explosives [See footnote 4].
 promoting the supply of military helmets [See footnote 5].
 promoting the supply of military image intensifier equipment [See footnote 5].
 promoting the supply of military image recording/processing equipment [See footnote 5].
 promoting the supply of military imaging radar sensor equipment [See footnote 5].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 5].
 promoting the supply of military radars [See footnote 5].
 promoting the supply of military support vehicles [See footnote 5].
 promoting the supply of mortars [See footnote 5].
 promoting the supply of periscopes [See footnote 5].
 promoting the supply of pistols (2 licences) [See footnotes 4, 5].
 promoting the supply of projectile launchers [See footnote 5].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 5].
 promoting the supply of rangefinding equipment [See footnote 5].
 promoting the supply of recognition/identification equipment [See footnote 5].
 promoting the supply of rifles [See footnote 5].
 promoting the supply of sensor integration equipment [See footnote 5].
 promoting the supply of signalling devices (2 licences) [See footnotes 4, 5].
 promoting the supply of small arms ammunition (2 licences) [See footnotes 4, 5].
 promoting the supply of smoke canisters [See footnote 5].
 promoting the supply of smooth-bore weapons [See footnote 5].
 promoting the supply of sniper rifles [See footnote 5].
 promoting the supply of sporting guns [See footnote 5].
 promoting the supply of sporting shotgun ammunition [See footnote 4].
 promoting the supply of sporting shotguns [See footnote 5].
 promoting the supply of surface launched rockets [See footnote 4].
 promoting the supply of targeting equipment [See footnote 5].
 promoting the supply of training explosive charges/devices [See footnote 4].
 promoting the supply of unmanned air vehicles [See footnote 5].
 promoting the supply of wall/door breaching projectiles/ammunition [See footnote 4].
 promoting the supply of water cannon [See footnote 5].
 promoting the supply of weapon cleaning equipment [See footnote 5].
 promoting the supply of weapon control equipment [See footnote 5].
 promoting the supply of weapon mountings [See footnote 5].
 promoting the supply of weapon night sights [See footnote 5].
 promoting the supply of weapon sight mounts [See footnote 5].
 promoting the supply of weapon sights [See footnote 5].

Country Footnotes

1. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities and individuals. The embargo was most recently renewed through UNSCR 2293 (2016) which extended the arms embargo until 1 July 2017, and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Armed forces end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.

- promoting the supply of assault rifles [See footnote 6].
- promoting the supply of attack alerting/warning equipment [See footnote 6].
- promoting the supply of body armour [See footnote 6].
- promoting the supply of caseless ammunition weapons [See footnote 6].
- promoting the supply of combat helicopters [See footnote 6].
- promoting the supply of combat shotguns [See footnote 6].
- promoting the supply of command/control equipment for unmanned air vehicles [See footnote 6].
- promoting the supply of components for assault rifles [See footnote 6].
- promoting the supply of components for body armour [See footnote 6].
- promoting the supply of components for combat shotguns [See footnote 6].
- promoting the supply of components for machine guns [See footnote 6].
- promoting the supply of components for pistols [See footnote 6].
- promoting the supply of components for rifles [See footnote 6].

promoting the supply of components for smooth-bore weapons [See footnote 6].
promoting the supply of components for sniper rifles [See footnote 6].
promoting the supply of components for sporting guns [See footnote 6].
promoting the supply of components for sporting shotguns [See footnote 6].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 6].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 6].
promoting the supply of CS hand grenades [See footnote 6].
promoting the supply of devices containing military pyrotechnic materials [See footnote 6].
promoting the supply of electronic countermeasure equipment [See footnote 6].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 6].
promoting the supply of equipment for the use of aircraft cannons [See footnote 6].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 6].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 6].
promoting the supply of equipment for the use of artillery [See footnote 6].
promoting the supply of equipment for the use of assault rifles [See footnote 6].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 6].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 6].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 6].
promoting the supply of equipment for the use of fire location equipment [See footnote 6].
promoting the supply of equipment for the use of flash suppressers [See footnote 6].
promoting the supply of equipment for the use of grenade launchers [See footnote 6].
promoting the supply of equipment for the use of gun silencers [See footnote 6].
promoting the supply of equipment for the use of heavy machine guns [See footnote 6].
promoting the supply of equipment for the use of machine guns [See footnote 6].
promoting the supply of equipment for the use of military radars [See footnote 6].
promoting the supply of equipment for the use of mortars [See footnote 6].
promoting the supply of equipment for the use of periscopes [See footnote 6].
promoting the supply of equipment for the use of pistols [See footnote 6].
promoting the supply of equipment for the use of projectile launchers [See footnote 6].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 6].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 6].
promoting the supply of equipment for the use of rifles [See footnote 6].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 6].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 6].
promoting the supply of equipment for the use of sniper rifles [See footnote 6].
promoting the supply of equipment for the use of sporting guns [See footnote 6].
promoting the supply of equipment for the use of sporting shotguns [See footnote 6].
promoting the supply of equipment for the use of targeting equipment [See footnote 6].
promoting the supply of equipment for the use of weapon control equipment [See footnote 6].
promoting the supply of equipment for the use of weapon mountings [See footnote 6].
promoting the supply of equipment for the use of weapon night sights [See footnote 6].
promoting the supply of equipment for the use of weapon sights [See footnote 6].
promoting the supply of fire location equipment [See footnote 6].
promoting the supply of flash suppressers [See footnote 6].
promoting the supply of fuze setting devices [See footnote 6].
promoting the supply of general military aircraft components [See footnote 6].
promoting the supply of grenade launchers [See footnote 6].
promoting the supply of gun mountings [See footnote 6].
promoting the supply of gun silencers [See footnote 6].
promoting the supply of hand grenades [See footnote 6].
promoting the supply of heavy machine guns [See footnote 6].
promoting the supply of illuminators [See footnote 6].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 6].
promoting the supply of machine guns [See footnote 6].
promoting the supply of military aero-engines [See footnote 6].
promoting the supply of military aircraft ground equipment [See footnote 6].

promoting the supply of military aircraft head-up/down displays [See footnote 6].
 promoting the supply of military aircraft pressure refuellers [See footnote 6].
 promoting the supply of military aircrew life support equipment [See footnote 6].
 promoting the supply of military aircrew safety equipment [See footnote 6].
 promoting the supply of military cameras/photographic equipment [See footnote 6].
 promoting the supply of military combat vehicles [See footnote 6].
 promoting the supply of military helmets [See footnote 6].
 promoting the supply of military image intensifier equipment [See footnote 6].
 promoting the supply of military image recording/processing equipment [See footnote 6].
 promoting the supply of military imaging radar sensor equipment [See footnote 6].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 6].
 promoting the supply of military radars [See footnote 6].
 promoting the supply of military support vehicles [See footnote 6].
 promoting the supply of mortars [See footnote 6].
 promoting the supply of periscopes [See footnote 6].
 promoting the supply of pistols [See footnote 6].
 promoting the supply of projectile launchers [See footnote 6].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 6].
 promoting the supply of rangefinding equipment [See footnote 6].
 promoting the supply of recognition/identification equipment [See footnote 6].
 promoting the supply of rifles (2 licences) [See footnotes 5, 6].
 promoting the supply of sensor integration equipment [See footnote 6].
 promoting the supply of signalling devices [See footnote 6].
 promoting the supply of small arms ammunition [See footnote 6].
 promoting the supply of smoke canisters [See footnote 6].
 promoting the supply of smooth-bore weapons [See footnote 6].
 promoting the supply of sniper rifles [See footnote 6].
 promoting the supply of sporting guns (2 licences) [See footnotes 5, 6].
 promoting the supply of sporting shotguns [See footnote 6].
 promoting the supply of targeting equipment [See footnote 6].
 promoting the supply of unmanned air vehicles [See footnote 6].
 promoting the supply of water cannon [See footnote 6].
 promoting the supply of weapon cleaning equipment [See footnote 6].
 promoting the supply of weapon control equipment [See footnote 6].
 promoting the supply of weapon mountings [See footnote 6].
 promoting the supply of weapon night sights [See footnote 6].
 promoting the supply of weapon sight mounts [See footnote 6].
 promoting the supply of weapon sights [See footnote 6].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£7,800
Total	2	£7,800

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	2	£7,800

components for body armour (2 licences).
military helmets.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	goods treated for signature suppression for military use [See footnote 1]

2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
3	P	sporting shotgun ammunition [See footnote 2]
4	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 3]
5	P	components for weapon sights, weapon sights

Goods covered by the torture regulation	1	£430
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£430

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£430

tear gas/riot control agents.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, pistols, rifles, small arms ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, weapon sights

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Faroe Islands

Processing Statistics (excluding amendments)

ML22	4	£22,200
PL5017	3	£80,995

aircraft military communications equipment (2 licences).
 all-wheel drive vehicles with ballistic protection.
 anti-armour ammunition (3 licences).
 assault rifles (1).
 assault rifles (4).
 T assault rifles (7).
 components for air-to-air missiles (4 licences).
 components for air-to-surface missiles (2 licences).
 components for artillery.
 components for artillery ammunition.
 components for body armour (2 licences).
 components for combat aircraft (4 licences).
 components for combat helicopters.
 components for decoying/countermeasure equipment (3 licences).
 components for equipment for the production of decoying/countermeasure equipment.
 components for fire location equipment.
 components for gun mountings.
 components for launching/handling/control equipment for missiles (2 licences).
 components for military aero-engines (2 licences).
 components for military combat vehicles (3 licences).
 components for military communications equipment.
 components for military electronic equipment.
 components for military helicopters (7 licences).
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.
 components for military infrared/thermal imaging equipment (6 licences).
 components for military radars (2 licences).
 components for multi-role missiles.
 T components for NBC detection equipment.
 T components for NBC protective/defensive equipment.
 T components for pistols.
 components for sniper rifles.
 components for targeting equipment (2 licences).
 components for tear gas/irritant ammunition (2 licences).
 components for training small arms ammunition.
 equipment for the production of military aero-engines.
 equipment for the use of fuze setting devices.
 equipment for the use of gun mountings.

- equipment for the use of machine guns.
- equipment for the use of military infrared/thermal imaging equipment.
- fuze setting devices.
- general military aircraft components.
- T grenade launchers.
- gun silencers (2 licences).
- T gun silencers.
- launching/handling/control equipment for missiles.
- T military communications equipment.
- military electronic equipment.
- T military guidance/navigation equipment.
- military helmets (2 licences).
- T military image intensifier equipment.
- military infrared/thermal imaging equipment (4 licences).
- T military infrared/thermal imaging equipment.
- T military laser protection equipment.
- T NBC detection equipment.
- T NBC protective/defensive equipment.
- T pistols (2).
- T pistols (5).
- rangefinding equipment (2 licences).
- T rangefinding equipment.
- rifles (4).
- small arms ammunition.
- T small arms ammunition.
- Software for modelling/simulating military operation scenarios.
- targeting equipment.
- technology for air-to-surface missiles (2 licences).
- technology for combat aircraft.
- technology for launching/handling/control equipment for man portable air defence system missiles.
- training artillery ammunition.
- unfinished products for air-to-surface missiles (2 licences).
- unfinished products for military aero-engines.
- wall/door breaching projectiles/ammunition.
- T weapon night sights.
- T weapon sight mounts.
- T weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	4	£10,008
1A004	1	£29,071
1C233	1	£811
3A228	1	£70,000

- civil explosive detection/identification equipment.
- devices containing enriched lithium compounds.
- materials containing plutonium-239.
- technology for enriched uranium (2 licences).
- technology for materials containing enriched uranium (3 licences).
- technology for materials containing plutonium-239.
- technology for materials containing uranium-233.
- technology for nuclear fuel reprocessing equipment (2 licences).
- technology for nuclear reactor fuel element fabrication equipment (3 licences).
- technology for nuclear reactors (3 licences).
- technology for plutonium-239.
- technology for products containing enriched uranium.
- technology for products containing plutonium-239.
- technology for products containing uranium-233.
- technology for uranium-233.
- triggered spark gaps.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	66	£7,414,882
Total	66	£7,414,882

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£326
ML4	5	£710,588
ML5	8	£1,577,274
ML6	14	£1,037,520
ML9	3	£514,502
ML10	28	£2,340,524
ML11	5	£1,001,636
ML16	2	£226,512
ML22	3	£6,000

components for air-to-air missiles [See footnote 2].
components for combat aircraft (10 licences) [See footnotes 11, 28, 31, 7, 9].
components for combat naval vessels.
components for military aero-engines (7 licences) [See footnotes 10, 29, 32].
components for military aircraft head-up/down displays (7 licences) [See footnote 30].
components for military combat vehicles (10 licences) [See footnote 6].
components for military electronic equipment (4 licences).
components for military helicopters (2 licences).
components for military radars (3 licences) [See footnote 33].
components for military sonars.
components for multi-role missiles.
components for munitions/ordnance detection/disposal equipment.
components for naval electrical/electronic equipment.
components for submarines.
components for surface-to-surface missiles (2 licences) [See footnote 35].
components for targeting equipment (2 licences).
components for weapon control equipment [See footnote 34].
components for weapon mountings.
general military aircraft components.
general military vehicle components (4 licences).
military aero-engines.
military guidance/navigation equipment [See footnote 27].
rangefinding equipment.
technology for military aero-engines.
technology for military support aircraft.
technology for unfinished products for military aero-engines [See footnote 8].
unfinished products for military aero-engines [See footnote 8].
unfinished products for military support aircraft.

Processing Statistics (excluding amendments)

Median processing time SIELs	4 days
% and number of SIELs completed in 20 working days	100% (1)
% and number of SIELs completed in 60 working days	100% (1)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,075
Total	1	£1,075

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£1,075

components for military support aircraft.

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	6	£397,285
Total	6	£397,285

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	3	£31,453
5D002	2	£7,387
6A001	2	£299,880
7A103	1	£58,565

acoustic seabed survey equipment (2 licences).
inertial equipment.
information security equipment (3 licences).
information security software (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 1]

Issued

promoting the supply of airborne refuelling equipment [See footnote 2].
 promoting the supply of aircraft cannons [See footnote 2].
 promoting the supply of aircraft military communications equipment [See footnote 2].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 2].
 promoting the supply of anti-aircraft guns [See footnote 2].
 promoting the supply of anti-armour ammunition [See footnote 2].
 promoting the supply of anti-armour weapons [See footnote 2].
 promoting the supply of anti-riot/ballistic shields [See footnote 2].
 promoting the supply of artillery [See footnote 2].
 promoting the supply of assault rifles [See footnote 2].
 promoting the supply of attack alerting/warning equipment [See footnote 2].
 promoting the supply of body armour [See footnote 2].
 promoting the supply of caseless ammunition weapons [See footnote 2].
 promoting the supply of combat helicopters [See footnote 2].
 promoting the supply of combat shotguns [See footnote 2].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 2].
 promoting the supply of components for assault rifles [See footnote 2].
 promoting the supply of components for body armour [See footnote 2].
 promoting the supply of components for combat shotguns [See footnote 2].
 promoting the supply of components for machine guns [See footnote 2].
 promoting the supply of components for pistols [See footnote 2].
 promoting the supply of components for rifles [See footnote 2].
 promoting the supply of components for smooth-bore weapons [See footnote 2].
 promoting the supply of components for sniper rifles [See footnote 2].
 promoting the supply of components for sporting guns [See footnote 2].
 promoting the supply of components for sporting shotguns [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 2].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 2].
 promoting the supply of CS hand grenades [See footnote 2].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 2].
 promoting the supply of electronic countermeasure equipment [See footnote 2].
 promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 2].
 promoting the supply of equipment for the use of aircraft cannons [See footnote 2].
 promoting the supply of equipment for the use of anti-aircraft guns [See footnote 2].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 2].
promoting the supply of equipment for the use of artillery [See footnote 2].
promoting the supply of equipment for the use of assault rifles [See footnote 2].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 2].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 2].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 2].
promoting the supply of equipment for the use of fire location equipment [See footnote 2].
promoting the supply of equipment for the use of flash suppressers [See footnote 2].
promoting the supply of equipment for the use of grenade launchers [See footnote 2].
promoting the supply of equipment for the use of gun silencers [See footnote 2].
promoting the supply of equipment for the use of heavy machine guns [See footnote 2].
promoting the supply of equipment for the use of machine guns [See footnote 2].
promoting the supply of equipment for the use of military radars [See footnote 2].
promoting the supply of equipment for the use of mortars [See footnote 2].
promoting the supply of equipment for the use of periscopes [See footnote 2].
promoting the supply of equipment for the use of pistols [See footnote 2].
promoting the supply of equipment for the use of projectile launchers [See footnote 2].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 2].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 2].
promoting the supply of equipment for the use of rifles [See footnote 2].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 2].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 2].
promoting the supply of equipment for the use of sniper rifles [See footnote 2].
promoting the supply of equipment for the use of sporting guns [See footnote 2].
promoting the supply of equipment for the use of sporting shotguns [See footnote 2].
promoting the supply of equipment for the use of targeting equipment [See footnote 2].
promoting the supply of equipment for the use of weapon control equipment [See footnote 2].
promoting the supply of equipment for the use of weapon mountings [See footnote 2].
promoting the supply of equipment for the use of weapon night sights [See footnote 2].
promoting the supply of equipment for the use of weapon sights [See footnote 2].
promoting the supply of fire location equipment [See footnote 2].
promoting the supply of flash suppressers [See footnote 2].
promoting the supply of fuze setting devices [See footnote 2].
promoting the supply of general military aircraft components [See footnote 2].
promoting the supply of grenade launchers [See footnote 2].
promoting the supply of gun mountings [See footnote 2].
promoting the supply of gun silencers [See footnote 2].
promoting the supply of hand grenades [See footnote 2].
promoting the supply of heavy machine guns [See footnote 2].
promoting the supply of illuminators [See footnote 2].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 2].
promoting the supply of machine guns [See footnote 2].
promoting the supply of military aero-engines [See footnote 2].
promoting the supply of military aircraft ground equipment [See footnote 2].
promoting the supply of military aircraft head-up/down displays [See footnote 2].
promoting the supply of military aircraft pressure refuellers [See footnote 2].
promoting the supply of military aircrew life support equipment [See footnote 2].
promoting the supply of military aircrew safety equipment [See footnote 2].
promoting the supply of military cameras/photographic equipment [See footnote 2].
promoting the supply of military combat vehicles [See footnote 2].
promoting the supply of military helmets [See footnote 2].
promoting the supply of military image intensifier equipment [See footnote 2].
promoting the supply of military image recording/processing equipment [See footnote 2].
promoting the supply of military imaging radar sensor equipment [See footnote 2].
promoting the supply of military infrared/thermal imaging equipment [See footnote 2].
promoting the supply of military radars [See footnote 2].
promoting the supply of military support vehicles [See footnote 2].
promoting the supply of mortars [See footnote 2].
promoting the supply of periscopes [See footnote 2].
promoting the supply of pistols [See footnote 2].
promoting the supply of projectile launchers [See footnote 2].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 2].
promoting the supply of rangefinding equipment [See footnote 2].
promoting the supply of recognition/identification equipment [See footnote 2].
promoting the supply of rifles [See footnote 2].
promoting the supply of sensor integration equipment [See footnote 2].
promoting the supply of signalling devices [See footnote 2].

promoting the supply of small arms ammunition [See footnote 2].
 promoting the supply of smoke canisters [See footnote 2].
 promoting the supply of smooth-bore weapons [See footnote 2].
 promoting the supply of sniper rifles [See footnote 2].
 promoting the supply of sporting guns [See footnote 2].
 promoting the supply of sporting shotguns [See footnote 2].
 promoting the supply of targeting equipment [See footnote 2].
 promoting the supply of unmanned air vehicles [See footnote 2].
 promoting the supply of water cannon [See footnote 2].
 promoting the supply of weapon cleaning equipment [See footnote 2].
 promoting the supply of weapon control equipment [See footnote 2].
 promoting the supply of weapon mountings [See footnote 2].
 promoting the supply of weapon night sights [See footnote 2].
 promoting the supply of weapon sight mounts [See footnote 2].
 promoting the supply of weapon sights [See footnote 2].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£4,215
Non-military	5	£133,150
Total	7	£137,365

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML1	1	£2,175
ML3	1	£2,040

pistols (2).
small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£1,150
5A002	4	£132,000

civil NBC detection systems.
information security equipment (4 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Greece

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£9,139
Total	3	£9,139

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£6,891
ML13	2	£2,248

components for body armour.
 components for combat aircraft.
 components for military helmets.
 constructions for ballistic protection of military systems.
 military helmets.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£32,064
Total	2	£32,064

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£32,064

components for launching/handling/control equipment for missiles.
 components for surface-to-surface missiles.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Luxembourg
- United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.

No.	Type	Goods Summary
1	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]
2	P	goods treated for signature suppression for military use [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 3]
5	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 4]
6	P	sporting shotgun ammunition [See footnote 5]
7	P	components for unmanned air vehicles, launching/ground support equipment for unmanned air vehicles, technology for launching/ground support equipment for unmanned air vehicles, technology for unmanned air vehicles
8	P	command communications control and intelligence software, technology for command communications control and intelligence software
9	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support

		aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 6]
10	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
11	P	components for weapon sights, weapon sights

- promoting the supply of airborne refuelling equipment [See footnote 2].
- promoting the supply of aircraft cannons [See footnote 2].
- promoting the supply of aircraft military communications equipment [See footnote 2].
- promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 2].
- promoting the supply of anti-aircraft guns [See footnote 2].
- promoting the supply of anti-armour ammunition [See footnote 2].
- promoting the supply of anti-armour weapons [See footnote 2].
- promoting the supply of anti-riot/ballistic shields [See footnote 2].
- promoting the supply of artillery [See footnote 2].
- promoting the supply of assault rifles [See footnote 2].
- promoting the supply of attack alerting/warning equipment [See footnote 2].
- promoting the supply of body armour [See footnote 2].
- promoting the supply of caseless ammunition weapons [See footnote 2].
- promoting the supply of combat helicopters [See footnote 2].
- promoting the supply of combat shotguns [See footnote 2].

promoting the supply of command/control equipment for unmanned air vehicles [See footnote 2].
promoting the supply of components for assault rifles [See footnote 2].
promoting the supply of components for body armour [See footnote 2].
promoting the supply of components for combat shotguns [See footnote 2].
promoting the supply of components for machine guns [See footnote 2].
promoting the supply of components for pistols [See footnote 2].
promoting the supply of components for rifles [See footnote 2].
promoting the supply of components for smooth-bore weapons [See footnote 2].
promoting the supply of components for sniper rifles [See footnote 2].
promoting the supply of components for sporting guns [See footnote 2].
promoting the supply of components for sporting shotguns [See footnote 2].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 2].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 2].
promoting the supply of CS hand grenades [See footnote 2].
promoting the supply of devices containing military pyrotechnic materials [See footnote 2].
promoting the supply of electronic countermeasure equipment [See footnote 2].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 2].
promoting the supply of equipment for the use of aircraft cannons [See footnote 2].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 2].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 2].
promoting the supply of equipment for the use of artillery [See footnote 2].
promoting the supply of equipment for the use of assault rifles [See footnote 2].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 2].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 2].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 2].
promoting the supply of equipment for the use of fire location equipment [See footnote 2].
promoting the supply of equipment for the use of flash suppressers [See footnote 2].
promoting the supply of equipment for the use of grenade launchers [See footnote 2].
promoting the supply of equipment for the use of gun silencers [See footnote 2].
promoting the supply of equipment for the use of heavy machine guns [See footnote 2].
promoting the supply of equipment for the use of machine guns [See footnote 2].
promoting the supply of equipment for the use of military radars [See footnote 2].
promoting the supply of equipment for the use of mortars [See footnote 2].
promoting the supply of equipment for the use of periscopes [See footnote 2].
promoting the supply of equipment for the use of pistols [See footnote 2].
promoting the supply of equipment for the use of projectile launchers [See footnote 2].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 2].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 2].
promoting the supply of equipment for the use of rifles [See footnote 2].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 2].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 2].
promoting the supply of equipment for the use of sniper rifles [See footnote 2].
promoting the supply of equipment for the use of sporting guns [See footnote 2].
promoting the supply of equipment for the use of sporting shotguns [See footnote 2].
promoting the supply of equipment for the use of targeting equipment [See footnote 2].
promoting the supply of equipment for the use of weapon control equipment [See footnote 2].
promoting the supply of equipment for the use of weapon mountings [See footnote 2].
promoting the supply of equipment for the use of weapon night sights [See footnote 2].
promoting the supply of equipment for the use of weapon sights [See footnote 2].
promoting the supply of fire location equipment [See footnote 2].
promoting the supply of flash suppressers [See footnote 2].
promoting the supply of fuze setting devices [See footnote 2].
promoting the supply of general military aircraft components [See footnote 2].
promoting the supply of grenade launchers [See footnote 2].
promoting the supply of gun mountings [See footnote 2].
promoting the supply of gun silencers [See footnote 2].
promoting the supply of hand grenades [See footnote 2].

promoting the supply of heavy machine guns [See footnote 2].
 promoting the supply of illuminators [See footnote 2].
 promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 2].
 promoting the supply of machine guns [See footnote 2].
 promoting the supply of military aero-engines [See footnote 2].
 promoting the supply of military aircraft ground equipment [See footnote 2].
 promoting the supply of military aircraft head-up/down displays [See footnote 2].
 promoting the supply of military aircraft pressure refuellers [See footnote 2].
 promoting the supply of military aircrew life support equipment [See footnote 2].
 promoting the supply of military aircrew safety equipment [See footnote 2].
 promoting the supply of military cameras/photographic equipment [See footnote 2].
 promoting the supply of military combat vehicles [See footnote 2].
 promoting the supply of military helmets [See footnote 2].
 promoting the supply of military image intensifier equipment [See footnote 2].
 promoting the supply of military image recording/processing equipment [See footnote 2].
 promoting the supply of military imaging radar sensor equipment [See footnote 2].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 2].
 promoting the supply of military radars [See footnote 2].
 promoting the supply of military support vehicles [See footnote 2].
 promoting the supply of mortars [See footnote 2].
 promoting the supply of periscopes [See footnote 2].
 promoting the supply of pistols [See footnote 2].
 promoting the supply of projectile launchers [See footnote 2].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 2].
 promoting the supply of rangefinding equipment [See footnote 2].
 promoting the supply of recognition/identification equipment [See footnote 2].
 promoting the supply of rifles [See footnote 2].
 promoting the supply of sensor integration equipment [See footnote 2].
 promoting the supply of signalling devices [See footnote 2].
 promoting the supply of small arms ammunition [See footnote 2].
 promoting the supply of smoke canisters [See footnote 2].
 promoting the supply of smooth-bore weapons [See footnote 2].
 promoting the supply of sniper rifles [See footnote 2].
 promoting the supply of sporting guns [See footnote 2].
 promoting the supply of sporting shotguns [See footnote 2].
 promoting the supply of targeting equipment [See footnote 2].
 promoting the supply of unmanned air vehicles [See footnote 2].
 promoting the supply of water cannon [See footnote 2].
 promoting the supply of weapon cleaning equipment [See footnote 2].
 promoting the supply of weapon control equipment [See footnote 2].
 promoting the supply of weapon mountings [See footnote 2].
 promoting the supply of weapon night sights [See footnote 2].
 promoting the supply of weapon sight mounts [See footnote 2].
 promoting the supply of weapon sights [See footnote 2].

civil explosive detection/identification equipment (3 licences).
 civil NBC protection equipment [See footnote 4].
 civil riot control agent protection equipment [See footnote 4].
 components for civil NBC protection equipment [See footnote 4].
 focal plane arrays [See footnote 7].
 imaging cameras (3 licences).
 information security equipment (9 licences).
 information security software.
 software for information security equipment (3 licences).
 toxins.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£32,000
Total	1	£32,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A203	1	£32,000

components for instrumentation cameras.

The items being incorporated in this destination are ultimately destined for all or some of the following:

China

OIELs (excluding Other OIELs)**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	goods treated for signature suppression for military use [See footnote 3]
2	P	information security equipment, information security software
3	T	components for inertial equipment, inertial equipment, technology for inertial equipment
4	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 5]
5	T	towed hydrophone arrays [See footnote 6]
6	P	chemicals used for industrial/commercial processes

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for protective equipment for crowd control use. Law enforcement agency end use.
5. Licence granted for accessories / spare parts. Government end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.

8. Licence granted for protective equipment for crowd control use. Law enforcement agency end use.
9. Licence granted for testing and evaluation purposes. Law enforcement agency end use.

safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>

4	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 4]
5	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 5]
6	P	components for combat aircraft, equipment for the use of combat aircraft, equipment for the use of military aircraft ground equipment, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment [See footnote 7]
7	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 8]
8	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 9]
9	P	components for military helicopters, general military aircraft components [See footnote 15]
10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 18]
11	P	components for combat aircraft, general military aircraft components [See footnote 19]
12	P	imaging cameras [See footnote 20]
13	P	components for military support aircraft, general military aircraft components [See footnote 21]
14	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 22]
15	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 25]
16	P	technology for information security equipment [See footnote 23]

17	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 26]
18	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 27]
19	P	components for combat aircraft, components for military guidance/navigation equipment, equipment for the use of combat aircraft, military aircraft ground equipment, military aircrew life support equipment, military guidance/navigation equipment, software for combat aircraft, software for equipment for the use of combat aircraft, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military guidance/navigation equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military guidance/navigation equipment [See footnote 28]

20	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
21	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 38]

Issued

promoting the supply of airborne refuelling equipment [See footnote 33].
 promoting the supply of aircraft cannons [See footnote 33].
 promoting the supply of aircraft military communications equipment [See footnote 33].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 33].
 promoting the supply of anti-aircraft guns [See footnote 33].
 promoting the supply of anti-armour ammunition [See footnote 33].
 promoting the supply of anti-armour weapons [See footnote 33].
 promoting the supply of anti-riot/ballistic shields [See footnote 33].
 promoting the supply of artillery [See footnote 33].
 promoting the supply of assault rifles [See footnote 33].
 promoting the supply of attack alerting/warning equipment [See footnote 33].
 promoting the supply of body armour [See footnote 33].
 promoting the supply of caseless ammunition weapons [See footnote 33].
 promoting the supply of combat helicopters [See footnote 33].
 promoting the supply of combat shotguns [See footnote 33].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 33].
 promoting the supply of components for assault rifles [See footnote 33].

promoting the supply of components for body armour [See footnote 33].
promoting the supply of components for combat shotguns [See footnote 33].
promoting the supply of components for machine guns [See footnote 33].
promoting the supply of components for pistols [See footnote 33].
promoting the supply of components for rifles [See footnote 33].
promoting the supply of components for smooth-bore weapons [See footnote 33].
promoting the supply of components for sniper rifles [See footnote 33].
promoting the supply of components for sporting guns [See footnote 33].
promoting the supply of components for sporting shotguns [See footnote 33].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 33].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 33].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 33].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 33].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 33].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 33].
promoting the supply of CS hand grenades [See footnote 33].
promoting the supply of devices containing military pyrotechnic materials [See footnote 33].
promoting the supply of electronic countermeasure equipment [See footnote 33].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 33].
promoting the supply of equipment for the use of aircraft cannons [See footnote 33].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 33].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 33].
promoting the supply of equipment for the use of artillery [See footnote 33].
promoting the supply of equipment for the use of assault rifles [See footnote 33].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 33].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 33].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 33].
promoting the supply of equipment for the use of fire location equipment [See footnote 33].
promoting the supply of equipment for the use of flash suppressers [See footnote 33].
promoting the supply of equipment for the use of grenade launchers [See footnote 33].
promoting the supply of equipment for the use of gun silencers [See footnote 33].
promoting the supply of equipment for the use of heavy machine guns [See footnote 33].
promoting the supply of equipment for the use of machine guns [See footnote 33].
promoting the supply of equipment for the use of military radars [See footnote 33].
promoting the supply of equipment for the use of mortars [See footnote 33].
promoting the supply of equipment for the use of periscopes [See footnote 33].
promoting the supply of equipment for the use of pistols [See footnote 33].
promoting the supply of equipment for the use of projectile launchers [See footnote 33].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 33].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 33].
promoting the supply of equipment for the use of rifles [See footnote 33].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 33].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 33].
promoting the supply of equipment for the use of sniper rifles [See footnote 33].
promoting the supply of equipment for the use of sporting guns [See footnote 33].
promoting the supply of equipment for the use of sporting shotguns [See footnote 33].
promoting the supply of equipment for the use of targeting equipment [See footnote 33].
promoting the supply of equipment for the use of weapon control equipment [See footnote 33].
promoting the supply of equipment for the use of weapon mountings [See footnote 33].
promoting the supply of equipment for the use of weapon night sights [See footnote 33].
promoting the supply of equipment for the use of weapon sights [See footnote 33].
promoting the supply of fire location equipment [See footnote 33].
promoting the supply of flash suppressers [See footnote 33].
promoting the supply of fuze setting devices [See footnote 33].
promoting the supply of general military aircraft components [See footnote 33].
promoting the supply of grenade launchers [See footnote 33].
promoting the supply of gun mountings [See footnote 33].
promoting the supply of gun silencers [See footnote 33].
promoting the supply of hand grenades [See footnote 33].
promoting the supply of heavy machine guns [See footnote 33].

promoting the supply of illuminators [See footnote 33].
 promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 33].
 promoting the supply of machine guns [See footnote 33].
 promoting the supply of military aero-engines [See footnote 33].
 promoting the supply of military aircraft ground equipment [See footnote 33].
 promoting the supply of military aircraft head-up/down displays [See footnote 33].
 promoting the supply of military aircraft pressure refuellers [See footnote 33].
 promoting the supply of military aircrew life support equipment [See footnote 33].
 promoting the supply of military aircrew safety equipment [See footnote 33].
 promoting the supply of military cameras/photographic equipment [See footnote 33].
 promoting the supply of military combat vehicles [See footnote 33].
 promoting the supply of military helmets [See footnote 33].
 promoting the supply of military image intensifier equipment [See footnote 33].
 promoting the supply of military image recording/processing equipment [See footnote 33].
 promoting the supply of military imaging radar sensor equipment [See footnote 33].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 33].
 promoting the supply of military radars [See footnote 33].
 promoting the supply of military support vehicles [See footnote 33].
 promoting the supply of mortars [See footnote 33].
 promoting the supply of periscopes [See footnote 33].
 promoting the supply of pistols [See footnote 33].
 promoting the supply of projectile launchers [See footnote 33].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 33].
 promoting the supply of rangefinding equipment [See footnote 33].
 promoting the supply of recognition/identification equipment [See footnote 33].
 promoting the supply of rifles [See footnote 33].
 promoting the supply of sensor integration equipment [See footnote 33].
 promoting the supply of signalling devices [See footnote 33].
 promoting the supply of small arms ammunition [See footnote 33].
 promoting the supply of smoke canisters [See footnote 33].
 promoting the supply of smooth-bore weapons [See footnote 33].
 promoting the supply of sniper rifles [See footnote 33].
 promoting the supply of sporting guns [See footnote 33].
 promoting the supply of sporting shotguns [See footnote 33].
 promoting the supply of targeting equipment [See footnote 33].
 promoting the supply of unmanned air vehicles [See footnote 33].
 promoting the supply of water cannon [See footnote 33].
 promoting the supply of weapon cleaning equipment [See footnote 33].
 promoting the supply of weapon control equipment [See footnote 33].
 promoting the supply of weapon mountings [See footnote 33].
 promoting the supply of weapon night sights [See footnote 33].
 promoting the supply of weapon sight mounts [See footnote 33].
 promoting the supply of weapon sights [See footnote 33].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	48	£6,269,021
Non-military	19	£5,288,927
Total	67	£11,557,948

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once

per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	8	£242,349
ML2	1	£2,500
ML4	1	£1,181
ML5	3	£305,143
ML6	2	£9,817
ML9	1	£11,953
ML10	26	£1,333,735
ML11	6	£421,005
ML15	1	£44,020
ML17	1	£3,878,244
ML21	1	£20
ML22	3	£14,310
PL5017	2	£4,744

- aircraft military communications equipment (2 licences).
- components for aircraft cannons.
- components for aircraft military communications equipment.
- components for combat aircraft.
- components for combat helicopters.
- components for launching/handling/control equipment for missiles [See footnote 15].
- components for military aero-engines.
- components for military bridges/pontoons/ferries.
- components for military combat vehicles.
- components for military communications equipment (3 licences).
- components for military electronic equipment.
- components for military guidance/navigation equipment.
- components for military helicopters (6 licences).
- components for military radars (2 licences).
- components for military support aircraft (3 licences).
- components for military training aircraft (12 licences).
- equipment for the use of military bridges/pontoons/ferries.
- equipment for the use of military communications equipment.
- equipment for the use of weapon sights [See footnote 9].
- general military aircraft components.
- general military vehicle components [See footnote 4].
- general naval vessel components.
- gun silencers (2 licences) [See footnote 13].
- military communications equipment.
- military guidance/navigation equipment (2 licences).
- military guidance/navigation equipment [See footnote 1].
- military image intensifier equipment [See footnote 1].
- military infrared/thermal imaging equipment [See footnote 1].
- rangefinding equipment [See footnote 1].
- software for military communications equipment.
- technology for military aero-engines.
- technology for military communications equipment (2 licences).
- technology for military helicopters.
- weapon night sights [See footnote 12].
- weapon night sights [See footnote 1].
- weapon sights (4 licences).
- weapon sights [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	3	£197,308
1C202	1	£560
2B350	2	£5,153
5A001	3	£1,557,600
5A002	2	£4,000
5D002	1	£30,000
6A001	1	£1,880,000
6A002	2	£797,206
6A003	2	£752,920
7A003	1	£51,000
7A103	1	£13,180

- civil explosive detection/identification equipment (3 licences).
- components for corrosion resistant chemical manufacturing equipment.
- components for telecommunications interception equipment [See footnote 8].
- corrosion resistant chemical manufacturing equipment.
- counter-improvised explosive device equipment [See footnote 6].
- direct view imaging equipment (2 licences) [See footnotes 10, 14].
- imaging cameras (2 licences) [See footnote 18].
- inertial equipment (2 licences).
- T information security equipment (2 licences).
- information security software.
- metal alloy cylindrical forms.
- telecommunications interception equipment [See footnote 8].
- T telecommunications interception equipment [See footnote 11].
- towed hydrophone arrays.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£31,540
Total	1	£31,540

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£31,540

components for military support aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Senegal

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 2]
2	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 3]
3	P	information security equipment, information security software
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 5]
5	T	components for inertial equipment, inertial equipment, technology for inertial equipment
6	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 7]
7	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 17]

Country Footnotes

1. On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

2. Following the implementation of the Joint Comprehensive Plan of Action, the flow of certain goods and services to Iran that were previously prohibited are now permitted. The restrictions currently in force with respect to Iran (counter proliferation) are set out in Council Decision 2010/413/CFSP (as amended) and EU Council Regulation 267/2012 (as amended). Measures include an arms embargo, which has one exemption for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

All exports for this destination were approved in accordance with the sanctions in place.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	30	£24,848,053
Non-military	46	£7,290,949
Both Military and Non-military	1	£40,270
Total	77	£32,179,271

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£18,624
ML4	6	£1,047,223
ML5	4	£2,582,787
ML6	2	£7,250
ML7	1	£1,565
ML9	6	£64,064
ML10	3	£20,874,016
ML11	7	£235,141
ML22	2	£17,384

	components for combat aircraft.
	components for combat naval vessels (2 licences).
	components for decoying/countermeasure equipment (2 licences).
	components for launching/handling/control equipment for missiles.
	components for military communications equipment.
T	components for military guidance/navigation equipment.
	components for military radars.
	components for military training aircraft.
	components for naval electrical/electronic equipment.
	components for NBC protective/defensive equipment.
	components for sniper rifles.
	components for submarines (3 licences).
	components for surface-to-air missiles (3 licences).
	components for tanks.
	components for targeting equipment.
T	components for targeting equipment.
	decoying/countermeasure equipment.
	equipment for the development of multi-role missiles.
T	equipment for the use of military electronic equipment.
	equipment for the use of military radars.
T	general military vehicle components.
	military aircraft ground equipment.
	military communications equipment (2 licences).
T	military electronic equipment.
T	military guidance/navigation equipment.
	sniper rifles (4).
	targeting equipment.
	technology for military communications equipment.
	technology for military electronic equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	6	£964,505
1C010	1	£51,663
1C232	1	£35,240
2B230	3	£1,124,183
2B350	4	£450,026
3A001	1	£1,157
3A002	5	£697,254
3A225	2	£2,914
5A001	1	£8,000
5A002	9	£2,005,192
5D002	5	£88,778

6A005	1	£1,625,000
6E002	1	£10
7A103	2	£76,000
PL8001	1	£40,000

- civil explosive detection/identification equipment (4 licences).
- civil NBC protection equipment.
- components for civil explosive detection/identification equipment.
- corrosion resistant chemical manufacturing equipment (4 licences).
- explosives detection equipment.
- fibrous/filamentary materials [See footnote 5].
- frequency changers (2 licences).
- helium-3.
- imaging cameras (3 licences).
- T imaging cameras.
- inertial equipment (2 licences).
- information security equipment (9 licences).
- information security software (3 licences).
- laser acoustic detection equipment.
- oscillators.
- pressure transducers (3 licences).
- RF direction finding equipment.
- T signal analysers (2 licences).
- T signal generators (3 licences).
- software for information security equipment (2 licences).
- technology for information security equipment.
- technology for magnetometers.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,070
6A003	1	£13,000
8A002	1	£5,000
ML7	1	£12,100
ML11	1	£6,000
ML17	1	£100

- T civil NBC protection equipment.
- T civil riot control agent protection equipment.
- T components for NBC protective/defensive equipment.
- T imaging cameras.
- T military communications equipment.
- T military laser protection equipment.
- T NBC protective/defensive equipment.
- T rebreathing swimming equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	16	£2,452,215
Non-military	2	£257,801
Total	18	£2,710,016

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	5	£2,105,734
ML10	6	£186,584
ML11	6	£159,897
ML21	1	£0

components for aircraft military communications equipment (2 licences).
components for electronic warfare equipment (4 licences).
components for military aircraft head-up/down displays (3 licences).
components for military communications equipment.
components for military radars (2 licences).
components for targeting equipment.
components for unmanned air vehicles [See footnote 3].
equipment for the use of military communications equipment.
military communications equipment.
military guidance/navigation equipment.
military radars.
rangefinding equipment [See footnote 9].
software for military communications equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C010	1	£163,688
1C202	1	£94,113

fibre prepregs.
metal alloy cylindrical forms.

Issued

promoting the supply of airborne refuelling equipment [See footnote 19].
 promoting the supply of aircraft cannons [See footnote 19].
 promoting the supply of aircraft military communications equipment [See footnote 19].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 19].
 promoting the supply of anti-aircraft guns [See footnote 19].
 promoting the supply of anti-armour ammunition [See footnote 19].
 promoting the supply of anti-armour weapons [See footnote 19].
 promoting the supply of anti-riot/ballistic shields [See footnote 19].
 promoting the supply of artillery [See footnote 19].
 promoting the supply of assault rifles [See footnote 19].
 promoting the supply of attack alerting/warning equipment [See footnote 19].
 promoting the supply of body armour [See footnote 19].
 promoting the supply of caseless ammunition weapons [See footnote 19].
 promoting the supply of combat helicopters [See footnote 19].
 promoting the supply of combat shotguns [See footnote 19].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 19].
 promoting the supply of components for assault rifles [See footnote 19].
 promoting the supply of components for body armour [See footnote 19].
 promoting the supply of components for combat shotguns [See footnote 19].
 promoting the supply of components for machine guns [See footnote 19].
 promoting the supply of components for pistols [See footnote 19].
 promoting the supply of components for rifles [See footnote 19].
 promoting the supply of components for smooth-bore weapons [See footnote 19].
 promoting the supply of components for sniper rifles [See footnote 19].
 promoting the supply of components for sporting guns [See footnote 19].
 promoting the supply of components for sporting shotguns [See footnote 19].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 19].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 19].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 19].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 19].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 19].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 19].
 promoting the supply of CS hand grenades [See footnote 19].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 19].
 promoting the supply of electronic countermeasure equipment [See footnote 19].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 19].

promoting the supply of equipment for the use of aircraft cannons [See footnote 19].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 19].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 19].

promoting the supply of equipment for the use of artillery [See footnote 19].

promoting the supply of equipment for the use of assault rifles [See footnote 19].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 19].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 19].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 19].

promoting the supply of equipment for the use of fire location equipment [See footnote 19].

promoting the supply of equipment for the use of flash suppressers [See footnote 19].

promoting the supply of equipment for the use of grenade launchers [See footnote 19].

promoting the supply of equipment for the use of gun silencers [See footnote 19].

promoting the supply of equipment for the use of heavy machine guns [See footnote 19].

promoting the supply of equipment for the use of machine guns [See footnote 19].

promoting the supply of equipment for the use of military radars [See footnote 19].

promoting the supply of equipment for the use of mortars [See footnote 19].

promoting the supply of equipment for the use of periscopes [See footnote 19].

promoting the supply of equipment for the use of pistols [See footnote 19].

promoting the supply of equipment for the use of projectile launchers [See footnote 19].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£770
Non-military	3	£103,468
Both Military and Non-military	1	£7,443
Total	5	£111,681

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL5001	1	£770

anti-riot/ballistic shields.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£40,000
5A002	1	£13,468
6A003	1	£50,000

T civil explosive detection/identification equipment.
imaging cameras.
information security equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£2,443
ML11	1	£5,000

information security equipment.
military communications equipment.

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	13	£393,247
Non-military	18	£37,134,771
Total	31	£37,528,018

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£2,529
ML4	3	£281,248
ML7	1	£2,797
ML8	4	£84,510
ML10	1	£21,217
ML11	1	£756
ML13	1	£190

T
binders/plasticizers/monomers/polymers for energetic materials.
body armour.
components for decoying/countermeasure equipment (2 licences).
components for decoying/countermeasure equipment.
components for military training aircraft.
components for NBC protective/defensive equipment.
military electronic equipment.
NBC protective/defensive equipment.
pyrotechnics/fuels and related substances (3 licences).
weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C002	1	£36,300,000
0E001	3	£12,000
1C001	1	£600
1C232	1	£409,000
1C233	5	£20,047
1C351	1	£9
2B351	2	£605
2E002	1	£4,000
5D002	1	£250,000
8A002	1	£11,550
9A012	1	£126,960
9A115	1	£0

civil unmanned air vehicles.
 devices containing enriched lithium.
 devices containing enriched lithium compounds (2 licences).
 electromagnetic wave absorbing materials.
 helium-3.
 information security software.
 launch support equipment for civil unmanned air vehicles.
 materials containing enriched uranium.
 products containing enriched lithium (2 licences).
 rebreathing swimming equipment.
 technology for corrosion resistant chemical manufacturing equipment.
 technology for nuclear reactors (3 licences).
 toxic gas monitoring equipment (2 licences).
 viruses.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure

		<p>equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
3	P	<p>components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval</p>

		engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 2]
4	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 3]
5	P	sporting shotgun ammunition [See footnote 4]
6	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 5]
7	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 6]

8	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
9	P	components for weapon sights, weapon sights [See footnote 7]

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Armed forces end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Government end use.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	12	£2,632,607
Non-military	23	£661,142
Both Military and Non-military	1	£29,873
Total	36	£3,323,622

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	2	£61,221
ML5	2	£2,372,967
ML6	1	£43,924
ML10	3	£31,442
ML11	2	£26,136
ML13	2	£79,647
ML17	1	£466
ML21	1	£4,805
ML22	1	£12,000

body armour.
 components for body armour (2 licences) [See footnote 7].
 components for military aero-engines.
 components for military training aircraft.
 equipment for the use of attack alerting/warning equipment.
 general military vehicle components.
 military aero-engines.
 military communications equipment.
 military guidance/navigation equipment.
 military helmets.
 military parametric technical databases.
 military radars.
 small arms ammunition [See footnote 8].
 software for attack alerting/warning equipment.
 sporting shotgun ammunition [See footnote 9].
 technology for military radars.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	3	£376,270
1C006	1	£660
2B350	3	£5,614
5A002	11	£224,881
5D002	4	£26,527
6A203	1	£25,200
PL9010	1	£1,990

civil explosive detection/identification equipment (3 licences).
 components for corrosion resistant chemical manufacturing equipment (2 licences).

T corrosion resistant chemical manufacturing equipment.
information security equipment (10 licences).
information security equipment [See footnote 5].
information security software (4 licences).
lubricants.
radiation hardened TV cameras.
sporting shotguns (2) [See footnote 12].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£16,763
PL9010	1	£13,110

sporting shotguns (25) [See footnote 11].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 2]
3	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 3]
4	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 4]
5	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the

		production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 6]
6	P	civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 10]

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£24,350

Non-military	11	£4,789,624
Total	14	£4,813,974

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£5,050
ML5	1	£19,300

components for sporting guns (2 licences).
periscopes [See footnote 2].
sporting guns (1) (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	3	£981,703
3A001	1	£16,200
5A002	4	£2,995,517
5D002	2	£1,490
5E002	1	£13,975
7A103	2	£694,087
7D101	1	£35,887
9A004	1	£20,765
9D005	1	£30,000
9E102	1	£0

corrosion resistant chemical manufacturing equipment (3 licences) [See footnote 5].
inertial equipment (2 licences) [See footnote 3].
information security equipment (4 licences).
information security software (2 licences) [See footnote 1].
software for inertial equipment [See footnote 3].
software for spacecraft attitude and orbit control systems [See footnote 4].
space qualified solar devices [See footnote 4].
spacecraft attitude and orbit control systems [See footnote 4].
technology for information security equipment [See footnote 1].
technology for spacecraft attitude and orbit control systems [See footnote 4].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	22	£8,421,283
Non-military	7	£363,450
Total	29	£8,784,733

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£961,318
ML3	4	£864
ML4	4	£60,220
ML5	1	£4,216,480
ML6	2	£1,001,483
ML10	3	£6,383
ML11	2	£301,368
ML13	3	£20,750
ML14	2	£947,500
ML21	3	£866,681
ML22	2	£0

PL5001	1	£9,546
PL5017	1	£28,690

	anti-riot/ballistic shields. blank/inert ammunition. body armour (2 licences) [See footnotes 16, 20]. components for body armour (2 licences) [See footnotes 16, 20].
T	components for ground vehicle military communications equipment. components for machine guns. components for military guidance/navigation equipment [See footnote 2]. components for military helicopters (3 licences). components for military improvised explosive device decoying/detection/disposal/jamming equipment. crowd control ammunition (2 licences) [See footnotes 14, 17]. equipment for the use of machine guns. fire location equipment [See footnote 3]. flash suppressers (2 licences).
T	ground vehicle military communications equipment. gun silencers. hand grenades [See footnote 17]. machine guns (200). military electronic equipment [See footnote 3]. military helmets (3 licences) [See footnotes 12, 16, 20]. military training equipment (2 licences). small arms ammunition. software for fire location equipment [See footnote 3]. Software for modelling/simulating military operation scenarios.
T	Software for modelling/simulating military operation scenarios. targeting equipment [See footnote 3]. tear gas/irritant ammunition (2 licences) [See footnote 17]. technology for machine guns. technology for military training equipment. training hand grenades (3 licences) [See footnote 17]. training tear gas/irritant ammunition [See footnote 14]. turrets [See footnote 2]. wall/door breaching projectiles/ammunition [See footnote 14]. weapon cleaning equipment. weapon sight mounts. weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£17,417
2B350	2	£13,590
5A002	1	£79,419
5D002	1	£3,500
6A003	1	£24,445
6A006	1	£144,000
6A008	1	£81,079

	civil explosive detection/identification equipment. components for corrosion resistant chemical manufacturing equipment. corrosion resistant chemical manufacturing equipment. imaging cameras. information security equipment [See footnote 15].
T	information security software [See footnote 11].
T	magnetic gradiometers. radar equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 4]
3	P	components for combat helicopters, components for military aero-engines, components for military helicopters, general military aircraft components, military aircraft ground equipment, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters [See footnote 5]
4	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 6]
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 7]
6	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 8]

7	P	counter-improvised explosive device equipment [See footnote 9]
8	P	sporting shotgun ammunition [See footnote 10]
9	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 13]
10	P	civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 18]
11	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment

civil explosive detection/identification equipment.
 corrosion resistant chemical manufacturing equipment.
 smoke/pyrotechnic ammunition.
 smooth-bore weapons.

Country Footnotes

1. UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) and 2095 (2013). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

EU Council Decision 2011/137/CFSP, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

All exports for this destination must be in accordance with the sanctions in place.

No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft military communications equipment, components for military aero-engines, components for military aircraft head-up/down displays, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircraft head-up/down displays, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for decoying/countermeasure equipment, software for equipment for the use of military helicopters, software for military aero-engines, software for military aircraft head-up/down displays, software for military guidance/navigation equipment, software for military helicopters, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft head-up/down displays, technology for military parachutes and equipment, technology for military support aircraft, technology for signalling devices, technology for unfinished products for military support aircraft, unfinished products for military support aircraft
2	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 3]
3	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets [See footnote 4]
4	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 5]
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment,

		equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 6]
6	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 7]
7	P	information security equipment, information security software
8	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 8]
9	T	components for inertial equipment, inertial equipment, technology for inertial equipment
10	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 9]
11	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 10]
12	P	imaging cameras [See footnote 11]
13	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 12]
14	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and

		equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 13]
15	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
16	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 17]

promoting the supply of equipment for the use of assault rifles [See footnote 2].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 2].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 2].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 2].
promoting the supply of equipment for the use of fire location equipment [See footnote 2].
promoting the supply of equipment for the use of flash suppressers [See footnote 2].
promoting the supply of equipment for the use of grenade launchers [See footnote 2].
promoting the supply of equipment for the use of gun silencers [See footnote 2].
promoting the supply of equipment for the use of heavy machine guns [See footnote 2].
promoting the supply of equipment for the use of machine guns [See footnote 2].
promoting the supply of equipment for the use of military radars [See footnote 2].
promoting the supply of equipment for the use of mortars [See footnote 2].
promoting the supply of equipment for the use of periscopes [See footnote 2].
promoting the supply of equipment for the use of pistols [See footnote 2].
promoting the supply of equipment for the use of projectile launchers [See footnote 2].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 2].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 2].
promoting the supply of equipment for the use of rifles [See footnote 2].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 2].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 2].
promoting the supply of equipment for the use of sniper rifles [See footnote 2].
promoting the supply of equipment for the use of sporting guns [See footnote 2].
promoting the supply of equipment for the use of sporting shotguns [See footnote 2].
promoting the supply of equipment for the use of targeting equipment [See footnote 2].
promoting the supply of equipment for the use of weapon control equipment [See footnote 2].
promoting the supply of equipment for the use of weapon mountings [See footnote 2].
promoting the supply of equipment for the use of weapon night sights [See footnote 2].
promoting the supply of equipment for the use of weapon sights [See footnote 2].
promoting the supply of fire location equipment [See footnote 2].
promoting the supply of flash suppressers [See footnote 2].
promoting the supply of fuze setting devices [See footnote 2].
promoting the supply of general military aircraft components [See footnote 2].
promoting the supply of grenade launchers [See footnote 2].
promoting the supply of gun mountings [See footnote 2].
promoting the supply of gun silencers [See footnote 2].
promoting the supply of hand grenades [See footnote 2].
promoting the supply of heavy machine guns [See footnote 2].
promoting the supply of illuminators [See footnote 2].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 2].
promoting the supply of machine guns [See footnote 2].
promoting the supply of military aero-engines [See footnote 2].
promoting the supply of military aircraft ground equipment [See footnote 2].
promoting the supply of military aircraft head-up/down displays [See footnote 2].
promoting the supply of military aircraft pressure refuellers [See footnote 2].
promoting the supply of military aircrew life support equipment [See footnote 2].
promoting the supply of military aircrew safety equipment [See footnote 2].
promoting the supply of military cameras/photographic equipment [See footnote 2].
promoting the supply of military combat vehicles [See footnote 2].
promoting the supply of military helmets [See footnote 2].
promoting the supply of military image intensifier equipment [See footnote 2].
promoting the supply of military image recording/processing equipment [See footnote 2].
promoting the supply of military imaging radar sensor equipment [See footnote 2].
promoting the supply of military infrared/thermal imaging equipment [See footnote 2].
promoting the supply of military radars [See footnote 2].
promoting the supply of military support vehicles [See footnote 2].
promoting the supply of mortars [See footnote 2].
promoting the supply of periscopes [See footnote 2].
promoting the supply of pistols [See footnote 2].
promoting the supply of projectile launchers [See footnote 2].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 2].
promoting the supply of rangefinding equipment [See footnote 2].
promoting the supply of recognition/identification equipment [See footnote 2].
promoting the supply of rifles [See footnote 2].
promoting the supply of sensor integration equipment [See footnote 2].
promoting the supply of signalling devices [See footnote 2].
promoting the supply of small arms ammunition [See footnote 2].
promoting the supply of smoke canisters [See footnote 2].

promoting the supply of smooth-bore weapons [See footnote 2].
 promoting the supply of sniper rifles [See footnote 2].
 promoting the supply of sporting guns [See footnote 2].
 promoting the supply of sporting shotguns [See footnote 2].
 promoting the supply of targeting equipment [See footnote 2].
 promoting the supply of unmanned air vehicles [See footnote 2].
 promoting the supply of water cannon [See footnote 2].
 promoting the supply of weapon cleaning equipment [See footnote 2].
 promoting the supply of weapon control equipment [See footnote 2].
 promoting the supply of weapon mountings [See footnote 2].
 promoting the supply of weapon night sights [See footnote 2].
 promoting the supply of weapon sight mounts [See footnote 2].
 promoting the supply of weapon sights [See footnote 2].

Country Footnotes

1. United Nations Security Council Resolution 2374 (2017) was adopted in September 2017 establishing a sanctions regime on Mali which imposes travel bans and assets freezes on individuals and entities engaged in activities that threaten the peace, security or stability of the country.

The UK implements this sanctions regime via The Mali (Sanctions) (EU Exit) Regulations 2020.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.

Malta

Processing Statistics (excluding amendments)

Median processing time SIELs	16 days
% and number of SIELs completed in 20 working days	50% (1)
% and number of SIELs completed in 60 working days	100% (2)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

% and number of OIELs completed in 60 working days	33% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£76,480
Total	2	£76,480

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£70,780
ML7	1	£5,700

assault rifles (37).
components for assault rifles.
components for NBC protective/defensive equipment.
components for pistols.
pistols (15).
weapon sights.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	inertial equipment [See footnote 1]
2	P	explosives, non-military detonators, non-military firing sets
3	P	components for weapon sights, weapon sights

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£125,500
ML2	1	£4,000
ML5	1	£9,907
ML11	1	£2,775

- T assault rifles (47).
- T components for assault rifles.
- T components for military communications equipment.
- T components for military radars.
- T components for pistols.
- T grenade launchers.
- T gun silencers.
- T machine guns (3).
- T pistols (30).
- T sniper rifles (5).
- T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£278,415
5A002	3	£29,288
5D002	1	£3,417
7A003	1	£15,000
PL9010	1	£110,000

- civil explosive detection/identification equipment (2 licences).
- inertial equipment [See footnote 2].
- information security equipment (3 licences).
- information security software.
- sporting shotguns (2).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 3]

Issued

promoting the supply of airborne refuelling equipment [See footnote 4].
 promoting the supply of aircraft cannons [See footnote 4].
 promoting the supply of aircraft military communications equipment [See footnote 4].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 4].
 promoting the supply of anti-aircraft guns [See footnote 4].
 promoting the supply of anti-armour ammunition [See footnote 4].
 promoting the supply of anti-armour weapons [See footnote 4].
 promoting the supply of anti-riot/ballistic shields [See footnote 4].
 promoting the supply of artillery [See footnote 4].
 promoting the supply of assault rifles [See footnote 4].
 promoting the supply of attack alerting/warning equipment [See footnote 4].
 promoting the supply of body armour [See footnote 4].
 promoting the supply of caseless ammunition weapons [See footnote 4].
 promoting the supply of combat helicopters [See footnote 4].
 promoting the supply of combat shotguns [See footnote 4].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 4].
 promoting the supply of components for assault rifles [See footnote 4].
 promoting the supply of components for body armour [See footnote 4].
 promoting the supply of components for combat shotguns [See footnote 4].
 promoting the supply of components for machine guns [See footnote 4].
 promoting the supply of components for pistols [See footnote 4].
 promoting the supply of components for rifles [See footnote 4].
 promoting the supply of components for smooth-bore weapons [See footnote 4].
 promoting the supply of components for sniper rifles [See footnote 4].
 promoting the supply of components for sporting guns [See footnote 4].
 promoting the supply of components for sporting shotguns [See footnote 4].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 4].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 4].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 4].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 4].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 4].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 4].
 promoting the supply of CS hand grenades [See footnote 4].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 4].
 promoting the supply of electronic countermeasure equipment [See footnote 4].
 promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 4].
 promoting the supply of equipment for the use of aircraft cannons [See footnote 4].
 promoting the supply of equipment for the use of anti-aircraft guns [See footnote 4].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 4].
promoting the supply of equipment for the use of artillery [See footnote 4].
promoting the supply of equipment for the use of assault rifles [See footnote 4].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 4].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 4].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 4].
promoting the supply of equipment for the use of fire location equipment [See footnote 4].
promoting the supply of equipment for the use of flash suppressers [See footnote 4].
promoting the supply of equipment for the use of grenade launchers [See footnote 4].
promoting the supply of equipment for the use of gun silencers [See footnote 4].
promoting the supply of equipment for the use of heavy machine guns [See footnote 4].
promoting the supply of equipment for the use of machine guns [See footnote 4].
promoting the supply of equipment for the use of military radars [See footnote 4].
promoting the supply of equipment for the use of mortars [See footnote 4].
promoting the supply of equipment for the use of periscopes [See footnote 4].
promoting the supply of equipment for the use of pistols [See footnote 4].
promoting the supply of equipment for the use of projectile launchers [See footnote 4].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 4].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 4].
promoting the supply of equipment for the use of rifles [See footnote 4].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 4].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 4].
promoting the supply of equipment for the use of sniper rifles [See footnote 4].
promoting the supply of equipment for the use of sporting guns [See footnote 4].
promoting the supply of equipment for the use of sporting shotguns [See footnote 4].
promoting the supply of equipment for the use of targeting equipment [See footnote 4].
promoting the supply of equipment for the use of weapon control equipment [See footnote 4].
promoting the supply of equipment for the use of weapon mountings [See footnote 4].
promoting the supply of equipment for the use of weapon night sights [See footnote 4].
promoting the supply of equipment for the use of weapon sights [See footnote 4].
promoting the supply of fire location equipment [See footnote 4].
promoting the supply of flash suppressers [See footnote 4].
promoting the supply of fuze setting devices [See footnote 4].
promoting the supply of general military aircraft components [See footnote 4].
promoting the supply of grenade launchers [See footnote 4].
promoting the supply of gun mountings [See footnote 4].
promoting the supply of gun silencers [See footnote 4].
promoting the supply of hand grenades [See footnote 4].
promoting the supply of heavy machine guns [See footnote 4].
promoting the supply of illuminators [See footnote 4].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 4].
promoting the supply of machine guns [See footnote 4].
promoting the supply of military aero-engines [See footnote 4].
promoting the supply of military aircraft ground equipment [See footnote 4].
promoting the supply of military aircraft head-up/down displays [See footnote 4].
promoting the supply of military aircraft pressure refuellers [See footnote 4].
promoting the supply of military aircrew life support equipment [See footnote 4].
promoting the supply of military aircrew safety equipment [See footnote 4].
promoting the supply of military cameras/photographic equipment [See footnote 4].
promoting the supply of military combat vehicles [See footnote 4].
promoting the supply of military helmets [See footnote 4].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£500,000
Non-military	1	£166,832
Both Military and Non-military	1	£60,000
Total	3	£726,832

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£0
ML10	1	£500,000
ML11	1	£0
ML14	1	£0
ML22	1	£0
PL5017	1	£0

- T aerial target equipment.
- T components for aerial target equipment.
- T components for electronic countermeasure equipment.
- T components for electronic warfare equipment.
- T components for military scenario simulation equipment.
- T components for military training aircraft.
- T electronic countermeasure equipment.
- T electronic warfare equipment.
- T equipment for the use of aerial target equipment.
- T military scenario simulation equipment.
- T military training aircraft.
- T technology for aerial target equipment.

No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment

Country Footnotes

1. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 401/2013. Also the technical assistance, and financing or financial assistance related to military activities are also prohibited. All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Navy.
2. Licence granted for explosive detection / disposal purposes. Humanitarian end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	32	£38,671,622
Non-military	3	£600
Total	35	£38,672,222

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	12	£3,514,297
ML3	5	£72,236
ML5	10	£193,900
ML6	2	£14,436
ML7	4	£1,034,021
ML10	1	£32,000,000
ML11	9	£528,000
ML13	1	£400
ML15	13	£1,303,671
ML21	1	£10,000
PL5017	1	£662

- anti-armour ammunition.
- blank/inert ammunition.
- T command communications control and intelligence software.
- components for assault rifles.
- components for body armour.
- components for military combat vehicles (2 licences).
- components for military infrared/thermal imaging equipment (4 licences).
- components for military radars.
- components for NBC detection equipment.
- components for NBC protective/defensive equipment (3 licences).
- T equipment for the use of weapon night sights (8 licences).
- T military cameras/photographic equipment.
- T military electronic equipment (9 licences).
- T military guidance/navigation equipment (7 licences).
- T military image intensifier equipment (9 licences).
- T military infrared/thermal imaging equipment (9 licences).
- T military support aircraft.
- NBC protective/defensive equipment.
- T rangefinding equipment (9 licences).
- small arms ammunition.
- sporting guns (1).
- sporting shotgun ammunition.
- training wall/door breaching projectiles/ammunition.
- wall/door breaching projectiles/ammunition.
- weapon cleaning equipment.
- T weapon night sights (9 licences).
- weapon sights.
- T weapon sights (9 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0B001	1	£0
0B002	1	£0
1C001	2	£600

- electromagnetic wave absorbing materials (2 licences).
- uranium isotope separation equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	14	£851,555
Total	14	£851,555

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£6,040
ML6	3	£5,574
ML7	2	£96,696
ML10	6	£551,858
ML16	1	£191,337
ML21	1	£50

components for combat aircraft.
 components for military combat vehicles (2 licences).
 components for military helicopters (3 licences).
 components for military radars.
 components for NBC protective/defensive equipment.
 components for unmanned air vehicles (2 licences).
 general military vehicle components.
 NBC protective/defensive equipment.
 software for military electronic equipment.
 unfinished products for military aero-engines.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
 Belgium
 Finland
 France
 Germany
 Greece
 Indonesia
 Italy
 Japan
 New Zealand
 Norway
 Oman
 Portugal
 Qatar
 South Africa
 South Korea
 Spain
 Sweden
 Thailand
 United Kingdom
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	<p>accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for</p>

		weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£22,450
Non-military	14	£659,050
Total	17	£681,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£6,000
ML9	1	£1,200
ML10	1	£15,250

components for combat helicopters [See footnote 5].
 components for naval engines.
 military support vehicles [See footnote 6].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	2	£3,529
5A002	7	£218,714
5D002	1	£787
6A001	1	£42,610
6A003	1	£144,443
6A006	1	£2,400
7A003	1	£19,698
7A008	1	£216,882
7A103	1	£9,988

chemicals used for general laboratory work/scientific research (2 licences).
 guidance/navigation equipment.
 imaging cameras [See footnote 4].
 inertial equipment.
 information security equipment (7 licences).
 information security software.
 magnetometers.
 towed hydrophone arrays.
 T underwater sonar navigation systems.

Military	11	£538,246,538
Non-military	8	£148,032
Both Military and Non-military	1	£55,000
Total	20	£538,449,570

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once

per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£622,985
ML2	1	£1,072
ML3	1	£500
ML4	2	£22,325
ML5	1	£0
ML8	1	£240,000
ML10	1	£537,319,657
ML11	2	£20,000
ML15	1	£0
PL5017	2	£20,000

T

- components for gun mountings.
- components for military helicopters.
- components for mortars.
- components for sniper rifles.
- decoying/countermeasure equipment (2 licences).
- equipment for the use of military helicopters.
- gun mountings.
- military cameras/photographic equipment.
- military communications equipment (2 licences).
- military guidance/navigation equipment.
- military helicopters.
- military infrared/thermal imaging equipment.
- military radars.
- pyrotechnics/fuels and related substances.
- small arms ammunition.
- sporting guns (1) (2 licences).
- sporting guns (6).
- weapon sight mounts.
- weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£162
0C003	1	£17,992
1C351	1	£135
2B350	1	£5,159
5A001	1	£100,000
6A002	1	£2,400
PL9010	2	£22,183

T

- components for corrosion resistant chemical manufacturing equipment.
- deuterium compounds.
- direct view imaging equipment.
- products containing depleted uranium.
- products containing thorium.
- sporting shotguns (1).
- sporting shotguns (2).
- telecommunications interception equipment.
- toxins.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
9A012	1	£20,000
9E001	1	£5,000
ML10	1	£30,000

T civil unmanned air vehicles.
T launching/ground support equipment for unmanned air vehicles.
T technology for civil unmanned air vehicles.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£4,799
Total	2	£4,799

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£4,000
ML10	1	£799

components for combat aircraft.
components for weapon control equipment [See footnote 12].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Poland
Thailand

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£171
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£171

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£171

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2]
2	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 3]
3	P	goods treated for signature suppression for military use [See footnote 4]
4	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image

		<p>intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
5	P	<p>components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support</p>

		equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 5]
6	P	body armour, civil body armour, components for body armour, military helmets
7	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 6]
8	P	sporting shotgun ammunition [See footnote 7]
9	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 8]
10	T	inertial equipment [See footnote 9]
11	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment
12	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 10]
13	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 11]

14	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 1]
15	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
16	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 13]
17	P	components for weapon sights, weapon sights
18	P	command/control equipment for unmanned air vehicles, components for launching/ground support equipment for unmanned air vehicles, components for unmanned air vehicles, launching/ground support equipment for unmanned air vehicles, software for command/control equipment for unmanned air vehicles, technology for launching/ground support equipment for unmanned air vehicles, test models for launching/ground support equipment for unmanned air vehicles

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	34	£213,172,090
Non-military	4	£700,538
Total	38	£213,872,628

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£585
ML2	3	£32,337
ML3	2	£124,986
ML5	1	£58,500
ML6	14	£245,390
ML9	1	£24,245
ML10	5	£212,519,900
ML11	2	£54,096
ML14	1	£1,267
ML15	4	£25,284
PL5017	1	£85,500

accessories for military image intensifier equipment.
 components for aircraft cannons (2 licences).
 components for artillery.
 components for combat naval vessels.
 components for ground vehicle military communications equipment.
 components for machine guns.
 components for military aircrew safety equipment.

components for military combat vehicles (10 licences).
 components for military communications equipment.
 components for military image intensifier equipment.
 components for military infrared/thermal imaging equipment.
 components for military radars.
 components for military support aircraft.
 components for military training aircraft (2 licences).
 components for small arms training equipment.
 components for tanks (4 licences).
 equipment for the operation of military aircraft in confined areas.
 military communications equipment.
 military image intensifier equipment.
 military training aircraft.
 small arms ammunition (2 licences) [See footnotes 12, 9].
 tear gas/irritant ammunition [See footnote 12].
 wall/door breaching projectiles/ammunition [See footnote 12].
 weapon sight mounts.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£13,286
5D002	1	£2,169
6A008	1	£60,083
7A103	1	£625,000

components for radar equipment.
 corrosion resistant chemical manufacturing equipment.
 inertial equipment.
 information security software.

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£11,178,405
Total	1	£11,178,405

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£11,178,405
ML22	1	£0
PL5017	1	£0

assault rifles (15000) [See footnote 13].
 components for assault rifles [See footnote 13].

technology for assault rifles [See footnote 13].
 weapon cleaning equipment [See footnote 13].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 2]
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 3]
3	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of

		<p>military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	30	£3,159,514
Non-military	22	£1,656,425
Both Military and Non-military	2	£106,226
Total	54	£4,922,165

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	9	£36,619
ML3	1	£187,555
ML5	1	£0
ML8	1	£40
ML9	3	£12,958
ML10	14	£1,585,548
ML11	2	£2,700
ML14	1	£0
ML15	1	£1,294,495
ML21	1	£16,539
ML22	2	£21,831
PL5017	4	£1,230

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£792,804
Non-military	2	£26,828
Total	5	£819,632

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	2	£728,740
ML13	1	£50,800

ML17	1	£13,124
ML22	1	£140

body armour.
 components for body armour.
 components for military communications equipment.
 components for military guidance/navigation equipment.
 equipment for the use of military communications equipment.
 goods treated for signature suppression for military use.
 military communications equipment.
 technology for military guidance/navigation equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£26,828

information security equipment (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 2]
2	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 3]
3	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 4]
4	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for

		combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 5]
5	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 6]
6	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 1]
7	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Military	4	£271,332
Non-military	2	£5,200
Total	6	£276,532

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£265,804
ML2	1	£3,268
ML10	1	£110
ML22	1	£0
PL5017	1	£2,150

components for artillery.
 components for gun mountings.
 components for sniper rifles.
 equipment for the use of sniper rifles.
 equipment for the use of weapon sights.
 general military aircraft components.
 gun mountings.
 gun silencers.
 sniper rifles (4).
 technology for sniper rifles.
 weapon cleaning equipment.
 weapon night sights.
 weapon sight mounts.

weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9010	2	£5,200

sporting shotguns (1) (2 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£16,402,902
Total	1	£16,402,902

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£16,402,902

components for military support aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Brazil

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation

		<p>equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
2	P	<p>components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]</p>
3	P	<p>goods treated for signature suppression for military use [See footnote 2]</p>

4	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 3]
6	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 4]
7	P	sporting shotgun ammunition [See footnote 5]
8	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 6]
9	T	inertial equipment [See footnote 7]
10	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of

		combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 8]
11	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
12	P	components for weapon sights, weapon sights

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Armed forces end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. End use by the Air Force.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Armed forces end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	10	£194,270
Non-military	34	£1,881,540
Both Military and Non-military	1	£1,054,570
Total	45	£3,130,379

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£10,197
ML3	1	£2,240
ML4	2	£97,700
ML5	1	£10,096
ML6	1	£63,783
ML10	4	£7,911
ML11	1	£2,343

components for combat aircraft (2 licences).
 components for military electronic equipment.
 components for military helicopters (2 licences).
 components for sporting guns.
 components for turrets.
 components for weapon control equipment.
 inert illuminators [See footnote 12].
 launching/handling/control equipment for missiles.
 sporting guns (1).
 sporting shotgun ammunition [See footnote 8].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	5	£18,085
2B351	1	£1,126
5A002	23	£1,437,745
5D002	8	£161,450
5E002	2	£13,134
6A003	1	£250,000

- T corrosion resistant chemical manufacturing equipment (5 licences).
T imaging cameras.
information security equipment (24 licences) [See footnotes 4, 7].
information security software (6 licences).
software for information security equipment [See footnote 4].
technology for information security equipment (2 licences).
toxic gas detectors [See footnote 3].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£699,230
6A003	1	£45,590
ML1	1	£291,990
PL5017	1	£17,760

- T direct view imaging equipment [See footnote 13].
T equipment for the use of weapon sights [See footnote 13].
T imaging cameras [See footnote 13].
T weapon night sights [See footnote 13].
T weapon sight mounts [See footnote 13].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 2]
2	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars,

		<p>accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
3	P	<p>components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support</p>

		equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 5]
4	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 6]
5	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 9]
6	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military

		helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 10]
7	P	civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 11]
8	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 1]
9	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
10	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets [See footnote 14]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£26,523,746
Non-military	1	£1,000
Total	6	£26,524,746

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£325,686
ML5	1	£191,000
ML10	2	£26,002,000
ML22	2	£5,060

- T cf weapon control equipment.
 components for decoying/countermeasure equipment.
 components for military helicopters (2 licences).
- T components for targeting equipment.
 decoying/countermeasure equipment.
 technology for decoying/countermeasure equipment.
 technology for military combat vehicles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
9E001	1	£1,000

technology for combined cycle engines.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£13,500
Total	1	£13,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£13,500

components for military helicopters.

Country Footnotes

1. Decision 2014/512/CFSP, as amended, imposes a number of sectoral sanctions against Russian entities. These include restrictions on the supply of arms and military equipment, on dual use items for military use, ban on the supply of equipment and services to Russian deep water, Arctic and shale oil exploration and production projects, and a ban on Russian access to certain EU financial instruments and services.

All exports for this destination were approved in accordance with the sanctions in place.

2. The Russia (Sanctions) (EU Exit) Regulations 2019 which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements, which apply to military goods and technology, dual use goods and technology and energy-related goods. It also imposes a prohibition on the provision of military-related services, as well as other prohibitions on the import of goods from Crimea or Sevastopol, the export of goods related to infrastructure to, or for use in, Crimea or Sevastopol, and the provision of services related to infrastructure and tourism. There are also measures that curtail Russian access to certain specified energy-related equipment and services.

The Regulations makes provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	44	£280,888,523
Non-military	46	£4,607,799
Total	90	£285,496,322

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,758,833
ML2	1	£17,000
ML4	6	£2,947,338
ML5	3	£4,642,880
ML7	2	£9,176
ML9	4	£40,001
ML10	13	£263,842,359
ML11	1	£13,650
ML13	7	£563,327
ML14	1	£5,220,000
ML15	2	£806,566
ML22	3	£992,894
PL5001	1	£33,432
PL5017	2	£1,068

anti-riot/ballistic shields.
 attack alerting/warning equipment (2 licences).
 body armour (4 licences) [See footnotes 33, 7].
 bomb suits (2 licences).
 combat aircraft [See footnote 19].
 components for body armour (4 licences) [See footnotes 33, 7].
 components for bomb suits.
 components for bombs [See footnote 27].
 components for combat aircraft (5 licences) [See footnotes 13, 19, 6].
 components for combat naval vessels (4 licences) [See footnotes 25, 26].
 components for decoying/countermeasure equipment.
 components for military aircraft ground equipment [See footnote 1].
 components for military aircraft head-up/down displays (2 licences) [See footnote 28].
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.
 components for military infrared/thermal imaging equipment.
 components for military support aircraft.
 components for military training aircraft (2 licences) [See footnotes 13, 28].
 T components for NBC detection equipment.
 components for projectile launchers [See footnote 29].
 components for sniper rifles [See footnote 32].
 constructions for ballistic protection of military systems.
 decoying/countermeasure equipment.
 T equipment for the operation of military aircraft in confined areas [See footnote 23].
 T equipment for the use of equipment for the operation of military aircraft in confined areas [See footnote 23].
 equipment for the use of sniper rifles [See footnote 32].

- general military aircraft components.
- gun mountings [See footnote 32].
- military aircraft ground equipment (2 licences) [See footnote 14].
- military communications equipment.
- military helmets (3 licences).
- military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).
- T military infrared/thermal imaging equipment [See footnote 24].
- military training equipment.
- NBC detection equipment.
- T NBC detection equipment.
- projectile launchers [See footnote 29].
- sniper rifles (300) [See footnote 32].
- targeting equipment [See footnote 30].
- technology for military communications equipment.
- technology for military containers.
- technology for military guidance/navigation equipment [See footnote 31].
- technology for military trailers.
- technology for sniper rifles [See footnote 32].
- weapon cleaning equipment [See footnote 32].
- weapon sights [See footnote 32].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	4	£4,365
1A004	2	£480,400
2B350	16	£155,906
5A001	2	£1,125,000
5A002	8	£1,673,344
5D001	1	£250
5D002	10	£623,383
5E001	1	£400
5E002	2	£36,423
6A001	1	£59,400
6A002	1	£285,000
6A003	2	£136,328
8A002	1	£7,600
PL8001	1	£20,000

- civil explosive detection/identification equipment (2 licences).
- components for corrosion resistant chemical manufacturing equipment.
- corrosion resistant chemical manufacturing equipment (16 licences).
- counter-improvised explosive device equipment.
- deuterium compounds (4 licences).
- direct view imaging equipment.
- explosives detection equipment.
- imaging cameras (2 licences).
- information security equipment (7 licences).
- T information security equipment.
- information security software (9 licences).
- marine position fixing equipment.
- software for information security equipment.
- software for telecommunications interception equipment.
- submersible equipment.
- technology for information security equipment (2 licences).
- technology for telecommunications interception equipment.
- telecommunications interception equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	1	£45
Total	1	£45

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£45

components for combat helicopters.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United States of America

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£52
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£52

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£52

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.
--

No.	Type	Goods Summary
1	P	components for military auxiliary/support vessels, components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
2	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 3]
4	P	technology for imaging cameras, technology for information security equipment, technology for space qualified focal plane arrays, technology for spacecraft attitude and orbit control systems, technology for spacecraft payload data handling systems, technology for spacecraft payloads [See footnote 4]
5	P	technology for focal plane arrays, technology for imaging cameras, technology for information security equipment, technology for software for spacecraft, technology for software for spacecraft attitude and orbit control systems, technology for software for spacecraft payload data handling systems, technology for spacecraft, technology for spacecraft attitude and orbit control systems, technology for spacecraft buses, technology for spacecraft command and telemetry data handling systems, technology for spacecraft payload data handling systems, technology for spacecraft payloads [See footnote 5]
6	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 8]
7	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 9]
8	P	airborne refuelling equipment, automatic piloting systems for parachuted loads, components for airborne refuelling equipment, components for automatic piloting systems for parachuted loads, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew safety equipment, components for military parachutes, components for military training aircraft, countermeasure equipment for military infrared/thermal imaging equipment, electronic countermeasure equipment, electronic warfare equipment, environmental test facilities for military training aircraft, equipment for the production of military training aircraft, equipment for the use of electronic countermeasure equipment,

		<p>launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military containers, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military mobile repair shops and related equipment, military parachutes, military parametric technical databases, military radars, military training aircraft, software for attack alerting/warning equipment, software for electronic countermeasure equipment, software for fire location equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military training aircraft, Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for attack alerting/warning equipment, technology for countermeasure equipment for military cameras/photographic equipment, technology for countermeasure equipment for military image recording/processing equipment, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image recording/processing equipment, technology for military scenario simulation equipment, technology for military training aircraft, technology for military training equipment, technology for production installations for military training aircraft, technology for targeting equipment, technology for weapon control equipment, test models for military training aircraft, unfinished products for military training aircraft, weapon control equipment [See footnote 22]</p>
9	P	<p>components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 10]</p>
10	P	<p>components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 11]</p>

11	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 12]
12	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 15]
13	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 16]
14	P	civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 18]

15	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
16	P	information security equipment [See footnote 20]
17	P	components for gun mountings, components for weapon sights, weapon sights [See footnote 21]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£17,025
Non-military	3	£5,000
Total	5	£22,025

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£10,000
ML9	1	£2,000
ML11	1	£700
ML21	1	£2,000
ML22	1	£400
PL5001	1	£1,925

anti-riot/ballistic shields.
 components for naval gun installations/mountings.
 equipment for the use of naval gun installations/mountings.
 software for naval guns.
 technology for naval guns.
 weapon control equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5D002	1	£0
6A001	2	£5,000

T hydrophones (2 licences).
 information security software.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	15	£1,714,041
Non-military	3	£241,600
Total	18	£1,955,641

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£116,604
ML6	5	£702,800
ML9	4	£320,000
ML10	2	£500,000
ML11	1	£4,421
ML18	2	£70,000
ML22	9	£216

components for military combat vehicles (5 licences).
 components for military communications equipment.
 components for naval communications equipment (2 licences).
 T components for targeting equipment.
 equipment for the production of combat aircraft.
 equipment for the production of military aircraft ground equipment.
 military aircraft ground equipment (2 licences).
 naval communications equipment (2 licences).
 T targeting equipment.
 technology for combat aircraft.
 technology for military aircraft ground equipment (3 licences).
 technology for naval communications equipment (4 licences).
 T technology for targeting equipment.

 tear gas/irritant ammunition.

Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.

- toxins (2 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£60,800
ML7	1	£3,125

civil NBC protection equipment [See footnote 6].
NBC protective/defensive equipment [See footnote 6].

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£17,000
Non-military	1	£9,118
Total	2	£26,118

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£17,000

components for military combat vehicles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£9,118

information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Thailand

United Kingdom

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for electronic countermeasure equipment, components for electronic warfare equipment, components for fire location equipment, components for launching/handling/control/support equipment for unmanned air vehicles, components for military auxiliary/support vessels, components for military bridges/pontoons/ferries, components for military combat vehicles, components for military communications equipment, components for military construction equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military robotic equipment, components for military scenario simulation equipment, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military training equipment, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for small arms training equipment, components for submarines, components for tanks, components for targeting equipment, components for turrets, components for weapon control equipment, general military aircraft components [See footnote 1]
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2]
3	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components

		for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 3]
4	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets [See footnote 5]
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 7]
6	P	information security equipment, information security software
7	T	components for inertial equipment, inertial equipment, technology for inertial equipment
8	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 8]
9	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 9]
10	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 11]
11	P	technology for information security equipment [See footnote 10]

12	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 14]
13	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 15]
14	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
15	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 17]

Rejected

Applications to this destination refused in full.

information security equipment (3 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£100,000
ML13	1	£105,000
PL8001	1	£2,000

body armour [See footnote 1].
 components for body armour [See footnote 1].
 devices for initiating explosives [See footnote 1].
 military support vehicles [See footnote 1].

Country Footnotes

- UN Security Council Resolution 2142 (2014) continues the embargo on the supply of arms and related material. The embargo no longer applies to military equipment intended solely for the development of the Security Forces of the Federal Government of Somalia, providing the UN Sanctions Committee is notified in advance.

Exemptions to the embargo authorise supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use by UN personnel or strategic partners of AMISOM, supplies for use by UN member states to combat piracy and supplies intended for the development of Somali security sector institutions.

From 11 July 2014 the EU implements this UN sanction regime via Council Decision 2010/231/CFSP and Council Regulation (EU) No 356/2010, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	26	£23,976,935
Non-military	23	£4,024,361
Both Military and Non-military	2	£923,848
Total	51	£28,925,144

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	9	£1,566,124
ML3	5	£608,338
ML4	3	£297,827
ML5	1	£1,474
ML6	2	£67,534
ML10	6	£21,426,044
ML16	1	£9,394
ML22	2	£200

air-to-surface missiles.
assault rifles (10).
components for combat aircraft.
components for military combat vehicles.
components for military support aircraft (2 licences).
components for military training aircraft.
components for small arms ammunition (2 licences) [See footnote 6].
components for sniper rifles (3 licences) [See footnotes 19, 26].
components for sporting guns (2 licences) [See footnote 29].
components for surface-to-air missiles.
components for targeting equipment.
general military aircraft components.
general military vehicle components.
gun silencers (2 licences).
military helicopters.
signalling devices.
small arms ammunition [See footnote 29].

sniper rifles (500) [See footnote 19].
 sniper rifles [See footnote 26].
 sporting guns (1) (2 licences) [See footnote 3].
 sporting guns (4) [See footnote 29].
 sporting guns (6).
 sporting guns (10).
 sporting shotgun ammunition (2 licences).
 technology for multi-role missiles [See footnote 10].
 technology for sniper rifles [See footnote 19].
 unfinished products for military support aircraft.
 weapon night sights [See footnote 25].
 weapon sights [See footnote 25].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£1,111
1A004	2	£557,720
1C202	1	£90
2B350	5	£5,196
2B352	1	£444,500
3A225	1	£1,558
5A002	4	£2,351,180
5D002	1	£283,705
6A003	3	£337,548
8A002	4	£17,058
PL9010	2	£24,695

biotechnology equipment.
 civil NBC detection systems.
 civil NBC protection clothing.
 components for corrosion resistant chemical manufacturing equipment (4 licences).
 corrosion resistant chemical manufacturing equipment.
 frequency changers.
 T imaging cameras (3 licences).
 information security equipment (4 licences).
 metal alloy cylindrical forms.
 rebreathing swimming equipment (4 licences).
 software for information security equipment.
 sporting shotguns (1).
 sporting shotguns (4) [See footnote 17].
 thorium.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£215,008
ML1	2	£443,840
PL9010	1	£265,000

T imaging cameras [See footnote 27].
 T sporting guns (1).
 T sporting shotguns (5).
 weapon night sights [See footnote 27].
 weapon sights [See footnote 27].

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	4	£773,101
Total	4	£773,101

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£765,000
ML11	2	£8,101

components for decoying/countermeasure equipment (2 licences).
 components for electronic warfare equipment.
 electronic warfare equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Brazil
 Egypt
 Oman
 Switzerland
 United Arab Emirates

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for aircraft missile protection systems, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military image recording/processing equipment [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment,

		components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 4]
4	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 5]
5	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 7]
6	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier

		equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
7	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 8]
8	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 9]
9	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 11]
10	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 12]

11	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 13]
12	P	sporting shotgun ammunition [See footnote 14]
13	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 15]
14	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 16]
15	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 18]
16	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test

		models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 20]
17	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 21]
18	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
19	P	components for weapon sights, weapon sights [See footnote 28]

Issued

assault rifles [See footnote 23].
body armour [See footnote 23].
components for assault rifles [See footnote 23].
components for body armour [See footnote 23].
components for sniper rifles [See footnote 23].
military helmets [See footnote 23].
promoting the supply of airborne refuelling equipment [See footnote 24].
promoting the supply of aircraft cannons [See footnote 24].
promoting the supply of aircraft military communications equipment [See footnote 24].
promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 24].
promoting the supply of anti-aircraft guns [See footnote 24].
promoting the supply of anti-armour ammunition [See footnote 24].
promoting the supply of anti-armour weapons [See footnote 24].
promoting the supply of anti-riot/ballistic shields [See footnote 24].
promoting the supply of artillery [See footnote 24].
promoting the supply of assault rifles [See footnote 24].
promoting the supply of attack alerting/warning equipment [See footnote 24].
promoting the supply of body armour [See footnote 24].
promoting the supply of caseless ammunition weapons [See footnote 24].
promoting the supply of combat helicopters [See footnote 24].
promoting the supply of combat shotguns [See footnote 24].
promoting the supply of command/control equipment for unmanned air vehicles [See footnote 24].
promoting the supply of components for assault rifles [See footnote 24].
promoting the supply of components for body armour [See footnote 24].
promoting the supply of components for combat shotguns [See footnote 24].
promoting the supply of components for machine guns [See footnote 24].
promoting the supply of components for pistols [See footnote 24].
promoting the supply of components for rifles [See footnote 24].
promoting the supply of components for smooth-bore weapons [See footnote 24].
promoting the supply of components for sniper rifles [See footnote 24].
promoting the supply of components for sporting guns [See footnote 24].
promoting the supply of components for sporting shotguns [See footnote 24].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 24].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 24].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 24].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 24].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 24].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 24].
promoting the supply of CS hand grenades [See footnote 24].
promoting the supply of devices containing military pyrotechnic materials [See footnote 24].
promoting the supply of electronic countermeasure equipment [See footnote 24].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 24].
promoting the supply of equipment for the use of aircraft cannons [See footnote 24].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 24].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 24].
promoting the supply of equipment for the use of artillery [See footnote 24].
promoting the supply of equipment for the use of assault rifles [See footnote 24].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 24].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 24].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 24].
promoting the supply of equipment for the use of fire location equipment [See footnote 24].
promoting the supply of equipment for the use of flash suppressers [See footnote 24].
promoting the supply of equipment for the use of grenade launchers [See footnote 24].
promoting the supply of equipment for the use of gun silencers [See footnote 24].
promoting the supply of equipment for the use of heavy machine guns [See footnote 24].
promoting the supply of equipment for the use of machine guns [See footnote 24].
promoting the supply of equipment for the use of military radars [See footnote 24].
promoting the supply of equipment for the use of mortars [See footnote 24].
promoting the supply of equipment for the use of periscopes [See footnote 24].
promoting the supply of equipment for the use of pistols [See footnote 24].

promoting the supply of equipment for the use of projectile launchers [See footnote 24].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 24].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 24].
promoting the supply of equipment for the use of rifles [See footnote 24].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 24].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 24].
promoting the supply of equipment for the use of sniper rifles [See footnote 24].
promoting the supply of equipment for the use of sporting guns [See footnote 24].
promoting the supply of equipment for the use of sporting shotguns [See footnote 24].
promoting the supply of equipment for the use of targeting equipment [See footnote 24].
promoting the supply of equipment for the use of weapon control equipment [See footnote 24].
promoting the supply of equipment for the use of weapon mountings [See footnote 24].
promoting the supply of equipment for the use of weapon night sights [See footnote 24].
promoting the supply of equipment for the use of weapon sights [See footnote 24].
promoting the supply of fire location equipment [See footnote 24].
promoting the supply of flash suppressers [See footnote 24].
promoting the supply of fuze setting devices [See footnote 24].
promoting the supply of general military aircraft components [See footnote 24].
promoting the supply of grenade launchers [See footnote 24].
promoting the supply of gun mountings [See footnote 24].
promoting the supply of gun silencers [See footnote 24].
promoting the supply of hand grenades [See footnote 24].
promoting the supply of heavy machine guns [See footnote 24].
promoting the supply of illuminators [See footnote 24].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 24].
promoting the supply of machine guns [See footnote 24].
promoting the supply of military aero-engines [See footnote 24].
promoting the supply of military aircraft ground equipment [See footnote 24].
promoting the supply of military aircraft head-up/down displays [See footnote 24].
promoting the supply of military aircraft pressure refuellers [See footnote 24].
promoting the supply of military aircraft life support equipment [See footnote 24].
promoting the supply of military aircrew safety equipment [See footnote 24].
promoting the supply of military cameras/photographic equipment [See footnote 24].
promoting the supply of military combat vehicles [See footnote 24].
promoting the supply of military helmets [See footnote 24].
promoting the supply of military image intensifier equipment [See footnote 24].
promoting the supply of military image recording/processing equipment [See footnote 24].
promoting the supply of military imaging radar sensor equipment [See footnote 24].
promoting the supply of military infrared/thermal imaging equipment [See footnote 24].
promoting the supply of military radars [See footnote 24].
promoting the supply of military support vehicles [See footnote 24].
promoting the supply of mortars [See footnote 24].
promoting the supply of periscopes [See footnote 24].
promoting the supply of pistols [See footnote 24].
promoting the supply of projectile launchers [See footnote 24].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 24].
promoting the supply of rangefinding equipment [See footnote 24].
promoting the supply of recognition/identification equipment [See footnote 24].
promoting the supply of rifles (2 licences) [See footnotes 22, 24].
promoting the supply of sensor integration equipment [See footnote 24].
promoting the supply of signalling devices [See footnote 24].
promoting the supply of small arms ammunition [See footnote 24].
promoting the supply of smoke canisters [See footnote 24].
promoting the supply of smooth-bore weapons [See footnote 24].
promoting the supply of sniper rifles [See footnote 24].
promoting the supply of sporting guns (2 licences) [See footnotes 22, 24].
promoting the supply of sporting shotguns [See footnote 24].
promoting the supply of targeting equipment [See footnote 24].
promoting the supply of unmanned air vehicles [See footnote 24].
promoting the supply of water cannon [See footnote 24].
promoting the supply of weapon cleaning equipment [See footnote 24].
promoting the supply of weapon control equipment [See footnote 24].
promoting the supply of weapon mountings [See footnote 24].
promoting the supply of weapon night sights [See footnote 24].
promoting the supply of weapon sight mounts [See footnote 24].
promoting the supply of weapon sights [See footnote 24].
small arms ammunition [See footnote 23].
sniper rifles [See footnote 23].

weapon cleaning equipment [See footnote 23].
 weapon sights [See footnote 23].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	95	£68,673,375
Non-military	48	£50,667,651
Total	143	£119,341,026

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£141,100
ML2	2	£251,706
ML4	8	£571,794
ML5	5	£5,606,228
ML6	3	£23,838
ML7	1	£5,124,315
ML8	1	£1,845
ML9	16	£25,830,972
ML10	32	£6,528,437
ML11	22	£23,025,220
ML13	1	£793
ML15	1	£44,020
ML16	1	£19,080
ML17	3	£753,855
ML18	1	£2,000
ML21	2	£256,757
ML22	8	£491,415

body armour.
 components for air-to-surface missiles (2 licences).
 components for aircraft military communications equipment.
 components for combat aircraft (4 licences).
 components for combat helicopters.
 components for combat naval vessels.
 components for military aero-engines (4 licences).
 components for military aircraft head-up/down displays.
 components for military auxiliary/support vessels.
 components for military bridges/pontoons/ferries.
 components for military combat vehicles (3 licences).
 components for military communications equipment (4 licences).
 components for military electronic equipment.
 components for military equipment for initiating explosives.
 components for military guidance/navigation equipment (5 licences).
 components for military helicopters (12 licences).
 components for military radars.
 components for military support aircraft (5 licences).
 components for military training aircraft (4 licences).
 components for munitions/ordnance detection/disposal equipment.
 components for periscopes.
 components for submarines (8 licences).
 components for surface-to-surface missiles (2 licences).
 components for targeting equipment.
 components for unmanned air vehicles.
 components for weapon control equipment.
 equipment for the production of unmanned air vehicles.
 general military aircraft components.
 general naval vessel components (2 licences).
 goods treated for signature suppression for military use.
 launching/handling/control equipment for munitions.
 military auxiliary/support vessels (2 licences).
 military communications equipment (4 licences).
 military electronic equipment.

T

- T military equipment for initiating explosives.
- military guidance/navigation equipment (4 licences).
- T military guidance/navigation equipment [See footnote 2].
- military helmets.
- T military image intensifier equipment [See footnote 2].
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military infrared/thermal imaging equipment [See footnote 2].
- military underwater remotely operated vehicles (2 licences).
- munitions/ordnance detection/disposal equipment.
- naval communications equipment (3 licences).
- naval electrical/electronic equipment (3 licences).
- naval hull penetrators/connectors (2 licences).
- NBC protective/defensive equipment.
- T projectile launchers.
- pyrotechnics/fuels and related substances.
- T rangefinding equipment [See footnote 2].
- software enabling equipment to function as military communications equipment.
- software for military communications equipment.
- submarines.
- targeting equipment.
- technology for combat aircraft (2 licences).
- technology for launching/handling/control equipment for missiles.
- technology for military communications equipment.
- technology for military guidance/navigation equipment.
- technology for NBC protective/defensive equipment.
- technology for software enabling equipment to function as military communications equipment.
- technology for targeting equipment.
- test models for combat aircraft.
- unfinished products for military aero-engines.
- T weapon night sights [See footnote 2].
- weapon sights.
- T weapon sights [See footnote 2].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£259,790
1C010	1	£79,500
1C111	1	£10,100
1C210	1	£0
1C234	2	£133
2B206	1	£34,695
2B351	2	£5,445
3A002	1	£8,934
3A225	1	£1,558
3A233	1	£398,000
5A002	5	£10,838,563
5D002	3	£1,490
6A001	1	£35,176
6A003	7	£214,877
6A005	8	£36,533,138
6A006	2	£4,693
6A008	2	£1,350,775
7A005	1	£1,200
7A103	6	£867,750
8A002	2	£7,534
PL8001	1	£14,300

- analogue-to-digital equipment.
- civil explosive detection/identification equipment (2 licences).
- components for radar equipment.
- components for submersible equipment.
- constituents of propellants.
- dimensional inspection equipment.
- explosives detection equipment.

fibrous/filamentary materials.
 frequency changers.
 global positioning satellite receivers.
 imaging cameras (7 licences).
 inertial equipment (6 licences) [See footnote 10].
 information security equipment (5 licences).
 information security software.
 lasers (8 licences).
 magnetometers (2 licences).
 mass spectrometers.
 radar equipment (2 licences).
 T rebreathing swimming equipment.
 software for information security equipment (3 licences).
 sonar log equipment.
 toxic gas monitoring equipment (2 licences).
 zirconium compounds (2 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	12	£1,526,922
Non-military	1	£2,519
Total	13	£1,529,440

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£134,300
ML6	2	£407,976
ML7	1	£175,000
ML10	7	£803,646
ML16	1	£6,000

aircraft military communications equipment.
 components for aircraft military communications equipment.
 components for combat aircraft.
 components for military combat vehicles (2 licences).
 components for military helicopters.
 components for military training aircraft (4 licences) [See footnote 7].
 components for NBC protective/defensive equipment.
 general military aircraft components (2 licences) [See footnote 7].
 training launching/handling/control equipment for munitions.
 unfinished products for combat helicopters.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£2,519

corrosion resistant chemical manufacturing equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

China
 Finland
 Norway
 Philippines
 Poland
 Rwanda
 Senegal
 Thailand
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for air-to-surface missiles, components for aircraft missile protection systems, components for constructions for ballistic protection of military systems, components for cryogenic equipment, components for gun mountings, components for launching/handling/control equipment for missiles, components for machine guns, components for military aero-engines, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military radars, components for military sonars, components for small arms ammunition, components for superconductive electrical equipment, components for targeting equipment, components for training air-to-surface missiles, components for weapon control equipment, constructions for ballistic protection of military systems, cryogenic equipment, devices containing military pyrotechnic materials, electronic countermeasure equipment, equipment for the operation of military aircraft in confined areas, equipment for the production of military helicopters, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of military sonars, equipment for the use of weapon control equipment, general military aircraft components, gun mountings, launching/handling/control equipment for missiles, machine guns, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, military sonars, military training equipment, signalling devices, signature suppression fittings/coatings/treatments for military use, software for military helicopters, Software for modelling/simulating/evaluating weapon systems, superconductive electrical equipment, targeting equipment, technology for military helicopters, technology for production installations for military helicopters, training air-to-surface missiles, training launching/handling/control equipment for missiles, weapon control equipment
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]

3	P	goods treated for signature suppression for military use [See footnote 3]
4	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment

		for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 4]
6	P	information security equipment, information security software
7	T	components for inertial equipment, inertial equipment, technology for inertial equipment
8	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 5]
9	P	technology for information security equipment [See footnote 6]
10	P	components for military aircraft head-up/down displays, components for military training aircraft, military aircraft ground equipment, military aircraft head-up/down displays, software for military training aircraft
11	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 8]
12	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for

		equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 9]
13	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
14	P	components for submarines
15	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 11]
16	P	components for military aero-engines, components for naval engines

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£152,553
Total	2	£152,553

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£48,000
ML13	1	£104,553

body armour.
 components for body armour.
 military helmets.
 military support vehicles [See footnote 1].
 military trailers [See footnote 1].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military equipment for initiating explosives, military equipment for initiating explosives [See footnote 5]

SITCLs

Source	Issued	Refused	Revoked
Bangladesh	2	0	0
Jordan	1	0	0

Issued

all-wheel drive vehicles with ballistic protection.
 promoting the supply of all-wheel drive vehicles with ballistic protection.
 promoting the supply of anti-armour ammunition [See footnote 2].
 promoting the supply of artillery ammunition [See footnote 2].
 promoting the supply of exploding grenade ammunition [See footnote 2].
 promoting the supply of military support vehicles.
 promoting the supply of military trailers.

OITCLs

Source	Issued	Refused	Revoked

Uganda	1	0	0

Issued

promoting the supply of airborne refuelling equipment [See footnote 4].
 promoting the supply of aircraft cannons [See footnote 4].
 promoting the supply of aircraft military communications equipment [See footnote 4].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 4].
 promoting the supply of anti-aircraft guns [See footnote 4].
 promoting the supply of anti-armour ammunition (2 licences) [See footnotes 3, 4].
 promoting the supply of anti-armour weapons [See footnote 4].
 promoting the supply of anti-personnel land mines [See footnote 3].
 promoting the supply of anti-riot/ballistic shields [See footnote 4].
 promoting the supply of artillery [See footnote 4].
 promoting the supply of assault rifles (2 licences) [See footnotes 3, 4].
 promoting the supply of attack alerting/warning equipment [See footnote 4].
 promoting the supply of body armour [See footnote 4].
 promoting the supply of caseless ammunition weapons [See footnote 4].
 promoting the supply of combat helicopters [See footnote 4].
 promoting the supply of combat shotguns [See footnote 4].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 4].
 promoting the supply of components for assault rifles [See footnote 4].
 promoting the supply of components for body armour [See footnote 4].
 promoting the supply of components for combat shotguns [See footnote 4].
 promoting the supply of components for machine guns [See footnote 4].
 promoting the supply of components for pistols (2 licences) [See footnotes 3, 4].
 promoting the supply of components for rifles [See footnote 4].
 promoting the supply of components for smooth-bore weapons [See footnote 4].
 promoting the supply of components for sniper rifles [See footnote 4].
 promoting the supply of components for sporting guns [See footnote 4].
 promoting the supply of components for sporting shotguns [See footnote 4].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic
 equipment [See footnote 4].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment
 [See footnote 4].

promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 4].

promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 4].

promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 4].

promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 4].

promoting the supply of CS hand grenades [See footnote 4].

promoting the supply of demolition charges/devices [See footnote 3].

promoting the supply of devices containing military pyrotechnic materials [See footnote 4].

promoting the supply of electronic countermeasure equipment [See footnote 4].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 4].

promoting the supply of equipment for the use of aircraft cannons [See footnote 4].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 4].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 4].

promoting the supply of equipment for the use of artillery [See footnote 4].

promoting the supply of equipment for the use of assault rifles [See footnote 4].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 4].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 4].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 4].

promoting the supply of equipment for the use of fire location equipment [See footnote 4].

promoting the supply of equipment for the use of flash suppressers [See footnote 4].

promoting the supply of equipment for the use of grenade launchers [See footnote 4].

promoting the supply of equipment for the use of gun silencers [See footnote 4].

promoting the supply of equipment for the use of heavy machine guns [See footnote 4].

promoting the supply of equipment for the use of machine guns [See footnote 4].

promoting the supply of equipment for the use of military radars [See footnote 4].

promoting the supply of equipment for the use of mortars [See footnote 4].

promoting the supply of equipment for the use of periscopes [See footnote 4].

promoting the supply of equipment for the use of pistols [See footnote 4].

promoting the supply of equipment for the use of projectile launchers [See footnote 4].

promoting the supply of equipment for the use of rangefinding equipment [See footnote 4].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 4].

promoting the supply of equipment for the use of rifles [See footnote 4].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 4].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 4].

promoting the supply of equipment for the use of sniper rifles [See footnote 4].

promoting the supply of equipment for the use of sporting guns [See footnote 4].

promoting the supply of equipment for the use of sporting shotguns [See footnote 4].

promoting the supply of equipment for the use of targeting equipment [See footnote 4].

promoting the supply of equipment for the use of weapon control equipment [See footnote 4].

promoting the supply of equipment for the use of weapon mountings [See footnote 4].

promoting the supply of equipment for the use of weapon night sights [See footnote 4].

promoting the supply of equipment for the use of weapon sights [See footnote 4].

promoting the supply of explosives [See footnote 3].

promoting the supply of fire location equipment [See footnote 4].

promoting the supply of flash suppressers [See footnote 4].

promoting the supply of fuze setting devices [See footnote 4].

promoting the supply of general military aircraft components [See footnote 4].

promoting the supply of grenade launchers [See footnote 4].

promoting the supply of gun mountings [See footnote 4].

promoting the supply of gun silencers [See footnote 4].

promoting the supply of hand grenades (2 licences) [See footnotes 3, 4].

promoting the supply of heavy machine guns [See footnote 4].

promoting the supply of illuminators [See footnote 4].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 4].

promoting the supply of machine guns [See footnote 4].

promoting the supply of military aero-engines [See footnote 4].

promoting the supply of military aircraft ground equipment [See footnote 4].

promoting the supply of military aircraft head-up/down displays [See footnote 4].

promoting the supply of military aircraft pressure refuellers [See footnote 4].

promoting the supply of military aircrew life support equipment [See footnote 4].

promoting the supply of military aircrew safety equipment [See footnote 4].

promoting the supply of military cameras/photographic equipment [See footnote 4].

promoting the supply of military combat vehicles [See footnote 4].

promoting the supply of military equipment for initiating explosives [See footnote 3].
 promoting the supply of military helmets [See footnote 4].
 promoting the supply of military image intensifier equipment [See footnote 4].
 promoting the supply of military image recording/processing equipment [See footnote 4].
 promoting the supply of military imaging radar sensor equipment [See footnote 4].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 4].
 promoting the supply of military radars [See footnote 4].
 promoting the supply of military support vehicles [See footnote 4].
 promoting the supply of mortars [See footnote 4].
 promoting the supply of periscopes [See footnote 4].
 promoting the supply of pistols (2 licences) [See footnotes 3, 4].
 promoting the supply of projectile launchers [See footnote 4].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 4].
 promoting the supply of rangefinding equipment [See footnote 4].
 promoting the supply of recognition/identification equipment [See footnote 4].
 promoting the supply of rifles [See footnote 4].
 promoting the supply of sensor integration equipment [See footnote 4].
 promoting the supply of signalling devices (2 licences) [See footnotes 3, 4].
 promoting the supply of small arms ammunition (2 licences) [See footnotes 3, 4].
 promoting the supply of smoke canisters [See footnote 4].
 promoting the supply of smooth-bore weapons [See footnote 4].
 promoting the supply of sniper rifles [See footnote 4].
 promoting the supply of sporting guns [See footnote 4].
 promoting the supply of sporting shotgun ammunition [See footnote 3].
 promoting the supply of sporting shotguns [See footnote 4].
 promoting the supply of surface launched rockets [See footnote 3].
 promoting the supply of targeting equipment [See footnote 4].
 promoting the supply of training explosive charges/devices [See footnote 3].
 promoting the supply of unmanned air vehicles [See footnote 4].
 promoting the supply of wall/door breaching projectiles/ammunition [See footnote 3].
 promoting the supply of water cannon [See footnote 4].
 promoting the supply of weapon cleaning equipment [See footnote 4].
 promoting the supply of weapon control equipment [See footnote 4].
 promoting the supply of weapon mountings [See footnote 4].
 promoting the supply of weapon night sights [See footnote 4].
 promoting the supply of weapon sight mounts [See footnote 4].
 promoting the supply of weapon sights [See footnote 4].

Country Footnotes

1. EU Council Decision 2015/740/CFSP replaced Council Decision 2014/449/CFSP.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. International Organisation end use.
2. Licence granted for accessories / spare parts. International Organisation end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. International Organisation end use.

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	37	£2,931,782
Non-military	2	£19,600
Total	39	£2,951,382

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	6	£18,990
ML3	1	£1,343
ML4	7	£2,541,322
ML5	1	£2,436
ML7	1	£11,700
ML10	13	£296,263
ML11	7	£25,656
ML13	1	£14,667
ML16	2	£19,266
ML17	1	£100
ML22	2	£40

anti-armour ammunition.
armoured plate.
components for airborne refuelling equipment (2 licences).
components for decoying/countermeasure equipment (2 licences).
components for electronic countermeasure equipment.
components for electronic warfare equipment (4 licences).
components for military communications equipment.
components for military support aircraft (11 licences).
T components for NBC protective/defensive equipment.
decoying/countermeasure equipment (4 licences).
equipment for the use of military radars.
hand grenades.
T military communications equipment.
T military laser protection equipment.

T NBC protective/defensive equipment.
rifles (1).
small arms ammunition.
sniper rifles (1).
sporting guns (1) (3 licences).
sporting guns (3) (2 licences).
technology for decoying/countermeasure equipment (2 licences).
unfinished products for military combat vehicles (2 licences).
wall/door breaching projectiles/ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	1	£100
1A007	1	£19,500

non-military detonators.
technology for nuclear reactors.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	19	£617,508
Non-military	2	£40,846
Total	21	£658,354

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value

- United Kingdom

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment

		for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 2]
3	P	goods treated for signature suppression for military use [See footnote 3]
4	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 4]
6	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
7	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 5]
8	P	sporting shotgun ammunition [See footnote 6]
9	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 7]

10	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 8]
11	T	inertial equipment [See footnote 9]
12	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 10]
13	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
14	P	components for weapon sights, weapon sights

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£3,177
Total	2	£3,177

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,852
ML3	1	£1,325

small arms ammunition.
sporting guns (2).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

promoting the supply of components for sporting shotguns [See footnote 2].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 2].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 2].
promoting the supply of CS hand grenades [See footnote 2].
promoting the supply of devices containing military pyrotechnic materials [See footnote 2].
promoting the supply of electronic countermeasure equipment [See footnote 2].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 2].
promoting the supply of equipment for the use of aircraft cannons [See footnote 2].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 2].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 2].
promoting the supply of equipment for the use of artillery [See footnote 2].
promoting the supply of equipment for the use of assault rifles [See footnote 2].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 2].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 2].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 2].
promoting the supply of equipment for the use of fire location equipment [See footnote 2].
promoting the supply of equipment for the use of flash suppressers [See footnote 2].
promoting the supply of equipment for the use of grenade launchers [See footnote 2].
promoting the supply of equipment for the use of gun silencers [See footnote 2].
promoting the supply of equipment for the use of heavy machine guns [See footnote 2].
promoting the supply of equipment for the use of machine guns [See footnote 2].
promoting the supply of equipment for the use of military radars [See footnote 2].
promoting the supply of equipment for the use of mortars [See footnote 2].
promoting the supply of equipment for the use of periscopes [See footnote 2].
promoting the supply of equipment for the use of pistols [See footnote 2].
promoting the supply of equipment for the use of projectile launchers [See footnote 2].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 2].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 2].
promoting the supply of equipment for the use of rifles [See footnote 2].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 2].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 2].
promoting the supply of equipment for the use of sniper rifles [See footnote 2].
promoting the supply of equipment for the use of sporting guns [See footnote 2].
promoting the supply of equipment for the use of sporting shotguns [See footnote 2].
promoting the supply of equipment for the use of targeting equipment [See footnote 2].
promoting the supply of equipment for the use of weapon control equipment [See footnote 2].
promoting the supply of equipment for the use of weapon mountings [See footnote 2].

promoting the supply of equipment for the use of weapon night sights [See footnote 2].
 promoting the supply of equipment for the use of weapon sights [See footnote 2].
 promoting the supply of fire location equipment [See footnote 2].
 promoting the supply of flash suppressers [See footnote 2].
 promoting the supply of fuze setting devices [See footnote 2].
 promoting the supply of general military aircraft components [See footnote 2].
 promoting the supply of grenade launchers [See footnote 2].
 promoting the supply of gun mountings [See footnote 2].
 promoting the supply of gun silencers [See footnote 2].
 promoting the supply of hand grenades [See footnote 2].
 promoting the supply of heavy machine guns [See footnote 2].
 promoting the supply of illuminators [See footnote 2].
 promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 2].
 promoting the supply of machine guns [See footnote 2].
 promoting the supply of military aero-engines [See footnote 2].
 promoting the supply of military aircraft ground equipment [See footnote 2].
 promoting the supply of military aircraft head-up/down displays [See footnote 2].
 promoting the supply of military aircraft pressure refuellers [See footnote 2].
 promoting the supply of military aircrew life support equipment [See footnote 2].
 promoting the supply of military aircrew safety equipment [See footnote 2].
 promoting the supply of military cameras/photographic equipment [See footnote 2].
 promoting the supply of military combat vehicles [See footnote 2].
 promoting the supply of military helmets [See footnote 2].
 promoting the supply of military image intensifier equipment [See footnote 2].
 promoting the supply of military image recording/processing equipment [See footnote 2].
 promoting the supply of military imaging radar sensor equipment [See footnote 2].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 2].
 promoting the supply of military radars [See footnote 2].
 promoting the supply of military support vehicles [See footnote 2].
 promoting the supply of mortars [See footnote 2].
 promoting the supply of periscopes [See footnote 2].
 promoting the supply of pistols [See footnote 2].
 promoting the supply of projectile launchers [See footnote 2].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 2].
 promoting the supply of rangefinding equipment [See footnote 2].
 promoting the supply of recognition/identification equipment [See footnote 2].
 promoting the supply of rifles [See footnote 2].
 promoting the supply of sensor integration equipment [See footnote 2].
 promoting the supply of signalling devices [See footnote 2].
 promoting the supply of small arms ammunition [See footnote 2].
 promoting the supply of smoke canisters [See footnote 2].
 promoting the supply of smooth-bore weapons [See footnote 2].
 promoting the supply of sniper rifles [See footnote 2].
 promoting the supply of sporting guns [See footnote 2].
 promoting the supply of sporting shotguns [See footnote 2].
 promoting the supply of targeting equipment [See footnote 2].
 promoting the supply of unmanned air vehicles [See footnote 2].
 promoting the supply of water cannon [See footnote 2].
 promoting the supply of weapon cleaning equipment [See footnote 2].
 promoting the supply of weapon control equipment [See footnote 2].
 promoting the supply of weapon mountings [See footnote 2].
 promoting the supply of weapon night sights [See footnote 2].
 promoting the supply of weapon sight mounts [See footnote 2].
 promoting the supply of weapon sights [See footnote 2].

Country Footnotes

1. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument. The enforcement of the arms embargo was further strengthened by resolution 1945 (2010) of 14 October 2010.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items.

Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	26	£2,433,244
Non-military	7	£264,496
Both Military and Non-military	2	£10,235
Total	35	£2,707,975

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£210,898
ML5	4	£142,217
ML6	5	£1,197,204
ML7	2	£43,100
ML10	9	£796,445
ML13	1	£12,180
ML21	2	£31,200

T	body armour. components for body armour. components for combat aircraft. components for combat aircraft. components for military training aircraft (4 licences). components for NBC protective/defensive equipment. components for pistols.
T	components for sniper rifles. components for sporting guns. components for weapon control equipment (3 licences). general military aircraft components (3 licences). general military vehicle components (3 licences). military combat vehicles (2 licences).
T	military helmets. military software. NBC detection equipment. NBC protective/defensive equipment. rangefinding equipment. sniper rifles (17). software for military training aircraft. weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£87
1C233	2	£3,823
1C351	1	£556
2B351	1	£50
5A001	1	£80,000
6A003	1	£19,980
PL9010	1	£160,000

T	civil NBC detection systems. devices containing enriched lithium. devices containing enriched lithium compounds. imaging cameras. sporting shotguns (2). telecommunications interception equipment. toxic gas monitoring equipment.
---	---

toxins.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,260
ML1	1	£600
ML7	1	£1,375
PL9010	1	£4,000

civil NBC protection clothing.
NBC protective/defensive equipment.
sporting guns (1).
sporting shotguns (2).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	12	£2,408,350
Total	12	£2,408,350

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£190,000
ML6	1	£261
ML10	10	£2,218,089

components for combat aircraft (2 licences).
components for military aero-engines.
components for military aircraft ground equipment.
components for military radars [See footnote 12].
components for military training aircraft (5 licences).
general military vehicle components.
military aircraft ground equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
Austria
Botswana
Brazil
Brunei
Bulgaria
Canada
Chile

China
 Croatia
 Czech Republic
 Egypt
 France
 Germany
 India
 Ireland
 Jordan
 Malaysia
 Mexico
 Netherlands
 Norway
 Oman
 Poland
 Qatar
 Saudi Arabia
 Singapore
 Slovenia
 South Africa
 Thailand
 Turkey
 United Arab Emirates
 United Kingdom
 United States of America
 Uruguay

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£17
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£17

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£17

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for military aero-engines, components for military radars, components for military training aircraft, components for targeting equipment, general military aircraft components
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
3	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 2]
4	P	goods treated for signature suppression for military use [See footnote 3]
5	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military

		guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
6	P	toxins
7	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 4]
8	P	components for military training aircraft [See footnote 5]
9	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 6]
10	P	sporting shotgun ammunition [See footnote 7]

11	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 8]
12	T	inertial equipment [See footnote 9]
13	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 10]
14	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 11]
15	P	components for weapon sights, weapon sights

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.

Issued

- promoting the supply of airborne refuelling equipment [See footnote 1].
- promoting the supply of aircraft cannons [See footnote 1].
- promoting the supply of aircraft military communications equipment [See footnote 1].
- promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 1].
- promoting the supply of anti-aircraft guns [See footnote 1].
- promoting the supply of anti-armour ammunition [See footnote 1].
- promoting the supply of anti-armour weapons [See footnote 1].

promoting the supply of anti-riot/ballistic shields [See footnote 1].
promoting the supply of artillery [See footnote 1].
promoting the supply of assault rifles [See footnote 1].
promoting the supply of attack alerting/warning equipment [See footnote 1].
promoting the supply of body armour [See footnote 1].
promoting the supply of caseless ammunition weapons [See footnote 1].
promoting the supply of combat helicopters [See footnote 1].
promoting the supply of combat shotguns [See footnote 1].
promoting the supply of command/control equipment for unmanned air vehicles [See footnote 1].
promoting the supply of components for assault rifles [See footnote 1].
promoting the supply of components for body armour [See footnote 1].
promoting the supply of components for combat shotguns [See footnote 1].
promoting the supply of components for machine guns [See footnote 1].
promoting the supply of components for pistols [See footnote 1].
promoting the supply of components for rifles [See footnote 1].
promoting the supply of components for smooth-bore weapons [See footnote 1].
promoting the supply of components for sniper rifles [See footnote 1].
promoting the supply of components for sporting guns [See footnote 1].
promoting the supply of components for sporting shotguns [See footnote 1].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 1].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 1].
promoting the supply of CS hand grenades [See footnote 1].
promoting the supply of devices containing military pyrotechnic materials [See footnote 1].
promoting the supply of electronic countermeasure equipment [See footnote 1].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 1].
promoting the supply of equipment for the use of aircraft cannons [See footnote 1].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 1].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 1].
promoting the supply of equipment for the use of artillery [See footnote 1].
promoting the supply of equipment for the use of assault rifles [See footnote 1].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 1].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 1].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 1].
promoting the supply of equipment for the use of fire location equipment [See footnote 1].
promoting the supply of equipment for the use of flash suppressers [See footnote 1].
promoting the supply of equipment for the use of grenade launchers [See footnote 1].
promoting the supply of equipment for the use of gun silencers [See footnote 1].
promoting the supply of equipment for the use of heavy machine guns [See footnote 1].
promoting the supply of equipment for the use of machine guns [See footnote 1].
promoting the supply of equipment for the use of military radars [See footnote 1].
promoting the supply of equipment for the use of mortars [See footnote 1].
promoting the supply of equipment for the use of periscopes [See footnote 1].
promoting the supply of equipment for the use of pistols [See footnote 1].
promoting the supply of equipment for the use of projectile launchers [See footnote 1].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 1].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 1].
promoting the supply of equipment for the use of rifles [See footnote 1].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 1].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 1].
promoting the supply of equipment for the use of sniper rifles [See footnote 1].
promoting the supply of equipment for the use of sporting guns [See footnote 1].
promoting the supply of equipment for the use of sporting shotguns [See footnote 1].
promoting the supply of equipment for the use of targeting equipment [See footnote 1].
promoting the supply of equipment for the use of weapon control equipment [See footnote 1].
promoting the supply of equipment for the use of weapon mountings [See footnote 1].
promoting the supply of equipment for the use of weapon night sights [See footnote 1].
promoting the supply of equipment for the use of weapon sights [See footnote 1].

promoting the supply of fire location equipment [See footnote 1].
 promoting the supply of flash suppressers [See footnote 1].
 promoting the supply of fuze setting devices [See footnote 1].
 promoting the supply of general military aircraft components [See footnote 1].
 promoting the supply of grenade launchers [See footnote 1].
 promoting the supply of gun mountings [See footnote 1].
 promoting the supply of gun silencers [See footnote 1].
 promoting the supply of hand grenades [See footnote 1].
 promoting the supply of heavy machine guns [See footnote 1].
 promoting the supply of illuminators [See footnote 1].
 promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 1].
 promoting the supply of machine guns [See footnote 1].
 promoting the supply of military aero-engines [See footnote 1].
 promoting the supply of military aircraft ground equipment [See footnote 1].
 promoting the supply of military aircraft head-up/down displays [See footnote 1].
 promoting the supply of military aircraft pressure refuellers [See footnote 1].
 promoting the supply of military aircrew life support equipment [See footnote 1].
 promoting the supply of military aircrew safety equipment [See footnote 1].
 promoting the supply of military cameras/photographic equipment [See footnote 1].
 promoting the supply of military combat vehicles [See footnote 1].
 promoting the supply of military helmets [See footnote 1].
 promoting the supply of military image intensifier equipment [See footnote 1].
 promoting the supply of military image recording/processing equipment [See footnote 1].
 promoting the supply of military imaging radar sensor equipment [See footnote 1].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 1].
 promoting the supply of military radars [See footnote 1].
 promoting the supply of military support vehicles [See footnote 1].
 promoting the supply of mortars [See footnote 1].
 promoting the supply of periscopes [See footnote 1].
 promoting the supply of pistols [See footnote 1].
 promoting the supply of projectile launchers [See footnote 1].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 1].
 promoting the supply of rangefinding equipment [See footnote 1].
 promoting the supply of recognition/identification equipment [See footnote 1].
 promoting the supply of rifles [See footnote 1].
 promoting the supply of sensor integration equipment [See footnote 1].
 promoting the supply of signalling devices [See footnote 1].
 promoting the supply of small arms ammunition [See footnote 1].
 promoting the supply of smoke canisters [See footnote 1].
 promoting the supply of smooth-bore weapons [See footnote 1].
 promoting the supply of sniper rifles [See footnote 1].
 promoting the supply of sporting guns [See footnote 1].
 promoting the supply of sporting shotguns [See footnote 1].
 promoting the supply of targeting equipment [See footnote 1].
 promoting the supply of unmanned air vehicles [See footnote 1].
 promoting the supply of water cannon [See footnote 1].
 promoting the supply of weapon cleaning equipment [See footnote 1].
 promoting the supply of weapon control equipment [See footnote 1].
 promoting the supply of weapon mountings [See footnote 1].
 promoting the supply of weapon night sights [See footnote 1].
 promoting the supply of weapon sight mounts [See footnote 1].
 promoting the supply of weapon sights [See footnote 1].

Country Footnotes

1. On 31 May 2013, the EU adopted Council Decision 2013/255/CFSP, which lifted the embargoes on arms and related material, as well as on equipment which might be used for internal repression.

This Decision also renewed the remaining measures set out in repealed Decision 2012/739/CFSP, which include embargoes on further equipment that might be used for internal repression (chemical warfare precursors and related equipment), monitoring and interception equipment, key equipment and technology for certain sectors of the oil and natural gas industry in Syria, luxury goods, and Syrian denominated banknotes and coinage.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

Taiwan

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	21	£3,155,377
Non-military	34	£24,582,111
Both Military and Non-military	4	£798,215
Total	59	£28,535,703

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£141,100
ML5	2	£20,733
ML7	1	£2,058,659
ML9	3	£124,617
ML10	4	£263,488
ML11	3	£76,273
ML13	1	£196
ML15	1	£44,020
ML22	8	£27,740
PL5017	1	£398,551

components for combat aircraft.
 components for military aero-engines.
 components for military electronic equipment (2 licences).
 components for military helmets.

- components for military patrol/assault craft.
- components for military radars.
- components for military support aircraft (2 licences).
- components for naval engines.
- equipment for the use of NBC detection equipment.
- general naval vessel components.
- military electronic equipment.
- T military guidance/navigation equipment [See footnote 3].
- T military image intensifier equipment [See footnote 3].
- T military infrared/thermal imaging equipment [See footnote 3].
- NBC detection equipment.
- T rangefinding equipment [See footnote 3].
- software for NBC detection equipment [See footnote 2].
- technology for general naval vessel components.
- technology for military aircraft head-up/down displays.
- technology for military electronic equipment (4 licences).
- technology for military image intensifier equipment.
- T weapon night sights [See footnote 3].
- T weapon sights [See footnote 3].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C002	1	£22,000
1C240	2	£17,000,000
1C351	1	£1,515
2B006	1	£22,169
2B230	1	£866
2B350	6	£43,167
3A225	2	£19,652

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	23	£1,413,191
Non-military	21	£997,836
Total	44	£2,411,027

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£150,493
ML2	2	£104,506
ML3	2	£198,300
ML4	2	£135,125
ML5	3	£271,115
ML7	2	£18,104
ML9	4	£107,993
ML10	3	£15,772
ML11	5	£122,052
ML15	1	£44,020
ML17	1	£135,004
ML21	1	£50
ML22	1	£0
PL5017	2	£110,657

- ballistic test equipment.
- components for ballistic test equipment.
- components for combat aircraft (2 licences).
- components for combat naval vessels.
- components for electronic warfare equipment.
- components for military guidance/navigation equipment.
- components for military patrol/assault craft.
- components for military training aircraft.
- components for naval engines.
- components for naval gun installations/mountings.
- components for naval guns (2 licences).
- components for NBC detection equipment.
- components for NBC protective/defensive equipment.
- electronic warfare equipment.
- equipment for the use of naval guns.
- gun silencers [See footnote 6].
- military communications equipment.
- T military equipment for initiating explosives.
- military field engineer equipment.
- T military guidance/navigation equipment [See footnote 1].
- T military image intensifier equipment [See footnote 1].
- military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military infrared/thermal imaging equipment [See footnote 1].
- T munitions/ordnance detection/disposal equipment.
- NBC protective/defensive equipment.
- rangefinding equipment.
- T rangefinding equipment [See footnote 1].
- small arms ammunition [See footnote 10].
- sniper rifles (4) [See footnote 6].
- software for electronic warfare equipment.
- sporting shotgun ammunition.
- targeting equipment [See footnote 11].
- technology for electronic warfare equipment.
- weapon cleaning equipment [See footnote 6].
- T weapon night sights [See footnote 1].

T
 weapon sight mounts [See footnote 6].
 weapon sights (2 licences) [See footnotes 12, 6].
 weapon sights [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£32,000
1C202	1	£360,180
1C350	1	£65,000
1C450	1	£41,200
1E001	1	£1
2B350	3	£63,950
2E003	1	£0
3D225	3	£1,768
5A001	1	£23,778
5A002	3	£148,584
5E002	1	£0
6A001	3	£96,245
6A005	2	£128,430
7A003	1	£36,700
9E003	1	£0

chemicals used for agriculture or food/drink production.
 chemicals used for industrial/commercial processes.
 civil NBC detection systems.
 corrosion resistant chemical manufacturing equipment (3 licences).
 counter-improvised explosive device equipment.
 inertial equipment.
 information security equipment (3 licences).
 lasers (2 licences).
 metal alloy cylindrical forms.
 software for frequency changers (3 licences).
 sonar log equipment (3 licences).
 technology for gas turbine engines [See footnote 3].
 technology for information security equipment.
 technology for metal alloy materials [See footnote 3].
 technology for the application of surface coatings [See footnote 3].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	goods treated for signature suppression for military use [See footnote 2]
2	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components

		<p>for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
3	P	<p>components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See</p>

		footnote 4]
4	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 5]
5	P	information security equipment, information security software
6	T	components for inertial equipment, inertial equipment, technology for inertial equipment
7	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 7]
8	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 8]
9	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 9]

10	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 13]
----	---	---

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
2	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment

Case & goods Footnotes

1. Licence granted for demonstration to potential customers. Armed forces end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Armed forces end use.
5. Licence granted for accessories / spare parts. Government end use.
6. Licence granted for end use by a law enforcement agency.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. End use by the Air Force.
9. Licence granted for accessories / spare parts. Armed forces end use.
10. Licence granted for armed forces end use.
11. Licence granted for demonstration to potential customers. Civilian / commercial end use.
12. Licence granted for accessories / spare parts. Civilian / commercial end use.
13. Licence granted for accessories / spare parts. Government end use.

Issued

promoting the supply of airborne refuelling equipment [See footnote 1].
 promoting the supply of aircraft cannons [See footnote 1].
 promoting the supply of aircraft military communications equipment [See footnote 1].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 1].
 promoting the supply of anti-aircraft guns [See footnote 1].
 promoting the supply of anti-armour ammunition [See footnote 1].
 promoting the supply of anti-armour weapons [See footnote 1].
 promoting the supply of anti-riot/ballistic shields [See footnote 1].
 promoting the supply of artillery [See footnote 1].
 promoting the supply of assault rifles [See footnote 1].
 promoting the supply of attack alerting/warning equipment [See footnote 1].
 promoting the supply of body armour [See footnote 1].
 promoting the supply of caseless ammunition weapons [See footnote 1].
 promoting the supply of combat helicopters [See footnote 1].
 promoting the supply of combat shotguns [See footnote 1].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 1].
 promoting the supply of components for assault rifles [See footnote 1].
 promoting the supply of components for body armour [See footnote 1].
 promoting the supply of components for combat shotguns [See footnote 1].
 promoting the supply of components for machine guns [See footnote 1].
 promoting the supply of components for pistols [See footnote 1].
 promoting the supply of components for rifles [See footnote 1].
 promoting the supply of components for smooth-bore weapons [See footnote 1].
 promoting the supply of components for sniper rifles [See footnote 1].
 promoting the supply of components for sporting guns [See footnote 1].
 promoting the supply of components for sporting shotguns [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 1].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 1].
 promoting the supply of CS hand grenades [See footnote 1].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 1].
 promoting the supply of electronic countermeasure equipment [See footnote 1].
 promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 1].
 promoting the supply of equipment for the use of aircraft cannons [See footnote 1].
 promoting the supply of equipment for the use of anti-aircraft guns [See footnote 1].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 1].
promoting the supply of equipment for the use of artillery [See footnote 1].
promoting the supply of equipment for the use of assault rifles [See footnote 1].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 1].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 1].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 1].
promoting the supply of equipment for the use of fire location equipment [See footnote 1].
promoting the supply of equipment for the use of flash suppressers [See footnote 1].
promoting the supply of equipment for the use of grenade launchers [See footnote 1].
promoting the supply of equipment for the use of gun silencers [See footnote 1].
promoting the supply of equipment for the use of heavy machine guns [See footnote 1].
promoting the supply of equipment for the use of machine guns [See footnote 1].
promoting the supply of equipment for the use of military radars [See footnote 1].
promoting the supply of equipment for the use of mortars [See footnote 1].
promoting the supply of equipment for the use of periscopes [See footnote 1].
promoting the supply of equipment for the use of pistols [See footnote 1].
promoting the supply of equipment for the use of projectile launchers [See footnote 1].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 1].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 1].
promoting the supply of equipment for the use of rifles [See footnote 1].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 1].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 1].
promoting the supply of equipment for the use of sniper rifles [See footnote 1].
promoting the supply of equipment for the use of sporting guns [See footnote 1].
promoting the supply of equipment for the use of sporting shotguns [See footnote 1].
promoting the supply of equipment for the use of targeting equipment [See footnote 1].
promoting the supply of equipment for the use of weapon control equipment [See footnote 1].
promoting the supply of equipment for the use of weapon mountings [See footnote 1].
promoting the supply of equipment for the use of weapon night sights [See footnote 1].
promoting the supply of equipment for the use of weapon sights [See footnote 1].
promoting the supply of fire location equipment [See footnote 1].
promoting the supply of flash suppressers [See footnote 1].
promoting the supply of fuze setting devices [See footnote 1].
promoting the supply of general military aircraft components [See footnote 1].
promoting the supply of grenade launchers [See footnote 1].
promoting the supply of gun mountings [See footnote 1].
promoting the supply of gun silencers [See footnote 1].
promoting the supply of hand grenades [See footnote 1].
promoting the supply of heavy machine guns [See footnote 1].
promoting the supply of illuminators [See footnote 1].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 1].
promoting the supply of machine guns [See footnote 1].
promoting the supply of military aero-engines [See footnote 1].
promoting the supply of military aircraft ground equipment [See footnote 1].
promoting the supply of military aircraft head-up/down displays [See footnote 1].
promoting the supply of military aircraft pressure refuellers [See footnote 1].
promoting the supply of military aircrew life support equipment [See footnote 1].
promoting the supply of military aircrew safety equipment [See footnote 1].
promoting the supply of military cameras/photographic equipment [See footnote 1].
promoting the supply of military combat vehicles [See footnote 1].
promoting the supply of military helmets [See footnote 1].
promoting the supply of military image intensifier equipment [See footnote 1].
promoting the supply of military image recording/processing equipment [See footnote 1].
promoting the supply of military imaging radar sensor equipment [See footnote 1].
promoting the supply of military infrared/thermal imaging equipment [See footnote 1].

ML15	4	£246,645
ML16	3	£125,144
ML18	4	£85,975
ML19	1	£400,000
ML21	3	£2,000
ML22	11	£20,263

- anti-armour ammunition.
- armoured plate (4 licences).
- T armoured plate.
- ballistic test equipment.
- T bomb suits.
- components for air launched rockets.
- components for attack alerting/warning equipment.
- T components for attack alerting/warning equipment.
- components for ballistic test equipment (4 licences).
- T components for body armour.
- components for bombs.
- T components for bombs.
- components for combat helicopters (9 licences).
- T components for combat helicopters.
- components for combat naval vessels.
- components for decoying/countermeasure equipment.
- components for electronic warfare equipment (2 licences).
- T components for electronic warfare equipment.
- components for launching/handling/control equipment for missiles (9 licences).
- components for launching/handling/control equipment for munitions (2 licences).
- components for military aero-engines (3 licences).
- components for military combat vehicles (3 licences).
- components for military communications equipment.
- components for military guidance/navigation equipment (2 licences).
- components for military helicopters (6 licences).
- T components for military helicopters.
- components for military infrared/thermal imaging equipment (3 licences).
- components for military radars (4 licences).
- components for military support aircraft (3 licences).
- T components for military support aircraft.
- components for military training aircraft.
- T components for military training aircraft.
- components for military training equipment.
- T components for multi-role missiles (2 licences).
- components for naval communications equipment.
- components for naval electrical/electronic equipment.
- components for sniper rifles.
- T components for surface-to-air missiles (2 licences).
- components for targeting equipment (4 licences).
- T components for torpedoes.
- components for turrets.
- components for weapon night sights.
- components for weapon sights.
- decoying/countermeasure equipment (2 licences).
- developmental missile components.
- electronic warfare equipment.
- equipment for the use of ballistic test equipment.
- general military aircraft components (3 licences).
- general military vehicle components.
- T general military vehicle components.
- general naval vessel components (2 licences).
- gun silencers.
- high power RF weapon systems.

- T launching/handling/control equipment for man portable air defence system missiles.
launching/handling/control equipment for missiles.
military communications equipment.
military guidance/navigation equipment (5 licences).
- T military guidance/navigation equipment.
- T military helmets.
- T military infrared/thermal imaging equipment.
military training equipment.
munitions/ordnance detection/disposal equipment.
naval electrical/electronic equipment.
NBC protective/defensive equipment.
sniper rifles (1).
- T software enabling equipment to function as military guidance/navigation equipment.
software for military training equipment.
- T Software for modelling/simulating/evaluating weapon systems.
technology for decoying/countermeasure equipment (2 licences).
technology for military guidance/navigation equipment (2 licences).
technology for military helicopters.
technology for military radars (2 licences).
technology for military training equipment.
technology for sniper rifles.
technology for surface-to-air missiles.
technology for unmanned air vehicles.
unfinished products for combat aircraft (2 licences).
unfinished products for military training aircraft.
weapon sights (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£200
1A007	2	£8,634
1C210	1	£340,000
2B350	8	£82,534
3A001	1	£5,120
3A225	1	£7,046
5A001	1	£1,557,500
5A002	4	£415,527
5A003	1	£222
5D001	1	£172,500
6A001	1	£51,000
6A002	1	£423,000
6A003	4	£1,415,100
6A203	1	£82,700
7A003	1	£40,700
7A103	2	£2,130,680
PL9010	1	£1,088

- components for corrosion resistant chemical manufacturing equipment.
corrosion resistant chemical manufacturing equipment (7 licences).
deuterium solutions.
equipment with reduced electromagnetic emanations.
extended temperature range integrated circuits.
fibrous/filamentary materials.
focal plane arrays.
frequency changers.
guidance/navigation equipment.
imaging cameras (3 licences).
- T imaging cameras.
inertial equipment (2 licences).
information security equipment (4 licences).
instrumentation cameras.
- T marine position fixing equipment.
non-military detonators.
non-military firing sets.

software for telecommunications interception equipment [See footnote 16].
sporting shotguns (1).
telecommunications interception equipment [See footnote 16].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,470
6A003	1	£13,000
8A002	1	£5,000
ML7	1	£11,700
ML11	1	£6,000
ML17	1	£100

T civil NBC protection equipment.
T civil riot control agent protection equipment.
T components for NBC protective/defensive equipment.
T imaging cameras.
T military communications equipment.
T military laser protection equipment.
T NBC protective/defensive equipment.
T rebreathing swimming equipment.

Refused

	Count
Non-military	4
Total	4

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry
End Use	4

metallic powders (4 licences).

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	4

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	10	£2,057,789
Non-military	3	£10,288
Total	13	£2,068,077

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	4	£1,740,306
ML6	2	£194,173
ML10	2	£108,310
ML13	2	£15,000

armoured plate (2 licences).
 components for military helicopters.
 components for military support aircraft.
 components for tanks.
 components for targeting equipment (4 licences) [See footnotes 8, 9].
 general military vehicle components [See footnote 4].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	2	£2,764
3A001	1	£7,524

extended temperature range integrated circuits.
 metal alloy cylindrical forms (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Bahrain
 Germany
 Indonesia
 Oman
 Pakistan
 South Korea
 United Kingdom
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military

		communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 2]
3	P	goods treated for signature suppression for military use [See footnote 3]
4	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground support equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal

1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 2]
2	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 9]
3	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 11]
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat

		helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 12]
5	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 13]
6	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety/navigation equipment, technology for military training aircraft [See footnote 15]
7	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 18]
8	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft,

		general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 19]
9	P	civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 24]
10	P	components for gun mountings, components for weapon sights, weapon sights [See footnote 28]

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	109	£19,627,867
Non-military	47	£1,817,145
Both Military and Non-military	5	£613,043
Total	161	£22,058,055

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	16	£982,037
ML2	3	£106,500
ML4	9	£3,956,508
ML5	3	£35,908
ML6	6	£561,280
ML7	5	£3,114,623
ML9	6	£195,906
ML10	39	£4,464,147
ML11	13	£5,106,334
ML13	4	£340,300

ML15	3	£59,079
ML16	3	£455,760
ML17	1	£1,917
ML21	5	£36,050
ML22	3	£5,280
PL5001	2	£205,800
PL5017	2	£439

accessories for military infrared/thermal imaging equipment.
 anti-aircraft guns.
 anti-riot/ballistic shields.
 T anti-riot/ballistic shields.
 T armoured plate.
 assault rifles (6).
 combat aircraft.
 command communications control and intelligence software.
 components for aircraft military communications equipment.
 components for assault rifles (3 licences).
 components for body armour (2 licences).
 components for combat aircraft (5 licences).
 components for decoying/countermeasure equipment (2 licences).
 components for electronic warfare equipment.
 components for launching/handling/control equipment for missiles.
 components for military aero-engines (2 licences).
 T components for military aircraft head-up/down displays (2 licences).
 components for military aircrew life support equipment.
 components for military auxiliary/support vessels.
 components for military combat vehicles (5 licences).
 components for military diving apparatus.
 components for military electronic equipment.
 T components for military electronic equipment.
 components for military guidance/navigation equipment (5 licences).
 T components for military image intensifier equipment.
 components for military radars (2 licences).
 components for military support aircraft (13 licences).
 components for military training aircraft (4 licences).
 T components for multi-role missiles.
 components for naval engines (2 licences).
 components for NBC detection equipment.
 components for NBC protective/defensive equipment (3 licences).
 components for sporting guns (2 licences).
 components for surface-to-air missiles.
 components for surface-to-surface missiles (2 licences).
 T components for targeting equipment.
 components for unmanned air vehicles (3 licences).
 decoying/countermeasure equipment.
 general military aircraft components (4 licences).
 general military vehicle components.
 general naval vessel components.
 grenade launchers.
 gun silencers.
 launching/handling/control equipment for munitions (2 licences).
 machine guns (2).
 machine guns (6).
 military aero-engines (2 licences).
 military aircrew safety equipment.
 T military cameras/photographic equipment.
 military combat vehicles.
 T military electronic equipment (2 licences).
 military guidance/navigation equipment (3 licences).
 military helmets (3 licences).
 military infrared/thermal imaging equipment.
 T military infrared/thermal imaging equipment.
 naval communications equipment (2 licences).
 NBC detection equipment.
 NBC protective/defensive equipment.
 pistols (1).

- T pistols (4).
projectile launchers.
rifles (4).
sniper rifles (9).
- T software enabling equipment to function as military communications equipment.
software for equipment for the use of military guidance/navigation equipment.
software for NBC detection equipment.
software for unmanned air vehicles.
sporting guns (1) (2 licences).
sporting guns (2).
sporting guns (24).
sporting shotguns (1).
technology for command communications control and intelligence software.
technology for NBC detection equipment.
technology for unfinished products for military aero-engines.
unfinished products for assault rifles.
unfinished products for combat aircraft.
unfinished products for military aero-engines.
weapon sight mounts.
- T weapon sight mounts.
weapon sights (2 licences).
- T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	2	£832,094
0C001	4	£4,385
0E001	7	£216,102
1A004	1	£170,000
1C001	4	£2,680
1C233	3	£43,019
1C351	3	£3,001
3A230	1	£140,000
5A002	9	£236,910
5E002	1	£0
8A002	2	£39,597
PL8001	3	£51,000
PL9010	10	£78,357

- components for nuclear reactors (2 licences).
depleted uranium.
devices containing enriched lithium.
devices containing enriched lithium compounds.
electromagnetic wave absorbing materials (4 licences).
- T explosives detection equipment (3 licences) [See footnote 14].
high speed pulse generators.
information security equipment (9 licences).
materials containing depleted uranium.
natural uranium.
NBC protective/defensive equipment.
products containing depleted uranium (3 licences).
products containing enriched lithium.
products containing thorium (2 licences).
rebreathing swimming equipment.
sporting guns (1).
sporting shotguns (1) (5 licences).
sporting shotguns (2).
sporting shotguns (3).
sporting shotguns (5).
sporting shotguns (8).
submersible equipment.
technology for information security equipment.
technology for nuclear reactors (7 licences).
toxins (2 licences).

viruses.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A005	1	£20,000
5A002	1	£8,180
5E002	1	£216
ML1	3	£4,203
ML11	1	£20,006
ML13	1	£530,000
ML21	1	£131
ML22	1	£238
PL9010	3	£30,070

body armour.
 civil body armour.
 components for body armour.
 components for military communications equipment.
 components for sporting guns.
 information security equipment.
 military communications equipment.
 military helmets.
 pistols (4).
 rifles (1).
 software for military communications equipment.
 sporting guns (1).
 sporting guns (3).
 sporting shotguns (2) (2 licences).
 sporting shotguns (24).
 technology for information security equipment.
 technology for military communications equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	35	£77,420,183
Non-military	5	£3,751,429
Both Military and Non-military	1	£10,964
Total	41	£81,182,576

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£13,169,622
ML5	3	£554,737
ML6	1	£9,664
ML7	1	£6,370,000

ML9	2	£120,256
ML10	18	£23,700,959
ML11	6	£99,544
ML15	1	£33,395,400

components for air-to-surface missiles (2 licences) [See footnotes 22, 23].
 components for airborne refuelling equipment.
 components for bombs [See footnote 22].
 components for combat helicopters (4 licences).
 components for military aero-engines (3 licences) [See footnote 1].
 components for military aircraft head-up/down displays (2 licences).
 components for military combat vehicles.
 components for military communications equipment (3 licences).
 components for military guidance/navigation equipment.
 components for military helicopters (2 licences).
 components for military radars.
 components for military support aircraft.
 components for military training aircraft (4 licences) [See footnote 21].
 components for naval engines.
 components for NBC protective/defensive equipment.
 components for targeting equipment (2 licences) [See footnote 24].
 components for torpedoes.
 components for unmanned air vehicles.
 general naval vessel components.
 military electronic equipment.
 military guidance/navigation equipment [See footnote 20].
 military image recording/processing equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B226	1	£72,447
5A002	1	£600,000
6A008	3	£2,875,740
6E101	1	£300
7A103	1	£202,942

components for radar equipment.
 controlled atmosphere furnaces.
 guidance/navigation equipment.
 information security equipment.
 radar equipment (3 licences) [See footnote 18].
 technology for radar equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£863
ML11	1	£10,102

components for military communications equipment.
 information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Afghanistan
 Algeria
 Australia

Austria
 Brazil
 Brunei
 Bulgaria
 Canada
 Chad
 China
 Colombia
 Germany
 Greece
 India
 Indonesia
 Ireland
 Israel
 Italy
 Japan
 Jordan
 Lebanon
 Lithuania
 Mexico
 Morocco
 Netherlands
 New Zealand
 Nigeria
 Peru
 Poland
 Romania
 Saudi Arabia
 Singapore
 Slovakia
 Somalia
 South Korea
 Spain
 Sweden
 Turkey
 United Arab Emirates
 United Kingdom
 Zambia

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military auxiliary/support vessels, components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
2	P	components for combat aircraft, components for military aero-engines, components for military radars, components for military training aircraft, components for targeting equipment, general military aircraft components
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment,

		components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2]
4	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 3]
5	P	goods treated for signature suppression for military use [See footnote 4]
6	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding

		equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
7	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 5]
8	P	toxins
9	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 6]
10	P	accessories for munitions/ordnance detection/disposal equipment, components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment [See footnote 7]
11	P	technology for nuclear reactors
12	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 8]

13	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 9]
14	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 10]
15	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 11]
16	P	components for military aircraft head-up/down displays, components for military training aircraft, military aircraft ground equipment, military aircraft head-up/down displays, software for military training aircraft
17	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment
18	P	components for military combat vehicles
19	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 12]
20	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of

		military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 13]
21	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment [See footnote 15]
22	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 16]
23	P	machine guns [See footnote 17]
24	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
25	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 19]
26	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for surface-to-air missiles, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for surface-to-air missiles
27	P	components for weapon sights, weapon sights
28	P	command/control equipment for unmanned air vehicles, components for launching/ground support equipment for unmanned air vehicles, components for unmanned air vehicles, launching/ground support equipment for unmanned air vehicles, software for command/control equipment for unmanned air vehicles, technology for launching/ground support equipment for unmanned air vehicles, test models for launching/ground support equipment for unmanned air vehicles
29	P	components for rifles, components for sniper rifles, components for sporting guns, gun mountings, rifles, small arms ammunition, sniper rifles, sporting guns, technology for rifles, technology for sniper rifles, technology for sporting guns, weapon sights

Rv - Some or all of which have subsequently been revoked.

Country Footnotes

1. EU Council Decision (CSFP) 2017/2074 and Council Regulation (EU) 2017/2063 were introduced in November 2017. It includes an asset freeze, travel ban and arms embargo, embargo on equipment that could be used for repression, and restrictions on monitoring equipment. Targeted restrictions should be imposed against those responsible for serious human rights violations or abuses or the repression of civil society and democratic opposition; or those whose actions, policies or activities otherwise undermine democracy or the rule of law in Venezuela.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	6	£5,617,380
Non-military	4	£568,693
Total	10	£6,186,074

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£30,000
ML5	1	£1,020,553
ML9	1	£4,306,579
ML10	2	£144,686
ML11	1	£3,038
ML13	1	£36,530
ML21	1	£19,000
ML22	2	£15,000
PL5017	1	£41,995

bomb suits.
 components for military guidance/navigation equipment.
 components for naval gun installations/mountings.
 components for unmanned air vehicles.
 components for weapon control equipment.
 equipment for the operation of military aircraft in confined areas.
 equipment for the use of naval gun installations/mountings.
 equipment for the use of targeting equipment.
 military helmets.
 naval gun installations/mountings.
 rangefinding equipment.
 small arms ammunition [See footnote 4].
 software for naval gun installations/mountings.
 targeting equipment.
 technology for naval gun installations/mountings.
 technology for unmanned air vehicles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£283
5A001	1	£164,660
5D001	1	£2,300
6A003	1	£384,000
7A103	1	£17,450

corrosion resistant chemical manufacturing equipment.
 imaging cameras [See footnote 3].
 inertial equipment.
 software for telecommunications interception equipment [See footnote 6].
 telecommunications interception equipment [See footnote 6].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.
--

No.	Type	Goods Summary
1	P	goods treated for signature suppression for military use [See footnote 1]
2	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 2]
3	P	information security equipment, information security software
4	P	military equipment for initiating explosives [See footnote 5]
5	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 7]

Rejected

Applications to this destination refused in full.
