

# Patent Factsheets: Filling in Form 1

Patents Form 1 is used as part of an application for a patent. You should file this form at the Intellectual Property Office with a description of your invention (including any drawings), along with one or more claims and an abstract, as the first step towards getting a patent. You should fill in the form by writing your answers in CAPITAL LETTERS using black ink or you may type them. Electronic versions of forms can be downloaded from our website: [www.gov.uk/government/publications/patent-forms-and-fees](http://www.gov.uk/government/publications/patent-forms-and-fees).

Alternatively, Form 1 can be completed online and filed electronically along with the description, claims and abstract using our web filing service: [www.gov.uk/apply-for-a-patent](http://www.gov.uk/apply-for-a-patent) (some fees are reduced if you use this service).

## Section 1: Your Reference

You can either leave this space blank or enter any reference you would like us to quote on our letters to you.

## Section 2: Applicants Details

Enter the full name, address and postcode of the person applying, underlining the surname.

If there is more than one applicant, please give details for every applicant, continuing on a separate sheet of paper if necessary.

If the applicant is a company, enter the country of incorporation, including the province or state for Canadian or US companies.

When the application is published the applicant's name and address will appear on our website which can be permanently searched using most standard search engines. If you do not want your home address published, please give us a different address where you can be contacted, such as a business address or a PO Box address.

## Section 3: Title

Please write the title of your invention here.

## Section 4: Agent and Address for Service

You must supply an address for us to write to. This can be the same as an applicant's address. The address must be in the United Kingdom, Gibraltar or the Channel Islands. If you give the name of an agent, that person will be authorised to act for all of the applicants.

## Section 5: Priority

You need to fill in this section only if you are claiming priority from one or more previous applications. In most circumstances, the previous application(s) must have been filed within the last 12 months.

## Section 6: Divisionals

You should only fill in this section if you are filing a divisional application - this can happen if you have already filed an application which includes more than one invention - or in very rare circumstances following an entitlement dispute.

## Section 7: Inventorship

If there are one or more applicants and each of them is also an inventor, you should answer “Yes” to the first question.

If you answer “No” to the first question, you will need to fill in Patents Form 7. You will also need to fill in Form 7 if any of the applicants is a company or organisation or if you answer “Yes” to the second question.

We will send you a Form 7 if you need one. Copies are available from our Information Centre or from our website: [www.gov.uk/government/publications/patent-forms-and-fees](http://www.gov.uk/government/publications/patent-forms-and-fees)

## Section 8: Application Fee

If you pay the application fee (currently £90 for paper-filed applications) with Form 1, we will carry out a preliminary examination. You may prefer to pay the application fee with Form 9A.

## Section 9: Documents Included

Enter the number of pages for each type of document you are sending.

If you give details of a previous application instead of filing a description, you will not be able to add information to what was originally included in that application.

## Section 10: Other Documents

Tell us in this space if you have included anything else with your application.

## Section 11: Signature

All applicants or the agent (if any) must sign the form.

## Section 12: Contact details

It may help us contact you if you fill in this part.

<small>Warning</small>		
<small>After an application for a patent has been filed, the Comptroller will consider whether publication or communication of the invention should be prohibited or restricted under section 22 of the Patents Act 1977. You will be informed if it is necessary to prohibit or restrict your invention in this way. Furthermore, if you are resident in the United Kingdom and your application contains information which relates to military technology, or would be prejudicial to national security or the safety of the public, section 23 of the Patents Act 1977 prohibits you from applying for a patent abroad without first getting written permission from the Office unless an application has been filed at least 6 weeks beforehand in the United Kingdom for a patent for the same invention and either no direction prohibiting publication or communication has been given, or any such direction has been revoked. Until such time or until the revocation of any direction, for any such application the address for service referred to at part 4 above must be in the United Kingdom.</small>		
<small>In all other cases, the name of the applicant will be published online shortly after we receive your application, together with the title of the invention. Later, when the whole application is published, most information and documents filed in relation to the application will become publicly available online. The name and address of the applicant, the agent, and the address for service will be published on our website and are likely to appear in external search engine results. You should provide a business or PO Box address if you do not want your home address published online. Although you may have an address for service in the Channel Islands or Gibraltar, any agent you appoint to act for you must reside or have a place of business in the United Kingdom, the Isle of Man or the European Economic Area.</small>
