VETERINARY CERTIFICATE FOR THE EXPORT OF POULTRYMEAL, FEATHERMEAL AND FISHMEAL
(INCLUDING HYDROLYSED FISH PROTEIN) TO ISRAEL

◆HEALTH CERTIFICATE

EXPORTING COUNTRY: UNITED KINGDOM

FOR COMPLETION BY: OFFICIAL VETERINARIAN

I. IDENTIFICATION OF THE PRODUCTS

(a) Producer (name, approval number, full address & post code):

(b) Description of the products:

(c) Product contains animal origin materials from the following species:

(d) Nature of packaging:

(e) Number of packages: Net Weight:

(f) Lot/Batch production reference number:

II. ORIGIN

(a) Consignor (name and address):

(b) Port of Loading:

(c) Means of Transport: Flight/Ship:

(d) Container Number: Seal Number:

III. DESTINATION

(a) Place of Destination:

(b) Consignee (name and address):

IV. HEALTH INFORMATION

I, the undersigned authorised Official Veterinarian hereby certify that:

1. The product meets the requirements of United Kingdom Laws and Regulations and may be freely sold for animal feeding in the United Kingdom;
2. The product was produced under the supervision of an official or accredited veterinarian;
3. The establishment has in place, implements and maintains food safety programs based on HACCP principles, which are validated by the competent authority;
4. In the instance of poultry meal or feather meal, no cases of Newcastle disease have been diagnosed within a radius of 10 kms from the processing plant during the last 30 days prior to shipment⁽¹⁾;
5. The processed proteins have been subjected to a heat treatment of at least 90°C throughout their substance or any alternative processing method authorised by the competent authority;
6. The product was analysed by a random sampling of at least five samples from each processed batch taken during or after storage at the processing plant and complies with the following standards⁽²⁾:

Salmonella: absence in 25 g: n = 5, c = 0, m = 0, M = 0
Enterobacteriaceae: n = 5, c = 2, m = 10, M = 300 in 1 g.
7. The finished product does not contain and is not contaminated with any tissue of mammalian origin;
8. **Either**
a. The end product was packed in new packaging material⁽¹⁾,
Or
b. In case of dispatch as bulk transport, containers or any other means of transport were thoroughly cleaned and disinfected with a disinfectant approved by the competent authority before use⁽¹⁾;
9. The finished product was stored in enclosed storage and has undergone all precautions to prevent contamination with pathogenic agents after treatment.

Footnotes:

⁽¹⁾ Delete as appropriate.

⁽²⁾ Where:

n = number of samples to be tested;

m = threshold value for the number of bacteria: the result is considered satisfactory if the number of bacteria in all samples does not exceed **m**;

M = maximum value for the number of bacteria; the result is considered unsatisfactory if the number of bacteria in one or more samples is **M** or more; and

c = number of samples the bacterial count of which may be between **m** and **M**, the sample still being considered acceptable if the bacterial count of the other samples is **m** or less.
