Work Programme Live Running Memo

To: All Work Programme Providers
From: Provider Payment Validation Team

Memo Serial Number: 102

Date: 27 February 2013

Subject: Work Programme – Post Payment Validation – Sampling and Backing Out Requests for Job Outcomes

Action: For information

Timing: Routine

This Memo is to provide further clarification to the Live Running Memo 086 issued on 7th December 2012.

Following the release of PRaP 2.2, providers are able to run reports which show claims that have been selected as part of the sample for post-payment validation.

The job outcome post-payment sample is drawn on the first working day following the end of the 2 month payment period. Following this exercise, PPVT will not accept requests to back-out out claims that appear in the sample.

We are aware that the reports are not available to view until a few days after the sample has been drawn, once the cases are uploaded to PRaP, however PPVT1's will be rejected if submitted after the sample has been drawn, if the claim has been selected for post-payment validation.

The Provider Guidance will be updated to reflect the above update.

If you should have any further questions, please contact your Account Manager / Performance Manager in the first instance.

Thank you

Provider Payment Validation Team
