Work Programme: adjusting referrals

In order to support as many people into sustained work as possible, the Department reviewed the performance delivered by Work Programme providers during the 12 months ending 31 March 2014 and adjusted from 30 March 2015 the distribution of future referrals so that in the relevant payment groups and Contract Package Areas the higher performing provider receives an increased share and the lowest performing provider a decreased share.

Three shifts which were not implemented at the time, all in contract package area 12, are now available.

Adjustments to these referrals were implemented on Monday 17 August 2015

Contract Package Area		Primes in the CPA	Provider Gaining Market Share	Provider Losing Market Share	Payment Groups Affected
