## Work Programme: adjusting referrals

In order to support as many people into sustained work as possible, the Department has reviewed the performance delivered by Work Programme providers during the 12 months ending 31 March 2014 and has adjusted from 30 March 2015 the distribution of future referrals so that in the relevant payment groups and Contract Package Areas the higher performing provider receives an increased share and the lowest performing provider a decreased share.

| Contract Package Area |  | Primes in the CPA | Provider Gaining | Provider Losing | Payment Groups Affected |
