Subject: Friends School

I feel very strongly that no more houses should be built until we have a third fully staffed doctors' surgery, an NHS dentist and a great many new school places both at primary and secondary level. It is wrong that children should have to be bussed elsewhere. Promises by house builders is not enough, these facilities should be there first.

It is a great shame that Friends School was not used as a school.

Even if each proposed house or flat only has one car, that is about 150 cars coming to the already busy crossroads where Mount Pleasant Road and Borough Lane, the route for many lorries and cars, crosses Debden Road.
