Mr Jason And Kerinda Trigg,
[REDACTED]

We would like to register our concern and to say we are opposed to the proposal Application reference number S62A/22/0006, for a development at Berden hall farm by Berden Solar Ltd We wish to make it very clear that we are opposed to it on many levels not least being due to its impact on our local environment , the noise and visibility of the farm the increased traffic on small country roads during construction and it's impact on not only our own quality of life but for all those living in Berden including the wildlife .

Jason and kerinda Trigg
