Subject: Berden Hall Farm (Pelham Solar)

Application number on S62A/22/0006 (and UTT/22/2046/PINS)

I am writing to object to the proposal by Statera to construct a solar farm on 177 acres of land at Berden Hall Farm.

My name is Louise Barden
[REDACTED]

The reason for my objection is as follows:

This proposal will destroy 177 acres of productive farmland, is only 11% efficient, the tech will be outdated in a few years leaving developers open to turn it into housing instead of a solar facility, there is no safety plan for the battery (so a fire would destroy more farmland and countryside and there is no evacuation plan for the village), medieval artefacts have been found but this is being ignored, and no one in local or national government is paying attention to the national and global impact of these greenwashing schemes. All of this will have a nett negative effect on the planet.

Regards

Louise Barden
