I am writing to object to the proposal by Statera to construct a solar farm on 177 acres of land at Berden Hall Farm.

My name is Peter Hewitt  
[REDACTED]

The reason for my objection is as follows:

Anyone with any sense sees the need for renewable energy, especially in these difficult times we find ourselves in. However surely anyone with any sense also sees our requirement for sustainable, UK based food production. It makes no sense whatsoever to have one at the expense of the other, especially when there are viable alternative sites available. It is just too easy for the developers to choose open agricultural sites which involve the least amount of work and expense, the countryside is one of our greatest resources and cannot be ruined by lazy developments such as this.

Yours

Peter Hewitt
