Licence Annex B: Provisions relating to licensed actions within the cull area, including on or around Special Areas of Conservation (SACs), Special Protection Areas (SPAs), Sites of Special Scientific Interest (SSSIs), and/or Ramsar sites within the county of Staffordshire

Notes W, Y and Z to this Annex must be considered on any land where operations permitted under this licence are proposed or are undertaken.

Notes A and B apply only on and/or around Protected Sites and only in respect to Protected Sites where these Notes are cited in the 'Licence Condition' column of the table below for that site.

SSSI name	European Designated Site	Licence condition
	name (where applicable)	
Alvecote Pools SSSI		No licensed activities from 1st March to 31st August to avoid bird breeding season. The licensee must assist Natural England with the gathering of information on fox control taking place on, and in the vicinity of, this SSSI (see Notes A and B).
Allimore Green Common		All vehicles must be restricted to existing tracks. Limit location of traps to existing sett footprint.
Aqualate Mere	Midlands Meres & Mosses Phase 2 Ramsar	Exclude SSSI. The licensee must assist Natural England with the gathering of information on fox control taking place on, and in the vicinity of, this SSSI (see Notes A and B).
Barrow Hill And Tansey Green		All vehicles must be restricted to existing surfaced tracks. Limit location of traps to existing sett footprint.
Baswich Meadows		No activities from 1st March to 31st August to avoid bird breeding season. All vehicles must be restricted to existing robust vehicle access tracks. Limit location of traps to existing sett footprint. The licensee must assist Natural England with the gathering of information on fox control taking place on, and in the vicinity of, this SSSI (see Notes A and B).
Bath Pasture		All vehicles must be restricted to existing tracks. Limit location of traps to existing sett footprint. Delay access until after hay cut, mid-July.
Belvide Reservoir		Exclude SSSI. The licensee must assist Natural England with the gathering of information on fox control taking place on, and in the vicinity of, this SSSI (see Notes A and B).
Berkswell Marsh SSSI		Except on existing tracks, no vehicle use nor placing traps alongside any watercourses or waterbodies, nor within any wet area, fen, bog or mire. All vehicles must be restricted to existing tracks. Limit location of traps to existing sett footprint or/ and areas of Rhododendron, Cherry Laurel scrub or conifer plantation.
Betley Mere	Midlands Meres & Mosses Phase 1 Ramsar	All vehicles must be restricted to existing robust vehicle access tracks at all times. Limit location of traps to existing sett footprint. Except on existing tracks, no vehicle use or placing traps alongside any watercourses or waterbodies, or within any wet area, fen, bog or mire.

SSSI name	European Designated Site name (where applicable)	Licence condition
Bickenhill		All vehicles must be restricted to existing tracks.
Meadows SSSI		Limit location of traps to existing sett footprint or
		areas of scrub.
Big Hyde Rough		All vehicles must be restricted to existing tracks.
		Limit location of traps to existing sett footprint.
Black Firs &	Midlands Meres & Mosses	All vehicles must be restricted to existing tracks.
Cranberry Bog	Phase 2 Ramsar	Limit location of traps to existing sett footprint.
Blithfield		Exclude areas of open water and their margins
Reservoir		from licensed activities from 1st September to 31st
		March.
Braken Hurst		All vehicles must be restricted to existing surfaced
		tracks. Limit location of traps to existing sett
		footprint.
Brewin's Canal		All vehicles must be restricted to existing surfaced
Section		tracks. Limit location of traps to existing sett
		footprint.
Bromsgrove		All vehicles must be restricted to existing surfaced
Road Cutting,		tracks. Limit location of traps to existing sett
Tenterfields		footprint.
Brownend		No additional conditions imposed.
Quarry SSSI		
Burnt Wood		All vehicles must be restricted to existing tracks.
		Limit location of traps to existing sett footprint. Any
		decaying wood located within the sett footprint is
		to be left in situ if possible. If decaying wood must
		be moved then it should be moved no further than
		is necessary.
Caldon Dales SSSI		All vehicles must be restricted to existing tracks.
		Limit location of traps to existing sett footprint.
Caldon Low SSSI		No additional conditions imposed.
Cannock Chase	Cannock Chase SAC	No activities from 1st March to 31st August to
		avoid bird breeding season. All vehicles must be
		restricted to existing robust vehicle access tracks.
		Limit location of traps to existing sett footprint. Any
		decaying wood located within the sett footprint is
		to be left in situ if possible. If decaying wood must
		be moved it should be moved no further than is
		necessary. The licensee must assist Natural England
		with the gathering of information on fox control
		taking place on, and in the vicinity of, this SSSI (see
		Notes A and B).
Cannock	Cannock Chase Extension	All vehicles must be restricted to existing robust
Extension Canal	Canal SAC	vehicle access tracks. Limit location of traps to
		existing sett footprint or areas of scrub.
Cauldon Railway		No additional conditions imposed.
, Cutting SSSI		
Chartley Moss	West Midlands Mosses	All vehicles must be restricted to existing robust
,	SAC, Midland Meres &	vehicle access tracks at all times. Limit location of

		existing sett footprint.
Wollaston Ridge		No additional conditions imposed.
Quarry		
Wren's Nest		All vehicles must be restricted to existing surfaced
		tracks. Limit location of traps to existing sett
		footprint.

Notes to Annex B

General note on interpretation

Protected sites that are listed above are not necessarily part of any active operations. Active operations can and will only occur on protected sites where landowner/occupier permission has been granted.

Within the licence conditions, use of the word 'avoid' denotes a prohibition, i.e. it indicates that an area must be excluded from relevant activities or that activities must not be undertaken during the time period stated or in the manner described. Similarly, the word 'restrict' means that activities must be confined to the areas or time periods stated.

For further details on each protected site and its notified features of special interest and/or European Site qualifying features please enter the site name into the following link: https://designatedsites.naturalengland.org.uk/SiteSearch.aspx.

Individual notes

Note A

Natural England will inform the licensee from time to time of the information it requires. This is likely to focus on whether fox control is routinely undertaken on the relevant site and/or on areas of participating land within a few kilometres of the site. The licensee is expected to use reasonable endeavours to assist Natural England with the gathering of this information.

Note B

Natural England may form the judgment that measures should be introduced to secure the protection of species associated with this site, such as fox control, anti-predator fencing, habitat management, or buffer zones in which badger control is not undertaken. Such measures may be secured through cooperation between licensees, landowners, occupiers, and/or public bodies. If it considers it necessary to do so, Natural England may: exercise its powers under sections 28J-K of the Wildlife and Countryside Act 1981 or regulation 20 of the Conservation of Habitats and Species Regulations 2017; and/or revoke and re-issue this licence with revised terms (provided that such terms will be reasonable and proportionate in all of the circumstances).

Note W

European protected species are listed in Schedule 2 (animals) and Schedule 5 (plants) of the Conservation of Habitats and Species Regulations 2017. Nationally protected species are listed in Schedule 5 (animals) and Schedule 8 (plants) of the Wildlife and Countryside Act 1981 (as amended). Under these laws (regulations 43 and 47 of the 2017 Regulations and sections 9 and 13 of the 1981 Act), it can be an offence to:

- deliberately capture, injure or kill any wild animal of a European protected species
- intentionally kill, injure or take a nationally protected wild animal
- deliberately disturb wild animals of any European protected species
- intentionally or recklessly damage or destroy any structure or place which a nationally protected animal uses for shelter or protection, disturb such an animal while it is occupying such a structure or place, or obstruct access to any such structure or place
- damage or destroy a breeding site or resting place of any wild animal of a European protected species
- deliberately take or destroy the eggs of any wild animal of a European protected species
- deliberately pick, collect, cut, uproot or destroy a wild plant of a European protected species

• intentionally pick, uproot or destroy any nationally protected wild plant

Great crested newt, otter, dormouse, and sand lizard are European and nationally protected species.

Note Y

All birds, their eggs and nests (while in use or under construction) are protected under the Wildlife and Countryside Act 1981. This licence does not allow you to take or destroy such nests. Birds species listed under Schedule 1 of that Act have additional legal protection so care must be taken to avoid their disturbance during the breeding season.

Note Z

All bats and their roosts (even when not occupied by bats) are protected by the Wildlife and Countryside Act 1981 and by The Conservation of Habitats and Species Regulations 2017. This licence does not allow you to enter or obstruct any bat roost, nor to disturb any bat whilst it is occupying a roost. Care must be taken to avoid sustained human presence near, or artificial illumination of cracks and cavities in trees and man-made structures, and of any mounted boxes.
