Subject: S62A/22/0007 Land to the south of Henham Road, Elsenham, Essex

Dear Sir/Madame

I strongly object to the planning application S62A/22/0007 by Countryside for 130 homes(Land to the south of Henham Road, Elsenham, Essex) below are a few points I would like to hi-light

The traffic and congestion within and around the village is already bleak, with Grove Hill west of the village becoming regularly gridlocked leaving Hall Road the last reliable access and egress to the village, allowing this development adjacent to Hall Road would cause complete chaos. The local roads just can't cope with increased vehicle numbers that another 130 homes would bring there are already large developments in the village that are going to compound this issue, I honesty feel more development would have a effect on Highway safety locally.

The proposed site would be over development and out of character destroying local wildlife habitats, it would ruin the rural feel to the village as instead of entering and existing the village to open green belt country spaces it would now be a new build estate.

Lastly with the close proximity of the site to the primary school it would cause huge issues to the Parents and pupils trying to access the school.

Kind Regards Chris
