**Subject:** Objection to Berden Hall Solar Farm

Dear Sir/ Madam

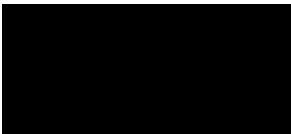

Objection to Berden Hall Solar Farm  
Section 62A Planning Application : S62A /22/0006 and UTT/22/2046/ PINS(Uttlesford)

I am contacting you to object to the application to construct a solar farm at Berden Hall. Solar panels should not be put on good agricultural land. We need to grow as much of our food as possible - especially with our burgeoning population.

Solar panels should be put on warehouse roofs especially and also any new housing to generate electricity. These panels, that are proposed, are large and when the topsoil has been removed they will never return to agricultural land, say in 40 years, why in 40 years? The UK is a small island and we need to be self-sufficient

Yours

Beth Featherstone
